THE UNIVERSITY OF MANCHESTER

Our Strategic Vision 2020 states our mission:

“By 2020, The University of Manchester will be one of the top 25 research universities in the world, where all students enjoy a rewarding educational and wider experience; known worldwide as a place where the highest academic values and educational innovation are cherished; where research prospers and makes a real difference; and where the fruits of scholarship resonate throughout society.”

OUR CORE GOALS

- World-class research
- Outstanding learning and student experience
- Social responsibility

WORLD RANKING

The quality of our teaching and the impact of our research are the cornerstones of our success.

According to the 2013 Shanghai Jiao Tong University Academic Ranking of World Universities, we are the 41st best teaching and research university in the world.

Year	World ranking	European ranking	UK Ranking
2013	41	8	5
2010	44	9	5
2004*	78*	24*	9*

ACADEMIC PEDIGREE

We attract the highest calibre researchers and teachers, boasting 25 Nobel Prize winners among current and former staff and students.

We have more Nobel laureates on our staff than any other UK university – Andre Geim, Kostya Novoselov (both Physics) and John Sulston (Physiology or Medicine) – and we're led by our President and Vice-Chancellor, Professor Dame Nancy Rothwell FRS, whose research has advanced understanding and treatment of brain damage in stroke and head injury.

We're also home to multi-award-winning writer Jeanette Winterson (Centre for New Writing), renowned historian Michael Wood and physicist and TV presenter Brian Cox (School of Physics and Astronomy).

RESEARCH POWER

We're addressing some of the world's biggest challenges, from poverty to sustainable consumption to cancer. We're shaping a future in which new materials such as graphene transform our technologies, and nuclear energy reduces carbon emissions.

Our size and scale enable unparalleled interdisciplinary inquiry, with world-leading minds from across the University collaborating to discover new ways forward.

We attracted more than £280 million in external research funding in 2012/13.

ENTERPRISE AND INNOVATION

Our history of intellectual property (IP) commercialisation spans more than 20 years, during which time we've generated more than 100 spin-out companies.

We introduce entrepreneurs and investment to our ground-breaking inventions and software via our innovation group, UMI³. In the last nine years venture funders have invested £225 million in our spin-outs, a number of which have received national and regional enterprise awards. In addition, 165 proof-of-principle (PoP) IP projects have been initiated and managed.

Europe's largest dedicated university spin-out seed fund (the UMIP Premier Fund) was established here in 2008 with a value of £31.5 million. It has invested in 12 spin-out companies and 26 PoP projects, and has established a novel £5 million PoP arrangement with the IP Group to support projects for its second investment phase.

We've extended our spin-out services to staff interested in social enterprise and to students active in digital and social media projects. We received the Outstanding HEI Supporting Social Entrepreneurship Award from UnLtd and HEFCE in 2013 in recognition of our work in this area.

STUDENTS

We have the largest student community in the UK.

We have:

- more than 400 degree programmes;
- almost 8,500 rooms in 23 halls of residence – guaranteeing every first-year undergraduate the offer of a place in University accommodation;
- more than 4.2 million printed books and manuscripts, 29,000 unique electronic journals and 414,000 electronic books;
- the UK's largest students' union.

	Home/EU*	Overseas*	Total*
Undergraduate study	22,250	4,835	27,085
Postgraduate taught	4,980	2,915	7,895
Postgraduate research	2,210	1,240	3,450
Total	29,440	8,990	38,430

In addition we have 4,040 students studying wholly outside the UK who are either registered with the University or studying for a University of Manchester award.**

* *Source: HESA standard registration population (excludes writing-up students, dormant students, incoming visiting and exchange students and students who have left within two weeks of the anniversary of their start date). Numbers are rounded to the nearest 5.*

GRADUATE CAREERS

Top recruiters target Manchester graduates. That's why more than 91% go straight into employment or further study.*

In the academic year 2012/13:

- 3,800 recruiters advertised jobs, exhibited at fairs and presented on campus;
- our Careers Service provided one-to-one advice via 6,500 appointments and more than 1,800 email communications;
- 1,100 students took part in careers education courses;
- 1,250 students participated in the Manchester Leadership Programme, which improves employability by giving students an insight into current global leadership challenges and the opportunity to complete local, national and international voluntary work;
- more than 200 students and graduates secured paid internships via our Manchester Graduate and Student Summer Internship programmes.

FACULTIES AND SCHOOLS

The University is divided into Faculties, Schools, Institutes and hundreds of specialist research groups, all of which undertake pioneering multidisciplinary teaching and research of worldwide significance.

STAFF

With more than 11,000 staff, we are one of the largest employers in Greater Manchester.

Headcount figures as at 31 July 2013*

*Numbers are rounded to the nearest 5.

INCOME

We have an annual income of £827 million.
Here's how it all breaks down:

FACULTY

OF ARTS

Tuition fees and educational contracts

£302m

Funding council grants

£178m

Research grants and contracts

£200m

Other operating income

£129m

Endowments and investments

£18m

Total

£827m

CAMPUS INVESTMENT

We have invested more than £750 million since 2004 in state-of-the-art buildings, contemporary refurbishments and public realm works, transforming our campus and the surrounding area. Our campus masterplan will see us investing a further £1 billion by 2022.

This will include the establishment of our £61 million National Graphene Institute, a bespoke centre for research into the wonder material that won the Nobel Prize for Manchester professors Andre Geim and Kostya Novoselov in 2010.

Artist's impression of the National Graphene Institute building

SOCIAL RESPONSIBILITY

Social responsibility describes the way we are making a difference to the social and economic well-being of our communities through our teaching, research and public events and activities.

Here is just a snapshot of the impact we are making.

- We've generated 21,640 jobs in the north-west (18,474 in Manchester, equivalent to 6% of all jobs).
- We've helped 1,016 people into work through our employment initiative, The Works, bringing £16.1 million a year in savings to the economy.
- 1,143 students on our Manchester Leadership Programme created £266,611 of economic value from volunteering activity in our local community.
- 125 of our staff support schools as governors – more than any other campus-based university – generating £825,000 of economic value.
- As part of our plan for sustainable travel, we've installed 1,000 bicycle stands, 18 shelters and 50 shower facilities on campus.

VISITOR ATTRACTIONS

Explore a universe of amazing ideas at our inspirational visitor attractions.

Whitworth Art Gallery

Our art gallery reopens in autumn 2014, following £12 million of development and expansion. The Whitworth, home to more than 55,000 works of art, ranging from textiles to some of the most famous British watercolours, will be transformed, becoming an engaging and 21st-century space with a greater connection to the surrounding parkland.

Manchester Museum

Our Ancient Worlds galleries bring to life the great civilisations of Egypt, Rome and Greece. Our Egyptology collection is one of the largest in the UK, with around 16,000 objects from 10,000 BC to the Byzantine era.

The John Rylands Library

Our Grade I-listed, neo-Gothic John Rylands Library houses 250,000 printed volumes and more than a million archival items.

Jodrell Bank Discovery Centre

As well as being home to the 76-metre-wide Lovell Telescope, Jodrell Bank welcomes thousands of music lovers each summer for its spectacular Transmissions series of concerts.

WIDENING PARTICIPATION

We are proud to contribute to the expansion of educational, social and cultural opportunities in Manchester and the wider region.

- We enable 7,219 lower-income students to attend university with £19.6 million of support – more than any other university in the Russell Group.*
- Last year we welcomed 560,000 visitors to the Manchester Museum and Whitworth Art Gallery.
- We give more than 1,000 local school and college students access to our library facilities.
- We offer more than 600 widening participation activities to local schools and colleges each year.

* *The Russell Group represents 24 leading UK universities that are committed to outstanding research, teaching and learning.*

AT A GLANCE

Ranking

We are ranked 41st in the world, 8th in Europe and 5th in the UK in the 2013 Shanghai Jiao Tong University Academic Ranking of World Universities.
