

Star Lecture by Professor Brian Cox: GCSE Science brought down to Earth

From Monday 28 June The University of Manchester's star physicist Brian Cox will be sharing his passion for science with young people and teachers across the UK and beyond.

Professor Cox's lecture to local GCSE pupils will be beamed into classrooms by live webcast and later posted online for use by young people and their teachers.

Professor Cox, presenter of the acclaimed BBC documentary series 'The Wonders of the Solar System', will be discussing the 'Big Bang' and the origins of the universe with a particular focus on the GCSE Science curriculum.

Live Webcast & YouTube site

Where: www.manchester.ac.uk/starlectures

When: **Monday 28 June**

Time: 1.30pm – 2.30pm

Edited versions of the lecture will also be available at:

www.youtube.com/universitymanchester

This will be available from Wednesday 7th July for use by learners and teachers as part of GCSE science.
