Sync with other Android devices	❗	❗

You may like to consider...

Add on	What does this do?
Detachable keyboard	Provides you with a physical keyboard that is more comfortable for typing
Memory card slot	Allows you to import photos taken with a digital camera from a memory card
Data plan	Allows you to remain connected where wi-fi is not available
Stylus	Allows you to draw or sketch directly onto your screen (using a compatible app)
VGA adapter	Allows you to connect your device to a large screen for presentations
Larger capacity version	A 32GB or 64GB version(as opposed to the standard 16GB version) will be more suited to storing lots of large files e.g. high resolution photos
Google Play vouchers	Essential if you wish to purchase additional apps or content without registering a credit card
Additional data transfer cable	A spare cable to connect the device to your computer (can also be used for charging with some devices)
Additional charger	A spare mains charger (comes with USB cable to connect the device to your computer)
