

The background of the entire page is a photograph of a large, historic Gothic building, likely a cathedral or university hall, with a prominent red-tiled roof and a tall, ornate spire. The building is made of light-colored stone and features many arched windows. In the foreground, there are green leaves of trees, some of which are slightly out of focus. The sky is a clear, bright blue.

UNDERGRADUATE

OPEN DAYS

Saturday 1 and 8 October 2016 10am – 4pm

Making the most of your day

Thank you for choosing to attend The University of Manchester's undergraduate open day. By visiting our campus you will be able to gain a real insight into the student experience and life here.

You will have the opportunity to find out more about the courses you are interested in, meet current staff and students, as well as attend sessions on key issues such as accommodation and student finance. We hope you enjoy your visit and take full advantage of the programme we have put together for you.

There is no need to register on the day itself, just head to the first session you want to attend.

Planning your day

In order to get the most from your day we recommend that you take time to plan your visit. There is a lot to see and do so we have included a visit planner at the back of this programme to make sure that you don't miss any of the sessions that you want to attend.

We do advise that where possible you arrive early to your sessions as some will be very popular; in these cases we may limit admittance to one student and one visitor or students only.

As you make your way through the programme and start to plan your day, you will see that next to the building names/session venues there is a number in brackets. This indicates the building number as listed on the campus map on pages 32-33 and will help you to navigate around our campus. If you are having any problems on the day in finding a building please ask a member of our open day team dressed in purple and they will be happy to direct you.

Please note: A British Sign Language interpreter is available in the Whitworth Building (51). Speak to member of staff based in the building for more information. We are constantly improving our campus so there might be areas undergoing refurbishment during our open days.

Stage 1

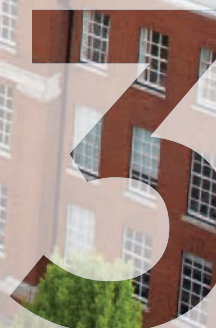

Decide which subject sessions you want to attend – you can attend more than one, so just look at the timetable on pages 2-13 to see which ones suit you best. If you are interested in Medicine or Geography, you will need to have pre-booked your place via the online registration form.

You can also find out more about your subject by visiting the relevant Subject Exhibition Stand. These are also listed in the tinted boxes on pages 2-13. The stands will be open from 10am – 3.30pm and will provide you with the opportunity to speak with staff and current students on the course.

Stage 2

We have general information sessions running throughout the day covering topics such as Careers, Student Finance and Accommodation. Have a look at the full list on page 14-15 and fit the ones you want to attend around your subject sessions.

Stage 3

Finally, we have a variety of Student Experience activities organised such as Campus Tours and Students' Union Tours. We also have a Student Experience Exhibition, which will have information stands on areas from Sport and Student Finance to Accommodation and Study Abroad. For a full list see pages 22-25 and plan these activities around your other sessions.

Placed at the heart of campus, the University of Manchester Students' Union is the hub of student life. We understand better than anyone that student life isn't just about studying. It's about supporting change; making friends, gaining vital skills for life whilst enjoying new experiences and campaigning on something that's important to you. It's our job to make sure you have an unforgettable experience.

We've got over 480 clubs and societies for you to join and we support all manner of groups from Archaeology and Amnesty to Politics and Panto, and if you can't find the one, we'll assist you every step of the way in setting one up.

Our independent Advice Service is somewhere you can get free and confidential advice on all manner of academic, financial, housing and wellbeing issues; we are always here for you.

Of course, we also understand that you enjoy letting your hair down too. That's why we work with students to deliver Pangaea Festival three times a year. Pangaea is Europe's largest student and volunteer led festival.

Open Days will give you a great taster as to what the Students' Union has on offer so why not come and visit us on Oxford Road. It's also a great place to grab a bite to eat, catch up with friends or see your favourite band in the iconic Manchester Academy venues.

We are investing a further £1 billion in our campus. In the next few years there will be a new engineering campus, new centres for law and business, a major refurbishment of the library, a bigger improved student's union building and a new medical school.
