

UNIVERSITY OF MANCHESTER

PROGRAMME APPROVAL: INFORMATION SYSTEMS/ eLEARNING RESOURCES FORM

This form should be attached to new programme or pathway proposals. The IS/ eLearning requirements must be reflected in the financial model for the proposal. For cross-school programmes, all schools must agree to providing the required resources for the proposed programme/pathway and make clear those to be provided by each participating school.

IS Resource requirements (*everyone must complete this section*)

1. How will the computing needs of the programme both for formal learning, informal learning, assessment and for student support and communication, be met?

2. What additional training requirements are there for staff and students in relation to the computing elements of the programme?

Blended eLearning Resource requirements

(consider what elements of the programme will be delivered through online or electronic means, complete this section if the programme needs additional eLearning or online support for students)

If you are not planning to use the online environment for teaching delivery, please state your rationale.

3. How will the communication, interaction, assessment, support and content ~~computing~~ of the programme will be delivered through electronic means - needs of the eLearning element of formal learning, informal learning, assessment and for student support and communication, be met?

4. What additional training or support requirements are there for staff and students in relation to the delivery of the eLearning elements of the programme?

Other requirements (*not already identified, please insert details*)
