EMOJI ORDERING

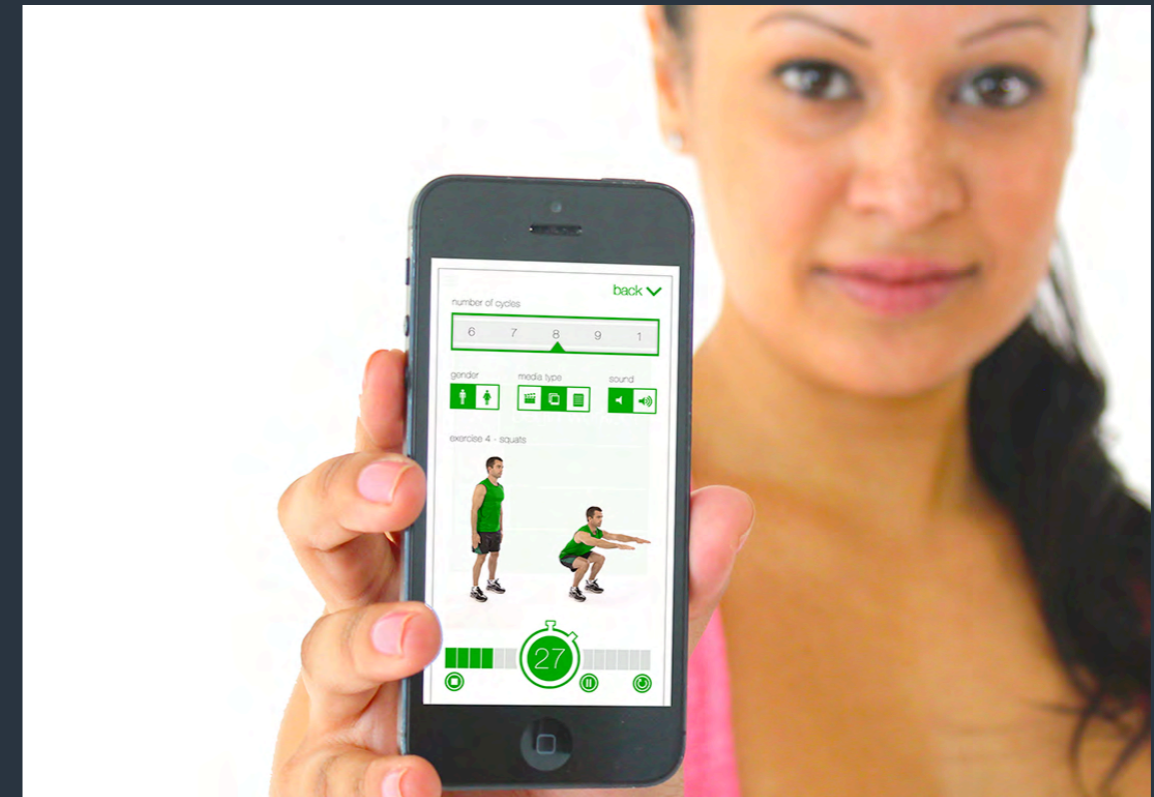

One of the many ways to order on ANYWARE™

People love using emoji. They love texting with them, and more recently, tweeting with them. In fact, emoji are now half as common as the # symbol. Yes, on Twitter.

That's why we created emoji ordering. Create an account on Dominos.com, save an "Easy Order," link your twitter handle, and then tweet the 🍕 to @dominos. 30 minutes later your order will be delivered to your front door.

Emoji Ordering is part of a new suite of technology called Domino's AnyWare™ enabling customers to order whenever and wherever. Other ways to order include Pebble and Android smartwatches, Smart TVs, and Ford Sync.

GEORGIA STATE

Pounce

Hi Emma, welcome to Georgia State! I'm Pounce, your virtual guide to help you enroll. Ask me anything about GSU.

How much is it to reserve my spot?

There's no enrollment fee, but if you want to live on campus a \$350 deposit is due with your housing application.

Got it, thanks

Student Lifecycle Project

Better for students. Simpler for staff.
