UKRI Innovation / Rutherford Fund Fellowships Guidance for Applicants

The application form is available here:
https://www.bmh.manchester.ac.uk/research/support/fellowships/mrc-hdruk/

Please ensure that you indicate, where requested in the form, whether you are submitting to the early-career or mid-career fellowship

Deadline: Applications, CV, cover letter and letter of support should be submitted to FBMHfellowshipacademy@manchester.ac.uk by **Friday 22nd December 2017 (12noon)**

All documents should be in pdf format, with the following title format:

- Application form: "surname_level of fellowship_HDRUK Applicaiton"
- CV: "surname_level of fellowship_CV"
- Covering letter: "surname_coveringletter"
- Letter of support: "surname_letterofsupport"

Section 1: Applicant Details

Please complete all fields in Section 1.

Due to the funding requirements of the post applicants must be available to commence in the role no later than 15th February 2018. This is a stipulation made by the MRC and is non-negotiable. If you are not currently eligible to work in the UK, and would be applying for a visa from outside the UK, please be advised that the University will not be able to obtain a Certificate of Sponsorship to support this. Information on UK visas and processing times is available at https://www.gov.uk/apply-uk-visa

Please do give full details if you have had any career breaks - it is important when looking at outputs and can provide the review panel with important context.

Section 2: Objectives. Project summary and technical summary

This section is designed to give the panel a feel for what kind of a project you would like to develop within the fellowship, the area you wish to work in and why this type of award would be the best way for you to progress your career and work in Health Data Science on one of the national priorities as set out by HDR UK: Actionable Analytics, 21st Century Trials, Data-driven Public Health, and Precision Medicine.

Section 3: Training Plan

You will need to indicate how the training that you propose is different to previous training/work and how you expect it to enhance your career. Please include details of who you proposed supervisor would be, if you have considered an external mentor, and whether you intend to carry out a placement at any point during the fellowship
