

## Insurance Questionnaire for Student Placements

### Note for Host Organisations

The University's Public Liability insurance policies provide cover for the University's legal liabilities arising out of the acts or omissions of the University and its staff and students.

The University's insurance policies do not cover students in respect of any acts or omissions on their part (unless the University could be considered to have at least partial legal liability).

In particular, the University's Employers' Liability, Professional Indemnity and Medical Malpractice insurance does **not** cover students who are on a placement with an external organisation whether as part of their studies or otherwise. In such cases the expectation is that the host organisation will provide Employers' Liability, Professional Indemnity and (where appropriate) Medical Malpractice cover.

Host organisations are asked to complete the attached questionnaire in order that the University can assess the insurance position.

Insurance Office  
John Owens Building - Room MLG.006  
The University of Manchester  
Oxford Road  
Manchester
