

Software download and installation instructions

- 1) Right-click the appropriate link and select "Save target as...". Save the file to your hard drive. Extract the "setup.....exe" from the zip file to a temporary location.
- 2) Run the extracted file (i.e Setup_star_vX.Y.exe) file and follow the instructions

Please note: These downloads are intended for existing license holders. These Programs are protected by a security system and will not function without a valid license. Licenses are ONLY available to our current funding organisations. Licenses for individuals are not granted

The default location for the license file (provided separately) is:-
\\program files (x86)\CPI suite\CPI.KEY

Important:: The key file information for these installations is incompatible with any earlier installed versions. i.e. they may not be concurrently installed with earlier versions.
