PROJECTS

Our 2 major projects this year aim to help all staff in SEED in your use of technology to enhance learning. We are working with a number of you already but please do get in touch if you would like more information.

INTERNATIONAL STUDENTS

- Working with staff in SEED to identify areas where technology can support international students in their studies.
- Online resource in development which aims provide statistical information in an accessible and useful manner and give guidance on how technology can be utilised to support staff teaching and learning.
- Downloadable guides on supporting students with technology and international students use of social media

SHARING PRACTICE

- Piloting guest access on small number of units
- Providing online access to these units
- Identifying good practice across SEED and sharing key elements online
- Downloadable guides on guest access and key themes for success
