

International Science School 2019

ISS2019 • The Professor Harry Messel International Science School University of Sydney • 7–20 July 2019 • sydney.edu.au/science/iss

Amazing Science, Amazing Experience: In July 2019, 130 top science students from eight countries will gather at the University of Sydney for a two-week fully residential program of inspiring science activities and lectures

What does it cost to come to the ISS? Nothing! Yes, really. The students and teacher who are selected by the selection committee at the University of Manchester will receive full scholarships to attend ISS2019. That's all flights, meals and accommodation while you are out there!

Calling all science-mad senior secondary students: if you've got a talent for STEM subjects and a passion for science, you really should apply! Note: You must be in year 13 in the 2019/20 academic year.

Calling all secondary science teachers: ISS2019 is an amazing opportunity to expand your science knowledge so that you can improve in the classroom. There is full funding to send one teacher to attend ISS2019 absolutely free! Note: we are looking for a passionate secondary school or college STEM teacher, you do not need to be teaching year 13!

Applications are now open!

The selection committee at the University of Manchester will be selecting three students from Greater Manchester High Schools, and a teacher to accompany the students, for full scholarships to attend **ISS2019: Frontier Science**

For more information and to apply now, head to:
