IMPORTANT: Information Regarding Overseas Insurance

Student travellers should note that the University Travel Insurance is not health care cover. It does not provide cover for wellness care, including routine physical and mental health care, routine vaccinations, health screening and preventative services, pre-existing conditions and routine prescription drugs.

Due to changes in country laws and different requirements from individual universities, some host universities may not accept the University policy and require all students to purchase additional insurance directly from them. Students are responsible for checking if their host university accepts the University policy. They should research these additional costs in advance and include this expenses in their budget.

The University is committed to sustainability and is a signatory to the Talloires Declaration. Reducing the environmental impact of travel is an important part of ensuring sustainability and protecting the environment.

Students should choose the most economic and direct route to their destination. The University’s travel insurance may not cover any travel route which has unnecessary detours.

Definition of University Insured Student Travel

All University insured student travel must be a compulsory element of a University award-bearing degree programme of study or in connection with an approved overseas sporting fixture through SPORT Manchester. The trip must be pre-approved by the School or Supervisor and the traveller must have completed a travel risk assessment prior to travelling.

Any travel which is not University insured student travel as defined above is classified as personal travel.

If a student intends to have a period of personal travel before or after or during the official placement period, they should ensure that they have arranged their own insurance to cover the entire period that they are away from the UK prior to departure.

- Any expenses incurred after the first twelve months of being away
- Any expenses incurred in respect of a journey to the country of domicile if there is no intention of returning to the country of secondment within 30 days

However, for non-UK national travellers, if they visit their country of domicile, the above medical cover may be limited.

**Extending the Period of the Official Placement**

The official period of a business travel can be extended as below. These extended periods are expected to be part of the official business, and are not intended for personal travelling or holiday.

(1) For short term travel, i.e. trips of 3 months or less

The period of travel may be extended up to a maximum of 7 days, or no more than 50% of the entire period of the official placement (whichever is less), in the destination of the official placement. This is to enable students to arrive at the destination early to adjust to local environment.
(2) For long term travel, i.e. trips of more than 3 months

The period of travel may be extended up to a maximum of 14 days before the start of the official placement. This is to enable students to arrive early to adjust to the local environment, get orientated and settle in.

The period of travel may be extended further up to a maximum of 7 days after the official placement to enable students to organise their departure.

**Incidental travel within the official business period of trips longer than 3 months**

The University’s travel insurance will cover any reasonable social incidental travel in the country of the placement. Students will be responsible for carrying out appropriate health & safety and risk assessment for their short trip, and should not engage in any hazardous activities or activities where their experience or skill levels fall below those reasonably required for participation in those activities.

The incidental travel should not be a substantial part of the trip, and the time spent on the incidental travel is not more than 4 days in a single trip. If the period of the incidental travel is more than 4 days, students should provide their own insurance cover for the whole of the period.

The incidental travel should be within the country of official business. However, if the country of placement is Singapore, it is agreed that the cover can be extended to Malaysia.

Examples of acceptable incidental travel:

- If a student has multiple placements in more than one country within Europe, the student travels through another country to reach the next destination of the official placement during the gap between placements, the transition through other countries will be covered as long as there are no unreasonable detours and the most economic/direct route is taken.

- If a student works across borders as part of their official placement and the University is fully aware of this arrangement and has pre-approved the travel plan, the trip will be covered.

- If a student has to leave their placement country to go to a neighbouring country for the purpose of extending / changing / adjusting their visas, the trip will be covered.

Please note that the insurance cover will temporarily terminate when the student is visiting the UK, or their normal country of domicile for non-UK national students during a period of the long term travel; and will re-start when the traveller returns to the destination re-engaging in the University placement.

**Health**

The University’s travel insurance is not a full health insurance. The cover is provided for medical expenses only in relation to emergency or unexpected treatment (i.e. medically necessity as a result of an accident or unexpected illness). Routine, preventative or other elective treatments are not covered.

Students should ensure that they are fit to travel, both physically and mentally, prior to booking any travel arrangements. If there is any doubt about a traveller’s fitness to travel, they are advised to obtain written confirmation from their doctor or the University’s Occupational Health Service. Insurance cover will be invalid for anyone travelling against medical advice or for the purpose of undertaking treatment.
Medical expenses and treatment related to pre-existing medical conditions are not covered, therefore, students should ensure that they take sufficient supply of medication for the entire trip/period away and identify suitable medical support, such as address of medical centre/doctor’s name, for their continuous treatment whilst they are away. Pre-existing medical conditions are only covered in emergencies if travel is being undertaken in line with medical advice.

For dental care, there is no cover unless the treatment is deemed to be medically necessary by medical professional following an accident and the accident occurs outside the mouth. Students are advised to undertake a dental check-up and complete all dental treatment prior to departure.

For treatment of psychiatric or mental disorders incurred more than 30 days after the date of incurring the first recoverable expenses is not covered.

This policy is for emergency cover only and is not suitable for travellers who are due to be away from the UK for more than 12 months. It is recommended that long term attachment staff and students should purchase their own local insurance policy at the destination for all medical expenses, both routine and emergency, and property damage.

**Notes for Travellers**

Travellers are advised to check if the property owner has insurance in place for any loss or damage to their property during their stay with the host. If renting privately owned accommodation, travellers should check the terms of the agreement and, where necessary, purchase their own insurance cover.

4. If the accommodation is regulated and secure, such as in a private lockable room in YHA or other registered hostel, losses will be covered as long as the security measures in place at the accommodation are used.

5. Travel insurance cover is subject to the work or study placement being approved by the traveller’s School or the International Programmes Office and an appropriate travel risk assessment undertaken by the traveller.

6. Travellers are encouraged to take the ‘Travel Security Awareness Training’ modules on AIG Travel Assistance and check out specific travel advice of the country of their destination, such as country reports.

10. Any loss or damage to property whilst in the custody of an airline or other transport carrier must be reported to the carrier on discovery. In the first instance, a claim should be attempted against the airline.
or the transport carrier. Travellers should obtain written acknowledgement or report from the carrier if submitting claim against the University policy.

11. If travellers plan to engage in hazardous activities during social time whilst on University business, they must obtain their own insurance to cover these activities prior to leaving the UK. In addition, travellers should not engage in any activities where their experience or skill levels fall below those reasonably required for participation in those activities.

12. Travellers are recommended to download the free “AIG Travel Guard” mobile app prior to travelling. Essential travel tools, such as ‘medical translation’, ‘drug brand equivalency’ and ‘medical provider directory’ can provide valuable support in a critical time.

14. If luggage is delayed for more than one day during the outward bound journey the travel insurance policy will cover the cost of emergency purchases such as underwear, toiletries and essential clothes only. Every effort should be made to keep costs to a minimum and excessive costs will not be covered.

15. The cost of cancellation due to inadequate paperwork is not covered by the policy. If a traveller needs confirmation of insurance cover for a visa application email the Insurance Office (insurance@manchester.ac.uk) providing the following information:

   (ii) University ID Number
   (iii) School/Unit
   (iv) country of destination(s)
   (v) the period of absence from the UK.

What to do in the Event of a Claim

In the event of any emergency or medical incident, whether or not it may lead to a claim, travellers may seek medical advice and/or obtain assistance by contacting AIG (tel: +44 (0)1273 727416; or email: UOM.travelclaims@aig.com).

For non-emergency situations contact insurance@manchester.ac.uk
If you are unable to travel due to circumstances beyond your control, such as an event being cancelled by the organiser, FCO has changed travel advice to against all travels or against all by essential travel, or sudden and unexpected illness of yourself, you should either postpone your trip or cancel all your travel arrangements if necessary. If you need to cancel your trip, you must do your best to seek refunds from all parties and retain any written correspondence.

For any other reasons, such as clash with other commitments, at the request of line manager or personal reasons, it would be considered to be disinclination to travel and the cost of cancellation will not be covered.
