

RGS All Grants

The Royal Geographical Society provides funding for geographical research, fieldwork and teaching.

The grants offer support to desk and field researchers, research teams and school teachers. Grants are for work in both the UK and overseas and range in value from £250 to £30,000

RGS can be a source of modest research funding from schemes that will support research in physical geography, human and economic geography, society and economy, development issues and international cooperation; in UK an abroad; for individuals, teams or groups of students; and at different stages of the research career. There are three main dates for annual deadlines in January, February and November. It is possible to subscribe to the RGS newsletter.
