

## Guidance for completing Chemical Sources return

This form is for recording the details of UK companies or other sources from whom you obtained Schedule 2 and/or Schedule 3 chemicals *in 2017*. This is to ensure that the UK National Authority is aware of all relevant companies/entities involved in declarable S2 and/or S3 chemical activities.

Please complete a separate form for each supplier, including separate sites operating under the same name. For example, Sigma Aldrich has several sites across the UK, each of which would need to be recorded separately even though they are part of the same company.

If you do not source S2 and/or S3 chemicals from the UK (i.e. you import or produce your own) this form is not applicable. The separate Chemical Weapons Declaration forms for Schedule 2 and/or Schedule 3 Chemicals must be used for these activities.

### **Parts A & B – Company/source name and address**

Insert the name and address of who you obtained your S2 and/or S3 chemicals from *in 2017*.

### **Part C - Scheduled chemicals provided by the company or other source**

Insert the chemical name, common or trade name and the Chemical Abstracts Service registry number (if assigned) of each chemical supplied.

Indicate the relevant Schedule, 2 or 3, for each chemical you list.
