

Entry Requirements Guide

2015 entry

Directorate for the Student Experience

Important information – *unless specified otherwise, the following information applies to all programmes within this guide*

Advanced Placement Qualifications

The University welcomes applicants with an AP qualification. These will be considered on an individual basis.

Key Skills

The University welcomes applications from students studying the Key Skills qualification. However, as the opportunity to take these modules is not open to all applicants, currently this is not an essential requirement of the University.

Unit Grade information

The University welcomes the provision of unit grade information which, like other available information, will inform the consideration of applicants. Unit grades will not normally form part of offer conditions, except for Mathematics programmes.

Extended Project Qualification

The University recognises the benefits of the Extended Project (EPQ) and the opportunities it provides for applicants to develop independent study and research skills. The Extended Project is not a compulsory element of post-16 study and as a result the University will not include it in the conditions of any offer made to students. However, if students choose to undertake the EPQ we would strongly encourage them to draw upon these experiences within their personal statement, as it may be taken into account when their application is considered.

Please note, that where there are fields missing or they read 'TBC' e.g. English language requirements, this indicates that there was no information available at the time of production for that program, please contact the individual School Office for more detail or direct student to the School.

TYPES OF HIGHER EDUCATION EVENTS AND FREQUENT ENQUIRIES

We attend two main types of Higher Education (HE) fairs and conventions. There are some differences in the size and type of event but enquiries often cover the same ground. This is an overview of the types of conventions, how to handle common enquiries and how to deal with any complications.

UCAS Higher Education Conventions (HECs)

UCAS HECs are amongst the largest conventions and feature UK HE Institutions (universities). These conventions are designed to assist Year 12 pupils in making initial enquiries about universities.

Due to a high volume of traffic, you will notice many students will pick up a pocket guide and quickly move on to the next exhibitor. It can be difficult engaging students in conversation, but take care in answering any enquiries they do have. If there is a queue and one student is taking up a lot of time, try to answer questions fairly succinctly and direct them to the relevant section of the website if necessary.

School Higher Education Fairs (HEFs)/Careers Conventions

HEFs and Careers Conventions, organised locally by schools and colleges, are often much smaller events with a selection of exhibitors from various businesses and organisations, as well as Higher Education Institutions (HEIs). These events may be tailored to meet the needs of a particular year group, or may be open to several year groups.

These are generally also attended by parents, who often arrive with prepared questions regarding programmes of study, entry qualifications, career prospects, etc.

Engaging Students and Following-Up Interest

It is much easier to engage students at smaller events. However, you should try and speak with as many students as possible in order to maintain interest in the University. Students can sometimes be self-conscious when talking about Higher Education. The following questions can prompt a discussion of any enquiries or worries they may have:

- *What course/s are you interested in?*
- *What are you studying at the moment?*
- *Are you familiar with The University of Manchester?*

If a student picks up an undergraduate guide, it is important to build upon this interest:

- **Highlight that there is a lot more information on our website** for the course the student may be interested in, and encourage them to request a programme-specific brochure
- **Let them know that, should they wish to obtain one, a University prospectus** can be ordered or downloaded from the website
- **Indicate the Open Day dates** in the front of the undergraduate pocket guide. If they can't attend any of these, tell them about the Guided Visit sessions that take place on selected Wednesday afternoons throughout the year. www.manchester.ac.uk/undergraduate/opendays/other-visits to book a place online

What to do if.....

- a) You arrive at an event and you find that the stand and/or undergraduate pocket guides have not been delivered or the wrong number of boxes are there**
 - Contact Saba Mirshafiei in Student Recruitment and Widening Participation Team on 0161 275 2212 / Saba.Mirshafiei@manchester.ac.uk.
- b) You are running low on undergraduate pocket guides**
 - **For one day events** – Answer as many of the questions as you can, using the Entry Requirements Guide and Prospectus in the Utility Box. Also advise the student that they can obtain more information and/or a prospectus online.
 - **For two day events** – It is sometimes possible to get more publicity material delivered for a two day event, provided you anticipate this **before 2pm**. Note the number of boxes you have at the beginning of the two day event. If you get through more than a quarter before lunch on the first day, this is a sign you might run out. In these cases, contact Saba Mirshafiei **before 2pm** on the first day of the event. **Please record this on your evaluation form.**

Enquiries from Teachers

Direct them to www.manchester.ac.uk/undergraduate/schoolsandcolleges and/or ask them to fill out a teachers form to request further information. These forms should be in your resource pack. If no teachers forms are available, ask them to contact schoolsandcolleges@manchester.ac.uk / 0161 275 2212

Answers to Frequently Asked Questions

- Do you offer.....? (refer to the main body of this document or the website if you have internet access)
- What are the entry requirements for.....? (refer to the main body of this document or the website if you have internet access)
- Can I visit the University? (Open Day dates are in the undergraduate pocket guides; provide information about Wednesday Guided Visits)
- How many students are there at the University? (over 35,000 full-time undergraduates)
- How is the University rated? In the Shanghai Jiao-Tong University (SJTU) 2013 rankings, Manchester is placed 41st in the world, 14 places higher than when the University was established via the merger in 2004.
- How is a specific subject rated? (advise students to research league tables online, but emphasise that there are different ways of analysing this data; decisions should not be made on tables alone)
- Is it expensive? (Manchester offers affordable accommodation and living expenses compared to London and the South East. Accommodation starts at £86 a week. We also offer an extensive range of bursaries and scholarships for those who qualify.)
- What is the student life/nightlife like? (Over 85,000 students in Manchester, 164 nightclubs, 500 bars and pubs, 132 cinema screens, the largest and most active Students' Union in the UK)

Good Practice Guidelines

- You cannot be an expert on every aspect of the University, and nor are you expected to be. If you are unsure how to answer an enquiry, please do not attempt to answer it. Take contact details, say that you will pass the enquiry on to the relevant office – then remember to do so!
- Never make disparaging remarks about other HEIs. It is also best to avoid giving personal views/opinions on other HEIs. Stick to factual information.
- Support our neighbouring HEIs (MMU and Salford) by directing people to them for enquiries relating to courses they offer but we don't.
- Always avoid volunteering opinions on controversial topics such as fees, other institutions' admissions policies, etc. We are not in a position to comment.

Popular Programmes of Study

- **Medicine** – also: Nursing and Midwifery courses, , Optometry, Speech and Language Therapy and Audiology, Biomedical Sciences
- **Law** – also: Law with Politics, Law with Criminology, Criminology.
- **Dentistry** – also: Oral Health Science
- **Business Studies** – also offered as Business Studies & Economics, Business Studies & Politics and Business Studies & Sociology. Also: International Business, Finance and Economics within Manchester Business School (MBS).
- **Criminology** – offered as a BA course within the School of Law or as BA(SocSci) Philosophy and Criminology, BA(SocSci) Social Anthropology and Criminology , BA(SocSci) Sociology and Criminology or BA (Econ) Economics and Criminology.
- **Forensic Science** – while we don't offer a strict Forensics course, we do offer a degree in Chemistry with Forensic Science and Analytical Chemistry.
- **Management** – offered with options in areas such as Accounting & Finance, Human Resources, IT and more. International Management courses are available with a year abroad, studying at a partner institution.
- **Film Studies** – while we do not offer a Film Studies programme, you can study Screen Studies alongside either Drama, English Language or Linguistics.
- **Performing Arts** – many Performing Arts students will be interested in our Drama programmes. However, they must be made aware that this degree is 2/3 theory, as many will be looking for more practical programmes that involve dance, music and drama.
- **Information Technology** – Computer Science and Informatics degrees normally require Maths A-Level, which can surprise many students.
- **Fashion** – while we don't offer a Fashion degree, we do offer variants of this including Textile Design, Fashion Retailing and Fashion Management.
- **Art & Design** – while we don't offer Art & Design courses, we do offer degrees in History of Art as well as Architecture.
- **Sports Science** – while we don't offer Sports Science, we do offer Management and Leisure.
- **Journalism** – most students looking for a career in journalism study English or Politics. However, journalists can study any general degree and then study for post-graduate or professional qualifications specific to journalism.

www.manchester.ac.uk/undergraduate/courses

KEY PROMOTIONAL MESSAGES ABOUT THE UNIVERSITY OF MANCHESTER

Academic quality and league tables

- The University remains committed to its aim of being one of the worlds top 25 universities by 2020.
- In the Shanghai Jiao-Tong University (SJTU) 2013 rankings, Manchester is placed 41st in the world, 14 places higher than when the University was established via the merger in 2004. .

Thriving, student friendly city

- The University of Manchester, MMU and Salford University make the largest concentration of students in Europe, with over 85,000 students
- Affordable – rent, transport and general cost of living significantly cheaper than London and South East England. Ranked 3rd cheapest student city in the UK according to the NatWest Student Living Index 2010. (no updated figures at time of production.)
- Plenty to do – 164 clubs, 500 bars / pubs, 56 galleries / museums, 3 orchestras, many music venues, and a range of shopping from Harvey Nichols to Affleck's Palace.
- Multi-cultural, international city and university – students from over 180 countries

Employability and our careers service

- 92% of our graduates go straight into employment or further study
- The University of Manchester is consistency targeted by the UKs "Top 100 Graduate Employers" (Source: High Fliers Research)
- Over 3,500 recruiters advertised jobs through our University Careers Service
- 570 separate recruiters/organisations have taken part in campus presentations, workshops and mentoring programmes during the 2011/12 academic year. More graduate employers come to our campus than any other higher education institution in this country
- Our Careers Service supports students looking for part-time work, volunteering opportunities, placements, internships and other work experience. It can help you plan your career pathway, and offers practical skills-development courses, one-to one guidance workshops and mentoring.

Accommodation guarantee

- University accommodation is guaranteed for all first-year students irrespective of how close they live to The University – this offer is extended for the duration of study for all international students coming to University alone (without family members etc). This is a great way to meet people when you first arrive.
- The accommodation on offer ranges from traditional to modern, en-suite, catered or self-catered, mixed or single sex, 60 students per hall to 1500.
- Manchester Student Homes – a joint bureau between The University of Manchester and MMU which regulates private student housing www.manchesterstudenthomes.com
- Plentiful supply of good quality, cheap private sector accommodation.

The Campus

- The single site Main Campus includes all academic schools, the Students' Union, the John Rylands University Library etc
- Three residential campuses: City Halls, Victoria Park Halls and the Fallowfield Campus

Academic resources

- The University of Manchester Library is the third largest in the country after Oxbridge and the largest single site University library in the country. The University of Manchester Library also offers *My Learning Essentials*: a comprehensive programme of online resources, workshops and skills clinics designed to help you to develop your academic and employability skills

Thousands of network points for PCs on campus / in halls and free internet access. The Alan Gilbert Learning Commons boasts more than 1000 flexible study spaces, 400 PCs, laptop charging lockers, 30 bookable group study rooms, Skype area and media screens for presentation and group work.

Part-time work

- Campus jobs and jobs within the city are readily available.
- The Careers Service runs a net-based agency to help with this.

Student services

- Sources of support within Schools, Halls, and via the Students' Union
- Personal tutors, Hall Tutors.
- Counseling Service, Nightline
- Student Services Centre – central point for all administrative tasks while you are a student.

Sports facilities

- Armitage Centre in Fallowfield.
- Sugden Centre on campus.
- The Aquatics Centre (used in 2002 Commonwealth Games). Student Discounts are available here making it excellent value.
- Athletics Union – 43 clubs and 2,500 members

Transport links

- Oxford Road / Wilmslow Road corridor – busiest route in Europe. Unlimited weekly travel available for just £8 per week.
- Ease of travel (rail, bus, tram) both from within and beyond the north west to Manchester. Airport just outside of city, easily accessible by train in just 20 minutes.

Student Finance

What are Manchester's fees?

Manchester has set fees of £9000 for all of its courses – advise students to look at our web pages for student finance information www.manchester.ac.uk/undergraduate/studentfinance

•Students will not have to pay up front for their tuition fees; the cost of tuition will be paid by a loan, which students will only start to repay once they have left their course and are earning more than £21,000 per annum – students can visit www.direct.gov.uk/studentfinance for more information on student loans and how to apply

International Students

Fees vary for different courses; suggest students check the course profiles on the website www.manchester.ac.uk/undergraduate/courses

What sort of financial support could I receive?

Full-time UK/EU students may be entitled to receive a grant towards living costs, with loans for living costs available for all eligible full time students. From 2012 loans for tuition will be extended to eligible part-time first-degree students. For full details, applicants should check the website. They may also be able to apply for a University bursary or scholarship.

Will there be funding from The University of Manchester?

There is funding available for eligible students - see www.manchester.ac.uk/studentfinance for more details

The latest updates on fees and financial support, will be put on the following web page: www.manchester.ac.uk/studentfinance

Students can also look at the government website: www.direct.gov.uk/studentfinance

Research Assessment Exercise (RAE) 2008

The [results of the 2008 Research Assessment Exercise \(RAE\)](#) confirmed that The University of Manchester had broken the 'Golden Triangle' of research universities traditionally dominated by Oxford, Cambridge and London, and is well on the way to becoming one of the top universities in the world by 2020. 2008 was the last time that this assessment was conducted. RAE will change to the Research Excellence Framework (REF) in 2014.

The RAE measures the quality of research conducted in universities and other higher education institutions in the UK against international standards of excellence and enables the higher education funding bodies to distribute public funds on the basis of quality. These funds will allow us to continue to recruit the best research staff and students, carry on building strong links with industrial and research partners, and sustain investment in our facilities.

65% of research activity, amounting to 1,194 full-time equivalent staff at The University of Manchester, is judged to be 'world-leading' (4*) or 'internationally excellent' (3*), putting us among only a handful of universities with an internationally significant research profile over a wide range of subject areas.

The University of Manchester submitted research in 53 Units of Assessment, more than any other university in the UK, and the quality profile across the board has been astounding.

The benefits of a degree - information from our careers service

- ❖ Average **graduate** starting salary in 2012 ranged between £18,345 and £22,535 (DLHE), £29,000(AGR median salary)

- ❖ DLHE is the Destination of Graduate Leavers in HE, so a much more representative figure. AGR is the Association of Graduate Recruiters – these are the more prestigious/competitive graduate training schemes, thus reflecting the higher salaries.
- ❖ People with degrees earned an average of £12,000 a year more than non-graduates over the past decade, statistics show. The mid-point salary of graduates aged 22 to 64 was £29,900, compared with £17,800 for non-degree holders. *Office for National Statistics*

- ❖ (This statistic recently emerged in the press, so can be quoted)
- ❖ Graduates are better placed in the labour market to apply for senior/management roles
- ❖ Graduates have access to a wider range of opportunities
- ❖ Graduates have access to higher paid jobs

- ❖ Graduates earn on average 65% more than their peers who have only secondary education. *Organisation for Economic Co-operation and Development (OECD)*

- ❖ A degree-level qualification may be a pre-requisite for the career you are interested in (Teaching, Law, Journalism)
- ❖ A degree may allow you to “fast track” within a profession (e.g. the Army, the Police)
- ❖ You might need a degree in a specific subject area for the career you are interested in (Doctor, Dentist, Engineer, Pharmacist, Nurse, Physiotherapist)
- ❖ We live in a “knowledge based economy”
- ❖ The Higher Education experience provides the opportunity to enhance employability skills
- ❖ Over 66% of job vacancies are for graduates of any degree discipline
- ❖ Graduates from vocational degrees are not tied to a specific job area
- ❖ For many employers academic discipline is irrelevant - personal qualities and transferable skills more important.

- ❖ From the High Fliers “The Graduate Market in 2013” report:
- ❖ The ten universities most-often targeted by Britain’s top graduate employers in 2012- 2013 are Warwick, Nottingham, Manchester, Cambridge, Bristol, Durham, Oxford, Birmingham, Bath and Leeds. “The University of Manchester is consistently targeted by the UK’s *Top 100 Graduate Employers*” (Source – High Fliers Research)

The Manchester Factor

- ❖ In the QS World University rankings, Manchester came in equal top in the world in the “Employer Opinion” category* (alongside Harvard, Oxford, Cambridge...)
- ❖ University of Manchester is the most targeted university by top recruiters in the UK
- ❖ Careers Service has consistently been voted the best in the country in surveys of graduate recruiters
- ❖ Over 500 graduate jobs, internships and part-time roles are advertised each month on our website
- ❖ Over 3,500 recruiters have advertised jobs through the Careers Service
- ❖ Over 480 exhibitors attended our 2011/12 careers fairs, one of the biggest fairs programmes in Europe attracting over 20.000 students and recent graduates.
- ❖ 570 separate recruiters/organisations took part in campus presentations, workshops and mentoring programmes during the 2011/12 academic year.
- ❖ We placed over 160 students and graduates in paid internships via our Manchester Graduate and Students Summer Internship Programmes.
- ❖ 92% of our graduates go straight into employment or further study.
- ❖ The Careers Service organise Subject/Sector specific talks/events (e.g. the Language Careers Event, Get into Teaching event)
- ❖ We advertised 7500+ job opportunities in the last academic year (currently have over 1300 “live” vacancies – Nov 2013)

- ❖ Students have access to business/industry mentors through our Manchester Gold mentoring programme
- ❖ Students have access to over 6600 Employers/organisations through *CareersLink*

Study abroad as part of your Manchester degree!

Studying abroad is an excellent opportunity to see the world, experience new cultures and study at one of Manchester's world-class partner institutions.

The University of Manchester has a large number of overseas exchange partners both in Europe and further afield.

Why study abroad?

There are many benefits to studying abroad:

It's the opportunity of a lifetime

It helps you grow as a person

It gives you a new perspective on your subject area and on higher education

It helps you in the job market

It broadens your horizons

It's the best way to improve your language skills

If you are looking for a degree programme with a built-in period abroad, choose a course with an additional compulsory full academic year abroad, eg 'with language' courses, 'with study in North America' or 'with International Study' courses.

In addition, most of our other undergraduate courses allow you to participate in the Study Abroad Programme and spend time, usually a semester, at one of our partner institutions outside the UK.

In a small number of cases, degrees are structured or accredited by an external body in such a way that makes it almost impossible for students to go abroad (eg Electrical Engineering).

You should check with the relevant undergraduate office whether or not studying abroad is an option for you.

Study abroad periods are available either in the second year of a three-year course, or in the third year of a four-year course.

Most students apply in their first year for a semester abroad in their second year.

Manchester Business School have their own International Office and run separate international exchange programmes with a different portfolio of partners. www.mbs.ac.uk/programmes/undergraduate/international-exchange/

Students interested in language degree courses can find further information about the different opportunities offered to them by referring to the School of Arts, Languages and Cultures Residence Abroad webpage:

<http://www.alc.manchester.ac.uk/subjects/languages/residenceabroad/>

Where can I go?

The University of Manchester has a large number of overseas exchange partners both in and outside Europe.

European partners

Many Schools at Manchester have subject area to subject area exchanges with European universities (e.g. the School of Geography in Manchester has a link with the School of Geography in the Universidad de Granada in Spain).

These agreements are known as Erasmus exchanges. Programmes in Europe are supported by the Commission of the European Communities within the framework of the Lifelong Learning Erasmus Programme.

Where you can go will depend on the links established by your particular subject area.

Countries include;

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Malta, Netherlands, Poland, Portugal, Spain, Sweden, Switzerland, Turkey

Worldwide partners

The University has many Worldwide (outside of Europe) exchange partners.

The majority of these are not subject-specific and are open to students from most subject areas across the University.

Countries include;

Argentina, Australia, Brazil, Canada, Chile, China, Hong Kong, Japan, Korea, Mexico, New Zealand, Singapore, Taiwan, Uruguay, USA

For further information please visit the Study Abroad Website –

<http://www.manchester.ac.uk/undergraduate/courses/studyabroad/>

Or contact Sarah Street, Study Abroad Adviser – 0161 275 3053; goabroad@manchester.ac.uk

HIGHER EDUCATION LIAISON OFFICERS ASSOCIATION CODE OF PRACTICE

All Institutions in membership of the Higher Education Liaison Officers Association will endeavour to ensure that those giving information and guidance on their behalf to all potential applicants to Higher Education, their families and advisers, honour this Code of Practice.

All individual members of HELOA undertake to:

- 1 Maintain the highest standard of professionalism in their work;
- 2 Keep abreast of the trends and developments in Higher Education;
- 3 Offer information, advice and guidance effectively and with integrity to assist potential applicants in making informed choices of course and institution;
- 4 Normally be willing to provide Institutional information on:-
 - The range of courses and their content, structure, teaching and assessment methods
 - The normal entry requirements and application procedures
 - Fees, bursaries, scholarships and other forms of financial support (*including an awareness of cross-border fees and funding*)
 - Understanding and making use of Key Information Sets (KIS)
 - Basic explanations of National Student Survey (NSS) results and meanings
 - Applications and admissions statistics for previous years
 - Advice for students with special needs
 - Career opportunities and typical first job destination data for recent graduates
 - The types, location, facilities and costs of accommodation both owned by the Institution and in the private sector
 - The range of student support facilities
 - The range of student social and sporting facilities
 - Any alternative sources of independent information about the Institution
- 5 Use promotional materials which are believed to provide a balanced view of the Institution, the courses offered and the facilities;
- 6 Exhibitors should not give out materials or engage with students in aisles or other public areas of an event, or in a way which distracts visitors from other exhibitions. Equally, an organisation's materials or staff should not be permitted to obscure other stands at recruitment events;
- 7 Provide advice free of charge to all enquirers;
- 8 Only attend Higher Education conventions and other events in the United Kingdom where:-
 - Visitors can attend free of charge
 - No prohibitive or exclusive charge is imposed on Institutions in membership of HELOA to participate
- 9 Maintain a commitment to develop themselves and other staff within members' Institutions in order to effectively discharge the requirements of this Code of Practice;
- 10 HELOA members will maintain an awareness of the environmental impact of their work and seek to minimise this where possible;
- 11 HELOA advocates the responsible collection of data from potential students including the safe storage of personal details and adherence to the Data Protection Act (1998);
- 12 Uphold the good name of the Association at all times, to promote the brand values of the Association through the effective delivery of day-to-day role and to seek to raise the profile of HELOA with stakeholders and key audiences.

This document was updated and agreed at the 2012 AGM of HELOA

UCAS Code	N400
School	Manchester Business School
Email	ug-mbs@mbs.ac.uk
Phone	+44 (0)161 306 3425/3095
Places/Applicants	283 applications for 42 places (2013 entry)

Qualifications Accepted

GCSE	GCSE Mathematics - minimum grade A. GCSE English Language - minimum grade B
A level	AAA (General Studies, Critical Thinking and Use of Mathematics A Level are not accepted)
International Baccalaureate	37 points with 6, 6, 6 in higher level subjects. You must have studied Maths at standard level with no less than SL 6 (we do not accept Maths Studies).
Scottish Highers	Two Scottish Highers are accepted in combination with two different Advanced Highers.
Scottish Advanced Highers	AAA at Advanced Higher; or two Advanced Highers (AA) plus two Highers (AA).
Irish Certificate	Grades A1A1A1B1 at Higher Level plus one other subject at Higher Level.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma (formerly the BTEC National Diploma) with a minimum of 150 credits awarded at Distinction and the remaining 30 credits at Merit.
English Language Requirement	Academic IELTS 6.5 overall, with no less than 6 in any component. Academic TOEFL 90 points overall (in the internet-based test), with no less than 20 in any component. Cambridge Certificate in Advanced English (CAE) grade C or above.
Access to HE	60 credits are required with 45 at Level 3 with Distinction. Where GCSE Mathematics is not at grade A. Please email the school: ug-mbs@manchester.ac.uk for further information. In addition, applicants should have GCSE in English Language at grade B or IELTS 6.5 with no component below 6, or equivalent. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	We do not as a rule interview applicants. However, we reserve the right to interview candidates with non-standard backgrounds, eg. Mature students and students aged under 17.
Scholarship Information	The Manchester Bursary is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has had a full financial assessment carried out by Student Finance. This bursary is additional to the government package of maintenance grants. Visit our student finance pages for more detailed information. In addition to this support, Manchester Business School hopes to award five Undergraduate Scholarships for Social Responsibility worth £2,000 p.a. across three years of study to UK students achieving AAA at A-level (or equivalent) who are able to demonstrate a significant contribution and commitment to social responsibility. We will also be awarding this scholarship to an international student.
Career Outcome	This course is designed primarily for those interested in a career in the accounting profession and will grant you significant exemptions from the professional examinations of the main UK accounting bodies. If you successfully complete the work placement year, you will gain relevant experience with a high-calibre UK accounting firm. A work placement enhances your academic and career prospects - 71% of placement students achieve first or upper second degrees and earning potential increases by 16% (HEFCE 2010). Our first cohort of Accounting students graduated in 2012 and are extremely well-placed to pursue careers in chartered accountancy. An integral part of the course involves building your commercial awareness, confidence and employability through workshops with the likes of Accenture, Deloitte and PricewaterhouseCoopers. Business mentors from BDO, Ernst & Young, Grant Thornton and KPMG provide guidance throughout the course.

Accounting and Finance (3 Years) [BAEcon]

UCAS Code	NN43
School	School of Social Sciences
Email	socialsciences@manchester.ac.uk
Phone	+44 (0)161 275 1473
Places/Applicants	In 2012 there were approximately 1250 applications for 135 places on the Accounting and Finance pathways of the BA(Hons) Economic and Social Studies course.

Qualifications Accepted

GCSE	Minimum grade C in English Language and grade B in Mathematics.
A level	AAB. Applicants must be studying at least one of the following A Level subjects: Accounting, Anthropology, Business Studies, Classics, Economics, English Language/Literature, Further Mathematics, Geography, History, Law, Mathematics, Modern Languages, Philosophy, Politics, Psychology, Religious Studies, Sociology, Use of Mathematics and World Development. General Studies and Critical Thinking are not accepted for entry. Native Language A-Levels will be accepted as part of a typical offer. Applicants re-sitting their A-Levels may have their offer increased by one grade, for example from AAB to AAA.
International Baccalaureate	35 points overall. 6,6,5 at Higher Level. No lower than 5 in any subject.
Scottish Highers	AAABB
Scottish Advanced Highers	AAB
Irish Certificate	We would expect applicants to achieve four subjects at A2 and one subject at B2 in the Irish Leaving Certificate Higher Level qualification.
BTEC Diploma (18 Units)	The University welcomes applicants studying the BTEC Extended Diploma/Diploma in Business and related areas.
English Language Requirement	All applicants are expected to have a minimum of grade C in GCSE English Language or equivalent. For international students equivalent qualifications would be: IELTS of 6.5 overall with no lower than 6 in any component.
Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions'. For further information please contact Tom McCunnie at tom.mccunnie@manchester.ac.uk

Application & Selection

Interview Details	N/A
Scholarship Information	The University of Manchester offers a range of Scholarships and Bursaries to Home/EU students including the Manchester Bursary, which is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has had a full financial assessment carried out by Student Finance.
Career Outcome	The BA(Hons) Economic and Social Studies programme and the Accounting and Finance pathway in particular would give you the skills and knowledge that you need to be able to succeed in the future. With 85% of our recent graduates in work or further study six months after they graduate and 80% of those working, in professional or managerial roles (source: Unistats) our graduates have an excellent reputation for employability. Graduates from Accounting and Finance are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what recent graduates from the BA(Econ) have gone on to do are (Source: DLHE): Accountancy and Professional Services Our students are regularly recruited by the 'Big Four' accounting firms - Ernst and Young, KPMG, Deloitte, Pricewaterhouse Coopers - as well as other graduate level employers such as Grant Thornton and BDO. Finance and Banking Our recent graduates have gone on to work for Lloyds banking group, Royal Bank of Scotland, Santander, Credit Suisse, JP Morgan Chase, Morgan Stanley, Barclays, Bank of New York and Deutsche Bank. Government Our students have gone on to work for both local government and central government departments such as: HM Treasury, FSA, Ministry of Justice, HMRC and the NHS Other Areas Our students have also gone on to work for a wide range of companies including the BBC, Marks and Spencer, Tesco, BT, BAE Systems, Thomson Reuters, Accenture and the Cooperative.

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	We typically accept the following results at GCE A level: A* (Mathematics) AA - A (Mathematics) AA. We do not accept General Studies A level.
International Baccalaureate	37 points overall including 18 points at Higher Level. Higher Level points must include 6 in Mathematics.
Scottish Highers	Grades AAAAA which must include Advanced Highers in Mathematics at grade A.
Scottish Advanced Highers	Grade A in Mathematics plus grades AA
Irish Certificate	Grades AAAAB at Higher Level, including grade A1 in Mathematics.
BTEC Diploma (18 Units)	We will typically accept a BTEC Level 3 Subsidiary Diploma at grade D* in place of a non-mathematical A-level at grade A (see A-level entry requirements).
English Language Requirement	All entrants must have a recognised English language qualification, such as GCSE English Language at grade C or better, IELTS with an overall score of at least 6.5 (including a Writing score of at least 6.0 and no other component less than 5.5) or equivalent.
Access to HE	Applications are considered on an individual basis. As well as QAA's normal requirements for diploma applicants, which are 60 (10 hour) credits with 45 at level 3 and the remainder at level 2, the School of Mathematics requires that the level 3 programme must include seven specific Mathematics units, or their equivalent; please contact the University for further information.

Application & Selection

Interview Details	An interview forms a significant part of the admission criteria for the majority of our applicants.
Scholarship Information	The School of Mathematics offers scholarships for academically excellent students from the UK and around the world; contact the School for more details.
Career Outcome	The study of Mathematics develops skills and knowledge which are of value in a wide variety of professions. A Mathematics degree is a good preparation for any area of employment requiring people who can think clearly and logically. The main areas of employment are finance, industry, computing (including operational research), management, administration, statistics, teaching (schools and colleges) and postgraduate study. Many of our graduates have pursued careers in finance in firms including KPMG, Goldman Sachs, PricewaterhouseCoopers, Deloitte, Barclays and Deutsche Bank. A substantial number of previous graduates have undertaken further programmes of study such as MSc in Maths, Applied Maths, Finance, Business, Management and Computer Science. Some have gone on to train as teachers. The School of Maths puts significant emphasis on careers and holds a number of events throughout the year. These include a programme of peer assisted interviewer training to prepare students for entering the graduate recruitment market. We also host the annual Calculating Careers Fair. This takes place in early October each year and is attended by a large number of international graduate recruiters. Previous attendees have included Amazon, Amec, Barclays, BP, BT, Credit Suisse, GCHQ, IBM, PricewaterhouseCoopers, RBS, Teach First and Deloitte. This fair is a great opportunity for students to network with a number of graduate employers early in their academic careers.

Aerospace Engineering (3 Years) [BEng]

UCAS Code	H400
School	School of Mechanical, Aerospace and Civil Engineering
Email	ug-mace@manchester.ac.uk
Phone	+44 (0)161 306 9210
Places/Applicants	N/A

Qualifications Accepted

GCSE	N/A
A level	Grades AAB which should include Mathematics and Physics plus one other subject. If Physics is not offered Maths must include substantive applied/mechanical elements (Modules M1 and M2). Two AS-levels of equivalent grade are acceptable in place of a third A-level. General Studies is not accepted.
International Baccalaureate	35 points, including Maths and Physics at Higher Level.
Scottish Highers	N/A
Scottish Advanced Highers	AAA/AAB in Advanced Highers including Mathematics and preferably Physics - two Highers can be accepted in place of one Advanced Higher.
Irish Certificate	Irish Higher grades AAAAB to include AAA in Mathematics, Applied Mathematics and Physics.
BTEC Diploma (18 Units)	DDM and A level Maths at grade A.
English Language Requirement	Minimum grade C in English Language; IELTS 6.0 (with no component less than 5.5); TOEFL 550/220 computer -based or 80 internet-based with a minimum of 20 in each component
Access to HE	Applications from students studying for this qualification are welcome and all such applicants will be considered on an individual basis. QAA's normal requirements for diploma applicants are 60 (10-hour) credits with 45 at level 3 and the remainder at level 2. Mathematics A-level at grade A will also be required.

Application & Selection

Interview Details	We do not hold interviews but UK-based applicants who receive an offer will be invited to a Visit Day, which generally take place on Wednesday afternoons from November - March. This is an opportunity to visit the School and our facilities and includes a lab tour with current first year students.
Scholarship Information	For more information about scholarships and bursaries please see our undergraduate fees pages or visit the scholarships and bursaries on the School website.
Career Outcome	Graduates are equipped to enter the global aerospace and defence industries, or continue on to postgraduate study. The enormous range of career opportunities reflects the diverse and multidisciplinary nature of the aerospace sector. Acquiring high levels of attainment in transferable skills such as simulation, problem solving, design, management and modelling enables graduates to adapt to new challenges and offers broad insight into engineering solutions. You can become a research engineer, discovering new ideas; a design engineer, with creativity and imagination; a construction or production engineer, making products or systems; or a project manager, controlling complex products and constructions. The excitement is that you are unlikely to do the same thing day in and day out. Our graduates are increasingly sought after for positions in the business, management and financial arenas.

American Studies (3 Years) [BA]

UCAS Code	T701
School	School of Arts, Languages and Cultures
Email	ug-eac@manchester.ac.uk
Phone	+44 (0)161 275 3107
Places/Applicants	25 / 170

Qualifications Accepted

GCSE	Minimum of grade C in English and Maths.
A level	Grades ABB to include either English Literature or History. General Studies is welcomed but not normally included as part of the standard offer. AS-levels are not accepted in place of an A-level. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	34 points overall (core points accepted), including 6 points in English or History at Higher level, PLUS grade 6 or 5 in a further two subjects at higher level.
Scottish Highers	Grades AABBB, taken at one sitting: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades ABB including either English or History.
Irish Certificate	A2B1B2B2B2 at Higher Level, to include either English Lit or History.
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 110 credits at Merit and 10 credits at Pass or above, PLUS A-level Grade B in History or English Literature.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79. TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade (it is preferred that this should be in either History, or Eng Lit, or Eng Lang & Lit), plus minimum of 24 credits with a Merit grade in a Humanities-related subject. Applicants must have GCSEs in English (at grade B or higher). We also consider other factors such as additional educational achievements, life experience and skills on an individual basis. The number of applicants that are studying towards the Access to Higher Education course are increasing each year for this degree programme. we have therefore put in place a selection process whereby applications are evaluated on an individual basis and are processed in four stages. 1. The UCAS application including the whole educational profile, references and personal statement are evaluated for potential suitability for the degree programme. 2. In March up to date academic references are sought and successful candidates will also be asked to submit no more than two A4 sides of a handwritten assignment on a piece of literature they have read. This could be a piece of marked course work produced during the Access Course. 3. On receipt of up to date references and evaluation of assignment submitted, applicants will at this stage be shortlisted for interview. 4. The interview is informal and you may be asked questions on the piece of work submitted and is primarily to evaluate your suitability for the degree programme. Candidates will be informed of the outcome within a few days.

Application & Selection

Interview Details	We only interview students studying alternative qualifications to the A level syllabus, for example students studying Access courses and students that may have been out of education for some time.
Scholarship Information	N/A
Career Outcome	Graduates of English, American Studies and Creative Writing enjoy career opportunities in a wide range of professions. The question to ask is less 'which jobs does a degree in English and American Studies allow me to do?' than 'which jobs doesn't such a degree allow me to do?' 'Traditional' careers in publishing, journalism, the media, teaching, the civil service and librarianship are still followed. But our surveys of recent graduates have revealed that our students also pursue an impressive variety of careers in such fields as law, banking, fashion, advertising, accountancy, business management, commerce, the new media, computing and archive studies. Studying English, American Studies and Creative Writing helps to develop versatile skills that include: the ability to manage one's time effectively, to communicate ideas clearly in spoken and written forms, to articulate a knowledge of concepts and theories, and to work and to think independently, critically and creatively.
Link to Course	http://www.manchester.ac.uk/undergraduate/courses/search2015/atoz/00166/

Anatomical Sciences (3 Years) [BSc]

UCAS Code	B110
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	For information on the range of career options available to graduates of Life Sciences courses please see the Faculty of Life ScienceCareers page. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. A proportion of Anatomical Sciences graduates chose to move on to careers in the healthcare sector e.g. allied health professions such as physiotherapy and medicine, most of which require further study. These programmes require demonstration of significant work experience to gain a place on their course. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Recent graduates of Anatomical Sciences have secured roles as: • Scientific Research Assistant at a university • Secondary Science Teacher • Medical Laboratory Assistant for the NHS • Cardiac Physiologist for the NHS • Senior Research Assistant at a biotechnology company • Clinical Physiologist for the NHS
Link to Course	http://www.manchester.ac.uk/undergraduate/courses/search2015/atoz/00514/

Anatomical Sciences with a Modern Language (4 Years) [BSc]

UCAS Code	B114
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: • French: an A-Level in French (grade B) or equivalent is required. • German: an A-Level in German (grade B) or equivalent is required. • Spanish: an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. • Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Scholarship Information	N/A
Career Outcome	For information on the range of career options available to graduates of Life Sciences courses please see the Faculty of Life Sciences Careers page. Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. A proportion of Anatomical Sciences graduates chose to move on to careers in the healthcare sector e.g. allied health professions such as physiotherapy and medicine, most of which require further study. These programmes require demonstration of significant work experience to gain a place on their course. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Recent graduates of Anatomical Sciences have secured roles as: • Scientific Research Assistant at a university • Secondary Science Teacher • Medical Laboratory Assistant for the NHS • Cardiac Physiologist for the NHS • Senior Research Assistant at a biotechnology company • Clinical Physiologist for the NHS

Ancient History (3 Years) [BA]

UCAS Code	V110
School	School of Arts, Languages and Cultures
Email	ug-classics@manchester.ac.uk
Phone	+44 (0)161 306 1252
Places/Applicants	45 / 300

Qualifications Accepted

GCSE	English Language at minimum of grade C.
A level	Grades ABB-BBB. Two AS-levels accepted in place of one A-level. General Studies is welcomed but not normally included as part of the standard offer.
International Baccalaureate	34-31 points overall (core points accepted), to include 5 or 6 at Higher level in three subjects.
Scottish Highers	Grades AABBB-BBBBB: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades ABB-BBB
Irish Certificate	A2B1B2B2B2 - B2B2B2B2B2 at Higher Level.
BTEC Diploma (18 Units)	BTEC Extended Diploma with a minimum of 70 credits awarded at Distinction, 100 at Merit and the remaining 10 credits at Pass or above.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100. For further details see the University guidance on English Language.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade, plus minimum of 24 credits with a Merit grade. All credits should be in a Humanities-related subject.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	Further Study Our undergraduate degrees provide a solid base for further study at postgraduate level. The department has a thriving postgraduate community, with an intake of, on average, about 13 MA students and 6 PhD students per year. They are an integral and vibrant constituent of our academic community and a weekly staff/postgraduate lunch offers a social complement to the research interaction fostered by our weekly seminar series. A number of our own undergraduates opt to stay on at Manchester to study at MA level, but we also receive applications from other universities throughout the UK and internationally, both at MA and PhD level. In addition, a number of our graduates have gained postgraduate places at other universities, including Stanford and Oxbridge. Skills Classics and Ancient History graduates can offer prospective employers an enviable range of transferable skills. These include logical thinking; good communication skills, both written and oral; interpreting, assessing and evaluating sources; proposing ideas and theories; leading and participating in discussions; working independently and to deadlines and an understanding of different cultures and societies. For example, any history, literature or cultural module will encourage the understanding of a range of viewpoints and critical approaches. Essay writing strengthens skills in gathering, memorising, organising and deploying information, while private study/research processes assist the skills involved in extracting key elements from data and identifying/solving problems. Our students will participate in a number of different types of work and assessment, including written essays, oral presentations, language modules and small group work. These enable them to gain practice in presenting material orally and in writing and in working with others. They also learn how to work under pressure, meet deadlines, assimilate contradictory data and balance competing pressures. Careers Advice Manchester is fortunate in possessing an award-winning careers service which can offer advice to meet the specific requirements of our students and their degree programmes. Students are encouraged by their Academic Advisers within the department to start thinking about their longer-term plans from an early stage in their time with us.

Qualifications Accepted

GCSE	Minimum of grade C in English and Mathematics.
A level	Grades ABB-BBB not incl Gen Studs. Two AS-levels may be accepted in place of one A-level.
International Baccalaureate	34-31 points overall (core points accepted), including 6, 6, 5 at Higher level.
Scottish Highers	Grades AABBB-BBBBB: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades ABB-BBB.
Irish Certificate	A2B1B2B2B2 - B2B2B2B2B2 at Higher Level.
BTEC Diploma (18 Units)	BTEC Extended Diploma in a humanities or related subject, with a minimum of 70 credits awarded at Distinction, 100 at Merit and the remaining 10 credits at Pass or above.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100. For further details see the University guidance on English Language.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade, plus minimum of 24 credits with a Merit grade. All credits should be in a Humanities-related subject.

Application & Selection

Interview Details	We don't normally interview for this degree, except in the case of mature applicants. In considering your application, all the information on the UCAS form is taken into account, particular attention being paid to academic qualifications and predictions, to your referee's confidential report, and to your personal statement.
Scholarship Information	N/A
Career Outcome	90% of single and joint honours Archaeology graduates are in employment or further study within six months of graduation (source: Unistats 2012). Archaeology is a very popular single or joint honours degree subject that can lead to a variety of careers. The wide range of skills you acquire throughout your degree are valued by universities and employers alike, and will place you in an excellent position to pursue either a postgraduate education/training or directly enter the employment market. Further study: Of the 15% of our graduates who continue onto postgraduate courses or training, some pursue a career within archaeology or related disciplines (e.g. museology, cultural heritage, government) - and many choose to continue their education at Manchester. However, the majority of students undertake training or gain a qualification to enter an alternative profession (e.g. law, accountancy, teaching, management, business). Universities our graduates have gone to were carefully chosen because of their specific career training and include University College London, University of Sheffield, University of York, University of Newcastle, University of Leicester, University of Wales in Cardiff. Employment: For those graduates who enter employment directly, many seek out work in the heritage industry (e.g. museums, galleries, government, English Heritage, commercial archaeology). However, the majority follow alternative career trajectories leading to employment in, for example, media, politics, health, military/police, administration, consulting, and banking. An Archaeology degree is very attractive to employers because of its mix of humanities and sciences. In addition to communication, numeracy, time management, and project management skills, Archaeology students are particularly valued for their interpersonal skills (such as team working and problem solving acquired during fieldwork or group work projects) as well as their cultural, social and ethical awareness. Employment roles and employers: - Archaeology-related employment roles of recent graduates include: - General Manager for Tutankhamun and Cleopatra travelling exhibitions - Assistant Curator at the Bolton Museum - Alternative professional roles of recent graduates include: - engineer, insurance broker, trainee chartered accountant, junior broker, banking advisor - Well-known companies and institutions where recent graduates have found employment range from consultancy, finance, health to public services. They include Morris Hargreaves McIntyre Consultancy; Al Mare Consulting; Ernst & Young LLP; RBS; Lloyds Bank; Barclays Bank; Nationwide; NHS; and various Councils across Britain.

Places/Applicants	140/1200

Qualifications Accepted

GCSE	N/A
A level	Grades AAA. Mixture of science/maths and humanities/arts subjects preferred. Many candidates offer Art/Art related A levels - but it is not essential. Applicants often mix arts and science subjects such as Art, Maths and a language, but Maths, Physics and Chemistry is perfectly acceptable, as would be History, English and Religious Studies. However, candidates who combine, for example, Fine Art & Design and Technology for two of their three A Levels or who offer sports-science or similar put themselves at a disadvantage. General Studies is welcomed but not normally included as part of the standard offer. Two AS-levels may be accepted in place of one A-level.
International Baccalaureate	Award of the Diploma with a minimum of 36 points.
Scottish Highers	Grades A, A, B, B, B.
Scottish Advanced Highers	Grades A, B, B.
Irish Certificate	Grades A1, A1, A1, A1 at Highers. Other combination of grades will also be considered.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in either Humanities or Science subjects with a minimum of 150 credits awarded at Distinction and the remaining 30 credits at Merit. A BTEC Extended Diploma in Art & Design on its own will not be considered as meeting our entry requirements.
English Language Requirement	Students whose first language or language of instruction is not English will be asked to provide evidence of fluency in English by achieving scores in English Language Tests as follows: An overall score of 6.5 at IELTS, with 6.5 in writing and no other su
Access to HE	Access to HE Diplomas in Humanities/Science subjects will be considered acceptable. Overall 60 credits are required with 45 at level 3. Minimum of 30 credits at Distinction and 30 credits at Merit. GCSE in English Language and Mathematics at Grade C or above are also required. Applicants will have to demonstrate their creative and visual awareness by the submission of a digital portfolio (via a blog) on request. We also consider other factors, such as other educational achievements, life experience and skills on an individual basis.

GCSE	Five academic subjects at grades A and B, including Mathematics and two science subjects from Computer Science, Physics, Chemistry, Biology or Science and Additional Science.
A level	Grades AAB including mathematics. General Studies is welcome but is not normally included as part of the standard offer.
International Baccalaureate	35 points overall, with 6,6,6 in Higher Level subjects, including Mathematics.
Scottish Highers	AAAAB, including grade A in Higher Mathematics and a scientific bias to other subjects studied. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Scottish Advanced Highers	AAB, including grade B in Advanced Higher Mathematics and a scientific bias to other subjects studied. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Irish Certificate	Grade A in higher lever mathematics and grades AABBB in five further higher level academic subjects. A scientific bias to the subjects studied.
BTEC Diploma (18 Units)	Grades DMM from a technological diploma partially fulfils entry requirements. Students are also required to have a grade B in A-level mathematics with a pure element.
English Language Requirement	GCSE English Language grade C, IELTS with an overall average of 6 with no lower than 5.5 in any component, Internet Based TOEFL with 87 overall, including 21 in Listening and Writing, 22 in Reading and 23 in Speaking.
Access to HE	Applications are considered on an individual basis, e.g. additional educational achievements, life experience and skills. Please contact the University for further information. Our standard academic requirements include 60 credits with 45 at Level 3. Minimum of 30 credits should be with a Distinction grade (15 of which must be in mathematics), plus 15 credits with a Merit grade in a science-related subject. Students are also required to have a grade B in A-level mathematics with a pure element.

Application & Selection

Interview Details	We currently expect to interview all UK based applicants to whom we are considering making an offer.
Scholarship Information	For further information please visit The University of Manchester scholarships and bursaries page.
Career Outcome	Increasingly, employers are seeking graduates with high-level computing skills, and the ability to apply them in innovative ways to solve the problems facing their organisations. Opportunities exist in fields as diverse as finance, films and games, pharmaceuticals, healthcare, consumer products, and public services - virtually all areas of business and society. Employers, from large multinational firms such as EA Electronic Arts , IBM and Microsoft to small local organisations, actively target our students, recognising that Manchester Computer Science graduates are equipped with the skills that enable them to excel in a whole host of positions, including many that are not traditionally associated with computing graduates.

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include Chemistry and a second 'hard science' Biology, Physics or Maths. You must have a grade A in one of Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of the second hard science. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in Chemistry and one other science at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA - ABB including Chemistry and one other science subject.
Irish Certificate	A1, A1, A1, A1, B1, to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	For information on the range of career options available to graduates of Life Sciences courses please see the Faculty of Life Sciences Careers page . Graduates from Biochemistry go into a range of careers. Around a third choose to work in scientific research and development, which may require significant postgraduate study, usually a PhD. Around two thirds of graduates choose other career options such as teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. Recent graduates have secured roles as: • Journal Development Editor at a scientific publisher • Scientist Practitioner in the NHS • Research Support Technician at a university • Research and Development Scientist for biotechnology company • Lab Assistant for pharmacological research company • Associate Scientist at a pharmaceutical company • Scientific Officer at a Cancer Research Institute

Qualifications Accepted

GCSE	N/A
A level	Grades AAA-ABB. Your subjects should include Chemistry and a second 'hard science' Biology, Physics or Maths. You must have a grade A in one of Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of the second hard science. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer. Additionally each language has specific entry requirements: French: an A-Level in French (grade B) or equivalent is required. German: an A-Level in German (grade B) or equivalent is required. Spanish: an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.

Scholarship Information	N/A
Career Outcome	For information on the range of career options available to graduates of Life Sciences courses please see the Faculty of Life Sciences Careers page. Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Graduates from Biochemistry go into a range of careers. Around a third choose to work in scientific research and development, which may require significant postgraduate study, usually a PhD. Around two thirds of graduates choose other career options such as teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. Biomaterials Science and Tissue Engineering (3 Years) [BSc]

UCAS Code	N/A
School	School of Materials
Email	ug-materials@manchester.ac.uk
Phone	+44 (0)161 306 4630
Places/Applicants	We would typically have 20 - 25 students on this programme.

Qualifications Accepted

GCSE	Minimum grade C in English Language, Science and Mathematics.
A level	Grades AAB. This should include Biology and Chemistry and one other subject, preferably Maths or Physics.
International Baccalaureate	35 points overall with 6,6,5 at higher level, including Biology and Chemistry.
Scottish Highers	N/A
Scottish Advanced Highers	Grades AAB to include Biology and Chemistry plus a third subject (preferably Mathematics or Physics).
Irish Certificate	N/A
BTEC Diploma (18 Units)	Contact us for further information.
English Language Requirement	GCSE grade C, IELTS 6.0 with no subtest below 5.5, TOEFL internet based test score of 80 with no subtest below 20. Cambridge Proficiency in English Grade C, English for Academic Purposes Grade C, Pearsons Test of English 59 with no subtest below 51.
Access to HE	Contact us for further information.

Application & Selection

Interview Details	All applicants are invited to attend an Open Day, at which they will have a brief interview. This is an informal interview and no specific preparation needs to be done for it. For students living overseas, we will arrange a convenient time and date to telephone you (between Monday and Friday, 9am-5pm GMT) to conduct the interview this way, if the costs of attending an Open Day are too high.
Scholarship Information	For information on scholarships go to: http://www.manchester.ac.uk/undergraduate/funding/home/changes/
Career Outcome	Biomaterial Scientists are in demand both in the research environment and technical areas as companies expand their opportunities in a developing healthcare sector. In addition pharmaceutical and medical device industries seek graduates with key skills in this area. Companies our recent graduates have gone to work for include GlaxoSmithKline, Johnson & Johnson, and Biocompatibles UK. Careers include research and development roles, management positions and technical sales within large materials manufacturing or end-users. The range of careers include things as diverse as teaching, engineering, consultancy and technical development roles.

Application & Selection

Interview Details	All applicants are invited to attend an Open Day, at which they will have a brief interview. This is an informal interview and no specific preparation needs to be done for it. For students living overseas, we will arrange a convenient time and date to telephone you (between Monday and Friday, 9am-5pm GMT) to conduct the interview this way, if the costs of attending an Open Day are too high.
Scholarship Information	For information on scholarships available to students entering in 2015 go to http://www.manchester.ac.uk/undergraduate/funding/home/changes/
Career Outcome	Biomaterial Scientists are in demand both in the research environment and technical areas as companies expand their opportunities in a developing healthcare sector. In addition pharmaceutical and medical device industries seek graduates with key skills in this area. Companies our recent graduates have gone to work for include GlaxoSmithKline, Johnson & Johnson, and Biocompatibles UK. Careers include research and development roles, management positions and technical sales within large materials manufacturing or end-users. The range of careers include things as diverse as teaching, engineering, consultancy and technical development roles.

Biomedical Sciences (3 Years) [BSc]

UCAS Code	B940
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Recent graduates have secured roles as: • Lab-based Life Sciences roles: • NHS Fertility Laboratory Assistant • Clinical Trial Assistant for a forensics company • Research Assistant at a university • Medical Laboratory Assistant in a hospital • Science Technician at a school • Scientific Officer at a cancer research institute • Trainee Clinical Scientist for the NHS • Non-lab based science roles: • Medical Writer at medical communications agency • Production Editor at scientific publishing company • Business Development Consultant at a pharmaceuticals marketing company • Science Teacher • Medical Information Officer at pharmaceutical company • Medical Sales representative for a pharmaceutical company

Biomedical Sciences with a Modern Language (4 Years) [BSc]

UCAS Code	B9R9
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: French: an A-Level in French (grade B) or equivalent is required. German: an A-Level in German (grade B) or equivalent is required. Spanish : an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	Considered on an individual basis. Normally Applied Science Diploma, with distinctions in two thirds of units taken.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Lab-based roles of recent graduates: • NHS Fertility Laboratory Assistant • Clinical Trial Assistant for a forensics company • Research Assistant at a university • Medical Laboratory Assistant in a hospital • Science Technician at a school • Scientific Officer at a cancer research institute • Trainee Clinical Scientist for the NHS

Career Outcome	The biotechnology industry plays an essential role in many aspects of the science that affects our everyday lives. Biotechnology graduates from the Faculty of Life Sciences may choose to become a microbiologist in the food industry, a geneticist in the field of medical research, or one of many other possibilities. They are not limited to the biotechnology industries however, and may go into a variety of careers. Recent graduates have secured roles as: • Research technician at a university • Lab Assistant in biotechnology firm • Trainee Science Teacher. • Analyst for an international finance organisation.

Business Studies (3 Years) [BAEcon]

UCAS Code	N100
School	School of Social Sciences
Email	socialsciences@manchester.ac.uk
Phone	+44 (0)161 275 1473
Places/Applicants	In 2012 there were approximately 1300 applications for 105 places on the Business Studies pathways of the BA(Hons) Economic and Social Studies course.

Qualifications Accepted

GCSE	Minimum grade C in English Language and grade B in Mathematics.
A level	AAB. Applicants must be studying at least one of the following A Level subjects: Accounting, Anthropology, Business Studies, Classics, Economics, English Language/Literature, Further Mathematics, Geography, History, Law, Mathematics, Modern Languages, Philosophy, Politics, Psychology, Religious Studies, Sociology, Use of Mathematics and World Development. General Studies and Critical Thinking are not accepted for entry. Native Language A-Levels will be accepted as part of a typical offer. Applicants re-sitting their A-Levels may have their offer increased by one grade, for example from AAB to AAA.
International Baccalaureate	35 points overall. 6,6,5 at Higher Level. No lower than 5 in any subject.
Scottish Highers	AAABB
Scottish Advanced Highers	AAB
Irish Certificate	We would expect applicants to achieve four subjects at A2 and one subject at B2 in the Irish Leaving Certificate Higher Level qualification.
BTEC Diploma (18 Units)	The University welcomes applicants studying the BTEC Extended Diploma/Diploma in Business and related areas.
English Language Requirement	All applicants are expected to have a minimum of grade C in GCSE English Language or equivalent. For international students equivalent qualifications would be: IELTS of 6.5 overall with no lower than 6 in any component.
Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions'.

Application & Selection

Interview Details	N/A
Scholarship Information	The University of Manchester offers a range of Scholarships and Bursaries to Home/EU students including the Manchester Bursary, which is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has had a full financial assessment carried out by Student Finance. This bursary is additional to the government package of maintenance grants.
Career Outcome	The BA(Hons) Economic and Social Studies programme and the Business Studies pathway in particular would give you the skills and knowledge that you need to be able to succeed in the future. With 75% of our recent graduates in work or further study six months after they graduate and 65% of those working, in professional or managerial roles (source: Unistats) our graduates have an excellent reputation for employability.

Cell Biology (3 Years) [BSc]

UCAS Code	C130
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from Cell Biology go into a range of careers. Around a third choose to work in scientific research and development, which may require significant postgraduate study, usually a PhD. Subsequent employers of these students include universities, pharmaceutical and bioscience companies and institutes. Around two thirds of graduates choose other career options such as teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. Life Sciences roles of recent graduates included: Business Development Co-ordinator for biotechnology research company Medical Research Technical Officer for the NHS Business Development Consultant for a biotechnology company Non-Life Sciences roles of recent graduates included: Graduate Trainee Accountant for multinational accountancy firm.

Cell Biology with a Modern Language (4 Years) [BSc]

UCAS Code	C132
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: French: an A-Level in French (grade B) or equivalent is required. German: an A-Level in German (grade B) or equivalent is required. Spanish: an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level. 5 points in Japanese at standard level, or equivalent, is required for the degree with Japanese. For other languages 5 points is required in a language at standard level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Graduates from Cell Biology go into a range of careers. Around a third choose to work in scientific research and development, which may require significant postgraduate study, usually a PhD. Subsequent employers of these students include universities, pharmaceutical and bioscience companies and institutes. Around two thirds of graduates choose other career options such as teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. Life Sciences roles of recent graduates included: Business Development Co-ordinator for biotechnology research company Medical Research Technical Officer for the NHS Business Development Consultant for a biotechnology company Non-Life Sciences roles of recent graduates included: Graduate Trainee Accountant for multinational accountancy firm. For information on the range of career options available please see the Faculty of Life Sciences Careers page.

Chemical Engineering (3 Years) [BEng]

UCAS Code	H800
School	School of Chemical Engineering and Analytical Science
Email	ug-chem-eng@manchester.ac.uk
Phone	+44 (0)161 306 9331
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language, Mathematics and either Physics, Chemistry or Double Award Science.
A level	Grades AAA. This should include Mathematics, one science subject and one other academic subject. This excludes General Studies.
International Baccalaureate	37 points overall including 18 points at the Higher level including Mathematics and one other science subject.
Scottish Highers	N/A
Scottish Advanced Highers	Grades AAA including Maths, a science subject and one other academic subject.
Irish Certificate	Contact us for further information.
BTEC Diploma (18 Units)	BTEC Extended Diplomas will normally only be considered in conjunction with A Levels
English Language Requirement	For example, GCSE grade C or above, IELTS: an overall band score of at least 6, with at least 5.5 in each component, or an equivalent English Language qualification.
Access to HE	Access to HE Diplomas are only considered in conjunction with A Levels.

Application & Selection

Interview Details	All applicants who are normally resident in the UK will be invited for interview as part of the application assessment.
Scholarship Information	N/A
Career Outcome	Many graduates enter roles in industry as design engineers, consultants or undertake research and development of new products. Others use the skills they have gained for a career in non chemical-engineering sectors such as business, finance, marketing, banking, insurance, accountancy and IT. Many graduates move into senior management. Fields are as diverse as food and drink, chemicals, oil, gas and petrochemicals, pharmaceuticals, toiletries, energy generation and disposal of waste.

Chemistry (3 Years) [BSc]

UCAS Code	F100
School	School of Chemistry
Email	ug.chemistry@manchester.ac.uk
Phone	+44 (0)161 306 9271
Places/Applicants	N/A

Qualifications Accepted

GCSE	A good range of subjects including English, Maths and Sciences with minimum grades of A-C.
A level	Grades AAB including Chemistry and one other science or maths subject.
International Baccalaureate	35 points overall with grades of 6,6,5 in 3 Higher Level subjects to include Chemistry and one other science or maths. If English is not offered as one of the Diploma subjects (SL or HL) then a score of 6.0 at IELTS (or an equivalent approved qualification)
Scottish Highers	AABBB including Chemistry and one other science or maths subject.
Scottish Advanced Highers	AAB including Chemistry and one other science or maths subject.
Irish Certificate	AABBB in Irish Leaving Certificate including Chemistry and at least one other science or maths subject.
BTEC Diploma (18 Units)	BTEC Extended Diploma with a minimum of 100 credits awarded at Distinction, 70 at Merit and the remaining 10 credits at Pass. We typically request a copy of the syllabus.
English Language Requirement	Minimum grade C in GCSE English Language. IELTS - minimum 6.0 overall with no less than 5.5 in any component. TOEFL - minimum 80 (internet-based).
Access to HE	Overall 60 credits are required with 45 at Level 3 including a minimum of 30 credits at Distinction, 15 of which should be in Chemistry and 12 in another science (Mathematics, Physics or Biology) and 15 credits at Merit. We also require GCSE Mathematics and English Language at grade C or above, or equivalent. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	The School's policy is to interview all UK based applicants. A series of Visit Days are arranged between November and March annually.
Scholarship Information	The University of Manchester is committed to attracting and supporting the very best students. We have a focus on nurturing talent and ability and we want to make sure that you have the opportunity to study here, regardless of your financial circumstances. It is estimated that more than a third of our students will receive bursaries of up to £3,000 per year and many will be offered even more generous support.
Career Outcome	A chemistry degree can provide a stepping stone to an exciting range of careers in all areas of science: from physics to biology, mathematics and materials science. We want you to succeed in whatever career option you choose, so developing your full skill set is an important element of our courses. You will be numerate, literate, versatile, creative and skilled in problem solving. Around 50% of students go into a first job directly using their chemical knowledge, 25% go on to a further degree and the remaining 25% opt for diverse careers in finance, management, computing and IT. For more information visit the Chemistry careers page. The University's award winning careers service also organises events with major recruiters throughout the year and advisers are available to discuss your options.

Irish Certificate	AAABB in Irish Leaving Certificate including Chemistry and at least one other science or maths subject.
BTEC Diploma (18 Units)	BTEC Extended Diploma with a minimum of 150 credits awarded at Distinction and the remaining 30 credits at Merit. We may request a copy of the syllabus.
English Language Requirement	Minimum grade C in GCSE English Language. IELTS - minimum 6.0 overall with no less than 5.5 in any component. TOEFL - 80 (internet-based).
Access to HE	Overall 60 credits are required with 45 at Level 3 including 40 credits at Distinction, 15 of which should be in Chemistry and 15 in another science (Mathematics, Physics or Biology). We also require GCSE Mathematics and English Language at grade C or above, or equivalent. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	The School's policy is to interview all UK based applicants. A series of Visit Days are arranged between November and March annually.
Scholarship Information	The University of Manchester is committed to attracting and supporting the very best students.
Career Outcome	A chemistry degree can provide a stepping stone to an exciting range of careers in all areas of science: from physics to biology, mathematics and materials science. We want you to succeed in whatever career option you choose, so developing your full skill set is an important element of our courses. You will be numerate, literate, versatile, creative and skilled in problem solving. Around 50% of students go into a first job directly using their chemical knowledge, 25% go on to a further degree and the remaining 25% opt for diverse careers in finance, management, computing and IT. For more information visit the Chemistry careers page. The University's award winning careers service also organises events with major recruiters throughout the year and advisers are available to discuss your options.

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Civil and Structural Engineering (4 Years) [MEng]

UCAS Code	H220
School	School of Mechanical, Aerospace and Civil Engineering
Email	ug-mace@manchester.ac.uk
Phone	+44 (0)161 306 9210
Places/Applicants	N/A

Qualifications Accepted

GCSE	N/A
A level	Grades AAA which should include Mathematics and Physics plus one other subject. If Physics is not offered Maths must include substantive applied/mechanical elements (Modules M1 and M2). Two AS-levels of equivalent grade are acceptable in place of a third A-level. General Studies is not accepted.
International Baccalaureate	37 points, including Maths and Physics at Higher Level.
Scottish Highers	N/A
Scottish Advanced Highers	AAA / AAB in Advanced Highers including Mathematics and preferably Physics. Two Highers accepted in place of one Advanced Higher.
Irish Certificate	Irish Higher grades AAAAB to include AAA in Mathematics, Applied Mathematics and Physics.
BTEC Diploma (18 Units)	DDD and A-level Mathematics grade A.
English Language Requirement	Minimum grade C in English Language, or equivalent: IELTS 6.0 (with no component less than 5.5) or TOEFL 550/220 computer -based or 87 internet-based with a minimum of 21 in each component.
Access to HE	Applications from students studying for this qualification are welcome and all such applicants will be considered on an individual basis. QAA's normal requirements for diploma applicants are 60 (10-hour) credits with 45 at level 3 and the remainder at level 2. Mathematics A-level at grade A will also be required.

Application & Selection

Interview Details	We do not hold interviews but UK-based applicants who receive an offer will be invited to a Visit Day, which generally take place on Wednesday afternoons from November - March. This is an opportunity to visit the School and our facilities and includes a lab tour with current first year students.
Scholarship Information	For more information about scholarships and bursaries please see our undergraduate fees pages or visit the Scholarships and bursaries on the School website.
Career Outcome	Graduates are equipped to enter the global aerospace and defence industries, or continue on to postgraduate study. The enormous range of career opportunities reflects the diverse and multidisciplinary nature of the aerospace sector. Acquiring high levels of attainment in transferable skills such as simulation, problem solving, design, management and modelling enables graduates to adapt to new challenges and offers broad insight into engineering solutions. You can become a research engineer, discovering new ideas; a design engineer, with creativity and imagination; a construction or production engineer, making products or systems; or a project manager, controlling complex products and constructions. The excitement is that you are unlikely to do the same thing day in and day out. Our graduates are increasingly sought after for positions in the business, management and financial arenas.

Irish Certificate	Irish Higher grades AAAAB to include AAA in Mathematics, Applied Mathematics and Physics.
BTEC Diploma (18 Units)	DDD and A-level Mathematics grade A.
English Language Requirement	Minimum grade C in English Language, or equivalent: IELTS 6.0 (with no component less than 5.5) or TOEFL 550/220 computer -based or 87 internet-based with a minimum of 21 in each component.
Access to HE	Applications from students studying for this qualification are welcome and all such applicants will be considered on an individual basis. QAA's normal requirements for diploma applicants are 60 (10-hour) credits with 45 at level 3 and the remainder at level 2. Mathematics A-level at grade A will also be required.

Application & Selection

Interview Details	We do not hold interviews but UK-based applicants who receive an offer will be invited to a Visit Day, which generally take place on Wednesday afternoons from November - March. This is an opportunity to visit the School and our facilities and includes a lab tour with current first year students.
Scholarship Information	For more information about scholarships and bursaries please see our undergraduate fees pages or visit the Scholarships and bursaries on the School website.
Career Outcome	Graduates are equipped to enter the global aerospace and defence industries, or continue on to postgraduate study. The enormous range of career opportunities reflects the diverse and multidisciplinary nature of the aerospace sector. Acquiring high levels of attainment in transferable skills such as simulation, problem solving, design, management and modelling enables graduates to adapt to new challenges and offers broad insight into engineering solutions. You can become a research engineer, discovering new ideas; a design engineer, with creativity and imagination; a construction or production engineer, making products or systems; or a project manager, controlling complex products and constructions. The excitement is that you are unlikely to do the same thing day in and day out. Our graduates are increasingly sought after for positions in the business, management and financial arenas.

Civil Engineering with Industrial Experience (5 Years) [MEng]

UCAS Code	H207
School	School of Mechanical, Aerospace and Civil Engineering
Email	ug-mace@manchester.ac.uk
Phone	+44 (0)161 306 9210
Places/Applicants	N/A

Qualifications Accepted

GCSE	N/A
A level	Grades AAA which should include Mathematics and Physics plus one other subject. If Physics is not offered Maths must include substantive applied/mechanical elements (Modules M1 and M2). Two AS-levels of equivalent grade are acceptable in place of a third A-level. General Studies is not accepted.
International Baccalaureate	37 points, including Maths and Physics at Higher Level.
Scottish Highers	N/A
Scottish Advanced Highers	AAA / AAB in Advanced Highers including Mathematics and preferably Physics. Two Highers accepted in place of one Advanced Higher.
Irish Certificate	Irish Higher grades AAAAB to include AAA in Mathematics, Applied Mathematics and Physics.
BTEC Diploma (18 Units)	DDD and A-level Mathematics grade A.
English Language Requirement	Minimum grade C in English Language, or equivalent: IELTS 6.0 (with no component less than 5.5) or TOEFL 550/220 computer -based or 87 internet-based with a minimum of 21 in each component.
Access to HE	Applications from students studying for this qualification are welcome and all such applicants will be considered on an individual basis. QAA's normal requirements for diploma applicants are 60 (10-hour) credits with 45 at level 3 and the remainder at level 2. Mathematics A-level at grade A will also be required.

Classical Studies (3 Years) [BA]

UCAS Code	Q810
School	School of Arts, Languages and Cultures
Email	ug-classics@manchester.ac.uk
Phone	+44 (0)161 306 1252
Places/Applicants	27 / 170

Qualifications Accepted

GCSE	English Language at minimum of grade C.
A level	Grades ABB-BBB. Two AS-levels accepted in place of one A-level. General Studies is welcomed but not normally included as part of the standard offer.
International Baccalaureate	34-31 points overall (core points accepted), to include 5 or 6 at Higher level in three subjects.
Scottish Highers	Grades AABBB-BBBBB: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades ABB-BBB.
Irish Certificate	A2B1B2B2B2 - B2B2B2B2B2 at Higher Level.
BTEC Diploma (18 Units)	BTEC Extended Diploma with a minimum of 70 credits awarded at Distinction, 100 at Merit and the remaining 10 credits at Pass or above.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade, plus minimum of 24 credits with a Merit grade. All credits should be in a Humanities-related subject. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	A degree in Classics, Classical studies or Ancient History is an excellent choice for a wide variety of careers. Obvious ones include: archivist, curator, editorial assistant, careers in teaching, heritage/museum administration, and jobs in cultural tourism. However, the field is far wider than careers closely linked to the subject matter of your degree. Many of our students go on to careers in management, TV/Radio, law, finance, computing, insurance, human resources, journalism, marketing, public relations, advertising, social work, banking, accountancy, retail management and management consultancy. For some of these you would undertake an additional period of training or study, e.g. a law conversion course. 'Unless it's a technical job which requires a particular degree, the fact that someone's done classics will make them stand out.... It's quite an unusual choice. I suppose it implies that the person is quite interesting, that they have followed their interests and done something off the beaten track. I think employers look on that favourably.' Hardwin Jones, a spokesman for Milkround Graduate Recruitment Further Study: Our undergraduate degrees provide a solid base for further study at postgraduate level. The department has a thriving postgraduate community, with an intake of, on average, about 13 MA students and 6 PhD students per year. They are an integral and vibrant constituent of our academic community and a weekly staff/postgraduate lunch offers a social complement to the research interaction fostered by our weekly seminar series. A number of our own undergraduates opt to stay on at Manchester to study at MA level, but we also receive applications from other universities throughout the UK and internationally, both at MA and PhD level. In addition, a number of our graduates have gained postgraduate places at other universities, including Stanford and Oxbridge. Skills: Classics and Ancient History graduates can offer prospective employers an enviable range of transferable skills. These include logical thinking; good communication skills, both written and oral; interpreting, assessing and evaluating sources; proposing ideas and theories; leading and participating in discussions; working independently and to deadlines and an understanding of different cultures and societies. For example, any history, literature or cultural module will encourage the understanding of a range of viewpoints and critical approaches. Essay writing strengthens skills in gathering, memorising, organising and deploying information, while private study/research processes assist the skills involved in extracting key elements from data and identifying/solving problems. Our students will participate in a number of different types of work and assessment, including written essays, oral presentations, language modules and small group work. These enable them to gain practice in presenting material orally and in writing and in working with others. They also learn how to work under pressure, meet deadlines, assimilate contradictory data and balance competing pressures.

Cognitive Neuroscience and Psychology (3 Years) [BSc]

UCAS Code	BC18
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level.
Scottish Highers	AAAAA - AAAAB including 3 science subjects.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Some graduates from this degree choose to pursue careers in clinical psychology (our degree is accredited by the British Psychological Society). This is a very competitive profession that requires further training and professional experience. Alternatively, Cognitive Neuroscience and Psychology graduates are well qualified to work as researchers in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Recent graduates have secured roles as: • Research Scientist at multinational consumer products company • Research Assistant at a university • Trainee Science Teacher • Psychology Assistant at a prison

Application & Selection

Interview Details	The interview will normally run for 15-20 minutes and will be a one-to-one discussion with a member of the Religions and Theology lecturing staff. It is our aim that the interview should be a relaxed but informed conversation. It will normally explore areas such as your ability to discuss and think about the topics of the course and the modules, approaches and experiences that studying this course at Manchester entails.
Scholarship Information	N/A
Career Outcome	100% of Comparative Religion and Social Anthropology graduates are in employment or further study within six months of graduation. (Source: DLHE 2010-11). A Religions and Theology degree is very attractive to employers because it generates cultural sensitivity and awareness. Students are well orientated with regard to a wide variety of beliefs and worldviews. Like other humanities subjects, a Religions and Theology degree is suitable for careers in teaching, law, management, social, community and youth work, administration, publishing, broadcasting, and local and national government. A substantial number of students continue with graduate studies for PGCE, MA or PG Dip in Law. Thus about a quarter of our students go on to do Teacher Training (PGCE). Recent Manchester Religions & Theology graduates found employment in, for instance, Xaverian Roman Catholic College (teaching), PriceWaterhouse (finance), SPCK (publishing), Church of England (youthwork), Liberal Jewish Synagogue (national director of youthwork), Manchester city council (government), University of Salford (administration), and Christian Aid (NGO). We train you in key transferable skills, such as the ability to research, analyse and synthesize different sources of information, good organisational skills, IT skills, team-work and communication skills gained from tutorials and group projects, writing skills, analysis of often very complex texts, empathy and imaginative insight, ability to work methodically and accurately, independence of mind and initiative, should enhance your employability. A substantial number of our students acquire some language skills.

Phone	+44 (0)161 275 6124
Places/Applicants	N/A

Qualifications Accepted

GCSE	Five academic subjects at grades A and B, including Mathematics and two science subjects from Computer Science, Physics, Chemistry, Biology or Science and Additional Science.
A level	Grades AAB including mathematics. General Studies is welcome but is not normally included as part of the standard offer.
International Baccalaureate	35 points overall, with 6,6,6 in Higher Level subjects, including Mathematics.
Scottish Highers	AAAAB, including grade A in Higher Mathematics and a scientific bias to other subjects studied. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Scottish Advanced Highers	AAB, including grade B in Advanced Higher Mathematics and a scientific bias to other subjects studied. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Irish Certificate	Grade A in higher lever mathematics and grades AABBB in five further higher level academic subjects. A scientific bias to the subjects studied.
BTEC Diploma (18 Units)	Grades DMM from a technological diploma partially fulfils entry requirements. Students are also required to have a grade B in A-level mathematics with a pure element.
English Language Requirement	GCSE English Language grade C, IELTS with an overall average of 6 with no lower than 5.5 in any component, Internet Based TOEFL with 87 overall, including 21 in Listening and Writing, 22 in Reading and 23 in Speaking.
Access to HE	Applications are considered on an individual basis, e.g. additional educational achievements, life experience and skills. Please contact the University for further information. Our standard academic requirements include 60 credits with 45 at Level 3. Minimum of 30 credits should be with a Distinction grade (15 of which must be in mathematics), plus 15 credits with a Merit grade in a science-related subject. Students are also required to have a grade B in A-level mathematics with a pure element.

Application & Selection

Interview Details	We currently expect to interview all UK based applicants to whom we are considering making an offer.
Scholarship Information	For further information please visit The University of Manchester scholarships and bursaries page.
Career Outcome	Increasingly, employers are seeking graduates with high-level computing skills, and the ability to apply them in innovative ways to solve the problems facing their organisations. Opportunities exist in fields as diverse as finance, films and games, pharmaceuticals, healthcare, consumer products, and public services - virtually all areas of business and society. Employers, from large multinational firms such as EA Electronic Arts , IBM and Microsoft to small local organisations, actively target our students, recognising that Manchester Computer Science graduates are equipped with the skills that enable them to excel in a whole host of positions, including many that are not traditionally associated with computing graduates.

Application & Selection

Interview Details	We currently expect to interview all UK and EU based applicants to whom we are considering making an offer.
Scholarship Information	N/A
Career Outcome	The course is designed from a technical perspective and will prepare you for professional careers in the Human Computer Interaction and User Experience industry (design, development, testing and operation of interfaces, devices, and behavioural modelling) as well as in other areas such as research and technical development. It will provide you with the knowledge to accomplish highly technical interaction projects and to communicate with others, making novel, informed and sensible suggestions regarding HCI/UX work being undertaken - both by you individually or as part of a wider development team. More broadly it will prepare you for leadership positions in a successful career in industry. It will develop your transferable skills, particularly team working, creativity and adaptability, and enable you to specialise in advanced HCI topics. Employers, from large multinational firms such as EA Games, IBM and Microsoft to small local organisations, actively target our students, recognising that graduates from the School of Computer Science are equipped with the skills that enable them to excel in a whole host of positions, including many that are not traditionally associated with computing graduates. Opportunities exist in fields as diverse as finance, films and games, pharmaceuticals, healthcare, consumer products, and public services - virtually all areas of business and society.

Computer Science (Human Computer Interaction) with Industrial Experience [BSc] (Subject to approval)

UCAS Code	I141
School	School of Computer Science
Email	ug-compsci@manchester.ac.uk
Phone	+44 (0)161 275 6124
Places/Applicants	N/A

Qualifications Accepted

GCSE	Five academic subjects at grades A and B, including Mathematics and two science subjects from Computer Science, Physics, Chemistry, Biology or Science and Additional Science.
A level	AAB including two of: Physics, Biology, Chemistry, Mathematics, Further Mathematics, Computer Science.
International Baccalaureate	35 points overall with 6,6,6 in Higher Level subjects including two of: Mathematics, Computer Science, Biology, Chemistry or Physics.
Scottish Highers	AAAAB including two of Mathematics, Biology, Physics, Chemistry and Computing / Information Systems. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Scottish Advanced Highers	AAB including two of Applied Mathematics, Mathematics, Biology, Physics, Chemistry and Computing / Information Systems. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Irish Certificate	AAABBB in higher level academic subjects including two of: Mathematics, Biology, Chemistry, Physics and Technology.
BTEC Diploma (18 Units)	Grades DMM from a technological diploma partially fulfils entry requirements. Students are also required to have a grade B at A-level in either Mathematics, Physics, Biology, Chemistry or Computer Science.
English Language Requirement	GCSE English Language grade C, IELTS with an overall average of 6 with no lower than 5.5 in any component, Internet Based TOEFL with 87 overall, including 21 in Listening and Writing, 22 in Reading and 23 in Speaking.
Access to HE	Applications are considered on an individual basis, e.g. additional educational achievements, life experience and skills. Please contact the University for further information. Our standard academic requirements include 60 credits with 45 at Level 3. Minimum of 30 credits should be with a Distinction grade (15 of which must be in a mathematics), plus 15 credits with a Merit grade in a science-related subject.

Application & Selection

Interview Details	We currently expect to interview all UK and EU based applicants to whom we are considering making an offer.
Scholarship Information	N/A
Career Outcome	The course is designed from a technical perspective and will prepare you for professional careers in the Human Computer Interaction and User Experience industry (design, development, testing and operation of interfaces, devices, and behavioural modelling) as well as in other areas such as research and technical development. It will provide you with the knowledge to accomplish highly technical interaction projects and to communicate with others, making novel, informed and sensible suggestions regarding HCI/UX work being undertaken - both by you individually or as part of a wider development team. More broadly it will prepare you for leadership positions in a successful career in industry. It will develop your transferable skills, particularly team working, creativity and adaptability, and enable you to specialise in advanced HCI topics. Employers, from large multinational firms such as EA Games, IBM and Microsoft to small local organisations, actively target our students, recognising that graduates from the School of Computer Science are equipped with the skills that enable them to excel in a whole host of positions, including many that are not traditionally associated with computing graduates. Opportunities exist in fields as diverse as finance, films and games, pharmaceuticals, healthcare, consumer products, and public services - virtually all areas of business and society.

Criminology (3 Years) [BA]

UCAS Code	M901
School	School of Law
Email	ug-law@manchester.ac.uk
Phone	+44 (0)161 306 1271
Places/Applicants	N/A

Qualifications Accepted

GCSE	A strong performance in all subjects, with an absolute minimum of Grade B in English Language and Mathematics.
A level	Grades ABB. Two AS levels are not accepted in place of one A Level. We welcome all subjects from Arts, Humanities, Mathematics & Science. However, we do not accept General Studies or Critical Thinking.
International Baccalaureate	6,5,5 at Higher Level with an overall score of 33 in the IB Diploma.
Scottish Highers	We do not accept Scottish Highers as a stand alone qualification
Scottish Advanced Highers	Higher grades of ABBBB plus advanced Highers of BBB.
Irish Certificate	1x A2, 4x B2 at Higher Level.
BTEC Diploma (18 Units)	Minimum of 180 credits with 70 awarded at Distinction and 100 credits at Merit.
English Language Requirement	Candidates must show a high standard of written and spoken English. We require a minimum of A from GCSE English Language or equivalent such as IELTS 7 with a minimum of 6.5 in each subtest or TOEFL IBT 100 with a minimum of 24 in each subtest.
Access to HE	Applications are considered on an individual basis but as a general guide, our typical requirement is a pass in a humanities based Access course with 45 credits at level 3 including a minimum of 15 credits at distinction and 30 credits at merit. We additionally require 15 credits at level 2, including English Language and Maths

Application & Selection

Interview Details	We do not conduct interviews.
Scholarship Information	N/A
Career Outcome	Planning for a career is an important part of studying. All our students are encouraged to consider their future employment early in their University career. In keeping with good educational practice, the course develops the student's powers of critical inquiry, logical thinking and empirical analysis; it will develop a range of key transferable skills, such as computer literacy, numeracy, written and oral communication. In essence, the intellectual rigour of this course will provide you with the depth of knowledge and skills required both for developing a relevant career in the field of criminal justice and for pursuing further study and research. All School of Law students have the opportunity to attend skills training courses that have modules aimed at employment in general and more specialist careers - including criminal justice and crime reduction. Student societies within the School also look at career issues. The BA in Criminology provides a strong academic base for those considering careers in a range of criminal justice-related professions. For example, the police, the security services, the private security sector, the probation service, the courts services, the prison service and local authority community safety departments.

Dentistry (first-year entry) (5 Years) [BDS]

UCAS Code	A206
School	School of Dentistry
Email	ug-dentistry@manchester.ac.uk
Phone	+44 (0)161 306 0231
Places/Applicants	75/966

Qualifications Accepted

GCSE	Six GCSEs at a minimum of Grade A (including either Integrated Double Award Science or Physics, Chemistry and Biology) and Grade B or above in GCSE English Language and Mathematics are normally required in support of your level 3 qualifications.
A level	The School requires grades AAA and (1b at AS Level). This must include Chemistry, Biology and a third A level at grade A. We are aware that the some schools may no longer enter candidates for AS Level qualifications. These students will not be disadvantaged if written confirmation of this policy is provided by the school.
International Baccalaureate	37 points overall including a minimum of: 7,6,6 in the Higher Level subjects, which must include Biology and Chemistry with 7 and 6 5,5,5 in the Standard Level subjects 1 core point
Scottish Highers	The School normally requires AAAAA including Physics, Chemistry, Mathematics, English and Biology.
Scottish Advanced Highers	Two Advanced Highers including Biology and Chemistry are required at grades AA.
Irish Certificate	If you have an Irish Leaving Certificate you must apply for entry to the A204 BDS Dentistry with a pre-dental (foundation) year.
BTEC Diploma (18 Units)	N/A
English Language Requirement	You must be proficient in the use of the English Language. The minimum acceptable level of proficiency is: GCSE English Language grade B or above. Cambridge Certificate of Proficiency in English grade B or above.
Access to HE	Access courses are accepted if you have not previously studied at University and have usually had a minimum of 2 years out of education gaining work experience. An Access Course must be Science based. 60 Credits overall with 45 Credits at Level 3. Minimum of 15 Credits each in Biology and Chemistry at Level 3 and minimum of 6 Credits in Physics to at least Level 2. Distinctions in all components are required. GCSE English Language and Maths are also required with a minimum of B grades.

Application & Selection

Interview Details	Full details of what will be expected of candidates can be found in the Application process page.
Scholarship Information	N/A
Career Outcome	Overall statistics: In the 2011/12 application round, all Manchester graduates had secured a post within six months of graduation. Types of jobs: Almost invariably, dental graduates apply for one-year Vocational Dental Practitioner (Dental Foundation 1) posts when they graduate. These are salaried posts in NHS general dental practices, comprising four days per week of clinical work and one day per week of professional study. Each VDP is mentored by a Vocational Trainer in the same practice. All VDP practices are inspected to ensure they are of a required standard. In 2012 there were 1138 applications for 953 places on the 78 VDP training schemes to start in August 2013. Those not allocated a place were put on a reserve list which covers the possibility that some applicants will not pass their Final BDS examinations. Further study: Many graduates decide to specialise in a particular branch of dentistry e.g. orthodontics, endodontics. Specialist training programmes are available in all dental specialties and are highly competitive. Some general experience in dentistry is required prior to entry to a specialist training programme, as is either the MJDF or MFDS examinations run by the Royal Colleges of Surgeons of London or Edinburgh. Careers support: Careers advice is available through the School throughout the five-year course, but is concentrated in Year 5 as graduation approaches. Specific help and guidance is given in Year 5 to prepare students for the VDP selection process, which is done on a national basis. Employability skills: Dental graduates have a range of skills, both technical and interpersonal. In Manchester, participation in the Manchester Leadership Programme in Year 3 of the course is compulsory and gives our students additional skills and experience.

Design Management for Fashion Retailing (3 Years) [BSc]

UCAS Code	W290
School	School of Materials
Email	ug-textiles@manchester.ac.uk
Phone	+44 (0)161 306 4360
Places/Applicants	We receive a large number of applications for a limited number of places on this course so you are advised to submit your application as early as possible through UCAS.

Qualifications Accepted

GCSE	Minimum grade C in English Language, Dual Science, Mathematics.
A level	Grades AAB in any combination of subjects.
International Baccalaureate	35 points overall with 6,6,5 in three Higher Level subjects.
Scottish Highers	N/A
Scottish Advanced Highers	AAB in any subject.
Irish Certificate	N/A
BTEC Diploma (18 Units)	Contact us for further information.
English Language Requirement	GCSE grade C, IELTS 6.0 with no subtest below 5.5, TOEFL internet based test score of 80 with no subtest below 20. Cambridge Proficiency in English Grade C, English for Academic Purposes Grade C, Pearsons Test of English 59 with no subtest below 51.
Access to HE	Contact us for further information.

Application & Selection

Interview Details	All students who apply to us through UCAS, and who live on the UK mainland and meet our application criteria, are invited to a School Open which will include an interview as part of the application process. These are held from November through to March and provide applicants with the chance to visit the University and see the facilities we offer.
Scholarship Information	For information on fees and scholarships go to http://www.manchester.ac.uk/undergraduate/funding/home/changes/
Career Outcome	Employers are looking for design professionals with retail knowledge. Graduates from this programme go into various retail sectors of the fashion and textile industries as design or retail managers, buyers, stylists and merchandisers. Recent graduates have been employed by Arcadia, Debenhams, Marks and Spencer, Matalan, Next and House of Fraser.

Development Studies (3 Years) [BAEcon]

UCAS Code	L900
School	School of Social Sciences
Email	socialsciences@manchester.ac.uk
Phone	+44 (0)161 275 1473
Places/Applicants	In 2012 there were approximately 1150 applications for 160 places on the Development Studies / Economics pathways of the BA(Hons) Economic and Social Studies course.

Qualifications Accepted

GCSE	Minimum grade C in English Language and grade B in Mathematics.
A level	AAB. Applicants must be studying at least one of the following A Level subjects: Accounting, Anthropology, Business Studies, Classics, Economics, English Language/Literature, Further Mathematics, Geography, History, Law, Mathematics, Modern Languages, Philosophy, Politics, Psychology, Religious Studies, Sociology, Use of Mathematics and World Development. General Studies and Critical Thinking are not accepted for entry. Native Language A-Levels will be accepted as part of a typical offer. Applicants re-sitting their A-Levels may have their offer increased by one grade, for example from AAB to AAA.
International Baccalaureate	35 points overall. 6,6,5 at Higher Level. No lower than 5 in any subject.
Scottish Highers	AAABB
Scottish Advanced Highers	AAB
Irish Certificate	We would expect applicants to achieve four subjects at A2 and one subject at B2 in the Irish Leaving Certificate Higher Level qualification.
BTEC Diploma (18 Units)	The University welcomes applicants studying the BTEC Extended Diploma/Diploma in Business and related areas. Candidates are expected to achieve two Distinctions alongside an A-Level at grade A from the following list: Accounting, Anthropology, Business Studies, Economics, English Language/Literature, Further Mathematics, Geography, History, Law, Mathematics, Philosophy, Politics, Religious Studies, Sociology and World Development.
English Language Requirement	All applicants are expected to have a minimum of grade C in GCSE English Language or equivalent. For international students equivalent qualifications would be: IELTS of 6.5 overall with no lower than 6 in any component.
Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions'. For further information please contact Tom McCunnie at tom.mccunnie@manchester.ac.uk .

Application & Selection

Interview Details	N/A
Scholarship Information	The University of Manchester offers a range of Scholarships and Bursaries to Home/EU students including the Manchester Bursary, which is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has
Career Outcome	The BA(Hons) Economic and Social Studies programme and the Development Studies pathway in particular would give you the skills and knowledge that you need to be able to succeed in the future. With 84% of our recent graduates in work or further study six months after they graduate (source: Unistats) our graduates have an excellent reputation for employability. Graduates from Development Studies are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what recent graduates from the BA(Econ) have gone on to do are (Source: DLHE): Accountancy and Professional Services - Our students are regularly recruited by the 'Big Four' accounting firms - Ernst and Young, KPMG, Deloitte, PricewaterhouseCoopers - as well as other graduate level employers such as Grant Thornton and BDO. Finance and Banking - Our recent graduates have gone on to work for Lloyds banking group, Royal Bank of Scotland, Santander, Credit Suisse, JP Morgan Chase, Morgan Stanley, Barclays, Bank of New York and Deutsche Bank. Our students have gone on to work for both local government and central government departments such as: HM Treasury, FSA, Ministry of Justice, HMRC and the NHS Our students have also gone on to work for a wide range of companies including the BBC, Marks and Spencer, Tesco, BT, BAE Systems, Thomson Reuters, Accenture and the Cooperative. In addition to the range of courses that you can take as part of your degree you can also improve your employability by developing your transferable skills through getting involved in course units from other parts of the University. As part of your degree you would be able to take courses from the University College for Interdisciplinary Learning- typically as optional units in your second year. These include Manchester Leadership Programme which is provided by specialists from the Careers service and helps you develop your leadership and team-working skills, as well as courses provided by Manchester Enterprise Centre which would cover topics about how successful enterprises work and how to create and implement business ideas.

Developmental Biology (3 Years) [BSc]

UCAS Code	C141
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from Developmental Biology go into a range of careers. Around a third choose to work in scientific research and development, working in universities, pharmaceutical and bioscience companies and institutes, which may require significant postgraduate study, usually a PhD. Around two thirds of graduates choose other career options such as healthcare, teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. As Developmental Biology is not a vocational degree, leading straight onto a fixed career path, those graduates that decide against further study often spend their first year after graduation in entry level jobs building up relevant work experience to enter professional and managerial roles in a range of sectors. Many subsequently move on to exciting and high level jobs in the UK and all over the world.

Drama (3 Years) [BA]

UCAS Code	W400
School	School of Arts, Languages and Cultures
Email	ug-drama@manchester.ac.uk
Phone	+44 (0)161 275 4987
Places/Applicants	47 / 400

Qualifications Accepted

GCSE	Minimum of grade C in English Language.
A level	Grades AAB, including Grade A in English (or other essay-based subject such as History or Politics). General Studies is welcomed but not normally included as part of the standard offer.
International Baccalaureate	A minimum of 35 points overall (core points accepted), including 6 or 7 in three Higher Level subjects; one of these should be English (or other essay-based subject such as History or Politics).
Scottish Highers	Grades AAAAB preferably including English Language or Literature: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAB to include English (or other essay-based subject such as History or Politics).
Irish Certificate	A2A2A2B2B2 at Higher Level, to include A in English (or other essay-based subject such as History or Politics).
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 60 credits awarded at Distinction, 50 credits at Merit and 10 credits at Pass, PLUS A-level Grade A in English (or other essay-based subject such as History or Politics).
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in Eng Lit, or Eng Lang & Lit), plus 15 credits with a Merit grade in a Humanities-related subject. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	If you are offered an interview, it will normally run for 20 minutes and will be a one-to-one discussion with a member of the Drama lecturing team. It is our aim that the interview should be a relaxed but informed conversation - we are not seeking to set traps and trick questions for you! However, we are keen to determine your ability to discuss and think about drama critically as well as wanting to gauge whether you will thrive on the kind of modules, approaches and experiences that studying Drama at Manchester entails.
Scholarship Information	N/A
Career Outcome	Many of our graduates work in theatre, television, radio, film and broadcast industries and in the wider cultural industries sector. With the knowledge and skills that students develop in Drama we have seen a large number of graduates finding employment in many aspects of print and broadcast journalism including online journalism. Equally, many of our students move into teaching at all levels, primary, secondary and 16-18, while a growing number decide to take up postgraduate study, or move into management and business industries. Recent Drama graduates having been working in film and TV production, education, and arts management as well as setting up their own theatre companies and writing for performance. What some of our past students say. 'Studying Drama at Manchester gave me the chance to explore creative ideas in a structured and safe environment whilst equipping me with the necessary skills to secure a job in the arts. I genuinely believe that I wouldn't have got my job without having completed my degree first. Drama at Manchester is also a very competitive course and you really are working with some of the best students and teachers in the country.' - Abbie Willcox: Creative Projects Officer at Contact Theatre, Manchester. 'Looking back, the impact of doing Drama at Manchester on my professional life has been immense. I draw on my knowledge and experience gained there on an almost daily basis and the directing experience I got on the course led to my first job and without that job (as Assistant Director Nuffield Theatre) I don't believe I would be where I am now. It is undoubtedly a calling card.' - Caroline Raphael: Commissioning Editor for Comedy and Fiction for BBC Radio 4 and responsible for editorial strategy for Radio 4 extra. 'Manchester University Drama Department has a legendary reputation. Many people in theatre and TV know about the course and respect it. The breadth and diversity of skills and knowledge it teaches means that it's a great option for anyone who is drawn towards theatre and TV but not completely certain about the specific career path they want to follow. Go with an open mind.' - Helen Edmundson: Playwright

Drama and English Literature (3 Years) [BA]

UCAS Code	WQ4H
School	School of Arts, Languages and Cultures
Email	ug-drama@manchester.ac.uk
Phone	+44 (0)161 275 4987
Places/Applicants	23 / 170

Qualifications Accepted

GCSE	Minimum of grade C in English Language.
A level	Grades AAB. This should include grade A in English Literature (or Language and Literature, but not Language alone). General Studies is welcomed but not normally included as part of the standard offer.
International Baccalaureate	A minimum of 35 points overall (core points accepted), to include a) 7 in English Literature at Higher Level, b) 6 or 7 in two further Higher Level subjects.
Scottish Highers	Grades AAAAB including English Literature at grade A: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAB including grade A in English Literature.
Irish Certificate	A2A2A2B2B2 at Higher Level, to include A in EngLit (or Eng Lang and Lit)
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 60 credits awarded at Distinction, 50 credits at Merit and 10 credits at Pass, PLUS A-level Grade A in English Literature (or Language and Literature, but not Language alone).
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in Eng Lit, or Eng Lang & Lit), plus 15 credits with a Merit grade in a Humanities-related subject. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	If you are offered an interview, it will normally run for 20 minutes and will be a one-to-one discussion with a member of the Drama lecturing team. It is our aim that the interview should be a relaxed but informed conversation - we are not seeking to set traps and trick questions for you! However, we are keen to determine your ability to discuss and think about drama critically as well as wanting to gauge whether you will thrive on the kind of modules, approaches and experiences that studying Drama at Manchester entails.
Scholarship Information	N/A
Career Outcome	Many of our graduates work in theatre, television, radio, film and broadcast industries and in the wider cultural industries sector. With the knowledge and skills that students develop in Drama we have seen a large number of graduates finding employment in many aspects of print and broadcast journalism including online journalism. Equally, many of our students move into teaching at all levels, primary, secondary and 16-18, while a growing number decide to take up postgraduate study, or move into management and business industries. Recent Drama graduates having been working in film and TV production, education, and arts management as well as setting up their own theatre companies and writing for performance. What some of our past students say. Studying Drama at Manchester gave me the chance to explore creative ideas in a structured and safe environment whilst equipping me with the necessary skills to secure a job in the arts. I genuinely believe that I wouldn't have got my job without having completed my degree first. Drama at Manchester is also a very competitive course and you really are working with some of the best students and teachers in the country. - Abbie Willcox: Creative Projects Officer at Contact Theatre, Manchester. Looking back, the impact of doing Drama at Manchester on my professional life has been immense. I draw on my knowledge and experience gained there on an almost daily basis and the directing experience I got on the course led to my first job and without that job (as Assistant Director Nuffield Theatre) I don't believe I would be where I am now. It is undoubtedly a calling card. - Caroline Raphael: Commissioning Editor for Comedy and Fiction for BBC Radio 4 and responsible for editorial strategy for Radio 4 extra. Manchester University Drama Department has a legendary reputation. Many people in theatre and TV know about the course and respect it. The breadth and diversity of skills and knowledge it teaches means that it's a great option for anyone who is drawn towards theatre and TV but not completely certain about the specific career path they want to follow. Career Outcome	As a geologist or earth scientist your potential career paths will be extremely varied. You could end up prospecting for diamonds in Suriname, or work as an exploration geologist in the oil and gas sector, or as a policy adviser for a major oil company. Around 40% of our students go on to study for further degrees and nearly 80% of our 2010 graduates surveyed were in fulltime employment or studying for further degrees 6 months after graduating (DLHE survey). For more information of how Manchester support you to find employment after graduation go to our website.

Economics & Philosophy (3 Years) [BAEcon]

UCAS Code	LV15
School	School of Social Sciences
Email	socialsciences@manchester.ac.uk
Phone	+44 (0)161 275 1473
Places/Applicants	In 2012 there were approximately 1150 applications for 160 places on the Economics pathways of the BA(Hons) Economic and Social Studies course.

Qualifications Accepted

GCSE	Minimum grade C in English Language and grade B in Mathematics.
A level	AAB. Applicants must be studying at least one of the following A Level subjects: Accounting, Anthropology, Business Studies, Classics, Economics, English Language/Literature, Further Mathematics, Geography, History, Law, Mathematics, Modern Languages, Philosophy, Politics, Psychology, Religious Studies, Sociology, Use of Mathematics and World Development. General Studies and Critical Thinking are not accepted for entry. Native Language A-Levels will be accepted as part of a typical offer. Applicants re-sitting their A-Levels may have their offer increased by one grade, for example from AAB to AAA.
International Baccalaureate	35 points overall. 6,6,5 at Higher Level. No lower than 5 in any subject.
Scottish Highers	AAABB
Scottish Advanced Highers	AAB
Irish Certificate	We would expect applicants to achieve four subjects at A2 and one subject at B2 in the Irish Leaving Certificate Higher Level qualification.
BTEC Diploma (18 Units)	The University welcomes applicants studying the BTEC Extended Diploma/Diploma in Business and related areas.
English Language Requirement	All applicants are expected to have a minimum of grade C in GCSE English Language or equivalent. For international students equivalent qualifications would be: IELTS of 6.5 overall with no lower than 6 in any component.
Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions' For further information please contact Tom McCunnie at tom.mccunnie@manchester.ac.uk

Scholarship Information	The University of Manchester offers a range of Scholarships and Bursaries to Home/EU students including the Manchester Bursary, which is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has had a full financial assessment carried out by Student Finance. This bursary is additional to the government package of maintenance grants.
Career Outcome	The BA(Hons) Economic and Social Studies programme and the Economics and Philosophy pathway in particular would give you the skills and knowledge that you need to be able to succeed in the future. With 84% of Economics and 87% of Philosophy recent graduates in work or further study six months after they graduate, and 78% of those Economics graduates working in professional or managerial roles (source: KIS) our graduates have an excellent reputation for employability. Graduates from Economics and Philosophy are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what recent graduates from the BA(Econ) have gone on to do are (Source: DLHE): Accountancy and Professional Services - Our students are regularly recruited by the 'Big Four' accounting firms - Ernst and Young, KPMG, Deloitte, PricewaterhouseCoopers - as well as other graduate level employers such as Grant Thornton and BDO. Finance and Banking: Our recent graduates have gone on to work for Lloyds banking group, Royal Bank of Scotland, Santander, Credit Suisse, JP Morgan Chase, Morgan Stanley, Barclays, Bank of New York and Deutsche Bank. Government: Our students have gone on to work for both local government and central government departments such as: HM Treasury, FSA, Ministry of Justice, HMRC and the NHS. Other Areas: Our students have also gone on to work for a wide range of companies including the BBC, Marks and Spencer, Tesco, BT, BAE Systems, Thomson Reuters, Accenture and the Cooperative.

Career Outcome	While there are considerable benefits associated with being in higher education purely for its own sake, most of you will be looking to a future career when choosing a university and a programme of study. Economics graduates are fortunate to be one of the most employable and well paid groups of graduates. A survey of 18,000 students examined the level of salary that students earned ten years after graduation from their first degree. It found that graduates in economics had the second highest level of salary, exceeded only by clinical dentists, putting them above law, accountancy, business management and significantly ahead of other social sciences, like geography and politics. Over the past years, BEconSc graduates have gone to work for organisations including: The Bank of England, Merrill Lynch, Goldman Sachs, Citibank, United Assurance, PricewaterhouseCoopers, The Post Office, the Government Civil Service, the Government Statistical Service, HSBC, Ford Motor Company, Prudential plc, Nationwide Building Society and Deutsche Bank. Careers for BEconSc-Economics Graduates. In recent years, more than half of the BEconSc graduates have continued on to postgraduate training at various universities, including: Cambridge, Kings College, Manchester, Bristol, Morris Peter William College, Warwick and LSE. Some students have chosen to stay in Manchester and deepen their knowledge of the subject by studying for a PhD, many of whom are supported by ESRC-studentship.

With 84% of Economics and 80% Sociology recent graduates in work or further study six months after they graduate, and 78% of those Economics graduates working in professional or managerial roles (source: KIS) our graduates have an excellent reputation for employability. Graduates from Economics and Sociology are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what recent graduates from the BA(Econ) have gone on to do are (Source: DLHE): Accountancy and Professional Services. - Our students are regularly recruited by the 'Big Four' accounting firms - Ernst and Young, KPMG, Deloitte, PricewaterhouseCoopers - as well as other graduate level employers such as Grant Thornton and BDO. Finance and Banking - Our recent graduates have gone on to work for Lloyds banking group, Royal Bank of Scotland, Santander, Credit Suisse, JP Morgan Chase, Morgan Stanley, Barclays, Bank of New York and Deutsche Bank. Government. - Our students have gone on to work for both local government and central government departments such as: HM Treasury, FSA, Ministry of Justice, HMRC and the NHS Other Areas. - Our students have also gone on to work for a wide range of companies including the BBC, Marks and Spencer, Tesco, BT, BAE Systems, Thomson Reuters, Accenture and the Cooperative. In addition to the range of courses that you can take as part of your degree you can also improve your employability by developing your transferable skills through getting involved in course units from other parts of the University. As part of your degree you would be able to take courses from the University College for Interdisciplinary Learning - typically as optional units in your second year. These include Manchester Leadership Programme which is provided by specialists from the Careers service and helps you develop your leadership and team-working skills, as well as courses provided by Manchester Enterprise Centre which would cover topics about how successful enterprises work and how to create and implement business ideas.

Electrical & Electronic Engineering (3 Years) [BEng]

UCAS Code	H600
School	School of Electrical and Electronic Engineering
Email	ug-eee@manchester.ac.uk
Phone	+44 (0)161 306 9351
Places/Applicants	N/A

Qualifications Accepted

GCSE	English Language and Mathematics at grade C or above.
A level	AAB including Maths and either Physics, Electronics or Further Maths.
International Baccalaureate	35 points overall including 6 points in Mathematics and Physics at Higher Level and 5 points in another discipline at Higher Level.
Scottish Highers	AAAAB including grade A in Higher Mathematics and Physics.
Scottish Advanced Highers	AAB including grade A in Advanced Higher Mathematics and Physics.
Irish Certificate	A1 A1 A1 B1 B1 including A1 in Maths and A1 in Physics at Higher Level.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Electrical and Electronic Engineering with a minimum of 70 credits awarded at Distinction including the Further Maths for Technicians module, 100 credits at Merit and the remaining 10 credits at Pass or above. Applicants are also required to pass an interview.
English Language Requirement	GCSE English Language Grade C GCE O-Level English Language Grade C IELTS 6.0 with no subtest less than 5.5 Internet Based TOEFL 79 (Minimum of 19 in writing, listening and reading and 20 in speaking) English First
Access to HE	Applications are considered on an individual basis, please contact the School of Electrical and Electronic Engineering for further information.

Application & Selection

Interview Details	We invite all promising undergraduate applicants who are based in the UK to visit our department and attend an interview
Scholarship Information	These include: Power Academy, UK Electronics Skills Foundation, International Excellence, Procter & Gamble, National Instruments and many more. For more information go to the Undergraduate Scholarships page.
Career Outcome	Our graduates have an excellent employability record, 95% are in work and/or further study within six months of graduation (Unistats 2012). You can find out more about what jobs our graduates do and what employers like about them on the Employability page. Examples of the areas in which our graduates work include: Java, Digital Systems, C/C++, Consumer Electronics, Technical Sales, Avionics, Banking & Commerce, Technical Author, Postgraduate Study, Wireless Networks, Security & Surveillance, Power Network Management, Sustainable Energy, Power Distribution, Consumer Electronic, Power Conversion, Automotive Electronics, Power Electronics, Process Engineering. You will also acquire key skills such as logical thinking, team working, report writing, analytical and presentation skills, programming and a high level of numeracy.

Engineering with an Integrated Foundation Year (4 or 5 Years)

UCAS Code	H108
School	Faculty of Engineering and Physical Sciences
Email	ug-fy-eps@manchester.ac.uk
Phone	+44 (0)161 306 4742
Places/Applicants	N/A

Qualifications Accepted

GCSE	N/A
A level	Students will be accepted from a range of educational backgrounds and all applications will be considered individually. It is therefore not easy to specify the entry standard that will gain you a place on the programme. We would generally be looking for BBC grades at A Level in relevant science subjects. However, if you have already studied A levels but in inappropriate subjects for direct admission to an engineering or science degree programme, then we would be looking for at least ABB grades and in addition a minimum of Grade B in Mathematics and Science at GCSE or equivalent. In all cases we will be looking for a performance that indicates that, within one year of further study, you can attain the necessary standards for entry onto one of our degree programmes. Offers will be tailored individually.
International Baccalaureate	Considered on an individual basis.
Scottish Highers	N/A
Scottish Advanced Highers	N/A
Irish Certificate	Contact us for further information.
BTEC Diploma (18 Units)	N/A
English Language Requirement	Home students to achieve GCSE in English Language Grade C or equivalent. International Students to achieve an IELTS score of no less than 5.5 in each and every component or TOEFL scores of at least in Listening 17, Reading 18, Speaking 20 and Writing.
Access to HE	Applications are considered on an individual basis. Please contact the University for further information. QAA's normal requirements for diploma applicants are 60 (10 hour) credits with 45 at level 3 and the remainder at level 2. Specific grades in specific subjects will be part of the offer.

Application & Selection

Interview Details	N/A
Scholarship Information	The Manchester Bursary is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has had a full financial assessment carried out by Student Finance.
Career Outcome	Engineering with a Integrated Foundation Year gives you the preparation you need to proceed to degree level programmes in the subject areas of Mechanical, Aerospace and Civil Engineering, Chemical Engineering, Electrical and Electronic Engineering, Materials Science and Textile Technology.
Link to Course	http://www.manchester.ac.uk/undergraduate/courses/search2015/atoz/00428/

English Language (3 Years) [BA]

UCAS Code	Q1Q3
School	School of Arts, Languages and Cultures
Email	ug.languages@manchester.ac.uk
Phone	+44 (0)161 275 3211
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	AAB incl. any language (incl Eng Lang or Eng Lang/Lit)
International Baccalaureate	35 points overall (core points accepted), Higher Level Requirements - 6,6,5 including any language (incl. English language or English language/literature).
Scottish Highers	Scottish Highers are accepted only in combination with Advanced Highers.
Scottish Advanced Highers	AAB incl. any language (incl Eng Lang or Eng Lang/Lit) Where a required subject is not available at Advanced Higher Level, and A-Level or equivalent is required.
Irish Certificate	We welcome applications from students studying for this qualification and all such applications will be considered on an individual basis.
BTEC Diploma (18 Units)	Applicants with BTEC qualifications are welcomed and are considered on an individual basis. Please see the sections on A-Level and GCSE entry requirements for subject specific qualifications.
English Language Requirement	Candidates must be proficient in the English language, which is the language of instruction and examination at the university. Acceptable English Language qualifications include IELTS 6.5 (with no individual component below 5.5), CPE grade C, CAE Grade B.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade, plus 15 credits with a Merit grade, 15 credits with a Merit must be achieved in a modern foreign language, English language or English language & literature at Level 3. Where either subject is not available as part of the access course an A-level must be offered instead. They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Interview Details	N/A
Scholarship Information	N/A
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. 89% (English Language) of our graduates are in employment or further study within six months of graduation (Source: Unistats 2012). Many of our graduates secure jobs in business services, marketing, advertising, management, banking or communications. Roles of recent Linguistics and English Language graduates include: • Regional Events Manager • Communications Officer • Radio reporter • Speech Therapy Assistant • Recruitment Consultant Our graduates have pursued careers in firms including The Guardian, PricewaterhouseCoopers, L'Oreal, Universal Music Group, and Vodafone. Other graduates have opted for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad), or enter the Civil Service. Postgraduate programmes undertaken by our graduates include Graduate Diploma in Law, MA in Broadcast Journalism, MSc in Machine Translation, MA in (Applied) Linguistics, or MSc in Human Communication Studies. Did you know? MI5 actively recruit graduates with language skills. Graduates from The University of Manchester are amongst the highest paid in the country. More employers recruit at The University of Manchester than at any other UK university. The University of Manchester's award-winning Careers Service is consistently voted the best in the country by both students and employers. The School is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Scholarship Information	For information regarding available scholarships and bursaries please see our funding pages .
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. 89% (English Language) of our graduates are in employment or further study within six months of graduation (Source: Unistats 2012). Many of our graduates secure jobs in business services, marketing, advertising, management, banking or communications. Roles of recent Linguistics and English Language graduates include: • Regional Events Manager • Communications Officer • Radio reporter • Speech Therapy Assistant • Recruitment Consultant Our graduates have pursued careers in firms including The Guardian, PricewaterhouseCoopers, L'Oreal, Universal Music Group, and Vodafone. Other graduates have opted for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad), or enter the Civil Service. Postgraduate programmes undertaken by our graduates include Graduate Diploma in Law, MA in Broadcast Journalism, MSc in Machine Translation, MA in (Applied) Linguistics, or MSc in Human Communication Studies. Did you know? M15 actively recruit graduates with language skills. Graduates from The University of Manchester are amongst the highest paid in the country. More employers recruit at The University of Manchester than at any other UK university. The University of Manchester's award-winning Careers Service is consistently voted the best in the country by both students and employers. The School is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CILT, the National Centre for Languages.

Career Outcome	Employability is something we take very seriously on BA (Hons) English Language for Education. Aside from the vocational aspects of the Research Project, we also have a core Year Two unit on Career Management which involves guest lectures from people in all sorts of occupations. And we hold regular 'Looking Forward' days, in which recent graduates from the School of Education return to tell current students what they're up to. The skills our degree offer are useful across a variety of careers. These include excellent written and oral communication skills, team working techniques and intercultural awareness. BA (Hons) English Language for Education students also demonstrate the ability and initiative required to design and manage a project with a high degree of autonomy, qualities that will be highly prized in any workplace. Progression to PGCE is common for our graduates. The University of Manchester delivers PGCE programmes at both primary and secondary level (outstanding, according to Ofsted) and our graduates have an excellent success rate in applying for teaching training programmes up and down the UK. Please see 'files to download' for information on routes into teaching. Aside from graduates entering Education fields, former students have entered careers in both the public and private sector: management, personnel, the media, publishing, the charity sector, journalism, interpreting, counselling, social or development work. Recent graduates have also accepted posts within companies such as British Telecom, L'Oreal, NSPCC, the BBC and Boots PLC (amongst others), and have taken up places on Masters, PGCE and doctoral courses at a range of Universities. Furthermore, as employers rank proficient writing skills as one of the most desired trait for graduates to have, the writing provision offered within the BA (Hons) English Language for Education programme helps give our graduates a competitive edge in the job market.

English Literature (3 Years) [BA]

UCAS Code	Q320
School	School of Arts, Languages and Cultures
Email	ug-eac@manchester.ac.uk
Phone	+44 (0)161 275 3107
Places/Applicants	70 / 1000

Qualifications Accepted

GCSE	Minimum of grade C in English and Maths
A level	Grades AAA-AAB to include grade A in English Literature, or in English Language and Literature. General Studies is welcomed but not normally included as part of the standard offer. AS-levels are not accepted in place of an A-level. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	37-35 points overall (core points accepted), including 7 points in English Literature at Higher level, plus 6 or 7 in two further Higher Level subjects.
Scottish Highers	Grades AAAAA-AAAAB, taken at one sitting, including English at grade A: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAA-AAB including either grade A in English Literature (or Lang and Lit, but not Eng Lang only).
Irish Certificate	A2A2A2A2B1-A2A2A2B2B2 at Higher Level: to include A in EngLit (or Eng Lang and Lit but not EngLang alone).
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 100 credits awarded at Distinction and the remaining 20 credits at Merit, plus A-level Grade A in English Literature (or English Language and Literature).
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in Eng Lit, or Eng Lang & Lit), plus 15 credits with a Merit grade in a Humanities-related subject. Applicants must have GCSE in English (at grade B or higher). They must also EITHER have GCSE Mathematics (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in Maths at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis. The number of applicants that are studying towards the Access to Higher Education course are increasing each year for this degree programme. We have therefore put in place a selection process whereby applications are evaluated on an individual basis and are processed in four stages. 1. The UCAS application including the whole educational profile, references and personal statement are evaluated for potential suitability for the degree programme. 2. In March up to date academic references are sought and successful candidates will also be asked to submit no more than two A4 sides of a handwritten assignment on a piece of literature they have read. This could be a piece of marked course work produced during the Access Course. 3. On receipt of up to date references and evaluation of assignment submitted, applicants will at this stage be shortlisted for interview. 4. The interview is informal and you may be asked questions on the piece of work submitted and is primarily to evaluate your suitability for the degree programme. Candidates will be informed of the outcome within a few days.

Application & Selection

Interview Details	We only interview students studying alternative qualifications to the A level syllabus, for example students studying Access courses and students that may have been out of education for some time.
Scholarship Information	N/A
Career Outcome	Graduates of English, American Studies and Creative Writing enjoy career opportunities in a wide range of professions. The question to ask is less 'which jobs does a degree in English and American Studies allow me to do?' than 'which jobs doesn't such a degree allow me to do?' 'Traditional' careers in publishing, journalism, the media, teaching, the civil service and librarianship are still followed. But our surveys of recent graduates have revealed that our students also pursue an impressive variety of careers in such fields as law, banking, fashion, advertising, accountancy, business management, commerce, the new media, computing and archive studies. Studying English, American Studies and Creative Writing helps to develop versatile skills that include: the ability to manage one's time effectively, to communicate ideas clearly in spoken and written forms, to articulate a knowledge of concepts and theories, and to work and to think independently, critically and creatively.

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

English Literature with Creative Writing (3 Years) [BA]

UCAS Code	Q3W8
School	School of Arts, Languages and Cultures
Email	ug-eac@manchester.ac.uk
Phone	+44 (0)161 275 3107
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum of grade C in English and Maths
A level	Grades AAA-AAB to include grade A in English Literature, or in English Language and Literature. General Studies is welcomed but not normally included as part of the standard offer. AS-levels are not accepted in place of an A-level. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	37-35 points overall (core points accepted), including 7 points in English Literature at Higher level, plus 6 or 7 in two further Higher Level subjects.
Scottish Highers	Grades AAAAA-AAAAB, taken at one sitting, including English at grade A: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAA-AAB including either grade A in English Literature (or Lang and Lit, but not Eng Lang only).
Irish Certificate	A2A2A2A2B1-A2A2A2B2B2 at Higher Level: to include A in EngLit (or Eng Lang and Lit but not EngLang alone).
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 100 credits awarded at Distinction and the remaining 20 credits at Merit, plus A-level Grade A in English Literature (or English Language and Literature).
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in Eng Lit, or Eng Lang & Lit), plus 15 credits with a Merit grade in a Humanities-related subject. Applicants must have GCSE in English (at grade B or higher). They must also EITHER have GCSE Mathematics (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in Maths at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis. The number of applicants that are studying towards the Access to Higher Education course are increasing each year for this degree programme. we have therefore put in place a selection process whereby applications are evaluated on an individual basis and are processed in four stages. 1. The UCAS application including the whole educational profile, references and personal statement are evaluated for potential suitability for the degree programme. 2. In March up to date academic references are sought and successful candidates will also be asked to submit no more than two A4 sides of a handwritten assignment on a piece of literature they have read. This could be a piece of marked course work produced during the Access Course. 3. On receipt of up to date references and evaluation of assignment submitted, applicants will at this stage be shortlisted for interview. 4. The interview is informal and you may be asked questions on the piece of work submitted and is primarily to evaluate your suitability for the degree programme. Candidates will be informed of the outcome within a few days.

Application & Selection

Interview Details	We only interview students studying alternative qualifications to the A level syllabus; for example, students studying Access courses and students who have been out of education for some time.
Scholarship Information	N/A
Career Outcome	Graduates of English, American Studies and Creative Writing enjoy career opportunities in a wide range of professions. The question to ask is less 'which jobs does a degree in English and American Studies allow me to do?' than 'which jobs doesn't such a degree allow me to do?' 'Traditional' careers in publishing, journalism, the media, teaching, the civil service and librarianship are still followed. But our surveys of recent graduates have revealed that our students also pursue an impressive variety of careers in such fields as law, banking, fashion, advertising, accountancy, business management, commerce, the new media, computing and archive studies. Studying English, American Studies and Creative Writing helps to develop versatile skills that include: the ability to manage one's time effectively, to communicate ideas clearly in spoken and written forms, to articulate a knowledge of concepts and theories, and to work and to think independently, critically and creatively.

Career Outcome	As an environmental scientist your potential career paths will be extremely varied. You could, for instance, end up working for government agencies or private companies engaged in environmental protection, protection of water resources, assessment of air, land and water contamination, environmental impact assessment, waste management or the development of environmental policy and environmental management systems. Ninety-five per cent of our students are in either full time employment or further education six months after graduation (KIS data 2012). Typically over half of our graduates continue in education, studying for higher degrees such as masters or doctorates. Others have gained employment in a diverse range of areas, from the government agencies, oil companies and environmental consultancy companies to aid agencies overseas. Scottish Advanced Highers	ABB-BBB, including English Language at A2 or GCSE in a Modern Foreign Language (Grade B). Where a specified language is not available at Advanced Higher Level an A-level or other equivalent must be offered.
Irish Certificate	We welcome applications from students studying for this qualification and all such applications will be considered on an individual basis.
BTEC Diploma (18 Units)	Applicants with BTEC qualifications are welcomed and are considered on an individual basis. Please see the sections on A-Level and GCSE entry requirements for subject specific qualifications.
English Language Requirement	IELTS overall score of 6.5 with a minimum of 5.5 in each component. TOEFL iBT overall score of 90 with 17 in listening, 18 in reading, 20 in speaking and 17 in writing. Cambridge CAE grade B or CPE grade C.
Access to HE	Overall 60 credits are required with 45 at Level 3 with a Merit grade. 15 credits with a Merit must be achieved in a modern foreign language (or a grade B at GCSE). They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	We invite promising candidates to interview and an interview forms a significant part of our admissions criteria for the majority of applicants.
Scholarship Information	N/A
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Finance (3 Years) [BAEcon]

UCAS Code	N300
School	School of Social Sciences
Email	socialsciences@manchester.ac.uk
Phone	+44 (0)161 275 1473
Places/Applicants	In 2012 there were approximately 1250 applications for 135 places on the Accounting and Finance pathways of the BA(Hons) Economic and Social Studies course.

Qualifications Accepted

GCSE	Minimum grade C in English Language and grade B in Mathematics.
A level	AAB. Applicants must be studying at least one of the following A Level subjects: Accounting, Anthropology, Business Studies, Classics, Economics, English Language/Literature, Further Mathematics, Geography, History, Law, Mathematics, Modern Languages, Philosophy, Politics, Psychology, Religious Studies, Sociology, Use of Mathematics and World Development. General Studies and Critical Thinking are not accepted for entry. Native Language A-Levels will be accepted as part of a typical offer. Applicants re-sitting their A-Levels may have their offer increased by one grade, for example from AAB to AAA
International Baccalaureate	35 points overall. 6,6,5 at Higher Level. No lower than 5 in any subject.
Scottish Highers	AAABB.
Scottish Advanced Highers	AAB.
Irish Certificate	We would expect applicants to achieve four subjects at A2 and one subject at B2 in the Irish Leaving Certificate Higher Level qualification.
BTEC Diploma (18 Units)	The University welcomes applicants studying the BTEC Extended Diploma/Diploma in Business and related areas.
English Language Requirement	All applicants are expected to have a minimum of grade C in GCSE English Language or equivalent. For international students equivalent qualifications would be: IELTS of 6.5 overall with no lower than 6 in any component.
Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions'.

Application & Selection

Interview Details	N/A
Scholarship Information	The University of Manchester offers a range of Scholarships and Bursaries to Home/EU students including the Manchester Bursary.
Career Outcome	The BA(Hons) Economic and Social Studies programme and the Finance pathway in particular would give you the skills and knowledge that you need to be able to succeed in the future. With 80% of our recent graduates in work or further study six months after they graduate and 75% of those working, in professional or managerial roles (source: Unistats) our graduates have an excellent reputation for employability. Graduates from Finance are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what recent graduates from the BA(Econ) have gone on to do are (Source: DLHE): Accountancy and Professional Services - Our students are regularly recruited by the 'Big Four' accounting firms - Ernst and Young, KPMG, Deloitte, PricewaterhouseCoopers - as well as other graduate level employers such as Grant Thornton and BDO. Finance and Banking - Our recent graduates have gone on to work for Lloyds banking group, Royal Bank of Scotland, Santander, Credit Suisse, JP Morgan Chase, Morgan Stanley, Barclays, Bank of New York and Deutsche Bank. Government - Our students have gone on to work for both local government and central government departments such as: HM Treasury, FSA, Ministry of Justice, HMRC and the NHS. See the careers section of the course page for further information

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Genetics with a Modern Language (4 Years) [BSc]

UCAS Code	C402
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: French: an A-Level in French (grade B) or equivalent is required. German: an A-Level in German (grade B) or equivalent is required. Spanish: an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Life Sciences roles of recent graduates included: Genetic Technologist for the NHS Lab Assistant at international food company Research Specialist at a university in the USA Research Scientist at a pharmaceutical company Non Life Sciences roles of recent graduates included: Corporate Manager for a large banking organisation Graduate Procurement trainee for the Cabinet Office For information on the range of career options available please see the Faculty of Life Sciences Careers page

Scholarship Information	N/A
Career Outcome	As a geologist or earth scientist your potential career paths will be extremely varied. You could end up prospecting for diamonds in Suriname, or work as an exploration geologist in the oil and gas sector, or as a policy adviser for a major oil company. Around 40% of our students go on to study for further degrees and nearly 80% of our 2010 graduates surveyed were in fulltime employment or studying for further degrees 6 months after graduating (DLHE survey). For more information of how Manchester support you to find employment after graduation go to our website.

Geography (3 Years) [BA]

UCAS Code	L700
School	School of Environment, Education and Development
Email	UG-Geography-Admissions@manchester.ac.uk
Phone	+44 (0)161 275 2804
Places/Applicants	190 / 1200 for both BA and BSc programmes.

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAB (Two AS Levels accepted in place of one A Level).
International Baccalaureate	35 points overall.
Scottish Highers	Grades AAAAB-AABBB.
Scottish Advanced Highers	Grades AAB.
Irish Certificate	Grades AAAABB-AABBBB.
BTEC Diploma (18 Units)	Distinction Distinction Merit.
English Language Requirement	Students whose first language or language of instruction is not English may be asked to provide evidence of fluency in English by achieving scores in English language tests as follows: IELTS 6.5 overall, 6.5 in writing, no sub-section below 6.0, TOEFL iBT.
Access to HE	Applications are considered on an individual basis. Overall, 60 credits are required with 45 at level 3 of which 30 credits with a Distinction grade, plus 15 credits with a Merit grade.

Application & Selection

Interview Details	We may require you to attend an interview at the School following consideration of your application.
Scholarship Information	N/A
Career Outcome	Geography, as a discipline that requires both numeracy and literacy has one of the best graduate employment records in the country. The department has a dedicated member of academic staff focussed on developing and enhancing student employability both through the curriculum and fostering other opportunities for our students such as volunteering, internships etc. Manchester geographers are employed in a wide variety of occupations, including finance, education, marketing, sales, the media, advertising, land management, environmental work, the diplomatic service, health service, law and social work. Many others choose to undertake further study, either on masters or PhD programmes, often staying at Manchester to do so. Geography and Geology graduates likewise go into a wide range of careers, from accountancy and management, to environmental work and careers directly related to earth sciences. Some graduates choose to undertake further study, including various forms of professional training, as well as masters and PhD programmes.

International Baccalaureate	32-34 points overall (core points accepted), to include 6,5,5-5,5,5 in higher level subjects, including one of the languages to be studied.
Scottish Highers	Scottish Highers are accepted only in combination with Advanced Highers.
Scottish Advanced Highers	ABB-BBB including one of the languages to be studied. Where a specified subject is not available at Advanced Higher level, an A-Level or equivalent is required.
Irish Certificate	Contact us for further information.
BTEC Diploma (18 Units)	Applicants with BTEC qualifications are welcomed and are considered on an individual basis. Please see the sections on A-Level and GCSE entry requirements for subject specific qualifications.
English Language Requirement	IELTS overall score of 6.5 with a minimum of 5.5 in each component TOEFL iBT overall score of 90 with 17 in listening, 18 in reading, 20 in speaking and 17 in writing Cambridge CAE grade B or CPE grade C
Access to HE	Overall 60 credits are required with 45 at Merit grade at Level 3. Minimum of 15 credits in at least one of the language of study. Where any subject is not available as part of the access course an A-level must be offered instead. They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	We invite promising candidates to interview and an interview forms a significant part of our admissions criteria for the majority of applicants.
Scholarship Information	N/A
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Healthcare Science (Audiology) (3 years) [BSc]

UCAS Code	B611
School	School of Psychological Sciences
Email	ug-audiology@manchester.ac.uk
Phone	+44 (0)161 275 3389
Places/Applicants	Annual intake of 20 students.

Qualifications Accepted

GCSE	Minimum grade C in six subjects, including English Language. Grade B is required in Mathematics and a science (Biology, Chemistry, Physics or Science).
A level	Grades BBB including a science subject (Biology, Chemistry, Physics, Maths, Psychology or Applied Science) are required.
International Baccalaureate	The School requires 31 points overall including 5, 5, 5 points at higher level.
Scottish Highers	The School requires grades AABBB including two of the following subjects: Biology, Chemistry, Physics, Mathematics and Psychology.
Scottish Advanced Highers	Grades BBB including one of the following subjects: Biology, Chemistry, Physics, Mathematics and Psychology. General Studies is welcomed but not normally included as part of the standard offer.
Irish Certificate	A2A2B3B3B3 including two of the following subjects: Biology, Chemistry, Physics, Maths, Psychology are required.
BTEC Diploma (18 Units)	Extended Diploma: 160 credits at Merit with the remaining 20 at Pass Diploma: B at A level plus 110 credits at Merit and 10 at Pass Subsidiary Diploma: BB at A level plus 50 credits at Merit and 10
English Language Requirement	Applicants for whom English is not a first language should appreciate that a particularly high standard of spoken and written English is necessary to cope with academic and clinical work.
Access to HE	Applications are considered on an individual basis, e.g. additional educational achievements, life experience and skills. Please contact the University for further information. Normal requirements for diploma applicants are 60 (10 hour) credits with 45 at Level 3 and the remainder at Level 2. We recommend that potential applicants choose either the Health or Science pathway with a minimum of 15 credits in a science subject. We would prefer a minimum of 24 credits with distinction and 12 with merit. Applicants who do not have a Grade B at GCSE, or equivalent, in Mathematics should contact the University for further advice.

Application & Selection

Interview Details	N/A
Scholarship Information	N/A
Career Outcome	Successful completion of this course provides you with a BSc (Hons) Healthcare Science degree and a clinical qualification. This enables you to register as an audiologist and to work in the NHS or the independent sector. This programme of study will also allow for a number of other career opportunities. Previous graduates have undertaken further programmes such as MSc in Advanced Audiology or gone on to study for a PhD. Other students have entered the fast-track medicine programme, dentistry and other health related professions. Further career opportunities include research in universities or research institutes or employment in private sector audiology services and the audiology industry.

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAA-AAB, to include grade A in History. General Studies is welcomed but not included as part of the standard offer. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	37 points overall (core points accepted), including 6 or 7 in three Higher Level subjects, one of which must be History.
Scottish Highers	Grades AAAAA-AAAAB taken at one sitting: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAA-AAB including grade A in History.
Irish Certificate	A2A2A2A2B1-A2A2A2B2B2 at Higher Level: to include A in History
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 100 credits awarded at Distinction and the remaining 20 credits at Merit, plus A-level Grade A in History.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in History), plus 15 credits with a Merit grade in a Humanities-related subject. Applicants must have EITHER GCSEs in both English and Mathematics (at Grade C or higher), OR must demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits each in English and Maths. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	Employability 74% of History graduates were in employment or further study within 6 months of graduation. 61% of History graduates in employment were in managerial/professional job within 6 months of graduation. History graduates earned a median salary of £19,000 within 6 months of graduation. (Source: Unistats 2012). Career destinations History is a popular and versatile degree subject, which is highly regarded by employers. The degree provides expert training in analysis and critical reasoning and the range of forms of assessment develop important transferable skills in communication and presentation; argument and debate; teamwork; research and time management. Our graduates have been successful in a range of careers, including finance and auditing; marketing, public relations and advertising; teaching and academia; media and journalism; and the civil service. Many of our graduates have pursued successful careers within companies such as the BBC; KPMG; Deloitte; Marks and Spencer; Aviva; Accenture; Barclays. 28% of History graduates go on to further study including postgraduate diplomas in law, journalism and media; Masters programmes in history, performing arts and museum/gallery studies; PGCEs; humanitarianism and development studies. Careers support The History Department's Senior Tutor is dedicated to developing and enhancing student employability both through the curriculum and fostering other opportunities for our students such as volunteering and career workshops. He liaises closely with the University's career service to provide guidance and support that is tailor-made for History students. One of our most successful initiatives brings alumni from a range of professions to advise current students on how to enter their chosen career.

Places/Applicants	15/80

Qualifications Accepted

GCSE	Minimum of grade C in English and Maths
A level	AAB to include A in History. General Studies is welcomed but is not normally included as part of the standard offer. Two Grade A AS levels may be accepted in place of one A-level. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	35 points overall (core points accepted), including 6 or 7 points in three Higher level subjects, one of which must be History
Scottish Highers	Grades AAAAB: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAB to include A in History.
Irish Certificate	A2A2A2B2B2 at Higher Level, to include A in History
BTEC Diploma (18 Units)	BTec Diploma in a Humanities-related subject, with a minimum of 60 credits awarded at Distinction, 50 credits at Merit and 10 credits at Pass, PLUS A-level Grade A in History.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in History), plus 15 credits with a Merit grade in a Humanities-related subject. Applicants must have GCSE in English (at grade B or higher). They must also EITHER have GCSE Mathematics (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in Maths at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis. The number of applicants that are studying towards the Access to Higher Education course, is increasing each year for this degree programme. We have therefore put in place a selection process whereby applications are evaluated on an individual basis and are processed in four stages. 1. The UCAS application including the whole educational profile, references and personal statement are evaluated for potential suitability for the degree programme. 2. In March up to date academic references are sought and successful candidates will also be asked to submit no more than two A4 sides of a handwritten assignment on any period of American History or an analysis of American literature they have read. This could be a piece of marked course work produced during the Access Course. 3. On receipt of up to date references and evaluation of assignment submitted, applicants will at this stage be shortlisted for interview. 4. The interview is informal and you may be asked questions on the piece of work submitted and is primarily to evaluate your suitability for the degree programme. Candidates will be informed of the outcome within a few days.

Application & Selection

Interview Details	We don't normally interview for this degree, except in the case of mature applicants. In considering your application, all the information on the UCAS form is taken into account, particular attention being paid to academic qualifications and predictions, to your referee's confidential report, and to your personal statement.
Scholarship Information	N/A
Career Outcome	Graduates of the Division of English, American Studies and Creative Writing enjoy career opportunities in a wide range of professions. The question to ask is less which jobs does a degree from EAC allow me to do? than which jobs doesn't such a degree allow me to do? `Traditional' careers in publishing, journalism, the media, teaching, the civil service and librarianship are still followed. More specifically, the BA (Hons) in History and American Studies offers multi-disciplinary training, which equips students for a variety of job opportunities. Employers value the transferable skills students acquire, such as skills in advanced research methods, analytical techniques and excellent verbal and written communication skills. As a result, our graduates are highly employable. Some of our graduates like to spend a year or two teaching English abroad.

School	School of Arts, Languages and Cultures
Email	ug.languages@manchester.ac.uk
Phone	+44 (0)161 275 3211
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	ABB including History at grade A plus English Language at A2 or GCSE in a Modern Foreign Language (grade B)
International Baccalaureate	34 points overall (core points accepted), to include higher level History grade 6 plus 5,5 to include English Language higher level or GCSE in a Modern Foreign Language (grade B)
Scottish Highers	Scottish Highers are accepted only in combination with Advanced Highers.
Scottish Advanced Highers	ABB including History (A) plus English Language at A2 or GCSE in a Modern Foreign Language (grade B). Where a specified subject is not available at Advanced Higher level, an A-Level or equivalent is required.
Irish Certificate	We welcome applications from students studying for this qualification and all such applications will be considered on an individual basis.
BTEC Diploma (18 Units)	Applicants with BTEC qualifications are welcomed and are considered on an individual basis. Please see the sections on A-Level and GCSE entry requirements for subject specific qualifications.
English Language Requirement	IELTS overall score of 6.5 with a minimum of 5.5 in each component TOEFL iBT overall score of 90 with 17 in listening, 18 in reading, 20 in speaking and 17 in writing Cambridge CAE grade B or CPE grade C
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade in History, plus a minimum of 30 credits with a Merit grade (including 15 credits in a modern foreign language). Where either subject is not available as part of the access course an A-level must be offered instead. Applicants must achieve a Merit grade in a further 15 credits at level 3. They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	We invite promising candidates to interview and an interview forms a significant part of our admissions criteria for the majority of applicants.
Scholarship Information	N/A
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Career Outcome	Employability 74% of History graduates were in employment or further study within 6 months of graduation. 61% of History graduates in employment were in managerial/professional job within 6 months of graduation. History graduates earned a median salary of £19,000 within 6 months of graduation. (Source: Unistats 2012). Career destinations History is a popular and versatile degree subject, which is highly regarded by employers. The degree provides expert training in analysis and critical reasoning and the range of forms of assessment develop important transferable skills in communication and presentation; argument and debate; teamwork; research and time management. Our graduates have been successful in a range of careers, including finance and auditing; marketing, public relations and advertising; teaching and academia; media and journalism; and the civil service. Many of our graduates have pursued successful careers within companies such as the BBC; KPMG; Deloitte; Marks and Spencer; Aviva; Accenture; Barclays. 28% of History graduates go on to further study including postgraduate diplomas in law, journalism and media; Masters programmes in history, performing arts and museum/gallery studies; PGCEs; humanitarianism and development studies. Careers support The History Department's Senior Tutor is dedicated to developing and enhancing student employability both through the curriculum and fostering other opportunities for our students such as volunteering and career workshops. He liaises closely with the University's career service to provide guidance and support that is tailor-made for History students. One of our most successful initiatives brings alumni from a range of professions to advise current students on how to enter their chosen career.

Interview Details	You may be required to attend an interview. We also encourage applicants to attend one of our Open Days or Visit Days, when you have the opportunity to look around the University and meet members of the teaching staff and current students.
Scholarship Information	N/A
Career Outcome	A degree in art history prepares you for careers in the art world but it also equips you with intellectual and practical skills applicable to many different spheres of employment. We live in an image-saturated world where being shrewd about how images communicate, and having the skills to interpret and write about them, can be a route to a satisfying job. In response to the vocational interests of our students, we have implemented a new pathway devoted to curating and gallery studies taught in conjunction with Museology staff. Topics include museums, collecting, curating, exhibiting, and art writing. On graduation, some of our students choose to stay on in order to follow the highly regarded MA in Art Gallery and Museum Studies. The rich collections of paintings, fine art prints and textiles in the university's Whitworth Art Gallery are used extensively in our teaching. A work placement module at the Whitworth in Year 3 allows you to gain credits towards your degree whilst getting hands-on gallery experience. Our student society, the Manchester Art Group, is very active. In the past year, it has organized exhibitions and talks by curators and other art world impresarios (who are generally not reluctant to share a few clues to their professional success). By getting involved, you can start to build an impressive CV that has helped clinch a job for more than one of our students. Former students of the department have been successful in a variety of careers: as curators, conservators, teachers, librarians; in television, journalism, commercial galleries, auction houses, advertising, creative writing - and even academe. You will find a few of these success stories showcased on our website.

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

History with Integrated Masters

UCAS Code	V101
School	School of Arts, Languages and Cultures
Email	ug-hist@manchester.ac.uk
Phone	+44 (0)161 306 1251
Places/Applicants	There are around 120 single honours History places and these will be spread between the BA(Hons) History and the Integrated Masters in History.

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAA-AAB, to include grade A in History. General Studies is welcomed but not included as part of the standard offer. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	37-35 points overall (core points accepted), including 6 or 7 in three Higher Level subjects, one of which must be History.
Scottish Highers	Grades AAAAA-AAAAB taken at one sitting: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades AAA-AAB including grade A in History.
Irish Certificate	A2A2A2A2B1-A2A2A2B2B2 at Higher Level: to include A in History
BTEC Diploma (18 Units)	BTEC Diploma in a Humanities-related subject, with a minimum of 100 credits awarded at Distinction and the remaining 20 credits at Merit, plus A-level Grade A in History.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in History), plus 15 credits with a Merit grade in a Humanities-related subject. Applicants must have EITHER GCSEs in both English and Mathematics (at Grade C or higher), OR must demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits each in English and Maths. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	Employability 74% of History graduates were in employment or further study within 6 months of graduation. 61% of History graduates in employment were in managerial/professional job within 6 months of graduation. History graduates earned a median salary of £19,000 within 6 months of graduation. (Source: Unistats 2012). Career destinations History is a popular and versatile degree subject, which is highly regarded by employers. The degree provides expert training in analysis and critical reasoning and the range of forms of assessment develop important transferable skills in communication and presentation; argument and debate; teamwork; research and time management. Our graduates have been successful in a range of careers, including finance and auditing; marketing, public relations and advertising; teaching and academia; media and journalism; and the civil service. Many of our graduates have pursued successful careers within companies such as the BBC; KPMG; Deloitte; Marks and Spencer; Aviva; Accenture; Barclays. 28% of History graduates go on to further study including postgraduate diplomas in law, journalism and media; Masters programmes in history, performing arts and museum/gallery studies; PGCEs; humanitarianism and development studies. Careers support The History Department's Senior Tutor is dedicated to developing and enhancing student employability both through the curriculum and fostering other opportunities for our students such as volunteering and career workshops. He liaises closely with the University's career service to provide guidance and support that is tailor-made for History students. One of our most successful initiatives brings alumni from a range of professions to advise current students on how to enter their chosen career.

Scottish Highers	Grades AABBB: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades ABB. This must include Grade A English Literature (or English Language and Literature, but NOT English Language alone). If you offer Latin as one of your subjects, you will continue your study of the language on Route 1; if you have not studied the
Irish Certificate	A2B1B2B2B2 at Higher Level, to include A in English Literature (or English Language and Literature, but NOT English Language alone)
BTEC Diploma (18 Units)	BTec Diploma in a Humanities-related subject, with a minimum of 110 credits at Merit and 10 credits at Pass or above, PLUS A-level Grade A in English Literature (or Language and Literature, but not Language alone).
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade (which must be EngLit (or Lang and Lit, but not Lang only), plus minimum of 24 credits with a Merit grade in a Humanities-related subject. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	Employment A degree in Classics, Classical studies or Ancient History is an excellent choice for a wide variety of careers. Obvious ones include: archivist, curator, editorial assistant, careers in teaching, heritage/museum administration, and jobs in cultural tourism. However, the field is far wider than careers closely linked to the subject matter of your degree. Many of our students go on to careers in management, TV/Radio, law, finance, computing, insurance, human resources, journalism, marketing, public relations, advertising, social work, banking, accountancy, retail management and management consultancy. For some of these you would undertake an additional period of training or study, e.g. a law conversion course. 'Unless it's a technical job which requires a particular degree, the fact that someone's done classics will make them stand out.... It's quite an unusual choice. I suppose it implies that the person is quite interesting, that they have followed their interests and done something off the beaten track. I think employers look on that favourably.' Hardwin Jones, a spokesman for Milkround Graduate Recruitment Further Study Our undergraduate degrees provide a solid base for further study at postgraduate level. The department has a thriving postgraduate community, with an intake of, on average, about 13 MA students and 6 PhD students per year. They are an integral and vibrant constituent of our academic community and a weekly staff/postgraduate lunch offers a social complement to the research interaction fostered by our weekly seminar series. A number of our own undergraduates opt to stay on at Manchester to study at MA level, but we also receive applications from other universities throughout the UK and internationally, both at MA and PhD level. In addition, a number of our graduates have gained postgraduate places at other universities, including Stanford and Oxbridge. Skills Classics and Ancient History graduates can offer prospective employers an enviable range of transferable skills. These include logical thinking; good communication skills, both written and oral; interpreting, assessing and evaluating sources; proposing ideas and theories; leading and participating in discussions; working independently and to deadlines and an understanding of different cultures and societies.

Law (3 Years) [LLB]

UCAS Code	M100
School	School of Law
Email	ug-law@manchester.ac.uk
Phone	+44 (0)161 306 1271
Places/Applicants	As a guide, for 2013 entry we received approximately 2000 applications for 250 places.

Qualifications Accepted

GCSE	Strong overall profile with a minimum of grade A in English Language and a B in Maths.
A level	Grades AAA Two AS levels are not accepted in place of one A level. We welcome all A level subjects from Arts, Humanities, Mathematics & Science, including Law. However, we do not accept General Studies or Critical Thinking. We do not operate a list of 'preferred' A level subjects.
International Baccalaureate	37 points overall including 6, 6, 6 at Higher Level.
Scottish Highers	We do not accept Scottish Highers as a stand alone qualification
Scottish Advanced Highers	Higher grades of AAAB including grade A in English Language and B in Mathematics plus Advanced Highers of AAB. We welcome all subjects from Arts, Humanities, Mathematics & Science.
Irish Certificate	4x A2, 1xB1 at Higher Level. We welcome all subjects from Arts, Humanities, Mathematics & Science.
BTEC Diploma (18 Units)	Minimum of 180 credits with 150 awarded at Distinction and 30 credits at Merit. Due to most BTECs being in 'non-traditional' subjects, we would prefer applicants to offer further qualifications.
English Language Requirement	Candidates must show a high standard of written and spoken English. We usually look for a minimum of A in GCSE English Language or equivalent such as IELTS 7 with a minimum of 6.5 in each subtest or TOEFL IBT 100 with a minimum of 24 in each subtest.
Access to HE	Applications are considered on an individual basis but as a general guide, our typical requirement is a pass in a humanities based Access course with 45 credits at level 3 including a minimum of 40 credits at distinction and 5 credits at merit. We additionally require 15 credits at level 2, including English Language and Maths

Application & Selection

Interview Details	We do not conduct interviews.
Scholarship Information	N/A
Career Outcome	If you want to practice as a solicitor or barrister in England and Wales all our LLB degrees (LLB Law, LLB Law with Criminology and LLB Law with Politics) provide you with the opportunity to study the foundational subjects required to qualify for exemptions at the next stage in your training. However you will still need to embark on further vocational training. You will need to complete the Legal Practice Course and obtain a training contract to become a solicitor. You will need to complete the Bar Vocational Course and obtain a pupillage to become a barrister. The University of Manchester's School of Law has excellent links with the legal professions and public services. Our graduates have an impressive record of securing employment both in the legal profession and other professional environments. Careers advice is available from a dedicated careers advisor. For those who wish to qualify as a solicitor, every graduate with a 2:1 degree or better is guaranteed a place at one of the branches of the College of Law or BPP to study on the Legal Practice Course. In 2013, we were positioned joint 6th in the Russell Group for our DLHE figures for Law (destination of leavers from higher education going into positive outcomes - i.e. graduate level jobs and further study). For more information please visit our careers and employability page.

A level	Grades AAB Two AS levels are not accepted in place of one A level. We welcome all A level subjects from Arts, Humanities, Mathematics & Science, including Law. However, we do not accept General Studies or Critical Thinking. We do not operate a list of 'preferred' A level subjects.
International Baccalaureate	35 points overall including 6, 6, 5 at Higher Level. We prefer to see at least 2 traditional subjects in your Higher Level choices, however we welcome all subjects from Arts, Humanities, Mathematics & Science.
Scottish Highers	We do not accept Scottish Highers as a stand alone qualification
Scottish Advanced Highers	Higher grades of AAABC including grade A in English Language and B in Mathematics plus Advanced Highers of ABB. We prefer to see at least 2 traditional subjects in your Advanced Higher Level choices, however we welcome all subjects from Arts, Humanities, Mathematics & Science.
Irish Certificate	3x A2, 2x B2 at Higher Level. We prefer to see at least 2 traditional subjects in your Higher Level choices, however we welcome all subjects from Arts, Humanities, Mathematics & Science.
BTEC Diploma (18 Units)	Minimum of 180 credits with 100 awarded at Distinction and 80 credits at Merit. Due to most BTEC's being in 'non-traditional' subjects, we would prefer applicants to offer further qualifications.
English Language Requirement	Candidates must show a high standard of written and spoken English. We require a minimum of A from GCSE English Language or equivalent such as IELTS 7 with a minimum of 6.5 in each subtest or TOEFL IBT 100 with a minimum of 24 in each subtest.
Access to HE	Applications are considered on an individual basis but as a general guide, our typical requirement is a pass in a humanities based Access course with 45 credits at level 3 including a minimum of 30 credits at distinction and 15 credits at merit. We additionally require 15 credits at level 2, including English Language and Maths

Application & Selection

Interview Details	We do not conduct interviews.
Scholarship Information	N/A
Career Outcome	The course allows students to specialise in crime-related subjects that may be useful for a legal career specialising in criminal law and civil liberties. The course also caters for students who may wish to become lawyers but who are simply interested in learning more about crime and justice. In addition, this course provides an excellent foundation for a career in the field of criminal justice (eg police, probation, juvenile justice, prisons service, crime prevention). Like all law and social science degrees at the University of Manchester, the intellectual rigour and training of this course will fit all graduates for almost any non-scientific career of their choice. All Law School students have the opportunity to attend skills training courses that have basic modules aimed at employment in general and more specialist modules aimed at particular careers. If you want to practise as a solicitor or barrister the course covers all the core subjects required to qualify for exemptions at the next stage in your training. However it will be necessary to do some further vocational training. You will need to do the Legal Practice Course and obtain a training contract to become a solicitor. You will need to do the Bar Professional Training Course and obtain a pupillage to become a barrister careers advisor. For those who wish to qualify as a solicitor, every graduate with a 2:1 degree or better is guaranteed a place at one of the branches of the University of Law or BPP to study on the Legal Practice Course.

Irish Certificate	3x A2, 2x B2 at Higher Level. We prefer to see at least 2 traditional subjects in your Higher Level choices, however we welcome all subjects from Arts, Humanities, Mathematics & Science.
BTEC Diploma (18 Units)	Minimum of 180 credits with 100 awarded at Distinction and 80 credits at Merit. Due to most BTEC's being in 'non-traditional' subjects, we would prefer applicants to offer further qualifications.
English Language Requirement	Candidates must show a high standard of written and spoken English. We require a minimum of A from GCSE English Language or equivalent such as IELTS 7 with a minimum of 6.5 in each subtest or TOEFL IBT 100 with a minimum of 24 in each subtest.
Access to HE	Applications are considered on an individual basis but as a general guide, our typical requirement is a pass in a humanities based Access course with 45 credits at level 3 including a minimum of 30 credits at distinction and 15 credits at merit. We additionally require 15 credits at level 2, including English Language and Maths

Application & Selection

Interview Details	We do not interview applicants.
Scholarship Information	N/A
Career Outcome	If you want to practise as a solicitor or barrister the course covers all the core subjects required to qualify for exemptions at the next stage in your training. However it will be necessary to do some further vocational training. You will need to do the Legal Practice Course and obtain a training contract to become a solicitor. You will need to do the Bar Vocational Course and obtain a pupillage to become a barrister. The University of Manchester's School of Law has strong links with the legal professions and public services. Our graduates have a good record of securing employment both in the legal profession and other professional environments. Careers advice is available from a dedicated careers advisor. For those who wish to qualify as a solicitor, every graduate with a 2:1 degree or better is guaranteed a place at one of the branches of the College of Law or BPP to study on the Legal Practice Course. We are joint 6 th in Russell Group for our DLHE figures for Law (destination of leavers from higher education going into positive outcomes) - i.e. graduate level jobs and further study.

Law with Politics (3 Years) [LLB]

UCAS Code	N/A
School	School of Law
Email	ug-law@manchester.ac.uk
Phone	+44 (0)161 306 1271
Places/Applicants	As a guide, for 2013 entry we received approximately 200 applications for 25 places.

Qualifications Accepted

GCSE	Strong overall profile with a minimum of grade A in English Language and a B in Maths
A level	Two AS levels are not accepted in place of one A level. We welcome all A level subjects from Arts, Humanities, Mathematics & Science, including Law. However, we do not accept General Studies or Critical Thinking. We do not operate a list of 'preferred' A level subjects.
International Baccalaureate	35 points with 665 at Higher Level.
Scottish Highers	We do not accept Scottish Highers as a stand alone qualification
Scottish Advanced Highers	We prefer to see at least 2 traditional subjects in your Advanced Higher Level choices, however we welcome all subjects from Arts, Humanities, Mathematics & Science provided they have an academic content of at least 70%.
Irish Certificate	We prefer to see at least 2 traditional subjects in your Higher Level choices, however we welcome all subjects from Arts, Humanities, Mathematics & Science provided they have an academic content of at least 70%.
BTEC Diploma (18 Units)	Minimum of 180 credits with 100 awarded at Distinction and 80 credits at Merit. Due to most BTEC's being in 'non-traditional' subjects, we would prefer applicants to offer further qualifications.

Life Sciences (3 Years) [BSc]

UCAS Code	C102
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	For information on the range of career options available please see the Faculty of Life Sciences Careers page.

Life Sciences with a Foundation Year (4 or 5 Years)

UCAS Code	C900
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	See GCE A-level requirements.
A level	Students are accepted from a wide range of educational backgrounds and each application will be considered individually. If you have already obtained A-levels (or equivalent) in subjects inappropriate for direct admission to one of the Life Sciences degree programmes (BBB or above), a good standard of GCSE or equivalent in science and mathematics will also be required. If you are returning to study after a period away from it, we shall take into account relevant experience in employment together with any previous qualifications. Students are accepted from a range of educational backgrounds, and each application will be considered individually. Students who have taken sciences at A-level but do not achieve BBB or above will only be accepted onto the Foundation Year if there is evidence that they have underperformed due to circumstances beyond their control.
International Baccalaureate	See GCE A-level requirements.
Scottish Highers	See GCE A-level requirements.
Scottish Advanced Highers	See GCE A-level requirements.
Irish Certificate	See GCE A-level requirements.
BTEC Diploma (18 Units)	See GCE A-level requirements.
English Language Requirement	IELTS 6.5 with a minimum of 6.5 in any component.
Access to HE	See GCE A-level requirements.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.

Life Sciences with a Modern Language (4 Years) [BSc]

UCAS Code	C103
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: • French: an A-Level in French (grade B) or equivalent is required. • German: an A-Level in German (grade B) or equivalent is required. • Spanish: an A-Level in Spanish (grade B) or equivalent is required. • Italian: an A-Level in Italian (grade B) or equivalent is required. • Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. • Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level. 5 points in Japanese at standard level, or equivalent, is required for the degree with Japanese. For other languages 5 points is required in a language at standard level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage.

Linguistics (3 Years) [BA]

UCAS Code	Q100
School	School of Arts, Languages and Cultures
Email	ug.languages@manchester.ac.uk
Phone	+44 (0)161 275 3211
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	ABB including any language (including English language or English Language/Literature combined).
International Baccalaureate	34 points overall (core points accepted), with 6,5,5 in higher level subjects including any language (incl. English Language or English Language & Literature).
Scottish Highers	Scottish Highers are accepted only in combination with Advanced Highers.
Scottish Advanced Highers	ABB including any language (incl. English language or English Language/Literature combined). Where a specified subject is not available at Advanced Higher level, an A-Level or equivalent is required.
Irish Certificate	We welcome applications from students studying for this qualification and all such applications will be considered on an individual basis.
BTEC Diploma (18 Units)	Applicants with BTEC qualifications are welcomed and are considered on an individual basis. Please see the sections on A-Level and GCSE entry requirements for subject specific qualifications.
English Language Requirement	Candidates must be proficient in the English language, which is the language of instruction and examination at the university. See course page for further information.
Access to HE	Overall 60 credits are required with 45 at Merit grade at Level 3. Minimum of 15 credits in a modern foreign language, English language or English language & literature. Where any subject is not available as part of the access course an A-level must be offered instead. They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Scholarship Information	N/A
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. 85% (Linguistics) of our graduates are in employment or further study within six months of graduation (Source: Unistats 2012). Many of our graduates secure jobs in business services, marketing, advertising, management, banking or communications. Roles of recent Linguistics and English Language graduates include: • Regional Events Manager • Communications Officer • Radio reporter • Speech Therapy Assistant • Recruitment Consultant Our graduates have pursued careers in firms including The Guardian, PricewaterhouseCoopers, L'Oreal, Universal Music Group, and Vodafone. Other graduates have opted for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad), or enter the Civil Service. Postgraduate programmes undertaken by our graduates include Graduate Diploma in Law, MA in Broadcast Journalism, MSc in Machine Translation, MA in (Applied) Linguistics, or MSc in Human Communication Studies. Did you know? • MI5 actively recruit graduates with language skills. • Graduates from The University of Manchester are amongst the highest paid in the country. • More employers recruit at The University of Manchester than at any other UK university. • The University of Manchester's award-winning Careers Service is consistently voted the best in the country by both students and employers. • The School is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Scottish Advanced Highers	Grades AAB at Advanced Higher; or two Advanced Highers (AB) plus two Highers (AA).
Irish Certificate	Grades A1A1B1B1 at Higher Level plus one other subject at higher Level.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma (formerly the BTEC National Diploma) with a minimum of 100 credits awarded at Distinction, 70 at Merit and the remaining 10 credits at Pass or above. We also accept the new BTEC Level 3 Diploma (formerly the BTEC National Award) in combination with other qualifications such as A-levels: - BTEC Level 3 Diploma - Grade A at A level plus the BTEC Diploma with a minimum of 60 credits awarded at Distinction, 50 credits at Merit and 10 credits at Pass. - BTEC Level 3 Subsidiary Diploma - Grades AA at A level, plus the BTEC Diploma with a minimum of 50 credits awarded at Merit and the remaining 10 credits at Pass Or: Grades AB at A level, plus the BTEC Subsidiary Diploma with a minimum of 50 credits awarded at Distinction and the remaining 10 credits at Merit.
English Language Requirement	Academic IELTS 6.5 overall, with no less than 6 in any component. Academic TOEFL 90 points overall (in the internet-based test), with no less than 20 in any component. Cambridge Certificate in Advanced English (CAE) grade C or above. Please provide your unique and special numbers to be verified online. Academic Pearson Test of English (PTE) with no less than 59 overall and 51 in any component. IGCSE English grade B or above. International applicants who have studied IGCSE English will need to have completed the fully assessed oral examination to satisfy our English language requirements.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits at level 3 with a Distinction grade, plus further 15 credits with a grade Merit. Where GCSE Mathematics is not at grade B then please email ug-mbs@manchester.ac.uk for further information. In addition, applicants should have GCSE in English Language at grade B or IELTS 6.5 with no component below 6, or equivalent. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	We do not as a rule interview applicants. However, we reserve the right to interview candidates with non-standard backgrounds, eg. Mature students and students aged under 17.
Scholarship Information	The Manchester Bursary is available to any student who is registered on an eligible first undergraduate degree course at Manchester and who has had a full financial assessment carried out by Student Finance. This bursary is additional to the government package of maintenance grants. Visit our student finance pages for more detailed information. In addition to this support, Manchester Business School hopes to award five Undergraduate Scholarships for Social Responsibility worth £2,000 p.a. across three years of study to UK students achieving AAA at A-level (or equivalent) who are able to demonstrate a significant contribution and commitment to social responsibility. We will also be awarding this scholarship to an international student.
Career Outcome	83% of our management graduates are in employment or further study within 6 months of graduation and 76% of those employed are in graduate level jobs (Source: Unistats 2012). What jobs do our Management graduates go into? Examples of jobs recent graduates have gone onto include: audit graduate, HR graduate analyst, internet consultant and management trainee. Who employs them? A wide range of companies including: Balfour Beatty, Deutsche Bank, KPMG, Microsoft and Tesco. What about further study? Graduates have gone onto further study in business, economics, enterprise and branding at institutions across the UK and internationally, including London Business School, the University of Jiao Tong and the University of Lausanne. All examples are taken from the Destinations of Leavers from Higher Education (DLHE) survey.

Materials Science & Engineering (4 Years) [MEng]

UCAS Code	J501
School	School of Materials
Email	ug-materials@manchester.ac.uk
Phone	+44 (0)161 306 4360
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language, Science and Mathematics.
A level	Grades AAA. This should include two subjects from Mathematics, Physics and Chemistry.
International Baccalaureate	37 points to include 6,6,6, at Higher level to include 2 from Maths, Physics and Chemistry.
Scottish Highers	N/A
Scottish Advanced Highers	Grades AAA including two subjects from Mathematics, Physics and Chemistry.
Irish Certificate	N/A
BTEC Diploma (18 Units)	Contact us for further information.
English Language Requirement	GCSE grade C, IELTS 6.0 with no subtest below 5.5, TOEFL internet based test score of 80 with no subtest below 20. Cambridge Proficiency in English Grade C, English for Academic Purposes Grade C, Pearsons Test of English 59 with no subtest below 51.
Access to HE	Contact us for further information.

Application & Selection

Interview Details	All applicants are invited to attend an Open Day, at which they will have a brief interview. This is an informal interview and no specific preparation needs to be done for it. For students living overseas, we will arrange a convenient time and date to telephone you (between Monday and Friday, 9am-5pm GMT) to conduct the interview this way, if the costs of attending an Open Day are too high.
Scholarship Information	For information on scholarships available to students entering in 2015 go to http://www.manchester.ac.uk/undergraduate/funding/home/changes/
Career Outcome	Materials Science and Engineering graduates are highly sought after by employers, and all of our graduates either find employment in industry or go on to higher level study at the end of their degree. Careers include research and development, management positions, and technical roles within both large multinationals and smaller businesses. Companies our recent graduates have gone on to work for include Rolls Royce, Airbus, Jaguar, 3M, Alcoa, and Corus. Other graduates choose to apply their technical and analytical skills in fields such as patent law or accountancy. A Materials Science and Engineering degree also provides an ideal springboard for higher level study (eg towards a PhD), and approximately one third of our graduates follow this route. Careers include research and development roles, management positions and technical sales within large materials manufacturing or end-users. The range of careers include things as diverse as teaching, engineering, consultancy and technical development roles.

Mathematics (3 Years) [BSc]

UCAS Code	G100
School	School of Mathematics
Email	ug-maths@manchester.ac.uk
Phone	+44 (0)161 275 5803
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	We typically accept the following results at GCE A level: A* (Mathematics) AA - A (Mathematics) AA. We do not accept General Studies A level.
International Baccalaureate	37 points overall including 18 points at Higher Level. Higher Level points must include 6 in Mathematics.
Scottish Highers	Grades AAAAA which must include Advanced Highers in Mathematics at grade A.
Scottish Advanced Highers	Grade A in Mathematics plus grades AA.
Irish Certificate	Grades AAAAB at Higher Level, including grade A1 in Mathematics.
BTEC Diploma (18 Units)	We will typically accept a BTEC Level 3 Subsidiary Diploma at grade D* in place of a non-mathematical A-level at grade A (see A-level entry requirements). A BTEC Level 3 Subsidiary Diploma at grade D will typically be accepted in place of a non-mathematical A-level at grade B. If you are taking the BTEC Level 3 Diploma, this can be accepted in combination with Mathematics A-level; please contact the School of Mathematics for further information.
English Language Requirement	All entrants must have a recognised English language qualification, such as GCSE English Language at grade C or better, IELTS with an overall score of at least 6.0 (including a Writing score of at least 6.0 and no other component less than 5.5) or an equivalent qualification.
Access to HE	Applications are considered on an individual basis. As well as QAA's normal requirements for diploma applicants, which are 60 (10 hour) credits with 45 at level 3 and the remainder at level 2, the School of Mathematics requires that the level 3 programme must include seven specific Mathematics units, or their equivalent; please contact the University for further information.

Application & Selection

Interview Details	An interview forms a significant part of the admission criteria for the majority of our applicants.
Scholarship Information	The School of Mathematics offers scholarships for academically excellent students from the UK and around the world; contact the School for more details.
Career Outcome	The study of Mathematics develops skills and knowledge which are of value in a wide variety of professions. A Mathematics degree is a good preparation for any area of employment requiring people who can think clearly and logically. The main areas of employment are finance, industry, computing (including operational research), management, administration, statistics, teaching (schools and colleges) and postgraduate study. Many of our graduates have pursued careers in finance in firms including KPMG, Goldman Sachs, PricewaterhouseCoopers, Deloitte, Barclays and Deutsche Bank. A substantial number of previous graduates have undertaken further programmes of study such as MSc in Maths, Applied Maths, Finance, Business, Management and Computer Science. Some have gone on to train as teachers. The School of Maths puts significant emphasis on careers and holds a number of events throughout the year. These include a programme of peer assisted interviewer training to prepare students for entering the graduate recruitment market. We also host the annual Calculating Careers Fair. This takes place in early October each year and is attended by a large number of international graduate recruiters. Previous attendees have included Amazon, Amec, Barclays, BP, BT, Credit Suisse, GCHQ, IBM, PricewaterhouseCoopers, RBS, Teach First and Deloitte. This fair is a great opportunity for students to network with a number of graduate employers early in their academic careers.

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	We typically accept the following results at GCE A level: A* (Mathematics) AA - A (Mathematics) AA. We do not accept General Studies A level.
International Baccalaureate	37 points overall including 18 points at Higher Level. Higher Level points must include 6 in Mathematics.
Scottish Highers	Grades AAAAA which must include Advanced Highers in Mathematics at grade A.
Scottish Advanced Highers	Grade A in Mathematics plus grades AA.
Irish Certificate	Grades AAAAB at Higher Level, including grade A1 in Mathematics.
BTEC Diploma (18 Units)	We will typically accept a BTEC Level 3 Subsidiary Diploma at grade D* in place of a non-mathematical A-level at grade A (see A-level entry requirements). A BTEC Level 3 Subsidiary Diploma at grade D will typically be accepted in place of a non-mathematical A-level at grade B. If you are taking the BTEC Level 3 Diploma, this can be accepted in combination with Mathematics A-level; please contact the School of Mathematics for further information.
English Language Requirement	All entrants must have a recognised English language qualification, such as GCSE English Language at grade C or better, IELTS with an overall score of at least 6.5 (including a Writing score of at least 6.0 and no other component less than 5.5) or an equivalent qualification.
Access to HE	Applications are considered on an individual basis. As well as QAA's normal requirements for diploma applicants, which are 60 (10 hour) credits with 45 at level 3 and the remainder at level 2, the School of Mathematics requires that the level 3 programme must include seven specific Mathematics units, or their equivalent; please contact the University for further information.

Application & Selection

Interview Details	An interview forms a significant part of the admission criteria for the majority of our applicants.
Scholarship Information	The School of Mathematics offers scholarships for academically excellent students from the UK and around the world; contact the School for more details.
Career Outcome	The study of Mathematics develops skills and knowledge which are of value in a wide variety of professions. A Mathematics degree is a good preparation for any area of employment requiring people who can think clearly and logically. The main areas of employment are finance, industry, computing (including operational research), management, administration, statistics, teaching (schools and colleges) and postgraduate study. Many of our graduates have pursued careers in finance in firms including KPMG, Goldman Sachs, PricewaterhouseCoopers, Deloitte, Barclays and Deutsche Bank. A substantial number of previous graduates have undertaken further programmes of study such as MSc in Maths, Applied Maths, Finance, Business, Management and Computer Science. Some have gone on to train as teachers. The School of Maths puts significant emphasis on careers and holds a number of events throughout the year. These include a programme of peer assisted interviewer training to prepare students for entering the graduate recruitment market. We also host the annual Calculating Careers Fair. This takes place in early October each year and is attended by a large number of international graduate recruiters. Previous attendees have included Amazon, Amec, Barclays, BP, BT, Credit Suisse, GCHQ, IBM, PricewaterhouseCoopers, RBS, Teach First and Deloitte. This fair is a great opportunity for students to network with a number of graduate employers early in their academic careers.

Mathematics and Physics (3 Years) [BSc]

UCAS Code	FG31
School	School of Physics and Astronomy
Email	ug-physics@manchester.ac.uk
Phone	+44 (0)161 306 9220
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	A*A*A - A*AA to include Physics and Maths (and excluding General Studies).
International Baccalaureate	Overall score of 39 - 38 with HL grades of 7,7, 6 - 7,6, 6 (to include Physics and Maths).
Scottish Highers	N/A
Scottish Advanced Highers	Grade A in Mathematics plus grades AA.
Irish Certificate	AAAAAA in Irish Leaving Certificate including Physics and Maths.
BTEC Diploma (18 Units)	Applicants are advised to apply initially to our Science with a Integrated Foundation Year (UCAS Code F008). This is a one year programme designed to improve your scientific knowledge and understanding to a level where you will be suitable for a science degree in the Faculty of Engineering and Physical Sciences. You are guaranteed a place provided you meet the entry criteria for your chosen degree. In studying the Foundation Year you will take courses in Mathematics, Physics and Chemistry (where appropriate) plus Communication Skills and ICT. Finally, you will complete a project that is specific or closely related to your anticipated degree programme.
English Language Requirement	IELTS overall score of 6.0 with no less than 5.5 in each sub-test. TOEFL iBT overall score of 80 with the following minimums in sub-tests: Listening 17, Reading 18, Speaking 20, Writing 17. TOEFL overall score of 550 with TWE OF 5.
Access to HE	Applicants are advised to apply initially to our Science with a Integrated Foundation Year (UCAS Code F008). This is a one year programme designed to improve your scientific knowledge and understanding to a level where you will be suitable for a science degree in the Faculty of Engineering and Physical Sciences. You are guaranteed a place provided you meet the entry criteria for your chosen degree. In studying the Foundation Year you will take courses in Mathematics, Physics and Chemistry (where appropriate) plus Communication Skills and ICT. Finally, you will complete a project that is specific or closely related to your anticipated degree programme.

Application & Selection

Interview Details	All promising applicants are invited to a visit day which includes an academic interview. The interview is used to determine the details of any offer that might be made and to add information in borderline cases.
Scholarship Information	Faculty Academic Excellence scholarship.
Career Outcome	Career prospects mirror those suited to mathematics graduates and physics graduates. Many go on to do research whilst others choose a career in teaching or science-related jobs in industry or the Civil Service. Some graduates use their mathematics skills to pursue employment in finance, actuarial work, management and accountancy.

GCSE	N/A
A level	Grades AAB which should include Mathematics and Physics plus one other subject. If Physics is not offered Maths must include substantive applied/mechanical elements (Modules M1 and M2). Two AS-levels of equivalent grade are acceptable in place of a third A-level. General Studies is not accepted.
International Baccalaureate	35 points, including Maths and Physics at Higher Level
Scottish Highers	N/A
Scottish Advanced Highers	AAA / AAB in Advanced Highers including Mathematics and preferably Physics. Two Highers accepted in place of one Advanced Higher.
Irish Certificate	Irish Higher grades AAAAB to include AAA in Mathematics, Applied Mathematics and Physics.
BTEC Diploma (18 Units)	DDM and A-level Mathematics grade A
English Language Requirement	Minimum grade C in English Language, or equivalent: IELTS 6.0 (with no component less than 5.5) or TOEFL 550/220 computer -based or 87 internet-based with a minimum of 21 in each component .
Access to HE	Applications from students studying for this qualification are welcome and all such applicants will be considered on an individual basis. QAA's normal requirements for diploma applicants are 60 (10-hour) credits with 45 at level 3 and the remainder at level 2. Mathematics A-level at grade A will also be required.

Application & Selection

Interview Details	We do not hold interviews but UK-based applicants who receive an offer will be invited to a Visit Day, which generally take place on Wednesday afternoons from November - March. This is an opportunity to visit the School and our facilities and includes a lab tour with current first year students.
Scholarship Information	For more information about scholarships and bursaries please see our undergraduate fees pages or visit the Scholarships and bursaries on the School website.
Career Outcome	Graduates are equipped to enter the global aerospace and defence industries, or continue on to postgraduate study. The enormous range of career opportunities reflects the diverse and multidisciplinary nature of the aerospace sector. Acquiring high levels of attainment in transferable skills such as simulation, problem solving, design, management and modelling enables graduates to adapt to new challenges and offers broad insight into engineering solutions. You can become a research engineer, discovering new ideas; a design engineer, with creativity and imagination; a construction or production engineer, making products or systems; or a project manager, controlling complex products and constructions. The excitement is that you are unlikely to do the same thing day in and day out. Our graduates are increasingly sought after for positions in the business, management and financial arenas.

Phone	+44 (0)161 306 9351
Places/Applicants	N/A

Qualifications Accepted

GCSE	English Language and Mathematics grade C or above.
A level	AAB including Maths & either Physics, Electronics or Further Maths.
International Baccalaureate	35 points overall including 6 points in Mathematics and Physics at Higher Level and 5 points in another discipline at Higher Level.
Scottish Highers	AAAAB including grade A in Higher Mathematics and Physics
Scottish Advanced Highers	AAB including grade A in Advanced Higher Mathematics and Physics
Irish Certificate	A1 A1 A1 B1 B1 including A1 in Maths and A1 in Physics at Higher Level
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Electrical and Electronic Engineering with a minimum of 70 credits awarded at Distinction including the Further Maths for Technicians module, 100 credits at Merit and the remaining 10 credits at Pass or above. Applicants a
English Language Requirement	GCSE English Language Grade C GCE O-Level English Language Grade C IELTS 6.0 with no subtest less than 5.5 Internet Based TOEFL 79 (Minimum of 19 in writing, listening and reading and 20 in speaking) English First
Access to HE	Applications are considered on an individual basis. Please contact the School of Electrical and Electronic Engineering for further information.

Application & Selection

Interview Details	We invite all promising undergraduate applicants who are based in the UK to visit our department and attend an interview
Scholarship Information	Power Academy, UK Electronics Skills Foundation, International Excellence, Procter & Gamble, National Instruments and many more. For more information go to the Undergraduate Scholarships page.
Career Outcome	Our graduates have an excellent employability record, 95% are in work and/or further study within six months of graduation (Unistats 2012). You can find out more about what jobs our graduates do and what employers like about them on the Employability page. Examples of the areas in which our graduates work include: Java, Digital Systems, C/C++, Consumer Electronics, Technical Sales, Avionics, Banking & Commerce, Technical Author, Postgraduate Study, Wireless Networks, Security & Surveillance, Power Network Management, Sustainable Energy, Power Distribution, Consumer Electronic, Power Conversion, Automotive Electronics, Power Electronics, Process Engineering. You will also acquire key skills such as logical thinking, team working, report writing, analytical and presentation skills, programming and a high level of numeracy.

Medical Biochemistry (3 Years) [BSc]

UCAS Code	C724
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include Chemistry and a second 'hard science' Biology, Physics or Maths. You must have a grade A in one of Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of the second hard science. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in Chemistry and one other science at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA - ABB including Chemistry and one other science subject.
Irish Certificate	A1, A1, A1, A1, B1, B1 to A2, A2, A2, A2, B2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	This area is very promising in terms of career development, because many pharmaceutical and health care companies require well-trained medical biochemists. These graduates become key employees in the efforts of such companies to develop new drugs targeted against specific enzymes, hormone receptors or other biologically important molecules. Life Sciences roles of recent graduates included : Quality Control Officer at immunology diagnostics manufacturing company Clinical Study Co-ordinator for a pharmaceutical company Lab Assistant for a pharmaceutical company Experimental Officer for biotechnology company Non Life Science roles included: Assistant Tax Adviser at a multinational accountancy firm Management trainee for a multinational food retailer As an alternative to entering industry directly, many medical biochemistry graduates continue their careers via a PhD course, or by taking a specialist Masters course in, for example, Bioinformatics. For more information on the range of career options available please see the Faculty of Life Sciences Careers page.

Medicine (5 years) [MBChB]

UCAS Code	A106
School	School of Medicine
Email	ug-medicine@manchester.ac.uk
Phone	+44 (0)161 275 5025/5774
Places/Applicants	380/2700

Qualifications Accepted

GCSE	At least seven subjects are required at grade C or above; at least five must be at A or A*. English Language and Mathematics are required at GCSE minimum grade B. All applicants are expected to adhere to these GCSE requirements.
A level	The School requires grades AAA (after successful interview). If you perform exceptionally well at interview but fail to meet these grades, you may also be accepted. We require grades in the following subjects: Chemistry plus one from: Biology or Human Biology, Physics, Mathematics or Further Mathematics. Plus one further subject (not Critical Thinking or General Studies; We do not accept Applied A-levels for either the 5-year or 6-year course). Predicted A2 grades of AAA required. Achieved A level grades: If you are applying with known A level grades (AAA with grade A in Chemistry), you will be considered even though your GCSE grades do not reach the required standard. However, you must have a minimum of grade B in GCSE English Language and Mathematics. Dual Award Science must be offered at minimum BB or the sciences at minimum grade C at GCSE or AS. We would normally expect at least four subjects at AS-Level. We are aware that the curriculum for some schools will only allow three AS subjects to be taken or that some schools may no longer enter candidates for AS Level qualifications. Students not offering any AS subjects or those only able to offer three, will not be disadvantaged if written confirmation of this policy is provided by the school.
International Baccalaureate	Major subjects must include Chemistry, plus Biology, Physics or Mathematics, plus one further academic subject. Any sciences not offered at Higher Level (HL) must be taken at Standard Level (SL) or at GCSE; or a referee's statement confirming proficiency.
Scottish Highers	N/A
Scottish Advanced Highers	English Language and any science subject (Maths, Biology, or Physics) must have been taken at SCQF level 5 (National 5, Intermediate II or Standard Grade Credit Level).
Irish Certificate	If you are offering the Irish Leaving Certificate, you may only apply to the Medicine 6 year Foundation MBChB course (A104). You must have achieved the required grades before application. Please contact us for further information.
BTEC Diploma (18 Units)	N/A
English Language Requirement	You must have one of the following qualifications in English language: GCSE at grade B or above. Cambridge Syndicate: grade B or above in the Certificate of Proficiency, Advanced Certificate in English or IGCSE First Language.
Access to HE	We may consider applicants taking one of the following Access to HE courses in one year from College of West Anglia, Sussex Downs and the Manchester College. For further details please contact the admissions team.

Interview Details	N/A
Scholarship Information	5th Year of Study Onwards: Currently the NHS Business Services Authority pays the cost of UG medicine tuition fees and a means-tested amount of funding to help with day to day living expenses, to eligible UK students who are in their fifth year of study
Career Outcome	UK medical graduates are currently able to secure a place on a two-year foundation programme that leads to full registration with the General Medical Council (see Career Outcome section for full details). When taking the decision to embark on a career in medicine it is advisable to consider the range of different careers within the medical profession and the education and training these involve. The majority of UK graduates will go on to work as hospital doctors or in primary care for the NHS. Significantly, up to 50% of all UK graduates become general practitioners, providing comprehensive health care for the local community. There is a broad spectrum of careers across medical, surgical and other specialties, and it should be noted that whilst many of these specialties have historically been hospital-based, healthcare is moving towards a more community centred model of delivery and consequently doctors will increasingly be expecting to deliver healthcare in a range of settings.

Medicine (6 years including foundation year) [MBChB]

UCAS Code	A104
School	School of Medicine
Email	ug-medicine@manchester.ac.uk
Phone	+44 (0)161 275 5025/5774
Places/Applicants	20

Qualifications Accepted

GCSE	At least six subjects are required at grade C or above; at least four passes must be at grade A or A* that need not be in the sciences.
A level	The School's normal A2 offer after successful interview is AAB (exams taken at the same sitting after no more than 2 years of study). One of the following combinations is required: Three rigorous arts/humanities subjects Two rigorous arts/humanities subjects and one science subject One rigorous arts/humanities subject and two science subjects (not chemistry) Critical Thinking is not accepted at A2. General Studies is not accepted at AS or A2. Further Mathematics not accepted alongside Mathematics. We do not accept Applied A-levels. If you have an A2 subject combination that includes Chemistry and a second science (Maths, Biology or Physics) you will not be considered for the Foundation Year. If you have an A2 subject combination of Maths, Physics and Biology you will not be considered for the Foundation Year. Predicted A2 grades of AAB required. Achieved A level grades: If you are applying with known A level grades of AAB achieved at first attempt at the same sitting, after no more than two years of study, you will be considered even though your GCSE grades do not reach the required standard. However, all applicants must have a minimum of grade B in GCSE English Language and Mathematics. Dual Award Science or Core Science and Additional Science must be offered at minimum BB or the sciences (chemistry, biology and physics) at minimum grade C at GCSE or AS.
International Baccalaureate	Acceptable Higher Level (HL) subjects are: Three arts/humanities subjects Two arts/humanities subjects and one science subject One arts/humanities subject and two science subjects (but not Chemistry)
Scottish Highers	Grades AAAAB are required. Grades should be achieved in the same sitting at first attempt. English language and any science subject (Maths, Physics, Chemistry or Biology) not taken at Higher/Advanced Higher must have been achieved at SCQF level 5 (National)
Scottish Advanced Highers	Grades AAB are required in one of the following combinations: Three arts/humanities subjects. Two arts/humanities and one science subject. One art/humanity and two sciences not including Chemistry.
Irish Certificate	The School looks for grades of A2A2A2B2B2 in the ILC at HL. Subjects to include Maths, Physics, Chemistry, Biology and English Language. You must have achieved these grades at first attempt before submitting an application.
BTEC Diploma (18 Units)	N/A
English Language Requirement	You must have one of the following qualifications in English Language: GCSE at grade B or above. Cambridge Syndicate: grade B or above in the Certificate of Proficiency, Advanced Certificate in English or IGCSE First Language.
Access to HE	We may consider applicants for our 5-year programme (A106) who are taking one of the following Access to HE courses in one year: College of West Anglia, Sussex Downs and the Manchester College. For further details please contact the admissions team.

Career Outcome	There are numerous possibilities for graduates of the Department of Middle Eastern Studies. The general and academic skills acquired in the courses are welcomed by a broad spectrum of employers including the civil service, the British Council, non-governmental organisations, international organisations (for example the UN and the EU), business and commerce, banking, law, print and broadcast journalism, tourism management and teaching. Some graduates have become academics and researchers in various fields, after having completed postgraduate studies in areas such as Development Studies, International Relations, Linguistics, European Studies and History. BA (Hons) Middle Eastern and Modern European Languages is an excellent foundation for postgraduate study, as well as for living and working abroad - languages such as Arabic, Spanish or French enable you to communicate with an enormous international community in all parts of the world.

Interview Details	The Department of Middle Eastern Studies runs regular Visit and Interview Days during which applicants can see the Department and language learning facilities, meet members of staff and current students, and have an opportunity to discuss their study aims and qualifications with lecturers. We consider a visit and interview to be an essential part of the admissions process. Coming to the Department gives you an opportunity to see if your expectations are matched by what the course offers and explain your interest in the subject and your qualifications. All applicants to the department of Middle Eastern Studies who meet our entry requirements are invited for an interview (or telephone interview for overseas applicants) and visit day. At the Visit Day individual meetings with lecturers are arranged which last between 15 and 20 minutes. The applicant is invited to explain her/his interests and qualifications, and how their chosen subjects fits in with these. Lecturers look in particular for evidence of subject interest and motivation. Lecturers explain the department's subject and course portfolio and specific requirements to the applicant. Alternative routes of study may be explored together. Applicants are invited to pose any questions they might have.

English Language Requirement	IELTS overall score of 6.5 with a minimum of 5.5 in each component TOEFL iBT overall score of 90 with 17 in listening, 18 in reading, 20 in speaking and 17 in writing. Cambridge CAE grade B or CPE grade C
Access to HE	Overall 60 credits are required with 45 at Merit grade at Level 3. They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. Evidence of foreign language study is preferred but not essential We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	The Department of Middle Eastern Studies runs regular Visit and Interview Days during which applicants can see the Department and language learning facilities, meet members of staff and current students, and have an opportunity to discuss their study aims and qualifications with lecturers. We consider a visit and interview to be an essential part of the admissions process. Coming to the Department gives you an opportunity to see if your expectations are matched by what the course offers and explain your interest in the subject and your qualifications. All applicants to the department of Middle Eastern Studies who meet our entry requirements are invited for an interview (or telephone interview for overseas applicants) and visit day. At the Visit Day individual meetings with lecturers are arranged which last between 15 and 20 minutes. The applicant is invited to explain her/his interests and qualifications, and how their chosen subjects fits in with these. Lecturers look in particular for evidence of subject interest and motivation. Lecturers explain the department's subject and course portfolio and specific requirements to the applicant. Alternative routes of study may be explored together. Applicants are invited to pose any questions they might have.
Scholarship Information	N/A
Career Outcome	There are numerous possibilities for graduates of the Department of Middle Eastern Studies. The general and academic skills acquired in the courses are welcomed by a broad spectrum of employers including: - The Civil Service - The British Council - Non-governmental organisations - International organisations (for example the UN and the EU) - Business and commerce - Banking - Law - Print and broadcast journalism - Tourism management - Teaching

Midwifery (3 Years) [BMidwif]

UCAS Code	B720
School	School of Nursing, Midwifery and Social Work
Email	ug.midwifery@manchester.ac.uk
Phone	+44 (0)161 306 7602
Places/Applicants	61

Qualifications Accepted

GCSE	A-level, BTEC and International Baccalaureate applicants must meet the following GCSE requirements: English, Maths and Science at Grade C or above.
A level	We require grades ABB including one relevant subject (Biology, Chemistry, Psychology, Health and Social Care, Applied Science) and not including General Studies. We encourage students to compete additional AS-level qualifications in order to broaden their studies. In certain circumstances we may accept two AS-level qualifications in place of one A-level.
International Baccalaureate	We require 33 points overall. Three higher level subjects at grades of 6, 5 and 5 and these must include at least one relevant subject (Biology, Chemistry or Psychology).
Scottish Highers	We require grades AABBB including one relevant subject (Biology, Chemistry, Psychology or Health and Social Care).
Scottish Advanced Highers	Grades ABB - normally including at least one science or science-related subject (Biology, Chemistry, Psychology), See also GCSE requirements.
Irish Certificate	Grades A3 A3 B3 B3 at Higher and A2 A2 at ordinary. We require at least one higher in a relevant subject (Biology, Chemistry or Psychology). We require English and Maths at ordinary or higher at grade C3 or above.
BTEC Diploma (18 Units)	This qualification is only accepted in Health and Social Care or Health Studies. We require an overall grade of DDD with a minimum of 100 credits awarded at Distinction (including Anatomy and Physiology and Communication Skills) and a maximum of 10 credit
English Language Requirement	We require GCSE English at grade C or above.
Access to HE	We require 30 level three credits at Distinction and 15 level three credits at Merit. 30 level 3 credits must be in health or science subjects, and these must include some biology.

Application & Selection

Interview Details	Further guidance to help you with your application can be found on the Application process page
Scholarship Information	UK students starting on NHS funded programmes after 1 September 2012 can apply annually for an NHS Student Bursaries. UK students may also apply for a student loan.
Career Outcome	Immediate career prospects are excellent for newly qualified midwives and most of our graduates take up employment within the NHS. Midwives may choose to continue to develop as clinicians or develop careers in service management, research, education or public health. This midwifery course will ensure an excellent start to a life-long career as a midwife and will provide you with a strong basis for future developments in clinical practice, public health, professional leadership or research.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	Employability 74% of History graduates were in employment or further study within 6 months of graduation. 61% of History graduates in employment were in managerial/professional job within 6 months of graduation. History graduates earned a median salary of £19,000 within 6 months of graduation. (Source: Unistats 2012). Career destinations History is a popular and versatile degree subject, which is highly regarded by employers. The degree provides expert training in analysis and critical reasoning and the range of forms of assessment develop important transferable skills in communication and presentation; argument and debate; teamwork; research and time management. Our graduates have been successful in a range of careers, including finance and auditing; marketing, public relations and advertising; teaching and academia; media and journalism; and the civil service. Many of our graduates have pursued successful careers within companies such as the BBC; KPMG; Deloitte; Marks and Spencer; Aviva; Accenture; Barclays. 28% of History graduates go on to further study including postgraduate diplomas in law, journalism and media; Masters programmes in history, performing arts and museum/gallery studies; PGCEs; humanitarianism and development studies. Careers support The History Department's Senior Tutor is dedicated to developing and enhancing student employability both through the curriculum and fostering other opportunities for our students such as volunteering and career workshops. He liaises closely with the University's career service to provide guidance and support that is tailor-made for History students. One of our most successful initiatives brings alumni from a range of professions to advise current students on how to enter their chosen career.

Interview Details	We invite promising candidates to interview and an interview forms a significant part of our admissions criteria for the majority of applicants.
Scholarship Information	N/A
Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Graduates from The University of Manchester are amongst the highest paid in the country More employers recruit at The University of Manchester than at any other UK university The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Modern Language and Business & Management (Russian) (4 Years) [BA]

UCAS Code	NR17
School	School of Arts, Languages and Cultures
Email	ug.languages@manchester.ac.uk
Phone	+44 (0)161 275 3211
Places/Applicants	N/A

Qualifications Accepted

GCSE	Grade B in maths, English language and a modern foreign language
A level	AAB-BBB plus GCSE maths and a modern foreign language at grade B
International Baccalaureate	32 - 34 points overall (core points accepted), to include 6,6,5 - 5,5,5 plus GCSE grade B or equivalent in maths and a modern foreign language
Scottish Highers	Scottish Highers are accepted only in combination with Advanced Highers.
Scottish Advanced Highers	AAB-BBB plus standard level maths and a modern foreign language at grade B. Where a specified subject is not available at Advanced Higher level, an A-Level or equivalent is required.
Irish Certificate	We welcome applications from students studying for this qualification and all such applications will be considered on an individual basis.
BTEC Diploma (18 Units)	Applicants with BTEC qualifications are welcomed and are considered on an individual basis. Please see the sections on A-Level and GCSE entry requirements for subject specific qualifications.
English Language Requirement	IELTS overall score of 6.5 with a minimum of 5.5 in each component. TOEFL iBT overall score of 90 with 17 in listening, 18 in reading, 20 in speaking and 17 in writing. Cambridge CAE grade B or CPE grade C
Access to HE	Overall 60 credits are required with 45 at Level 3 with a Merit grade. 15 credits with a Merit must be achieved in a modern foreign language (or a grade B at GCSE). Applicants must have Grade B at Maths GCSE. They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

They must also EITHER have GCSE English language (at Grade C or higher), OR be able to demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits in English language at Level 2. Evidence of foreign language study is preferred but not essential. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	The Department of Middle Eastern Studies runs regular Visit and Interview Days during which applicants can see the Department and language learning facilities, meet members of staff and current students, and have an opportunity to discuss their study aims and qualifications with lecturers. We consider a visit and interview to be an essential part of the admissions process. Coming to the Department gives you an opportunity to see if your expectations are matched by what the course offers and explain your interest in the subject and your qualifications. All applicants to the department of Middle Eastern Studies who meet our entry requirements are invited for an interview (or telephone interview for overseas applicants) and visit day. At the Visit Day individual meetings with lecturers are arranged which last between 15 and 20 minutes. The applicant is invited to explain her/his interests and qualifications, and how their chosen subjects fits in with these. Lecturers look in particular for evidence of subject interest and motivation. Lecturers explain the department's subject and course portfolio and specific requirements to the applicant. Alternative routes of study may be explored together. Applicants are invited to pose any questions they might have.
Scholarship Information	N/A
Career Outcome	There are numerous possibilities for graduates of the Department of Middle Eastern Studies. The general and academic skills acquired in the courses are welcomed by a broad spectrum of employers including: - The Civil Service - The British Council - Non-governmental organisations - International organisations (for example the UN and the EU) - Business and commerce - Banking - Law - Print and broadcast journalism - Tourism management - Teaching Some recent graduates are academics and researchers in various fields, after going on to do postgraduate studies in areas such as Development Studies, International Relations, Linguistics, European Studies and History. BA (Hons) Arabic Studies is also an excellent foundation for postgraduate study in the areas of Arabic or Islamic studies, as well as for living and working in Arab countries.

Molecular Biology (3 Years) [BSc]

UCAS Code	C720
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include Chemistry and a second 'hard science' Biology, Physics or Maths. You must have a grade A in one of Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of the second hard science. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in Chemistry and one other science at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA - ABB including Chemistry and one other science subject.
Irish Certificate	A1, A1, A1, A1, B1, B1 to A2, A2, A2, A2, B2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Life Sciences roles of recent graduates included: Medical Research Technical Officer for the NHS Forensic Examiner for a forensic science company Product development lab technician for biological products supplier Non Life Sciences roles of recent graduates included: Auditor for an IT company English Teacher in Japan Molecular Biology Graduate Profile: Caroline, PhD student in Japan

Qualifications Accepted

GCSE	N/A
A level	Grades AAA-ABB. Your subjects should include Chemistry and a second 'hard science' Biology, Physics or Maths. You must have a grade A in one of Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of the second hard science. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer. Additionally each language has specific entry requirements: French: an A-Level in French (grade B) or equivalent is required. German: an A-Level in German (grade B) or equivalent is required. Spanish: an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level. 5 points in Japanese at standard level, or equivalent, is required.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including Chemistry and one other science subject. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.

If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of the second hard science. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in Chemistry and one other science at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA - ABB including Chemistry and one other science subject.
Irish Certificate	A1, A1, A1, A1, B1, B1 to A2, A2, A2, A2, B2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with industrial/professional experience' programmes are extremely desirable to employers who require significant relevant work experience. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the lab. Life Sciences roles of recent graduates included: Medical Research Technical Officer for the NHS Forensic Examiner for a forensic science company Product development lab technician for biological products supplier Non Life Sciences roles of recent graduates included: Auditor for an IT company English Teacher in Japan Molecular Biology Graduate Profile: Caroline, PhD student in Japan

Music (3 Years) [MusB]

UCAS Code	W302
School	School of Arts, Languages and Cultures
Email	ug-music@manchester.ac.uk
Phone	+44 (0)161 275 4987
Places/Applicants	75/450

Qualifications Accepted

GCSE	Minimum of grade B in English Language.
A level	Grades AAB. This should include grade A Music. Also required is Associated Board (or equivalent examinations) grade VIII, preferably at Distinction, on an instrument or voice. General Studies and Practical Music are welcomed but not included as part of the standard offer. NB: Joint course with RNCM requires AAA inc Music.
International Baccalaureate	36-35 points overall (core points accepted), inc. 6 or 7 in three Higher Level subjects, one of which must be Music. Also required is Associated Board (or equiv. examinations) grade VIII, preferably at Distinction, on an instrument or voice.
Scottish Highers	Grades AAAAB: accepted only in conjunction with 3 Advanced Highers at Grades shown. NB: Joint course with RNCM requires Grades AAAAA-AAAAB plus 3 Adv Highers, to include Grade A in Music.
Scottish Advanced Highers	Grades AAB with grade A in Music. Also required is Associated Board (or equivalent examinations) grade VIII, preferably at Distinction, on an instrument or voice.
Irish Certificate	A2A2A2B2B2 at Higher Level, to include A in Music. Also required is Associated Board (or equivalent examinations) grade VIII, preferably at Distinction, on an instrument or voice. General Studies and Practical Music are welcomed but not included as
BTEC Diploma (18 Units)	BTec Diploma in a Humanities-related subject, with a minimum of 60 credits awarded at Distinction, 50 credits at Merit and 10 credits at Pass, PLUS A-level Grade A in Music. Also required is Associated Board (or equivalent examinations) grade VIII
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Not accepted unless accompanied by Grade A in Music at A-level. Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in English), plus 15 credits with a Merit grade in a Humanities-related subject. Also required is Associated Board (or equivalent examinations) grade VIII, preferably at Distinction, on an instrument or voice.

Application & Selection

Interview Details	Music will interview for 2012 entry. RNCM Joint Course applicants are given unseen musical aptitude tests and asked to discuss their interests as appropriate.
Scholarship Information	N/A
Career Outcome	Careers and employability A Music degree from Manchester provides excellent training for a host of careers, both within and outside of the music industry; it doesn't limit you - employers will recognise that you are dedicated, creative, versatile, excellent team players, highly organized, can work independently and have exceptional powers of concentration. I had fantastic violin teachers throughout my time there, which made an enormous difference and I benefited hugely from the opportunities to take part in and to watch regular performances Gemma Bass, violinist, Manchester Camerata (MusB, 2007) For me the most formative aspect of my time in Manchester was the interaction with my fellow musicians in conducting the orchestras and new music ensemble - it taught me a great deal about the art of both conducting and composing, and in fact about music in general. Duncan Ward, freelance composer and conductor (Joint Course, 2010) I had A LOT of performance opportunities, which was a big bonus. Perhaps most importantly, the department provided me with a safe, supportive environment where I felt I had the space to spread my musical wings and really work out where I was heading musically. Marcus Farnsworth, Singer; winner of the 2011 Ferrier Competition (MusB, 2005)

Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Graduates from Neuroscience go into a range of careers. Around a third choose to work in scientific research and development, which may require significant postgraduate study, usually a PhD. Subsequent employers of these students include universities, pharmaceutical and bioscience companies and institutes. Around two thirds of graduates choose other career options such as teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. Roles of recent graduates included: - Scientific Officer for research institute - Research Technician at a university - Science Technician for an education company - Clinical Trial Leader for a pharmaceutical company - Graduate Trainee at multinational pharmaceutical consultancy group - Editorial Assistant at a medical communications company - Marketing and Communications for a biological professional support body

Nursing: Adult Nursing (3 Years) [BNurs]

UCAS Code	B740
School	School of Nursing, Midwifery and Social Work
Email	ug.nursing.bnurs@manchester.ac.uk
Phone	+44 (0)161 306 7600
Places/Applicants	276/2000

Qualifications Accepted

GCSE	GCSE requirement must include English, Science and Maths at a minimum of Grade C or above with the overall GCSE profile being at least 5 GCSEs Grade B or above in different subjects. We no longer accept equivalents to GCSE for English and Maths.
A level	We require grades BBC (normally including at least one science from the following subjects: Biology, Chemistry, Psychology, Health and Social Care, Applied Science) and GCSE requirement which must include English, Science and Maths at a minimum of Grade C or above with the overall GCSE profile being at least 5 GCSEs Grade B or above. We no longer accept equivalents to GCSE for English and Maths.
International Baccalaureate	30 points overall including at least one science or science related subject (Biology, Chemistry or Psychology) and 3 subjects at higher level each with the grade of 5.
Scottish Highers	Grades BBCCC. The School requires applicants to have gained the equivalent of GCSE English, Science and Maths at a minimum of Grade C or above with the overall equivalent GCSE profile being at least 5 GCSEs Grade B or above in Standard Grade or Intermedia
Scottish Advanced Highers	Grades BBC - normally including at least one science or science-related subject (Biology, Chemistry, Psychology) and must include English, Maths and Science Standard Grade 1, 2 or 3 or Intermediate 1 or 2.
Irish Certificate	B3 B3 B3 and C2 at the Higher level and A2 A2 at Ordinary level - normally including at least one science (Biology, Chemistry or Psychology) and must include English, Maths and Science Grade C3 or above (Higher or Ordinary).
BTEC Diploma (18 Units)	Must be Health related and you must achieve a minimum of 100 credits awarded at Distinction, 70 at Merit and the remaining 10 credits at Pass or above (including distinctions in Anatomy and Physiology and Communication Skills).
English Language Requirement	The School requires GCSE English at grade C or above.
Access to HE	The School welcomes applicants completing an Access to HE course in a health or science related subject. However, other factors including additional educational achievements, life experience and skills will also be assessed on an individual basis. QAA's normal requirements for diploma applicants are 60 credits with 45 at level 3 and the remainder at level 2. Access to HE (graded from 2010) Of the 45 credits at level 3, 30 must be at distinction grade and the remaining 15 credits at merit grade. Also, 30 of the 45 level 3 credits must be in science or health-science related subjects. You must also have GCSE English, Mathematics and Science at grade C or above. We no longer accept equivalents to GCSE for English and Maths. We also consider other factors on an individual basis, such as additional educational achievements, life experience and work related skills.

Application & Selection

Interview Details	All shortlisted applicants will be required to attend a group interview. Interviews are scheduled from October through to May. Interviewees will be required to attend a full day to enable you to complete a standardised online numeracy test which will take one hour and an English written test lasting approximately 30 minutes during the morning. Interviews will then take place in the afternoon, lasting for one hour. These will take the form of a group interview of up to 10 candidates and you will usually be interviewed by a member of academic staff, a service user or carer and a practice based colleague. The interview will last for approximately one hour. The offer of a place will be based on your application, your performance during the interview and the scores from the numeracy and written tests. Please note feedback will not be available for the numeracy or English written tests. If you have a disability that you think will affect your ability to participate in any of these activities, please tell us about these when you confirm your intention to attend for the interview.
Scholarship Information	As a contribution to living and travel costs, UK students starting on NHS funded programmes after 1 September 2012 can apply annually for an NHS bursary.
Career Outcome	Graduates from the BNurs programme have taken up a wide variety of positions in nursing in the UK and overseas. Career prospects are excellent, with significant opportunities for further professional development and specialisation. There are numerous employment opportunities available within NHS Trusts and other health-care settings for newly qualified staff. A UK registered nursing qualification is recognised in many countries around the world, and therefore provides potential opportunities for travel and work abroad. The NHS Careers website has more general information on careers in Nursing. (The University of Manchester is not responsible for the content of external internet sites.)

Nursing: Mental Health Nursing (3 Years) [BNurs]

UCAS Code	B762
School	School of Nursing, Midwifery and Social Work
Email	ug.nursing.bnurs@manchester.ac.uk
Phone	+44 (0)161 306 7603
Places/Applicants	70/1000

Qualifications Accepted

GCSE	GCSE requirement must include English, Science and Maths at a minimum of Grade C or above with the overall GCSE profile being at least 5 GCSEs Grade B or above in different subjects. We no longer accept equivalents to GCSE for English and Maths.
A level	We require grades BBC, including at least one science: Biology, Chemistry, Psychology, Health and Social Care, Applied Science). GCSE requirement must include English, Science and Maths at a minimum of Grade C or above with the overall GCSE profile being at least 5 GCSEs Grade B or above. We no longer accept equivalents to GCSE for English and Maths.
International Baccalaureate	30 points overall including at least one science or science related subject (Biology, Chemistry or Psychology) and 3 subjects at higher level each with the grade of 5.
Scottish Highers	Grades BBCCC. The School requires applicants to have gained the equivalent of GCSE C or above in a minimum of five subjects including Mathematics, English Language and a Science in Standard Grade or Intermediate 2.
Scottish Advanced Highers	Grades BBC - normally including at least one science or science-related subject (e.g. Biology, Chemistry, Psychology). This must include English, Maths and Science Standard Grade 1, 2 or 3 or Intermediate 1 or 2.
Irish Certificate	The School requires grades B3 B3 B3 and C2 at the Higher level and A2 A2 at Ordinary level. Including at least one science (Biology, Chemistry or Psychology), this must include English, Maths and Science Grade C3 or above (Higher or Ordinary).
BTEC Diploma (18 Units)	Health related. Must achieve a minimum of 100 credits awarded at Distinction, 70 at Merit and the remaining 10 credits at Pass or above (including distinctions in Anatomy and Physiology and Communication Skills) and GCSE requirement which must include Eng.
English Language Requirement	The School requires GCSE English at grade C or above.
Access to HE	The School welcomes applicants completing an Access to HE course in a health or science related subject. However, other factors including additional educational achievements, life experience and skills will also be assessed on an individual basis. QAA's normal requirements for diploma applicants are 60 credits with 45 at level 3 and the remainder at level 2. Applicants must also have GCSE English, Mathematics and Science at grade C or above. We no longer accept equivalents to GCSE for English and Maths. Access to HE (graded from 2010) Of the 45 credits at level 3, 30 must be at distinction grade and the remaining 15 credits at merit grade. Also, 30 of the 45 level 3 credits must be in science or health-science related subjects. Applicants must also have GCSE English, Mathematics and Science at grade C or above. We no longer accept equivalents to GCSE for English and Maths. We also consider other factors on an individual basis, such as additional educational achievements, life experience and work related skills.

Application & Selection

Interview Details	All shortlisted applicants will be required to attend a group interview. Interviews are scheduled from October through to May. Interviewees will be required to attend a full day to enable you to complete a standardised online numeracy test which will take one hour and an English written test lasting approximately 30 minutes during the morning. Interviews will then take place in the afternoon, lasting for one hour. These will take the form of a group interview of up to 10 candidates and you will usually be interviewed by a member of academic staff, a service user or carer and a practice based colleague. The interview will last for approximately one hour. The offer of a place will be based on your application, your performance during the interview and the scores from the numeracy and written tests. Please note feedback will not be available for the numeracy or English written tests. If you have a disability that you think will affect your ability to participate in any of these activities, please tell us about these when you confirm your intention to attend for the interview.
Scholarship Information	As a contribution to living and travel costs, UK students starting on NHS funded programmes after 1 September 2012 can apply annually for an NHS bursary.
Career Outcome	Graduates from the BNurs programme have taken up a wide variety of positions in nursing in the UK and overseas. Career prospects are excellent, with significant opportunities for further professional development and specialisation. There are numerous employment opportunities available within NHS Trusts and other mental health-care settings for newly qualified staff. A UK registered nursing qualification is recognised in many countries around the world, and therefore provides potential opportunities for travel and work abroad. The NHS Careers website has more general information on careers in Nursing. (The University of Manchester is not responsible for the content of external internet sites.)

Optometry (3 Years) [BSc]

UCAS Code	B510
School	Faculty of Life Sciences
Email	ug.lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	N/A

Qualifications Accepted

GCSE	At least five GCSEs at minimum grade C, including English Language and minimum grade B in Mathematics.
A level	Grades AAB. 2 A levels in Biology, Maths, Physics or Chemistry at grade A (normally to be taken in one sitting). General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	35 points overall including 6 points in Biology and Chemistry, Physics or Maths at Higher level.
Scottish Highers	AAAAB including 3 science subjects (Biology, Physics, Chemistry or Maths).
Scottish Advanced Highers	AAB. A grades in 2 science subjects (Biology, Chemistry, Maths or Physics).
Irish Certificate	A1, A1, A1, A1, B1, B1. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits in Biology with a Distinction grade, plus minimum of 15 credits in Chemistry with a Distinction grade and further 15 credits with Distinction. Applicants should also have GCSE in English Language at grade C, or equivalent. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Optometry is rewarding work, involving meeting a variety of people and helping them to lead a fuller life by correcting their vision with spectacles or contact lenses, establishing the eyes are healthy and advising on eye-care matters. Most BSc Optometry students go straight on to do their pre-registration year and take the Scheme for Registration examinations, which, when successfully completed, allow entry to the General Optical Council register. After registration with the General Optical Council, a career is open to you in practice, either privately or within the National Health Service. Alternatively, it is possible to work in the Hospital Eye Service team alongside an ophthalmologist.

Oral Health Science (3 Years) [BSc]

UCAS Code	B840
School	School of Dentistry
Email	ug-dentistry@manchester.ac.uk
Phone	+44 (0)161 306 0232
Places/Applicants	12/216

Qualifications Accepted

GCSE	We require five GCSE subjects, grade C or above. This must include English Language, Mathematics and either Biology, Chemistry, Physics or Double Award Science.
A level	The School normally requires three A-levels, which must include Biology and one other science-related subject (Chemistry, Physics, Maths, Psychology or Sociology), with minimum grades BBB. NVQ Level 3 Oral Health Care is acceptable in lieu of one A-level; however Biology and another science are still required.
International Baccalaureate	We require 30 points overall: 5,5,5 in the Higher Level subjects (including Biology plus one other science) 5,5,5 in the Standard Level subjects
Scottish Highers	We require ABBBC grades. This must include Biology, Chemistry, Physics, English Language and Mathematics. A and B grades must be in Biology and Chemistry.
Scottish Advanced Highers	N/A
Irish Certificate	ABBBC at Higher Level including Biology, Chemistry, Physics, English Language and Maths.
BTEC Diploma (18 Units)	N/A
English Language Requirement	N/A
Access to HE	Access courses are accepted if you have not previously studied at University and have had a minimum of 2 years out of education usually gaining work experience. An Access Course must be Science based. 60 Credits overall with 45 Credits at Level 3. Minimum of 15 Credits each in Biology and Physics at Level 3 and minimum of 15 Credits in Chemistry at Level 2 and/or Level 3. Merits in all components are required. GCSE English Language and Maths are also required with a minimum of C grades.

Application & Selection

Interview Details	N/A
Scholarship Information	NHS bursaries are not available for this course.
Career Outcome	Overall statistics In the 2011/12 application round, all Manchester graduates had secured a post within six months of graduation. Types of jobs Almost invariably, dental graduates apply for one-year Vocational Dental Practitioner (VDP) (Dental Foundation 1) posts when they graduate. These are salaried posts in NHS general dental practices, comprising four days per week of clinical work and one day per week of professional study. Each VDP is mentored by a Vocational Trainer in the same practice. All VDP practices are inspected to ensure they are of a required standard. In 2012 there were 1138 applications for 953 places on the 78 VDP training schemes to start in August 2013. Those not allocated a place were put on a reserve list which covers the possibility that some applicants will not pass their Final BDS examinations. Further study Many graduates decide to specialise in a particular branch of dentistry e.g. orthodontics, endodontics. Specialist training programmes are available in all dental specialties and are highly competitive. Some general experience in dentistry is required prior to entry to a specialist training programme, as is either the MJDF or MFDS examinations run by the Royal Colleges of Surgeons of London or Edinburgh. Careers support Careers advice is available through the School throughout the five-year course, but is concentrated in Year 5 as graduation approaches. Specific help and guidance is given in Year 5 to prepare students for the VDP selection process, which is done on a national basis. Employability skills Dental graduates have a range of skills, both technical and interpersonal. In Manchester, participation in the Manchester Leadership Programme in Year 3 of the programme is compulsory and gives our students additional skills and experience outside the dental programme.

Career Outcome	Petroleum engineers are involved in the discovery, recovery and maintenance of the world's oil and gas supplies. The activities are important because safe, affordable and clean energy is a requirement for future generations. As a result the necessity for improved production from mature fields, alongside exploration for hydrocarbon reserves in increasingly challenging environments means that petroleum engineers with specific skills sets are in great demand across the petroleum industry. Job opportunities for petroleum engineers are very diverse and occur along the entire value chain of hydrocarbon exploration and production. You can get your hands dirty on a drill rig, perform sophisticated analyses in the laboratory, or work with advanced computer software to create reservoir models. As a petroleum engineer you could work out in the field and travel the globe - or enjoy the relative comfort of an office job. For more information of how Manchester support you to find employment after graduation go to our website: http://www.seaes.manchester.ac.uk/study/careersandemployability/careerswithpetroleumscienceandengineering/

Pharmacology (3 Years) [BSc]

UCAS Code	B210
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. The in-vivo training that these graduates have undertaken makes them especially attractive to pharmaceutical companies. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the life sciences. Life Sciences roles of recent graduates included: - Research co-ordinator for the NHS - Research Assistant at biotechnology company - Sales co-ordinator for pharmaceutical company - Business Development co-ordinator for a biotechnology company - Seed Technician for a biotechnology company - Junior In Vivo Scientist at a pharmaceutical company - Laboratory Assistant at a university Non Life Sciences roles of recent graduates included: - Volunteer Teacher in Africa - Trainee Accountant - Pharmacology Graduate Profile: Annie, Management and Technology Analyst For information on the range of career options available please see the Faculty of Life Sciences Careers page.

Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with industrial/professional experience' programmes are extremely desirable to employers who require significant relevant work experience. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the life sciences. The in-vivo training that these graduates have undertaken makes them especially attractive to pharmaceutical companies. Life Sciences roles of recent graduates included: - Research co-ordinator for the NHS - Research Assistant at biotechnology company - Sales co-ordinator for pharmaceutical company - Business Development co-ordinator for a biotechnology company - Seed Technician for a biotechnology company - Junior In Vivo Scientist at a pharmaceutical company - Laboratory Assistant at a university Non Life Sciences roles of recent graduates included: - Volunteer Teacher in Africa - Trainee Accountant

Pharmacy (4 Years) [MPharm]

UCAS Code	B230
School	Manchester Pharmacy School
Email	ug-pharmacy@manchester.ac.uk
Phone	+44 (0)161 275 2334
Places/Applicants	120 / 1800 Advanced entry: All applications are considered for first-year entry only onto the MPharm course.

Qualifications Accepted

GCSE	Applicants MUST have grade B in GCSE English Language AND Mathematics.
A level	We require grades ABB-AAA. This must include Chemistry, either Mathematics or Biology, and one further rigorous academic subject (we do not accept General Studies or Critical Thinking). Selection for interview is based on predicted grades of ABB with grade A in a science subject (this does include Psychology).
International Baccalaureate	Successful completion of the Baccalaureate, 33-36 points overall including: 6 in Chemistry. 6 and 5 in Mathematics and Biology, in any order. All at Higher level
Scottish Highers	We require grades AAABB in five suitable Scottish Higher level subjects (including Chemistry, Biology and Mathematics) plus Advanced Highers grade B in Chemistry and either Biology or Mathematics.
Scottish Advanced Highers	The School requires grade B in Chemistry and either Biology or Mathematics Advanced Highers. Plus grades AAABB in five suitable Scottish Higher level subjects (including Chemistry, Biology and Mathematics).
Irish Certificate	Successful completion of the certificate with grades A 1 A 1 A 1 B 1 B 1 (at Higher Level). Chemistry must be included alongside three subjects from Mathematics, Physics, Biology or English.
BTEC Diploma (18 Units)	Successful completion of a BTEC Extended Diploma at grades DDD in a science-based subject, must be presented with A-level Chemistry at grade B or above.
English Language Requirement	GCSE, IGCSE or O level at grade B IELTS grade 7 TOEFL: 250 (computer based); 600 (paper based); 100 (internet based) UCLES Cambridge Certificate of Advanced English at grade C
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits in Chemistry with a Distinction grade, plus minimum of 15 credits in Mathematics OR Biology with a Distinction grade and remaining 15 credits at Distinction grade. You should also have a good set of GCSEs (minimum 5 subjects) with English Language and Mathematics at grade B, or equivalent. Students educated up to GCSE level, who have only taken a one-year Access course, will not normally be accepted. All UCAS applicants who are being considered for entry will be invited to attend computerised skills tests in the School, followed by a formal interview.

Application & Selection

Interview Details	Full details of what will be expected of candidates can be found in the Application process page.
Scholarship Information	N/A
Career Outcome	Upon successful completion of the MPharm degree, graduates will be recognised by the General Pharmaceutical Council (GPhC) as entitled to register as a pharmacist after completing one year of pre-registration training. Our course has a broad interdisciplinary scientific base and is flexible enough to meet differing career aspirations, whether in community pharmacy, hospital pharmacy, the pharmaceutical industry or in research. Community pharmacy: Community pharmacists, working from high street, local and rural pharmacies, use their detailed knowledge to ensure that the medicines ordered on the doctors' prescriptions or bought over the counter are correctly and safely supplied, with appropriate patient counselling on use, adverse side effects etc. They also act as readily accessible health advisors to the general public. Hospital pharmacy: Hospital pharmacists work directly with doctors, nurses and other health professionals to ensure that both in-and-out patients receive the most appropriate medicines and that those medicines are used in the most effective way. Additionally, the purchase, storage, manufacture, quality testing and distribution of medicines in NHS hospitals are primarily the responsibility of the pharmacy department.

Qualifications Accepted

GCSE	Minimum grade C in English Language.
A level	A*A*A - A*AA to include Physics and Maths (and excluding General Studies)
International Baccalaureate	Overall score of 39 - 38 with HL grades of 7,7, 6 - 7,6, 6 (to include Physics and Maths)
Scottish Highers	N/A
Scottish Advanced Highers	Grades AAA (to include A1, A1 in Physics and Maths)
Irish Certificate	AAAAAA in Irish Leaving Certificate including Physics and Maths.
BTEC Diploma (18 Units)	Applicants are advised to apply initially to our Science with a Integrated Foundation Year (UCAS Code F008)
English Language Requirement	IELTS overall score of 6.0 with no less than 5.5 in each sub-test TOEFL iBT overall score of 80 with the following minimums in sub-tests: Listening 17, Reading 18, Speaking 20, Writing 17 TOEFL overall score of 550 with TWE OF 5.
Access to HE	Applicants are advised to apply initially to our Science with a Integrated Foundation Year (UCAS Code F008). This is a one year programme designed to improve your scientific knowledge and understanding to a level where you will be suitable for a science degree in the Faculty of Engineering and Physical Sciences. You are guaranteed a place provided you meet the entry criteria for your chosen degree. In studying the Foundation Year you will take courses in Mathematics, Physics and Chemistry (where appropriate) plus Communication Skills and ICT. Finally, you will complete a project that is specific or closely related to your anticipated degree programme.

Application & Selection

Interview Details	All promising applicants are invited to a visit day which includes an academic interview. The interview is used to determine the details of any offer that might be made and to add information in borderline cases.
Scholarship Information	Faculty Academic Excellence scholarship.
Career Outcome	This course develops the numerical and analytical skills of the physicist along with the ability to communicate effectively in a scientific and technical environment in a second European language. Graduates will be in a strong position to compete for research positions overseas or for employment with companies with international connections.

Physiology (3 Years) [BSc]

UCAS Code	B120
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes. Some of our graduates progress into laboratory-based careers in clinical or technical roles which do not involve research. The transferable skills you will develop will also leave you well equipped for a wide range of careers outside the life sciences. Life Sciences roles of recent graduates included: • Cardiac Physiologist for the NHS • Medical Education Consultant for a healthcare communications company • Policy Intern for a national heart health charity • Medical Writer • Clinical Scientist for the NHS • Account Manager for a healthcare communications company • Product Development Technician for a biomedical supplies company • Trainee Gastro-Intestinal Physiologist for the NHS Non Life Sciences roles of recent graduates included: • Account Manager for an IT company • Human Resources Manager • Physiology Graduate Profile: Rebecca, PhD student • (External link to Prospects website) • Physiology Graduate Profile: Sophie, Abdominal aortic aneurysm screening technician (External link to Prospects website) For information on the range of career options available please see the Faculty of Life Sciences Careers page.

Physiology with a Modern Language (4 Years) [BSc]

UCAS Code	B122
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: French: an A-Level in French (grade B) or equivalent is required. German: an A-Level in German (grade B) or equivalent is required. Spanish: an A-Level in Spanish (grade B) or equivalent is required. Italian: an A-Level in Italian (grade B) or equivalent is required. Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Life Sciences roles of recent graduates included: • Cardiac Physiologist for the NHS • Medical Education Consultant for a healthcare communications company • Policy Intern for a national heart health charity • Medical Writer • Clinical Scientist for the NHS • Account Manager for a healthcare communications company • Product Development Technician for a biomedical supplies company • Trainee Gastro-Intestinal Physiologist for the NHS

Scholarship Information	N/A
Career Outcome	Plant science is an area with a recognised skills shortage. Well qualified plant scientists are in high demand to undertake research related to areas such as food security and biofuel development. The significant, relevant work experience gained during the year of industrial/professional experience makes graduates of this course especially attractive to employers. Our graduates secure jobs as researchers working in universities bioscience companies and institutes. Around two thirds of graduates choose other career options such as teaching or communicating science, as well as careers unrelated to the life sciences including management, finance, marketing and the civil service. Life Sciences roles of recent graduates included: Project co-ordinator for a conservation organisation. Graduate trainee (agriculture) for a biotechnology company. Plant Science Graduate Profile - Regional Business Specialist, Life Science, Shimadzu UK Limited. For information on the range of career options available please see the Faculty of Life Sciences Careers page.

Politics & Criminology (3 year) [BASS]

UCAS Code	LM29
School	School of Social Sciences
Email	socialsciences@manchester.ac.uk
Phone	+44 (0)161 275 1473
Places/Applicants	N/A

Qualifications Accepted

GCSE	Minimum grade C in English Language and grade C in Mathematics.
A level	ABB. Applicants must be studying at least one of the following A Level subjects: Accounting; Economics; Finance; Business Studies; Development Studies; Government and Politics; Economic and Social History; Mathematics; Anthropology; Sociology; Philosophy; Religious Studies; English Language; English Literature; Geography; Psychology; Classical Civilisation; History; Archaeology; Communication Studies; Environmental Studies; World Development; Biology; Chemistry; Physics; Modern Languages. General Studies and Critical Thinking are not accepted for entry. Applicants re-sitting their A-Levels may have their offer increased by one grade, for example from ABB to AAB.
International Baccalaureate	34 points overall. 6,5,5 at Higher Level. No lower than 5 in any subject.
Scottish Highers	ABBBB
Scottish Advanced Highers	ABB
Irish Certificate	We would expect applicants to achieve three subjects at A2 and two subjects at B2 in the Irish Leaving Certificate Higher Level qualification.
BTEC Diploma (18 Units)	The University welcomes applicants studying the BTEC Extended Diploma in Business and related areas. Candidates are expected to achieve two Distinctions and a Merit.
English Language Requirement	N/A
Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions'.

Application & Selection

Interview Details	N/A
Scholarship Information	N/A
Career Outcome	Due to the flexibility of the BA(Hons) Social Sciences degree and the Politics and Criminology pathway in particular you will have a wide variety of career opportunities in both the private and the public sectors, because of the number of pathways through the degree. Recent graduates from the School of Social Sciences have pursued careers in a range of different areas, with graduates going into careers as diverse as teaching, journalism, law, accountancy, retail and trainee management. The multidisciplinary nature of the BA (Social Sciences) degree programme will give students the transferable and specific skills they need to move on from their undergraduate studies with 80% of politics graduates at the University of Manchester in employment or further study within 6 months of graduation and 60% of those employed in graduate level jobs (Source: Unistats). All students and recent graduates of the University of Manchester also have access to our Careers Service which has a range of resources and a dedicated team of career advisers that can help guide students through their career options and also help students develop the skills to impress future employers. Our Careers Service is consistently voted best in the UK by both students and employers. For further information please visit the Careers Service website.

Career Outcome	Due to the flexibility of the BA (Social Sciences) degree you will have a wide variety of career opportunities in both the private and the public sectors, because of the number of pathways through the degree. Recent graduates from the School of Social Sciences have pursued careers in a range of different areas, with graduates going into careers as diverse as teaching, journalism, law, accountancy, retail and trainee management. The multidisciplinary nature of the BA (Social Sciences) degree programme will give students the transferable and specific skills they need to move on from their undergraduate studies with 80% of politics graduates at the University of Manchester are in employment or further study within 6 months of graduation and 60% of those employed are in graduate level jobs (Source: Unistats). All students and recent graduates of the University of Manchester also have access to our Careers Service which has a range of resources and a dedicated team of career advisers that can help guide students through their career options and also help students develop the skills to impress future employers. Our Careers Service is consistently voted best in the UK by both students and employers. For further information please visit the Careers Service website.

Access to HE	All applications are considered on an individual basis. As a general rule, a typical requirement would be - Pass Access to HE Diploma with a minimum of 'merit' in level 3 subjects - including 15 'distinctions'.

Application & Selection

Interview Details	N/A
Scholarship Information	The University of Manchester offers a range of Scholarships and Bursaries to Home/EU students including the Manchester Bursary
Career Outcome	A degree in Politics and International Relations would give you the skills and knowledge that you need to be able to succeed in the future. With 90% of our recent graduates in work or further study six months after they graduate, we have an excellent reputation for boosting employability. Graduates from Politics are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what our recent graduates have gone on to do are (Source: DLHE): Employers: Thomson Reuters, Google, Barclays, Deloitte, HMRC, Royal Danish Embassy, Ministry Of Justice, Greater Manchester Chamber Of Commerce, The University Of Manchester, Cicero Consultancy and Essex County Council Job Roles: Digital Marketing Executive, Freelance Editor, Public Affairs Executive, Public Relations Intern, Business Development Executive and Graduate Project Manager. Further Study: Whilst staying at Manchester is by far the most popular route for students going on to further study our recent graduates have also gone to study at: the University of Oxford, University of Cambridge, University of Nottingham, University of Durham, London School of Economics & Political Science and School of Oriental & African Studies. Prospects, the graduate careers website, has a great deal of information about the skills that you would develop during your time studying Politics and International Relations as well as the job options, career areas and further study that you can pursue after you graduate. In addition to the range of courses that you can take as part of your degree you can also improve your employability by developing your transferable skills through getting involved in course units from other parts of the University. As part of your degree you would be able to take courses from the University College for Interdisciplinary Learning - typically as optional units in your second year. These include Manchester Leadership Programme which is provided by specialists from the Careers service and helps you develop your leadership and team-working skills, as well as courses provided by Manchester Enterprise Centre which would cover topics about how successful enterprises work and how to create and implement business ideas. You can get an idea of the courses on offer on the University College website. Throughout your studies at Manchester - and even after you graduate - you will have access to our Careers Service. n Consistently voted best in the UK by both students and employers there is a great deal of support available to you with a dedicated team of careers advisors and resources that you can access. Whether you are looking for a part time job, a summer internship or applying for a graduate scheme there's help to make yourself as employable as possible. You can find more information on the Careers Service website but examples of the support available are: One to one advice such as application advice and quick tips, guidance appointments and practice interviews Online and interactive services including one to one and group sessions with careers staff, experts and employers. Information resources from our Careers Resource Centre and online resources such as practice psychometric tests.

Politics and Modern History (3 Years) [BA]

UCAS Code	VL12
School	School of Arts, Languages and Cultures
Email	ug-hist@manchester.ac.uk
Phone	+44 (0)161 306 1251
Places/Applicants	Max 90 / 320

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades AAB-ABB. This should include grade A in either History, Government or Politics. General Studies is welcomed but not included as part of the standard offer. A-level exams should be taken at the same sitting, after no more than two years of study. If you have studied an advanced curriculum, where the examinations are spread over three years, consideration for an offer will be at the discretion of the admissions tutor. We may also require further information, in order to make an informed judgment on your application.
International Baccalaureate	36-33 points overall (core points accepted), including 6 or 7 in three Higher Level subjects, one of which must be either History, Government or Politics.
Scottish Highers	Grades AAAAB-AAABB: accepted only in conjunction with 3 Advanced Highers
Scottish Advanced Highers	Grades AAB-ABB including grade A in either History, Government or Politics.
Irish Certificate	A2A2A2B2B2 - A2B1B2B2B2 at Higher Level: to include A in History, Government or Politics
BTEC Diploma (18 Units)	BTec Diploma in a Humanities-related subject, with a minimum of 60 credits awarded at Distinction, 50 credits at Merit and 10 credits at Pass, PLUS A-level Grade A in either History, Government or Politics.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 30 credits with a Distinction grade (15 of which must be in either History, Government or Politics), plus 15 credits with a Merit grade in a Humanities-related subject. Applicants must have EITHER GCSEs in both English and Mathematics (at Grade C or higher), OR must demonstrate achievement at Level 2 (GCSE-equivalent) by, for example, having 6 credits each in English and Maths. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	Normally, we only interview applicants who are applying with non-standard entry requirements.
Scholarship Information	N/A
Career Outcome	Employability 74% of History graduates were in employment or further study within 6 months of graduation. 61% of History graduates in employment were in managerial/professional job within 6 months of graduation. History graduates earned a median salary of £19,000 within 6 months of graduation. (Source: Unistats 2012). Career destinations History is a popular and versatile degree subject, which is highly regarded by employers. The degree provides expert training in analysis and critical reasoning and the range of forms of assessment develop important transferable skills in communication and presentation; argument and debate; teamwork; research and time management. Our graduates have been successful in a range of careers, including finance and auditing; marketing, public relations and advertising; teaching and academia; media and journalism; and the civil service. Many of our graduates have pursued successful careers within companies such as the BBC; KPMG; Deloitte; Marks and Spencer; Aviva; Accenture; Barclays. 28% of History graduates go on to further study including postgraduate diplomas in law, journalism and media; Masters programmes in history, performing arts and museum/gallery studies; PGCEs; humanitarianism and development studies. Careers support The History Department's Senior Tutor is dedicated to developing and enhancing student employability both through the curriculum and fostering other opportunities for our students such as volunteering and career workshops. He liaises closely with the University's career service to provide guidance and support that is tailor-made for History students. One of our most successful initiatives brings alumni from a range of professions to advise current students on how to enter their chosen career.

Career Outcome	A degree in Politics, Philosophy and Economics would give you the skills and knowledge that you need to be able to succeed in the future. With 80% of our recent graduates in work or further study six months after they graduate and 70% of those in professional or managerial roles, our graduates have an excellent reputation for boosting employability. Graduates from PPE are highly sought after and are able to use their skills and knowledge in a wide range of different areas. Some examples of what our recent graduates have gone on to do are (Source: DLHE): Employers: Thomson Reuters, Goldman Sachs, KPMG, Barclays, the University of Manchester, Alliance Financial Group, Commonwealth Parliamentary Association, the Department of Education, New Economic Development and Shelter. Job Roles: Senior Banking Executive, Trainee Tax Accountant, Commercial Officer, Economic Analyst, Policy Advisor, Trainee Manager. As the PPE degree brings together the three interrelated disciplines of Politics, Philosophy and Economics you would develop an unrivalled range of transferable skills throughout your time at Manchester. Studying Politics means that you can analyse the behaviour of government from local, national and international perspectives and provide an understanding and rationale behind policy decisions that affect all of us. Studying politics shows that you are capable of researching and referencing your argument and that you are capable of using rhetoric to reinforce your position in a debate. In Philosophy you would learn to develop and express rational arguments and use logical reasoning and critical analysis to defend your position and critique opposing viewpoints. Economics gives you the tools to analyse the economic environment around us. You would gain a grounding in quantitative methods such as Mathematics & Statistics or Econometrics - which would be highly applicable elsewhere - as well as help you develop an understanding of the spectrum of the wider economy from the reasoning behind macroeconomic government policy to the microeconomic behaviour of individual firms. Throughout your studies at Manchester - and even after you graduate - you will have access to our Careers Service. Consistently voted best in the UK by both students and employers there is a great deal of support available to you with a dedicated team of careers advisors and resources that you can access. Whether you are looking for a part time job, a summer internship or applying for a graduate scheme there's help to make yourself as employable as possible.

All credits should be in a Humanities-related subject. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	The interview will normally run for 15-20 minutes and will be a one-to-one discussion with a member of the Religions and Theology lecturing staff. It is our aim that the interview should be a relaxed but informed conversation. It will normally explore areas such as your ability to discuss and think about the topics of the course and the modules, approaches and experiences that studying this course at Manchester entails.
Scholarship Information	N/A
Career Outcome	89% of Religions and Theology graduates are in employment or further study within six months of graduation. (Source: DLHE 2010-11). A Religions and Theology degree is very attractive to employers because it generates cultural sensitivity and awareness. Students are well orientated with regard to a wide variety of beliefs and worldviews. Like other humanities subjects, a Religions and Theology degree is suitable for careers in teaching, law, management, social, community and youth work, administration, publishing, broadcasting, and local and national government. A substantial number of students continue with graduate studies for PGCE, MA or PG Dip in Law. Thus about a quarter of our students go on to do Teacher Training (PGCE). Recent Manchester Religions & Theology graduates found employment in, for instance, Xaverian Roman Catholic College (teaching), PriceWaterhouse (finance), SPCK (publishing), Church of England (youthwork), Liberal Jewish Synagogue (national director of youthwork), Manchester city council (government), University of Salford (administration), and Christian Aid (NGO). We train you in key transferable skills, such as the ability to research, analyse and synthesize different sources of information, good organisational skills, IT skills, team-work and communication skills gained from tutorials and group projects, writing skills, analysis of often very complex texts, empathy and imaginative insight, ability to work methodically and accurately, independence of mind and initiative, should enhance your employability. A substantial number of our students acquire some language skills. Students can count on the Careers Service for advice and support. It is regarded as one of the best Career Services in the UK (http://www.careers.manchester.ac.uk/).

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? MI5 actively recruit graduates with language skills Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. Qualifications Accepted

GCSE	N/A
A level	Students will be accepted from a range of educational backgrounds and all applications will be considered individually. It is therefore not easy to specify the entry standard that will gain you a place on the programme. We would generally be looking for BBC grades at A Level in relevant science subjects. However, if you have already studied A levels but in inappropriate subjects for direct admission to an engineering or science degree programme, then we would be looking for a ABB grades and in addition a minimum of B Grade in Mathematics and Science at GCSE or equivalent. In all cases we will be looking for a performance that indicates that, within one year of further study, you can attain the necessary standards for entry onto one of our degree programmes. Offers will be tailored individually.
International Baccalaureate	Considered on an individual basis.
Scottish Highers	N/A
Scottish Advanced Highers	N/A
Irish Certificate	Contact us for further information.
BTEC Diploma (18 Units)	N/A
English Language Requirement	Home students to achieve GCSE in English Language Grade C or equivalent. International students to achieve IELTS score of no less than 5.5 in each and every component or TOEFL score of at least in Listening 17, Reading 18, Speaking 20 and Writing.
Access to HE	Applications are considered on an individual basis. Please contact the University for further information. QAA's normal requirements for diploma applicants are 60 (10 hour) credits with 45 at level 3 and the remainder at level 2. Specific grades in specific subjects will be part of any offer.

Career Outcome	Social Anthropology is not directly vocational but knowledge and insight gained in its study can be turned to account in many ways. Training in Social Anthropology prepares graduates to meet the demands of new and unexpected situations, and employers are increasingly recognising the value of a degree that combines a multifaceted understanding of culture and society with practical skills in working with people. Many of our graduates go on to do postgraduate work, and many go overseas. They take to a wide range of occupations and careers, especially those that require people skills, such as teaching, journalism, development work, social services and business and personnel management. They also find themselves in government and non governmental organisations, the media, the City, and schools. Why not see what Skills, Job Options and Career Options a Social Anthropology graduate would have? All students and recent graduates of the University of Manchester also have access to our Careers Service which has resources and a dedicated team of career advisers that can help guide students through their career options and also help students develop the skills to impress future employers. Our Careers Service is consistently voted best in the UK by both students and employers. For further information about career opportunities for students in the School of Social Sciences please visit our careers website.

Career Outcome	Due to the flexibility of the BA(Hons) Social Sciences degree and the Social Anthropology and Philosophy pathway in particular you will have a wide variety of career opportunities in both the private and the public sectors, because of the number of pathways through the degree. Recent graduates from the School of Social Sciences have pursued careers in a range of different areas, with graduates going into careers as diverse as teaching, journalism, law, accountancy, retail and trainee management. The multidisciplinary nature of the BA (Social Sciences) degree programme will give students the transferable and specific skills they need to move on from their undergraduate studies with 85% of Philosophy graduates and 75% of Social Anthropology graduates at the University of Manchester in employment or further study within 6 months of graduation (Source: Unistats). All students and recent graduates of the University of Manchester also have access to our Careers Service which has a range of resources and a dedicated team of career advisers that can help guide students through their career options and also help students develop the skills to impress future employers. Our Careers Service is consistently voted best in the UK by both students and employers. For further information please visit the Careers Service website.

Software Engineering (4 Years) [MEng]

UCAS Code	GG64
School	School of Computer Science
Email	ug-compsci@manchester.ac.uk
Phone	+44 (0)161 275 6124
Places/Applicants	N/A

Qualifications Accepted

GCSE	Six academic subjects at grades A and B including Mathematics and two science subjects from Computer Science, Physics, Chemistry, Biology or Science and Additional Science.
A level	Grades A*AA. This should include Mathematics and at least one science subject from Computer Science, Physics, Chemistry and Biology. General Studies and other subjects which do not include a significant written element are welcomed, but are not normally included as part of the standard offer.
International Baccalaureate	38 points overall, with 7,6,6 in Higher Level subjects, including Mathematics.
Scottish Highers	AAAAA, including grade A in Higher Mathematics and a scientific bias to other subjects studied. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Scottish Advanced Highers	AAA, including grade A in Advanced Higher Mathematics and a scientific bias to other subjects studied. Minimum of five grade 1's and 2's in academic subjects at Intermediate 2 including English, Mathematics and a Physical Science.
Irish Certificate	Grade A in higher level mathematics and grades AAAAB in five further higher level academic subjects. A scientific bias to the subjects studied.
BTEC Diploma (18 Units)	Grades DDM from a technological diploma partially fulfils entry requirements. Students are also required to have a grade A in A-level mathematics with a pure element.
English Language Requirement	GCSE English Language grade C, IELTS with an overall average of 6 with no lower than 5.5 in any component, Internet Based TOEFL with 87 overall, including 21 in Listening and Writing, 22 in Reading and 23 in Speaking.
Access to HE	Applications are considered on an individual basis, e.g. additional educational achievements, life experience and skills. Please contact the University for further information. Our standard academic requirements include 60 credits with 45 at Level 3. Minimum of 30 credits should be with a Distinction grade (15 of which must be in mathematics), plus 15 credits with a Merit grade in a science-related subject. Students are also required to have a grade A in A-level mathematics with a pure element.

Application & Selection

Interview Details	We currently expect to interview all UK based applicants to whom we are considering making an offer.
Scholarship Information	For further information please visit The University of Manchester scholarships and bursaries page.
Career Outcome	Increasingly, employers are seeking graduates with high-level computing skills, and the ability to apply them in innovative ways to solve the problems facing their organisations. Opportunities exist in fields as diverse as finance, films and games, pharmaceuticals, healthcare, consumer products, and public services - virtually all areas of business and society. Employers, from large multinational firms such as EA Electronic Arts, IBM and Microsoft to small local organisations, actively target our students, recognising that Manchester Computer Science graduates are equipped with the skills that enable them to excel in a whole host of positions, including many that are not traditionally associated with computing graduates.

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? • MI5 actively recruit graduates with language skills • Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. • Graduates from The University of Manchester are amongst the highest paid in the country • More employers recruit at The University of Manchester than at any other UK university • The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers • The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Career Outcome	Languages qualify you for a wide range of employment. Your high-level language skills will open up numerous paths with an international dimension (e.g. business, industry and finance). You will also have excellent all-round communication skills making you a strong contender for openings in the media, PR and similar areas. In our experience, many graduates go straight into business services, marketing, advertising, management, banking or communications. Others opt for postgraduate study or further vocational training to become accountants, lawyers, teachers (in England or abroad) or enter the Civil Service. Did you know? • MI5 actively recruit graduates with language skills • Past students have gone into areas as diverse as Radio Reporting, Advertising, Accountancy, Events Management, Commercial Management and International Sales. • Graduates from The University of Manchester are amongst the highest paid in the country • More employers recruit at The University of Manchester than at any other UK university • The University of Manchester's Careers Service is consistently voted the best in the country by both students and employers • The School of Arts, Languages and Cultures is one of the largest and most diverse in the UK and has received the prestigious European Award for Languages from CiLT, the National Centre for Languages.

Speech and Language Therapy (4 Years) [BSc]

UCAS Code	B620
School	School of Psychological Sciences
Email	ug-slt@manchester.ac.uk
Phone	+44 (0)161 275 3389
Places/Applicants	42/550

Qualifications Accepted

GCSE	The School require Six GCSEs at grade C or above (including Mathematics), B in English Language and B in one of the following subjects: Biology, Chemistry, Physics or Science. Additional Science is preferred for applicants with GCSE Science. A modern foreign language is preferred.
A level	AAB or equivalent is required. A mixture of Arts and Science subjects is an advantage, especially Biology, English Language, a modern foreign language or Psychology. Additional AS levels are welcomed but we need subjects carried through a two-year course leading to three full A levels or equivalent. General Studies is welcomed but not normally included as part of the standard offer.
International Baccalaureate	35 points overall with 6,6,5 in Higher Level subjects
Scottish Highers	Grades AABBB. A mixture of Arts and Science subjects is an advantage.
Scottish Advanced Highers	Grades ABB are required.
Irish Certificate	A1x1 A2x1 B2x3. Equivalent to 320 UCAS tariff points. Minimum of six subjects.
BTEC Diploma (18 Units)	Extended Diploma: 100 credits at Distinction, 70 at Merit and 10 at Pass. Diploma: A at A level plus 60 credits at Distinction, 50 at Merit and 10 at Pass. Subsidiary Diploma: AA at A level plus 50 credits at Merit and 10 at Pass.
English Language Requirement	Applicants for whom English is not a first language should appreciate that a particularly high standard of spoken and written English is necessary to cope with linguistics, phonetics and clinical work. IELTS to an overall score of 8.0, with no component less than 7.5. There is a great need for therapists who are fluent in more than one language and graduates with such skills would be a valuable addition to the profession; such candidates are therefore encouraged to apply.
Access to HE	Applications are considered on an individual basis, take into account additional educational achievements, life experience and skills. Please contact the University for further information. QAA's normal requirements for diploma applicants are 60 (10 hour) credits with 45 at level 3 and the remainder at level 2. The School prefer a minimum of 30 credits with distinction and 15 credits with merit. Access students should take modules in Biology, Psychology or English Language if possible. We recommend the Health or Science Pathways as the most appropriate for entry to the course. Due to the nature of Access to HE diplomas, it is often not possible for an applicant's college to supply a sufficiently detailed reference. Under these circumstances, the School of Psychological Sciences may request a supplementary reference to enable us to fully consider your academic ability. Although this could result in us delaying our decision, please be assured that this will not adversely affect your application in any way.

Application & Selection

Interview Details	N/A
Scholarship Information	N/A
Career Outcome	Speech and language therapists in the UK are mainly employed by the NHS, although there are opportunities within charitable and private organisations. Many therapists work in educational settings and some set up in independent practice or take research posts. There are also opportunities overseas.

Textile Design & Design Management (3 Years) [BSc]

UCAS Code	J4W2
School	School of Materials
Email	ug-textiles@manchester.ac.uk
Phone	+44 (0)161 306 4360
Places/Applicants	We normally admit 25 students onto this course.

Qualifications Accepted

GCSE	Minimum grade C in English Language, Dual Science and Mathematics.
A level	Grades AAB. This should include Art or Art and Design. We may consider Textiles as an equivalent to Art or Design, depending on the syllabus.
International Baccalaureate	35 points overall, including 6,6,5 in three subjects at Higher Level including Art or Design.
Scottish Highers	N/A
Scottish Advanced Highers	AAB. This should include Art or Art and Design.
Irish Certificate	A1A1B1B1 at Higher Level plus one other subject at higher Level, to include Art or Design.
BTEC Diploma (18 Units)	Contact us for further information.
English Language Requirement	GCSE grade C, IELTS 6.0 with no subtest below 5.5, TOEFL internet based test score of 80 with no subtest below 20. Cambridge Proficiency in English Grade C, English for Academic Purposes Grade C, Pearsons Test of English 59 with no subtest below 51.
Access to HE	Contact us for further information.

Application & Selection

Interview Details	All students who apply to us through UCAS, and who live on the UK mainland and meet our application criteria, are invited to a School Open which will include an interview as part of the application process. These are held from November through to March and provide applicants with the chance to visit the University and see the facilities we offer.
Scholarship Information	N/A
Career Outcome	The programme prepares you for a variety of careers. Graduates go into both the manufacturing and retail sectors of the textile and clothing industry as designers, design managers, selectors, buyers, stylists and producers. Our graduates have also gone into other professions such as accountancy and teaching. Recent positions graduates have taken up include: assistant buyers, merchandisers & selectors; knit, weave & print designers; and recruitment consultants. Graduates have also gone on to take postgraduate degrees in textile technology, design, fine art, museum studies and teaching. Companies employing graduates include Accenture, Benetton, Bhs, British Rail, Edinburgh Weavers, Gap, John Lewis, Laura Ashley, M&S, Mothercare, Next, and Paul Smith.

Theological Studies in Philosophy and Ethics (3 years) [BA]

UCAS Code	V610
School	School of Arts, Languages and Cultures
Email	ug-relth@manchester.ac.uk
Phone	+44 (0)161 306 1252
Places/Applicants	20 / 80

Qualifications Accepted

GCSE	Minimum grade C in English Language
A level	Grades ABB-BBB. General Studies is welcomed but is not normally included as part of the standard offer. Two AS-levels are accepted in place of one A-level.
International Baccalaureate	34-31 points overall (core points accepted), including 6, 6, 5 at Higher level.
Scottish Highers	Grades AABBB: accepted only in conjunction with 3 Advanced Highers at Grades shown.
Scottish Advanced Highers	Grades ABB-BBB
Irish Certificate	A2B1B2B2B2 - B2B2B2B2B2 at Higher Level
BTEC Diploma (18 Units)	BTEC Extended Diploma in a humanities or related subject, with a minimum of 70 credits awarded at Distinction, 100 at Merit and the remaining 10 credits at Pass or above.
English Language Requirement	Minimum IELTS score of 7.0 or equivalent; eg. NCUK EAP minimum Grade of A with range of 70-79 TOEFL: IBT score of 100. For further details see the University guidance on English Language.
Access to HE	Overall 60 credits are required with 45 at Level 3. Minimum of 15 credits with a Distinction grade, plus minimum of 24 credits with a Merit grade. All credits should be in a Humanities-related subject. We also consider other factors such as additional educational achievements, life experience and skills on an individual basis.

Application & Selection

Interview Details	The interview will normally run for 15-20 minutes and will be a one-to-one discussion with a member of the Religions and Theology lecturing staff. It is our aim that the interview should be a relaxed but informed conversation. It will normally explore areas such as your ability to discuss and think about the topics of the course and the modules, approaches and experiences that studying this course at Manchester entails.
Scholarship Information	N/A
Career Outcome	A Religions and Theology degree is very attractive to employers because it generates cultural sensitivity and awareness. Students are well orientated with regard to a wide variety of beliefs and worldviews. Like other humanities subjects, a Religions and Theology degree is suitable for careers in teaching, law, management, social, community and youth work, administration, publishing, broadcasting, and local and national government. A substantial number of students continue with graduate studies for PGCE, MA or PG Dip in Law. Thus about a quarter of our students go on to do Teacher Training (PGCE). Recent Manchester Religions & Theology graduates found employment in, for instance, Xaverian Roman Catholic College (teaching), PriceWaterhouse (finance), SPCK (publishing), Church of England (youthwork), Liberal Jewish Synagogue (national director of youthwork), Manchester city council (government), University of Salford (administration), and Christian Aid (NGO). We train you in key transferable skills, such as the ability to research, analyse and synthesize different sources of information, good organisational skills, IT skills, team-work and communication skills gained from tutorials and group projects, writing skills, analysis of often very complex texts, empathy and imaginative insight, ability to work methodically and accurately, independence of mind and initiative, should enhance your employability. A substantial number of our students acquire some language skills. Students can count on the Careers Service for advice and support. It is regarded as one of the best Career Services in the UK (http://www.careers.manchester.ac.uk/). Because this is a relatively new programme, we don't have employment figures yet. By way of comparison, 89% of Religions and Theology graduates and even 100% of Comparative Religion and Social Anthropology graduates are in employment or further study within six months of graduation. (Source: DLHE 2010-11)

Places/Applicants	60 / 350 across all four programmes in Planning and Landscape

Qualifications Accepted

GCSE	Minimum of grade C in English Language and Mathematics.
A level	Grades BBB (two AS-levels accepted in place of one A-level). General Studies is accepted.
International Baccalaureate	32 points overall.
Scottish Highers	Grades B, B, B, B, C
Scottish Advanced Highers	Grades B, B, C
Irish Certificate	B2, B2, B2, B2, B3 at Higher grade.
BTEC Diploma (18 Units)	Distinction, Distinction, Merit.
English Language Requirement	An overall mark of 6.5 at IELTS, with 6.5 in writing and no sub-section below 6.0; TOEFL iBT overall score of 90 with a minimum score of 22 in writing and 20 in the other sub-sections.
Access to HE	Applications are considered on an individual basis. Overall, 60 credits are required with 45 at level 3 with a Merit grade.

Application & Selection

Interview Details	Interview required
Scholarship Information	N/A
Career Outcome	Even in the challenging economic climate at the moment, many of our students are going straight into professional planning and related jobs working in areas such as consultancy, local government, private sector companies and the community and voluntary sector. BA-TCP graduates are popular with a wide range of employers, particularly in the consultancy sector. More than half the membership of the RTP1 is currently based in the private sector! After London, Manchester hosts the largest number of planning consultancies in the UK. In recent years a growing numbers of graduates have found jobs also in non-planning areas or in business, where their skills are widely appreciated. The transferable skills you develop in strategic thinking, teamwork, creativity and communication are exactly what most employers are seeking in almost any area in which you may subsequently decide to develop your career.
Link to Course	http://www.manchester.ac.uk/undergraduate/courses/search2015/atoz/00370/

General Studies is welcomed, but is not normally included as part of the offer. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. Additionally each language has specific entry requirements: • French: an A-Level in French (grade B) or equivalent is required. • German: an A-Level in German (grade B) or equivalent is required. • Spanish: an A-Level in Spanish (grade B) or equivalent is required. • Italian: an A-Level in Italian (grade B) or equivalent is required. • Japanese: an AS-Level (grade B) or equivalent is required. Chemistry AS-Level (grade B) is essential. • Mandarin: No prior knowledge of Mandarin is assumed but evidence of linguistic proficiency is required (eg GCSE A* in a foreign language). Chemistry AS-Level (grade B) is essential.
International Baccalaureate	37-33 points overall including 5 or 6 points in Biology and Chemistry at Higher level. For degrees with French, German and Spanish 5 or 6 points in the language must be achieved at Higher level. 5 points in Japanese at standard level, or equivalent, is required for the degree with Japanese. For other languages 5 points is required in a language at standard level.
Scottish Highers	AAAAA - AAABB including 3 science subjects and a language.
Scottish Advanced Highers	AAA - ABB including 2 science subjects, normally Biology and Chemistry. For degrees with French, German and Spanish the language is required as an Advanced Higher. A grade B at Higher, or equivalent, is required for the degree with Japanese. An A at Higher is required in Chemistry and a language.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2 A's must be in Biology, Maths, Chemistry and a language.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.

Application & Selection

Interview Details	All applicants who live in the EU are normally interviewed in person at the University. Applicants who live outside the EU may be interviewed either; in person at the University, by Skype or by telephone.
Scholarship Information	N/A
Career Outcome	Graduates from 'with a modern language' programmes are extremely desirable to employers who require significant relevant work experience. In the growing field of international bioscience research collaborations, graduates with a good command of a foreign language are at a distinct advantage. Many of our graduates secure jobs as researchers working in universities, pharmaceutical and bioscience companies and institutes as well as conservation projects around the world. A number of graduates are now involved in such programmes in the UK and South Africa. Other popular career choices include working in zoos and museums. Most jobs in the Zoology sector, such as ecology, conservation and research in the field, are very competitive and require applicants to have undertaken significant relevant work experience, which is sometimes gained on a voluntary basis and/or postgraduate study. Life Science roles of recent graduates included: Animal Care Technician for a laboratory, Volunteer Project Worker in an animal conservation project in South Africa, Medical Information Officer for a communications company, Environmental Educator for a charity, Veterinary Science, Graduate Management Trainee for a utilities company, Trainee Army Officer, Mountain gorilla researcher, Assistant manager of shark research facility For information on the range of career options available please see the Faculty of Life Sciences Careers page.

Zoology with Industrial/Professional Experience (4 Years) [BSc]

UCAS Code	C301
School	Faculty of Life Sciences
Email	ug-lifesciences@manchester.ac.uk
Phone	+44 (0)161 275 5032
Places/Applicants	0 / 0

Qualifications Accepted

GCSE	Minimum grade C in English Language and Mathematics.
A level	Grades AAA-ABB. Your subjects should include 2 'hard sciences' - Biology, Chemistry, Physics or Maths. You must have a grade A in one of - Biology, Chemistry, Physics or Maths. If your grades are AAB or higher we will accept Geography, Psychology, Environmental Studies or PE in place of one of the hard sciences. Subjects with overlapping content are not normally accepted together: e.g. Further Maths not accepted alongside Maths; Applied Science or Human Biology not accepted alongside Biology. General Studies is welcomed, but is not normally included as part of the offer.
International Baccalaureate	37-33 points overall including 5 or 6 points in two sciences at Higher level, normally Biology and Chemistry.
Scottish Highers	AAAAA - AAABB including 3 science subjects.
Scottish Advanced Highers	AAA-AAB including 2 science subjects, normally Biology and Chemistry.
Irish Certificate	A1, A1, A1, A1, B1 to A2, A2, A2, A2, B2. A's must be in Biology, Maths and Chemistry.
BTEC Diploma (18 Units)	BTEC Level 3 Extended Diploma in Applied Science or Applied Science (Medical Science) with Distinctions in 120 credits from the following units: 1, 3, 4, 6, 7, 8, 9, 11, 12, 13, 14, 15, 18, 19, 21, 22 and 43.
English Language Requirement	Either GCSE grade C, IELTS 6.5 (with not less than 6.5 in any component) or an equivalent qualification.
Access to HE	Overall 60 credits are required with 45 at level 3. The level 3 units must be made up of 15 credits in Biology with a Distinction grade, 15 credits in Chemistry with a Distinction grade and a further 15 credits with Distinction.
