

Dr Anu Trehan
Academic Lead
Year 3
Consultant
Acute
Physician

Information about clinical placements can be found via 1Med Info>Year3>Teaching and Learning in Year3>Introduction to Year 3 and Clinical Placements

Dear Students,

Welcome to Year 3. This is the first in a series of newsletters with the purpose of helping to guide you through this year.

This month is the beginning of your journey from a University into the NHS environment. It is an exciting time - however, we recognise because it might be unfamiliar to you, it could bring challenges. Induction week serves a dual purpose, in ensuring you fulfil the necessary checks to work safely with patients and also for you to meet your Sector Year 3 leads and Clinical Undergraduate Department.

You will also meet your Clinical Placement Supervisor, Clinical Debrief Tutor and Academic Advisor over the next few weeks. All these individuals will help you achieve your learning objectives, will monitor your progress and are available to support or guide you to someone else who can.

So what do you need to do now?

- Attend all your timetabled activities
- Observe and experience the clinical environment and learn from health professionals and doctors
- Record all this in your logbook and reflect on what you have learnt

If for any reason you cannot do the above, please contact your University Year 3 co-ordinator immediately year3mbchb@manchester.ac.uk.

With best wishes,

Anu Trehan
Academic Lead Year 3

Alison Quinn
Associate Lead Year 3

Himanshu Singh
Associate Lead Year 3

Professor Yeng Ang

Consultant

Gastroenterologist

Sector Year 3 Lead – SRFT (Salford Campus)

Welcome to Year 3 at Salford Royal University Hospital. I work closely with Anu, and oversee your learning experience and progression in year 3. There is a team within the UGME department to support you but until you get to know them you can send any questions to your year 3 co-ordinator christina.newman@srft.nhs.uk, who can re-direct your questions.

In particular please advise us of any cancellations in your teaching sessions and any problems within your clinical placement, if I am aware of problems I can help to sort them out.

I will be meeting your Year 3 student representatives in the last week of September, so please ensure you pass on any feedback, questions or concerns to them.

I will also be available to see students on a 'drop-in' basis. I am free Wednesday morning from 11 am to 1 pm or Friday morning from 9 am to 11:30 am or please e-mail yeng.ang@srft.nhs.uk if you wish to arrange an informal meeting.

Best wishes,

Dr Yeng Ang
