PerkAlert is an application which can be installed on your **HOME** PC from the Perkz website. Once installed PerkAlert displays a reminder when you visit a retailer's website where a Perkz offer is available, prompting you to use your Perkz discount. It's that simple.

2. PerkAlert will download to your home* computer in seconds
3. When you visit a retailer's website that offers a Perkz discount a PerkAlert reminder will pop so you don't miss out.
