

Staff Engagement

Recently we have set out to streamline knowledge share and awareness about environmental sustainability at the University, which is provided through 10,000 Actions and the **sustainability seminar series**. To support interest and vigour, the flowchart below will help you decide which the best engagement opportunity is for you.

You can choose more than one activity if you so wish. Everything contributes towards your 10,000 Actions plan so remember to return and update.

To complete 10,000 Actions and create your own action plan visit www.manchester.ac.uk/10000actions.
