**IT Services**

**Core range of University desktop and laptop computers**

We keep these items in stock on campus for deployment within 3 working days of approval and they are considered as the usual staff entitlement. These Lenovo computers are more than sufficient for the work most of us do on a daily basis, and can easily handle our busy workloads.

All the Lenovo ThinkPad laptops are more reliable and robust than an average high-street laptop, whether you prefer working with a large screen and full keyboard, or a small and light model you can easily throw into your bag for those journeys across campus. Paired up with a docking station, these laptops can replace your desktop PC, saving you from having to maintain 2 computers.

Alternative specifications, accessories and upgrades are listed in our Extended Range catalogue.

All devices come with a 4-year, on-site, next business day warranty.

For more information, including details of how to order, visit [www.its.manchester.ac.uk/purchasing](http://www.its.manchester.ac.uk/purchasing)
