

The University of Manchester

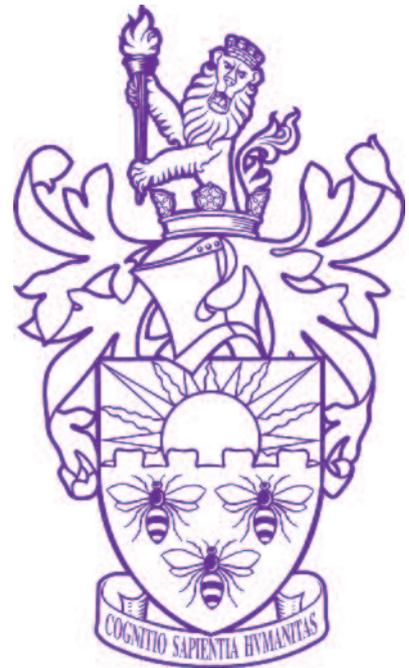

# DEGREE CONGREGATIONS

JULY 2015

---

At The University of Manchester, we focus on *making things happen*, turning enthusiasm into achievement and ground-breaking theory into cutting-edge practice.

Our newest graduates today join a prestigious hall of fame that includes 25 Nobel Prize winners among our current and former staff and students, and a worldwide community of more than 280,000 alumni who can be found holding top positions in every imaginable field.

Over a distinguished history spanning more than 180 years, our innovative minds have accomplished feats of global importance, including the birth of the modern computer, the splitting of the atom, and the foundation of modern-day economics.

Today, our students form a diverse and fascinating community, drawn from all corners of the globe, united in their goal to build a better future via a world-class educational experience of a lifetime.

We encourage our students to take charge of their future, finding a voice and forming opinions, getting involved and meeting fresh challenges, making the most of the multitude of resources and opportunities that we have to offer.

And we know, with their intelligence, inspiration and ambition, our new graduates will find they have what it takes to make their future happen.

# Welcome

*from the President and Vice-Chancellor*

I welcome you all – graduands, family members and friends – to The University of Manchester for this degree congregation.

This is a time of celebration for all of us and I very much hope that you find it an enjoyable occasion. As each graduand is presented for conferment of their degree, the University shares with you all a great sense of pride in the award they have worked so hard to attain.

For those of you graduating today, these ceremonies mark not the end of your relationship with the University but the start of a new stage. It is my hope that the links between the University and you will grow ever stronger and I look forward to you becoming an active member of the University's alumni body.

I wish you every success for the future and that you all have a truly memorable day.

**Professor Dame Nancy Rothwell**  
President and Vice-Chancellor

# *The Faculty of Engineering and Physical Sciences*

The Faculty of Engineering and Physical Sciences is large and comprehensive with nine component schools: Chemical Engineering and Analytical Science; Chemistry; Computer Science; Earth, Atmospheric and Environmental Sciences; Electrical and Electronic Engineering; Materials; Mathematics; Mechanical, Aerospace and Civil Engineering; and Physics and Astronomy. Together they offer a diverse portfolio of research and teaching of the highest quality.

Many of the major advances of the 20th century began here, including the work by Rutherford leading to the splitting of the atom and the development of the world's first modern computer. Today research activities remain at the cutting-edge and the Faculty now generates around £75 million in research funding a year.

The quality, breadth and volume of research activity at the Faculty of Engineering and Physical Sciences is unrivalled. There are more than 70 specialist research centres and groups at the Faculty, each undertaking pioneering research into areas ranging from nuclear decommissioning and nanotechnology to artificial intelligence and aerospace.

Research is at the heart of The University of Manchester's Faculty of Engineering and Physical Sciences.

# *The Faculty of Humanities*

The Faculty of Humanities is the largest of the University's four Faculties, with a world-leading reputation in research that spans academic areas as diverse as the arts, international development, modern languages, education, law, the social sciences, business and management. With a total income of around £190 million per annum, around 18,000 students and some 1000 academic staff, it is equivalent to a medium-sized university in the UK.

Major institutes and centres include the Centre for New Writing, the Institute for Social Change, the Brooks World Poverty Institute, the Humanitarian and Conflict Response Institute, the Manchester Institute for Innovation Research, the Research Institute for Cosmopolitan Cultures, the Centre for Chinese Studies, the Institute for Development Policy and Management, the Centre for Equity in Education and the Sustainable Consumption Institute.

## *The Faculty of Life Sciences*

The Faculty of Life Sciences is a world-class research establishment, recognised as an international site of excellence in terms of research power and importance in the latest Research Assessment Exercise.

It is home to more than 1,000 researchers, over 2,000 undergraduate students and has an annual budget in excess of £100 million.

Students benefit from modern facilities, innovative teaching techniques and the opportunity to be taught by leading experts from across the breadth of the life sciences. The highly interactive research and teaching environment allows the Faculty to conduct the highest quality research while maintaining an extensive range of undergraduate and graduate programmes as well as vocational training.

The Faculty's research fields include environmental biology, disease biology, neuroscience, genetics and zoology. There are also world-leading researchers studying vision science and the history of science, technology and medicine.

Academics regularly have their work published in leading scientific journals and significant breakthroughs are consistently being made in the understanding of a range of diseases.

Rapid advances in molecular and structural biology, genomics and bioinformatics will ensure that the life sciences continue to dominate scientific discoveries in the 21st century.

## *The Faculty of Medical and Human Sciences*

The Faculty of Medical and Human Sciences has a long and proud history of innovative teaching and ground breaking research, and is one of the largest faculties of clinical and health sciences in Europe. The Faculty has five Schools: Medicine, Dentistry, Pharmacy, Psychological Sciences, and Nursing, Midwifery and Social Work. It also has six Faculty research-focussed institutes: Brain Behaviour and Mental Health; Cancer Sciences, Cardiovascular Sciences; Human Development; Inflammation and Repair; and Population Health. The Faculty has strong interdisciplinary links with other Schools, Faculties and Institutes across the University, including Life Sciences, Engineering and Physical Sciences, Economic and Social Sciences, Education and the Paterson Institute for Cancer Research.

The School of Medicine traces its past to the first medical school established in England outside London, while the School of Nursing was the first British school to offer a degree in the subject; similarly, Manchester was the first university to award degrees in Pharmacy and was the first university in Britain to appoint a full-time professor of psychology; the first degree programme in dentistry was introduced in 1904.

There is a strong organisational capability for undertaking cross-faculty teaching and research activity in partnership with the public sector and industry. For example, in around 450 community placements/GP practices and 17 district hospitals, the Faculty trains in excess of 450 doctors each year. Similarly, in partnership with the NHS and Health Education England, it provides continuing professional development for 60,000 pharmacy professionals in England.

Furthermore, teaching and research is spread over a wide area with major links to Central Manchester University Hospitals NHS Foundation Trust, the Christie NHS Foundation Trust, Salford Royal NHS Foundation Trust, University Hospital of South Manchester NHS Foundation Trust, and Manchester Mental Health and Social Care Trust.

The University of Manchester Award for *Outstanding Academic Achievement* is awarded to the top students in each graduating year based solely on academic performance and consists of a certificate presented at graduation and a cheque for £1,000.

*The prestigious award reflects the exceptional performance of the individual graduates during their time at The University of Manchester.*

**Dr Jane Cocking OBE  
BA (Hons) History 1981;  
PhD Archaeology 1987**

*During her time at the University of Manchester, Oxfam's humanitarian director Jane Cocking was inspired by the sense of possibility, aspiration and motivation to make a difference.*

It was one of the reasons why, having graduated with a BA (Hons) History in 1981, she left her first job, in the rail freight industry, after deciding it wasn't for her. Instead, following a period of further study, including a PhD in Cretan folk textiles, she joined the Africa desk at the Overseas Development Administration (ODA) in 1987, now part of the Department for International Development.

It was while on a mission to Somalia with the ODA that Jane found her vocation – providing help, support and guidance to communities in crisis. Back in the UK, she joined Save the Children – and immediately returned to Somalia. Over the next 25 years and more, Jane would play an active part in responding to humanitarian crises in many of the world's most troubled regions, including Somalia, Ethiopia, Sierra Leone, Sudan, Eastern Europe and the Middle East.

Having joined Oxfam in 1997, she became regional programme manager in southern Africa in 2003, working particularly in Zambia, Zimbabwe and Malawi. She is now humanitarian director, with particular responsibility for ensuring the quality of Oxfam GB's humanitarian work, which amounts to around £116 million.

Jane was awarded an OBE in the Queen's birthday honours in 2011 for her services to the voluntary sector. She has been back to the University of Manchester on a number of occasions to give talks at the Humanitarian and Conflict Response Institute about her role and the vital work that the humanitarian sector is involved in all over the world.

**Professor Michael Wood  
Professor of Public History**

For over thirty years now, historian and broadcaster Michael Wood has brought history alive for readers and viewers. He is the author of several highly praised books on English history including *In Search of the Dark Ages*, *Domesday*, and *In Search of England*, and over one hundred documentary films, among them *In the Footsteps of Alexander the Great* and *The Story of India*, which the Wall Street Journal described as 'still the gold standard.' His *Story of England* which told the tale of one village, Kibworth in Leicestershire, through British history, was called by the Independent 'the most innovative history series ever on TV'. His most recent work was the highly praised series *King Alfred and the Anglo-Saxons*; he is currently working on *The Story of China* for transmission on BBC 2 at the end of 2015.

Michael was born in Moss Side, and educated at Manchester Grammar School and Oriel College Oxford, where he did post-graduate research in Anglo-Saxon history, on which he has written many academic articles. His most recent contribution in this field is 'King Athelstan's Psalter' in *1000 Years of Royal Books and Manuscripts* (British Library 2014.) His study of the first king of England, *The Lost Life of King Athelstan*, is to be published by Oxford University Press in 2015. He is Professor of Public History at the University of Manchester, a Fellow of the Royal Historical Society, the Royal Society of Arts and the Society of Antiquaries, and a governor of the RSC. He was recently a recipient of the Historical Association's Medicott medal for outstanding services and current contributions to history. Michael lives with his family in North London.

**BSc (Hons) Management Sciences 1990**

*Commercial director for high-end property development firm Ronson Capital Partners, one of Europe's leading property development companies, Lisa Ronson and her family have a long-standing relationship with the University. The Gerald Ronson Foundation, set up by her father, property developer Gerald Ronson, have been a generous supporter of the University and Lisa currently serves as a member of Manchester Business School's Advisory Board, counselling the School on its strategy and engagement with business.*

Lisa herself arrived in Manchester in 1987 to begin an undergraduate management sciences degree, from which she successfully graduated in 1990. After graduation she joined the graduate programme of BZW bank in South East Asian equity sales, covering the UK, European and US financial institutions.

She spent eight years at the bank, latterly in New York, before returning to London in 1998 to take up the role of marketing director at Heron International Plc, the property development business managed by her father.

Today, Lisa leads the interior design, branding, marketing, PR, sponsorship and advertising for Ronson Capital Partners developments, as well as Heron's leisure portfolio, which includes major developments in Spain.

Lisa is a great supporter of the University and has returned to speak to undergraduate students about both the property and marketing sectors.

In partnership with other organisations, she is very involved in supporting undergraduates from universities across the UK, including Manchester, helping them prepare for the workplace and find work placements.

Lisa also gives her time to a number of other charitable and community activities, including being a trustee of the Development Board of the Natural History Museum, a trustee of the Gerald Ronson Foundation, as well as the JW3, a North London Jewish Community Centre, and Traine Traide, which assists and trains people back into the workplace.

## Outstanding Alumni Awards

# Lopa Patel MBE BSc (Hons) Biochemistry 1986

*Lopa Patel is a digital entrepreneur with a lifelong love of science and technology. An ardent evangelist for the STEM subjects (science, technology, engineering and mathematics), she is a technology ambassador for STEMNET, which aims to encourage more girls to pursue careers in science, and is a former non-executive director of Becta (British Educational Communications and Technology Agency).*

Born in Kenya but raised in London, Lopa graduated in biochemistry in 1986. As a trainee at ICI, it didn't take long for her natural flair for enterprise to come to the fore. When one of the company's marketing suppliers went into liquidation, Lopa stepped in and bought the company, creating her first business, DMS Direct, to supply promotional products to her former employer. It was to be the first of several successful business ventures over the next two decades. This includes four online media channels, the most high profile being Redhotcurry.com, the leading south Asian lifestyle website, and e-commerce venture TheRedhotshop.com.

Lopa is passionate about promoting skills, education and training. She has committed enormous time and effort to help educate, encourage and develop the next generation of business owners and innovators in the UK, particularly among women and minority groups. Made an MBE for services to the creative industries in 2009, in April 2015 she became the first Asian woman to receive the Queen's Award for Enterprise Promotion.

She is the founder and CEO of equality and inclusion think tank Diversity UK; deputy chair of global volunteering initiative Sewa Day; a non-executive director of EMBG (Ethnic Minority Business Group) and a trustee of educational charity Raha International.

**Mark Crabtree OBE  
 MSc Micro Processor Engineering and Digital Electronics 1974**

*Mark Crabtree is the founder and managing director of AMS Neve, a leading manufacturer of audio technology equipment. Its mixing desks and audio processors are considered the best in the world, used and owned by many global artists such as The Police, Nirvana, Peter Gabriel, Phil Collins, Sam Smith and Pharrell Williams.*

As a masters student in digital electronics at Manchester in 1974, Mark's two main interests were electronics, which he'd been passionate about since a small boy, and music.

The band he played in couldn't afford proper equipment, so Mark used his knowledge of electronics to build his own amplifiers, recorders and sound effects equipment. Often ground-breaking, Mark's equipment came to the attention of artists including Paul McCartney, ELO and 10cc, and was soon in demand by major music studios. On the back of these successes, he left his job at Lucas Aerospace in Burnley and set up his own company AMS (Advanced Music Systems) in 1976.

Since then, AMS Neve has become one of the dominant names in professional music production, including films and TV. Indeed, Mark and his company have won two Oscars, a Grammy and an Emmy for their contribution to film, music and TV.

The company continues to design and manufacture all its equipment in Burnley. Mark is heavily involved in supporting the local community as chair of Burnley Bondholders, a group set-up to encourage business and enterprise in Burnley. He is also involved in outreach work designed to raise the aspirations of local school pupils. He has funded engineering teaching for 30 primary schools in the town and has recruited STEM ambassadors for each. Mark received an OBE for services to advanced manufacturing and creative industries in 2014.

# Affirmations

## Monday 6th July 12.15pm

### The Affirmation

New graduates in Pharmacy please stand.

"I affirm that I will:

- make the care of my patients my first concern;
- treat every patient politely and considerately;
- respect patients' dignity and privacy;
- listen to patients and respect their views;
- give patients information in a way they can understand;
- respect the right of patients to be fully involved in decisions about their care;
- keep my professional knowledge and skills up to date;
- recognise the limits of my professional competence;
- be honest and trustworthy;
- respect and protect confidential information;
- make sure my personal beliefs do not prejudice my patients' care;
- act quickly to protect my patients from risk if I have good reason to believe that I or a colleague may not be fit to practise;
- avoid abuse of my position as a pharmacist;
- work with colleagues in the ways that best serve patients' interests.

In all these matters I will never discriminate unfairly against my patients or colleagues. I will always be prepared to justify my actions to them."

Graduates reply:  
"I so affirm".

Graduates sit.

Congratulations on your graduation and we hope that you have thoroughly enjoyed your time in Manchester. Whether you have found a job or a place on a postgraduate course, or are still considering your options, we wish you the best for your future.

## *Your career begins here*

### **Congratulations on your graduation**

Have you secured a graduate job or place on a postgraduate study course? If not, the Careers Service can help you for up to two years after graduation.

### **Explore**

Careers information and news. Access a wealth of resources to help you with your research by visiting our comprehensive website, Facebook groups, Twitter accounts, blog or come and see us at the Atrium in University Place, open all year round.

### **Connect**

With one-to-one careers advice and guidance. Speak with a qualified and experienced professional to discuss career possibilities and the steps required to get a job. You can arrange a meeting in person, over the phone or online.

[www.manchester.ac.uk/careers/services](http://www.manchester.ac.uk/careers/services)

### **Experience**

Find an opportunity that's right for you. We advertise jobs with immediate start dates, graduate training schemes, volunteering roles, graduate internships and much more.

[www.manchester.ac.uk/careerslink](http://www.manchester.ac.uk/careerslink)

### **Where will your qualification take you?**

We would like to know what you will be doing next, so in a few months will send you the Destinations of Leavers from Higher Education Survey. We would be very grateful if you would complete the survey when you receive it.

The information you provide is really important to help us recognise the achievements of our graduates; to help prospective and current students plan their futures, and to help improve the reputation of your degree programme and The University of Manchester. We assure you that your answers will be handled confidentially any published data is anonymised.

We wish to collect as much information as possible to ensure that the University and your School are accurately represented, so please help us to make the survey a success.

### **Keep in touch**

Your student email address will be switched off very soon. Please update your preferred email address in My Manchester so you can continue to access CareersLink for jobs and events: [my.manchester.ac.uk](http://my.manchester.ac.uk)

We wish you every success for your future.

# Alumni Association

Congratulations on your graduation day and welcome to the Manchester alumni family. Today you are joining a worldwide network of more than 290,000 former students. We hope that your graduation will be a transition to a new stage of a lifelong connection between you and your University.

We want you to get involved and realise all the benefits we continue to offer you. Visit your alumni homepage ([www.manchester.ac.uk/alumni](http://www.manchester.ac.uk/alumni)), become a Facebook fan ([www.facebook.com/alumniuom](http://www.facebook.com/alumniuom)), follow us on Twitter and Instagram (@alumniUoM), browse photos of our campus and events on Flickr ([www.flickr.com/manchesteralumni](http://www.flickr.com/manchesteralumni)), and join our LinkedIn group ([bit.ly/Li\\_AlumniUoM](http://bit.ly/Li_AlumniUoM)), which has nearly 25,000 members.

Your Alumni Association is supported by the University's Division of Development and Alumni Relations, providing you with a wide variety of opportunities for engagement, such as volunteering, networking events, social gatherings, career talks and resources, lectures by world-class academics and much more. With regular events in Manchester, London and all over the world, you can always keep in contact with your University and fellow alumni.

One of the ways you can help the next generation of students is by supporting Scholarship funds. In this way, alumni can support and enrich the teaching and learning of current students, contribute to outstanding University research programmes and help the University to continue to provide an excellent education for the students of today and tomorrow.

You'll also receive your annual alumni magazine, *Your Manchester*, which is dedicated to keeping you updated with University and alumni news. We'll send you a copy or you can read it online – look out for it every year. We also send a regular eNewsletter, in which many of our events are advertised and we feature topical news items.

Alumni who want to keep in touch find it very easy to do so. You can always chat to us through social media.

The alumni website, Your Manchester Online ([www.manchester.ac.uk/yourmanchester](http://www.manchester.ac.uk/yourmanchester)), gives you access to everything you will need, including how to update your details online, as well as information about events, new research and alumni networks and groups across the globe.

You automatically become a full member of the Alumni Association on graduation but, to enjoy all of the benefits, register online for your Alumni Association membership card and access to online services. Go to [your.manchester.ac.uk](http://your.manchester.ac.uk) and register using your student registration number (which is on your library card). This number is unique to you and will soon become your alumni number.

After you have registered you can enjoy the many alumni services the University offers, including the ever expanding: 'Manchester Extras'. You can get continued free use of the University library and also free remote access to many academic eJournals and reference material. The University's sports facilities are also still available to you at a preferential rate.

We have also negotiated dozens of special offers with various outlets on campus, as well as restaurants, hotels, theatres and commercial companies around Manchester (full details are available on Your Manchester Online).

## Manchester Business School Alumni Association (MBSAA)

Graduates of Manchester Business School can benefit from an additional alumni association, MBSAA, which has a global community of more than 50,000 alumni across 169 countries. MBS graduates are encouraged to register for the MBS online community site – MBSNetwork Online – in order to access more benefits and services unique to MBSAA members. These include access to free online library resources, career development tools and information, a global calendar of events, and alumni groups. MBS graduates will also receive an additional annual magazine and monthly eNewsletter.

MBS graduates are invited to join the MBS LinkedIn group with more than 12,000 members and growing each day.

## **Emergency Evacuation procedure for Whitworth Hall**

During the course of this event no alarm test or an emergency evacuation practice has been planned.

Therefore, if the alarm, which sounds intermittently is activated it should be treated as a potential incident requiring evacuation.

Graduands and Guests are asked to remain calm and seated and follow the instructions given by stewarding staff.

The Assembly point is on the front quadrangle which is adjacent to the Whitworth Hall in front of the John Owens Building.
