

Mobile printing

Printing from your laptop, smartphone or tablet

You can use your laptop, smartphone or tablet to print to the University printers through a web browser or email. You don't even need to be on campus.

You can print documents in one of two ways.

Uploading a file through your web browser

1. Go to one of the following websites:
Colour printing:
<https://mobileprintcolour.manchester.ac.uk>
Mono (black and white) printing:
<https://mobileprint.manchester.ac.uk>
2. Log in using your University username and password
3. Select a document to upload and click 'Next'

Sending a file to a printer by email

1. Depending on whether you're printing in colour or mono (black and white), email **centralprintingcolour@manchester.ac.uk** or **centralprintingmono@manchester.ac.uk** with your document attached
2. The first time you send to print, you will receive an email to register your address. Click the link in the email to open a browser window and enter your University username and password
3. Your document will then be available on any of the Xerox printers around the University, which you can access in the normal way
