

A Student Guide to Downloading Feedback from Turnitin

After submitting work it's important that you make use of the feedback given to you by your tutors. Electronic feedback is easy to access via your Blackboard 9 course and Turnitin.

You can view your provisional grades and Feedback (if given) from submitted Turnitin assignments by returning to the area in Blackboard where the assignment link is shown (i.e. wherever you submitted your assignment). This area may simply be called 'Assessments'. The picture below shows the link to the Turnitin assignment.

Essay1

Please include your student ID number in the filename you submit.
>> [View/Complete](#)

Click the '**View/Complete**' link to access the assignment and your submission.

There are two ways to read the feedback provided by your tutor:

- 1) View your work online, and/or
- 2) Download your work, read it offline and print it off if required.

NB: It is strongly recommended that you do download the feedback and save a copy for your records. Although you can access previous years' courses through Blackboard, you may not be able to access your old assessments. Download your feedback as standard practice when you first read it or, at the latest, before the end of the academic year.

1) View your work online

After clicking the 'View/Complete' link you will see your Class Homepage screen (as below):

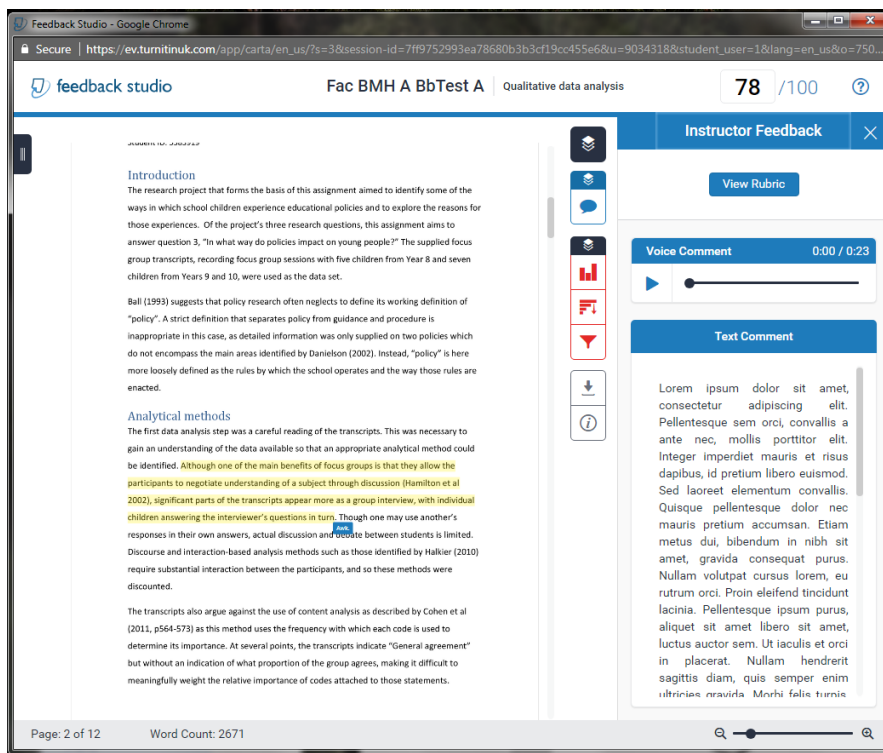

Class Homepage

This is your class homepage. To submit to an assignment click on the "Submit" button to the right of the assignment name. If the Submit button is grayed out, no submissions can be made to the assignment. If resubmissions are allowed the submit button will read "Resubmit" after you make your first submission to the assignment. To view the paper you have submitted, click the "View" button. Once the assignment's post date has passed, you will also be able to view the feedback left on your paper by clicking the "View" button.

Assignment Inbox: PLAYGROUND-mftssag3 AGPlayground

Info	Dates	Similarity	
EducEssay	 	Start 17-Nov-2011 3:23PM Due 24-Nov-2011 11:59PM Post 25-Nov-2011 12:00AM	Not Available <input type="button" value="Submit"/> <input style="background-color: #0070C0; color: white;" type="button" value="View"/> <input type="button" value="Download"/>

Now click on '**View**' to see your assignment submission, along with your provisional mark/grade, feedback comments and general comments.

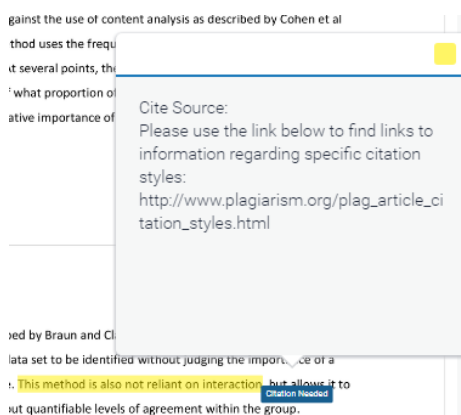

Marks

Your provisional grade (or Mark) appears at the top right corner of the screen, typically showing a mark out of 100:

Feedback comments

Your tutor may have added feedback comments directly to the pages of your work in the form of **'bubble' comments**. These appear as blue boxes with either white text or a white speech bubble.

Click on the blue box to see the feedback given. The text of the comment (in the white area) is what you need to pay attention to.

General Comments

These may have been added to the piece of work and will be shown in the right hand pane of the screen that you are viewing to see your work. General comments apply to the whole paper, as opposed to the comments added to particular parts of the paper. If your tutor has

recorded a Voice Comment, this will be accessible from the same pane as the General Comments. If a rubric has been used, you will also be accessible from this pane.

2) Downloading your work when it has been marked

You can download your paper as a PDF including the marks and feedback that you have received from the same Class Homepage you use to view your marks and feedback. Click the View button:

Then click on the download icon at the right of the screen and choose the option **Current View**.

A dialogue box will appear to confirm the download is being prepared, then a Save as... window will pop-up. Make sure you save it to a personal folder or external drive. Do not save any of your personal files to a desktop in a computer cluster.

Your downloaded file will be a PDF and will show your original essay and any Feedback Studio report information and feedback attached to your paper. Both 'bubble' and general comments will be given at the end of your work, as shown below. If a rubric has been used, this will be shown at the end of the paper. There will also be a note to indicate if voice feedback has been left. To record voice comments, please refer to the Knowledge Base article [Capturing voice comments made in Feedback Studio](#).
