

## Starting an application program

To start a program, choose one of the following methods:

1. If you can see the program icon, double-click it

Or

1. Click the **Start** button.
2. Look for the program icon in the Start menu.
3. Click it.

Alternatively:

1. Click the **Start** button.
2. Click the **Search programs and files** box at the bottom of the **Start** menu.
3. Type the program name (or part of it\*) into the box.

At the top of the Start menu you will see a list of matching programs.

4. **Click** to select the required program application and it will open.

\*Please note: if you enter part of a word in the search box, it will return all instances of that word.
