

***Changing the data analysis streams displayed:***

The data analysis streams are calculations based on the datastreams selected.

1. To change the data analysis streams visible, **click on the analysis stream name.**
2. **Select the data analysis stream you wish to view from the list.**
3. **Click OK.**
4. The selected data analysis stream is now visible in the Central Display.

The data analysis streams can be turned off if you don't wish to view these.

5. To do this, **click on the analysis stream name.**
6. **Tick the box next to *off* underneath the list of fields.**
7. **Click OK.**
