## National Science and Engineering Week at The University of Manchester

Tuesday 19 March – Friday 22 March 2013

Join us at the University of Manchester for a day which will enthuse your pupils about studying science and engineering. Our programme is designed to showcase how science, engineering, technology and maths impacts on our everyday lives, and shapes our daily decisions. Your pupils will have the opportunity to get up close with some of the cutting-edge research going on at The University of Manchester, and take part in a range of activities designed to inspire them to becoming the scientists of the future.

Programme for each day:

**10:00 – 12:30**

Interactive workshops led by current PhD students in a range of science subjects  
Hands-on Science Fair where pupils can interact with academic staff and students from across the University about their research

**13:30 – 14:30**

Expert Lecture delivered by a leading academic staff member from the University

This is a free event for your pupils in Year 7, 8 and 9. Schools can bring a group of up to 25 young people.
