Living Campus Group
Terms of Reference

- To provide advice to the University on issues relating to biodiversity and wellbeing across campus, specifically:
  - To identify the potential impacts of the proposed campus masterplan;
  - To provide advice on specific measures to help mitigate negative impacts on particular aspects of biodiversity and wellbeing across campus; and,
  - To highlight the needs of key species across campus management.
- To oversee the delivery and reporting of the Living Campus Plan.
- To draw upon in-house expertise to help develop, implement, and monitor the Living Campus Plan.
- To promote:
  - Biodiversity at the University through teaching and learning, research and volunteering opportunities for staff and students;
  - The value of a green campus for health, well-being and the environment;
  - The value of nature in an urban campus;
  - Active travel across campus; and,
  - Activities and public events that can be used to communicate elements of the Living Campus Plan across the University and within local communities.
- To identify opportunities for the co-ordination of University activities with other local and regional strategies, relevant to the Living Campus Plan.

Frequency of meetings
Quarterly, aiming for at least one meeting per year to be held at Jodrell Bank.
