

University Business Travel Insurance

Insurer:	American International Group UK Ltd
Policy Number:	0010015245
Policy Period:	1 June 2024 to 31 May 2025

The University is committed to sustainability and is a signatory to the Talloires Declaration. Reducing the environmental impact of travel is an important part of ensuring sustainability and protecting the environment. Before making any travel plan, staff should consider alternative means of achieving the objectives of the business without the necessity of travel, such as using conference calls or video conferencing.

Staff and students should choose the most economic and direct route to their destination. The University's travel insurance may not cover any travel route which has unnecessary detours.

Definition of Business Travel

All University business travel must be directly related to University business and the University is fully or jointly responsible for the activities during the trip. All such trips must be pre-approved by the traveller's Line Manager/Supervisor and the traveller must have completed a travel risk assessment prior to travelling.

Any travel which is not University business travel as defined above is classified as personal travel. Travellers should purchase their own insurance covering their personal travel.

If a traveller intends to combine a personal holiday with a business trip, they should ensure that they have arranged their own insurance to cover any claims that occur during the period of travel that is not related to the official business.

University Travel Insurance Coverage

All staff and students who are travelling on University business must comply with the University [Travel Policy](#). All such trips will be covered automatically under the University travel insurance.

For non-UK national travellers, if they visit their country of domicile, the emergency medical cover may be limited.

Extending the Period of the Business Travel

The official period of a business travel can be extended as below. These extended periods are expected to be part of the official business and are not intended for personal travelling or holiday.

- (1) For short term travel, i.e. trips of 3 months or less

The period of travel may be extended up to **a maximum of 7 days**, or no more than 50% of the entire period of the official business (whichever is less), in the destination of the official business. This is to enable staff and students to arrive at the destination early to adjust to the local environment.

- (2) For long term travel, i.e. trips of more than 3 months

The period of travel may be extended up to **a maximum of 14 days before the start** of the official business in the destination of the official business. This is to enable staff and students to arrive early to adjust to the local environment, get orientated and settle in.

The period of travel may be extended further up to **a maximum of 7 days after** the official business to enable staff and students to organise their departure.

Incidental travel within the official business period of trips longer than 3 months

1. The University's travel insurance will cover any reasonable social incidental travel in the country of the official business. Travellers will be responsible for carrying out appropriate health & safety and risk assessment for their short trip. They should not engage in any hazardous activities or activities that are not in the risk assessment approved by the University.
2. The incidental travel should not be a substantial part of the trip, and the time spent on the incidental travel is not more than four days in a single trip. Where the period exceeds this limit, it would be taken as personal travel and travellers should provide their own insurance cover for the entire period of the incidental travel.
3. The insurance cover will temporarily terminate when the traveller is visiting the UK, or their normal country of domicile for non-UK national staff and students during the period of the long term business travel; and will re-start when the traveller returns to the destination re-engaging in the University business.

Health

1. The business travel insurance is not full health insurance. It provides support and response to emergency treatment only. It is not intended to support routine, preventative or other elective medical treatment.
2. Travellers should ensure that they are fit to travel, both physically and mentally, prior to booking any travel arrangements. If there is any doubt about a traveller's fitness to travel, they are advised to obtain written confirmation from their doctor or the University's Occupational Health Service. Insurance cover will be invalid for anyone travelling against medical advice or for the purpose of undertaking treatment.
3. Medical expenses and treatment related to pre-existing medical conditions are not covered, therefore, travellers should ensure that they take sufficient supply of medication for the entire trip/period away and identify suitable medical support, such as address of medical centre/doctor's name, for their continuous treatment whilst they are away. Pre-existing medical conditions are only covered in emergencies if travel is being undertaken in line with medical advice.
4. For dental care, there is no cover unless the treatment is deemed to be medically necessary by a medical professional following an accident and the accident occurs outside the mouth. Travellers are advised to undertake a dental check-up and complete all dental treatments prior to departure.
5. For treatment of psychiatric or mental disorders incurred more than 30 days after the date of incurring the first recoverable expense is not covered.
6. This policy covers emergency medical treatment only, so it is not suitable for travellers who are due to be away from the UK for more than 12 months. It is recommended that anyone who is away for long-term overseas study or work should purchase their own local healthcare cover at the destination for all their medical requirements, including routine and emergency.

Travelling to Europe

1. The UK Global Health Insurance Card (GHIC) allows UK resident access to state-provided healthcare during a temporary stay in the European Union (EU) which becomes medically necessary during a stay and cannot reasonably wait until the carrier is back in the UK. This includes:
 - Emergency treatment and visits to A&E
 - Treatment for a long-term or pre-existing medical condition
 - Routine medical care for pre-existing conditions that need monitoring
 - Routine maternity care, as long as you are not going abroad to give birth
 - Oxygen and kidney dialysis

2. Please note that GHIC provides cover in EU countries only. It does not provide cover in Norway, Iceland, Liechtenstein or Switzerland. See [NHS site](#) for further details.

Notes for Travellers

1. **Travellers must take all reasonable steps to avoid or minimise any injury, loss, damage or expense, and must also make every reasonable effort to recover any property which has been lost or stolen. Items lost or damaged through the fault of the traveller will not be insured.**
2. All valuables must be secured and locked away at all times, particularly if the accommodation is shared with anyone else. Loss of property that is not kept secure will not be covered.
3. Losses of property from privately owned accommodation or unregulated leased accommodation, such as Airbnb, will not be covered by the policy. Travellers are advised to check if the property owner has insurance in place for any loss or damage to their property during their stay with the host. If renting privately owned accommodation, travellers should check the terms of the agreement and, where necessary, purchase their own insurance cover.
4. If the accommodation is regulated and secure, such as in a private lockable room in YHA or other registered hostel, losses will be covered as long as the security measures in place at the accommodation are used.
5. Travel insurance cover is subject to the trip being approved by the traveller's School or the International Programmes Office and an appropriate travel risk assessment undertaken by the traveller.
6. Travellers are encouraged to take the 'Travel Security Awareness Training' modules on [AIG Travel Assistance](#) and check out specific travel advice of the country of their destination, such as country reports.
7. Travellers are advised to keep a hard copy of their travel document as well as saving an electronic copy on iCloud or via email for themselves where they can be retrieved in an event of stolen or loss passport.
8. If travellers plan to take any University equipment overseas of a value greater than £3,000 they must inform the Insurance Office.
9. Travellers are advised not to take expensive items with them on the trip. If it is necessary to take expensive items, it is recommended that travellers take out their own additional cover for these items.
10. Any loss or damage to property whilst in the custody of an airline or other transport carrier must be reported to the carrier on discovery. In the first instance, a claim should be attempted against the airline or the transport carrier. Travellers should obtain written acknowledgement or report from the carrier if submitting claim against the University policy.
11. If travellers plan to engage in hazardous activities during social time whilst on University business, they must obtain their own insurance to cover these activities prior to leaving the UK. In addition, travellers should not engage in any activities where their experience or skill levels fall below those reasonably required for participation in those activities.
12. Travellers should seek up to date individualised travel and vaccination advice relating to a specific destination from Occupational Health Services before travelling. Insurance does not cover the cost of vaccinations, blood tests or health screening tests.
13. If luggage is delayed for more than one day during the outward bound journey the travel insurance policy will cover the cost of emergency purchases such as underwear, toiletries and essential clothes only. Every effort should be made to keep costs to a minimum and excessive costs will not be covered.

14. Disinclination to travel is not covered by the insurance policy. If the FCDO advice is not to travel travellers who do not travel in these circumstances can make a claim for cancellation the FCDO advice has changed since the booking was made.
15. The cancellation and curtailment section of the policy does not apply for those travellers who suffer any pre-existing medical condition and are aware of any medical treatment, or have close relatives suffering any pre-existing medical condition (including pregnancy), that may cause them to cancel or curtail their trip.
16. Travellers are recommended to download the free AIG Travel Assistance mobile app prior to travelling. Essential travel tools, such as medical translation, drug brand equivalency and medical provider directory, can provide valuable support in a critical time. See further information on [how to register on AIG mobile app](#).
17. The cost of cancellation due to inadequate, late or declined paperwork is not covered by the policy. Travellers who require confirmation of insurance cover for a visa application could make such request directly from the AIG mobile app "Insurance Certificate". Alternatively, email the [Insurance Office](#) with the following information:
 - (i) full name (as shown on the passport)
 - (ii) University ID number

For non-emergency situations contact insurance@manchester.ac.uk

If you are unable to travel due to circumstances beyond your control, such as an event being cancelled by the organiser, FCDO has changed travel advice to against all travels or against all by essential travel, or sudden and unexpected illness of yourself, you should either postpone your trip or cancel all your travel arrangements if necessary. If you need to cancel your trip, you must do your best to seek refunds from all parties and retain any written correspondence.

For any other reasons, such as clash with other commitments, at the request of line manager or personal reasons, it would be considered to be disinclination to travel and the cost of cancellation will not be covered.
