Summary of changes to Posthumous and Aegrotat Award of Postgraduate Research Degrees Policy (July 2020)

The policy was restructured and edited to fit the approved standard policy template in line with the [UoM Policy Framework](#).

The original structure (3 sections: Introduction, Posthumous Awards and Aegrotat Awards) has been further divided into the following sections: Introduction, Posthumous and Aegrotat Award Eligibility, Awards after Examination / Submission, Awards before Examination / Submission, and Certification / Graduation.

The policy now details the possible award recommendations:

•   Relevant posthumous or aegrotat award

•   Relevant posthumous or aegrotat exit/lesser award

•   No award

The policy now states that where a posthumous or aegrotat award is made it is <u>not</u> required that the resulting certificate is marked as such.
