Environmental Sustainability Academic Engagement Group
Terms of Reference

The overall goal of this group is to support and develop environmental sustainability activity across the Faculties. Specifically the group aims to:

- Share and disseminate key environmental sustainability activities across the faculties relating to research and teaching.
- Identify synergies and share best practice relating to research, teaching and impact.
- Identify cross-faculty research and teaching opportunities.
- Develop the University living lab approach that brings teaching, research and Professional Services activities into dialogue.
- Support the development of high level challenges focused on the sustainability of the campus and the city that can be used in student projects (undergraduate, postgraduate taught, and postgraduate research).
- Identify opportunities to communicate and enhance the impact of sustainability themed research taking place at The University of Manchester.
- Report back to the Environmental Sustainability Leadership Group.
- Provide reports to Faculty social responsibility groups to steer sustainability activities.
- Receive feedback from the Environmental Sustainability Leadership Group and Faculty social responsibility groups and disseminate as appropriate.

Frequency of meetings
Twice per semester
