

## DENTISTRY AT MANCHESTER

At Manchester, our strategic partnerships and worldwide collaborations connect us to an international network of dental excellence. This allows us to share knowledge and innovation in research, teaching and learning, and evidence-based practice on a global scale.

Our international profile allows our staff and students to benefit from joint international learning portals and exchange programmes. This provides our graduates with a wealth of experience and skills, ensuring they are well-rounded professionals on achievement of their qualifications.

## OUR PROGRAMMES

### Research

- Clinical Dentistry
- Biomaterials Science and Dental Technology
- Dental Health Sciences
- Basic Dental Sciences
- Oral and Maxillofacial Surgery

### Taught courses

- Advanced Restorative Dentistry
- Periodontology
- Oral and Maxillofacial Surgery
- Endodontics
- Orthodontics
- Fixed and Removable Prosthodontics
- Paediatric Dentistry

## THE FACTS

# 18<sup>th</sup>

in the world  
for Dentistry

(QS rankings 2019)

# 15<sup>th</sup>

in the world  
for Dentistry and  
Oral Sciences

(Shanghai rankings 2019)

# 19<sup>th</sup>

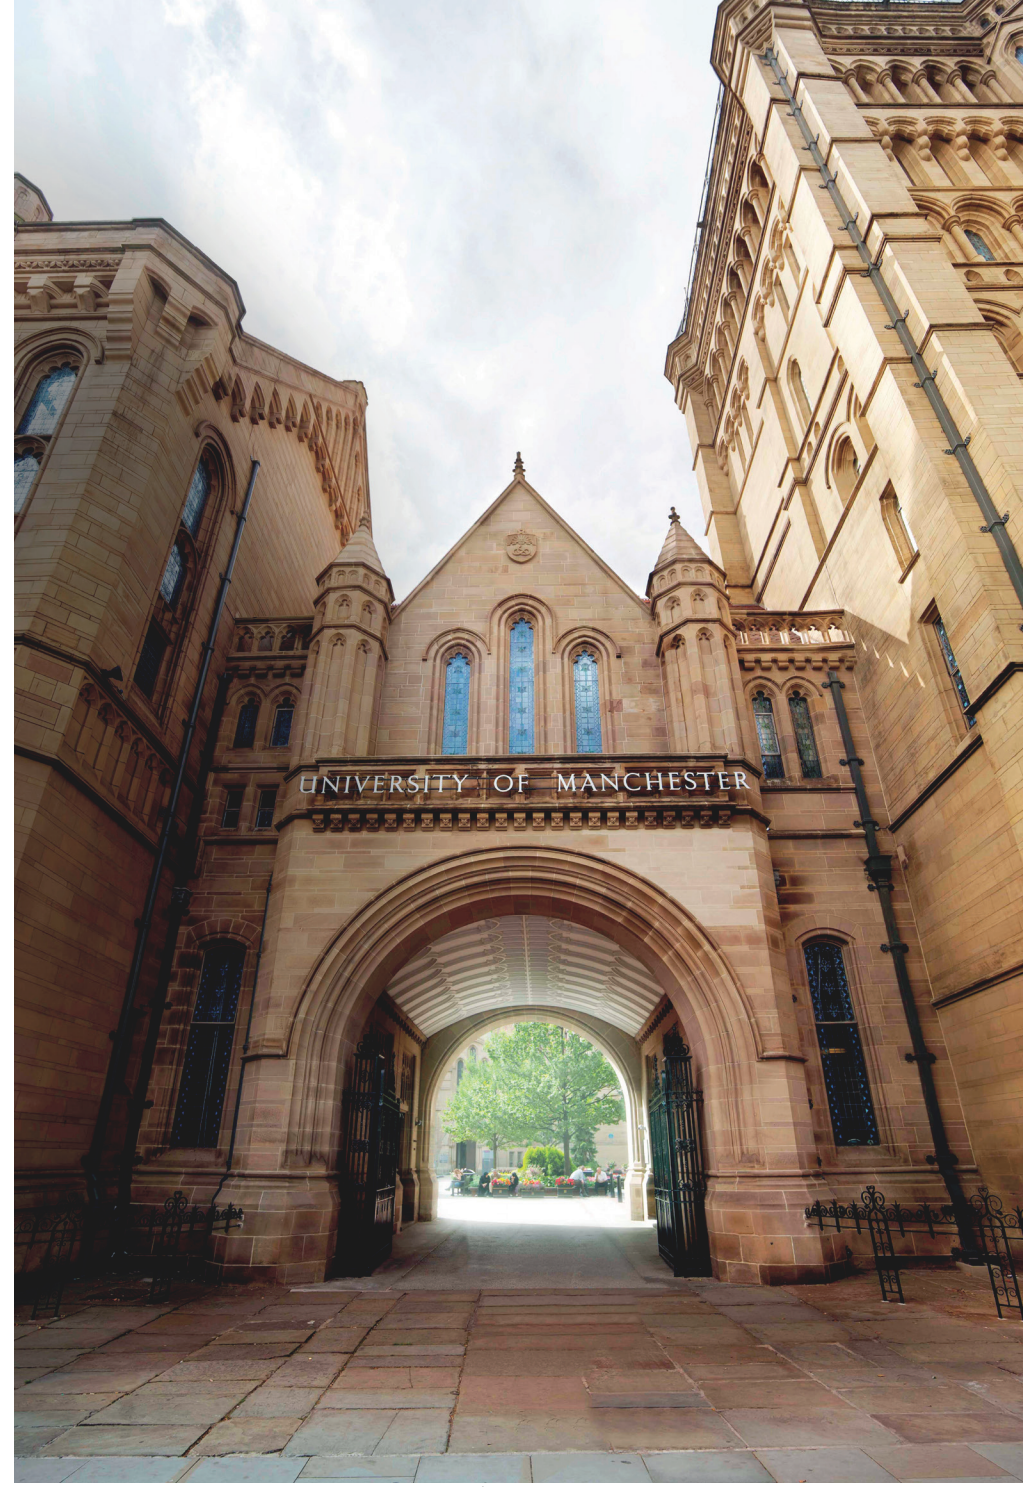

in the world  
for international  
dental students

(Worldscholarshipforum.com)

# 88%

(Research Excellence Framework 2014)

of our research staff were  
judged to be 'internationally  
excellent' or 'world leading'

## RESEARCH EXCELLENCE

– We undertake world-leading research that has a significant impact on improving the delivery and quality of dental services and clinical care and reducing oral health inequalities.

– We are the UK's top research university for allied health professions, Dentistry, Nursing and Pharmacy (Research Excellence Framework 2014).

– We undertake research in three highly successful and innovative core areas – health technology, evidence synthesis/evidence-based practice and craniofacial research.

– Our internationally renowned research is delivered through programmes of both basic science and health service research and funded by research councils, the National Health Service, charity and industry.

– We are the only university in the UK to offer a formal four-year PhD combining clinical experience with vigorous research experience in the areas of Endodontics, Fixed and Removable Prosthodontics, Periodontics, Oral and Maxillofacial Surgery and Orthodontics.

## RESEARCH ACCOLADES

The University of Manchester is delighted to celebrate a number of research accolades within the IADR Distinguished Scientist Awards:

**William J. Gies Award  
(2020)**

Michael Dixon  
Director of Research

**Wilmer Souder Award  
(2003)**

David Watts  
Professor of Dental Biomaterials

**H. Trendley Dean  
Memorial Award  
(2012)**

Helen Worthington  
Professor of  
Evidence Based Care

**Aubrey Sheiham  
Award for Research  
in Dental Public  
Health Sciences  
(2017)**

Martin Tickle  
Professor of Dental Public Health

**Research in  
Prosthodontics and  
Implants Award  
(2011)**

Hugh Devlin  
Professor of Restorative Dentistry

**Craniofacial Biology  
Research Award  
(2014)**

Jill Dixon  
Senior Lecturer

MANCHESTER WORLDWIDE

Working across the globe in the name of dentistry is something we are proud of here at Manchester. As well as our social responsibility initiatives, we provide a number of exchange programmes in the USA, Egypt and Japan. This provides the opportunity for sharing experience and skills, ensuring our graduates are accomplished individuals.

International exchange programme to Nippon Dental University Japan

International student exchange programme

Welcome dinner with Dean - International exchange programme

Undergraduate exchange programme to Henry M Goldman School of Dental Medicine Boston USA

Visit to Mansoura Dental School Egypt as part of Mansoura-Manchester Dental Programme

SOCIAL RESPONSIBILITY

Humanising dentistry

Dentistry at Manchester promotes learning within the community, or 'service learning', as part of the curriculum, combining community involvement, academic study and practical experience. By working with community groups and schools as part of their dental degree, students provide essential healthcare for local people while increasing their social awareness and employability.

Oral health for displaced individuals

Accessing dental care can prove to be a major challenge for refugees and asylum seekers during their journey to safety. Dr Joanne Cunliffe, Senior Lecturer and Endodontics Consultant at the University Dental Hospital, is working with students and the Rainbow Haven charity to ensure these vulnerable people receive support in maintaining good oral hygiene. Through regular visits with our students, Joanne supports individuals by providing check-ups to establish treatment needs and helping with registration for dental care.

Making a difference through dentistry

Knowledge sharing plays a key role in tackling dental health inequalities. Dr Raj Ariyaratnam, Clinical Academic Lead for Oral Medicine, leads a capacity building programme for dentists in Sri Lanka. As well as establishing a dental training network, Dr Ariyaratnam supports skill development by delivering lectures in-person and remotely.

"After my degree, I was determined to attain the necessary knowledge and skills to become a clinical specialist in prosthodontics. As a postgraduate student at Manchester, I have learnt many new concepts in treatment and planning for treatment, which has made me more analytical in tackling new cases."

Nada Alharbi  
BDS, MSc ClinD, PhD Fixed and Removable Prosthodontics
