The University of Manchester

Faculty of Humanities RAG Report by Staff Group

Background

In March 2019, The University of Manchester launched its staff survey, to provide an opportunity for employees to feedback on their experiences in working for the University and to highlight issues they feel should be addressed in the future.

The survey was designed by The University of Manchester (in conjunction with Capita Surveys and Research) as an online survey, with an option to complete the survey on paper or over the telephone.

The survey was distributed on 4th March 2019 with a closure date of 8th April 2019. Capita Surveys and Research processed and validated 7,424 completed survey questionnaires from The University of Manchester employees: this gives a response rate of 69% based on the 10,814 staff invited to participate.

The Faculty of Humanities achieved a response rate of 70%, i.e. 1,345 out of the 1,923 staff invited responded to the survey.

What is in this report

This RAG (Red, Amber, Green) report is designed to give an overview of the survey results at University level and by area of work for the following groups of staff:

- Academic
- Research
- Professional Services.

Each question is listed in the order it appears in the survey. The figures given are the 'combined positive' i.e. the percentage of respondents who provided a positive response to the question. A higher result indicates a more positive response and a better outcome for the University.

The 'combined positive' result for most questions are calculated by adding together the 'Agree' and 'Tend to Agree' responses and using the resulting combined percentage or using the straightforward 'Yes' responses to the questions.

However, to calculate a 'combined positive' result for some questions the 'Disagree' and 'Tend to Disagree' responses are combined to generate the percentage, or the straightforward 'No' response is used.

For example, the results for the statement '*Relationships at work are strained*' are displayed for those who said '*Disagree*' or '*Tend to Disagree*' to this statement i.e. the positive perception.

The text has therefore been reworded to '*Relationships at work are **not** strained*' and these questions/statements have been highlighted with *italics* in the tables.

Colour coding is used to identify whether a group has more positive or negative views than the University result.

	Where a group is at least 10 percentage points worse than the University result, the cell is coloured red .
	Where a group is between 5 and 10 percentage points worse than the University result, the cell is coloured amber .
	Where a group is at least 10 percentage points better than the University result, the cell is coloured green .

At the top of the sheet is a count of the number of questions coded **red**, **amber** and **green** for each group.

The RAG report is designed to aid local action planning by understanding whether different groups have particular areas of strength and improvement of their own.

The report includes quantitative data only and not data from qualitative questions (free text questions).

Sub-set questions/statements are only asked of participants meeting certain criteria, usually giving specific response(s) to a previous question, and therefore are answered by a smaller number of participants. To ensure anonymity is maintained, some of the sub-set questions/statements are excluded from this analysis.

However, as a large number of staff have responded to the sub-set questions in Question Block 6: Performance and Personal Development (Q6-2 to Q6-6), and Q8-10 'Has your stress had an impact on your ability to cope with the work demands placed on you?' these follow up sub-set questions are used in the analysis.

Understanding the effect of rounding

Figures throughout this report are displayed as whole numbers for the ease of reading. To ensure the figures are as accurate as possible we apply rounding to the figures to the nearest percentage point. Sometimes this will mean that the figures shown may not be identical if calculations are performed using the figures displayed in the report, however any difference would not be larger than ± 1 percentage point.

Therefore, if you sum the percentages for all the response options to a question the figure may not sum to 100% but may sum to 99% or 101%.

When combining the total positive responses, we first combine the number of responses and then calculate a combined percentage, rather than simply adding the two individual response percentages together.

In the example shown below, if we sum the displayed percentages for *agree* and *tend to agree* to calculate the percentage positive response it would be 91%, however, by using raw figures we calculate the result more accurately to 91.5289% which is rounded up to 92%.

EXAMPLE:

	Agree	Tend to Agree	Tend to Disagree	Disagree	Total	Total Positive responses calculation
	(A)	(B)	(C)	(D)	A+B+C+D	A+B
Number of responses	4289	2464	448	177	7,378	6,753
Percent of responses	58.1323%	33.3966%	6.0721%	2.3990%	100.0000%	91.5289% (this rounds up to 92%)
Rounds to	58%	33%	6%	2%	99%	91%

Note

When calculating the percentage point differences between the 2017 and 2019 survey results, the whole numbers for each of the years, following the rounding of the raw figures, are used.

Faculty of Humanities RAG Report

Academic Staff

The University of Manchester: Staff Survey 2019

The table below shows the 'combined positive' i.e. the percentage of respondents answering 'Agree' and 'Tend to Agree' (or 'Yes') to positively worded questions or 'Disagree' and 'Tend to Disagree' (or 'No') to negatively worded questions, unless otherwise stated in the question text.

Responses to negatively phrased questions (highlighted in grey) have been treated in reverse to allow direct comparison with positively worded questions / statements. e.g. Q8-7 Relationships at work are not strained, the percentage stated represents the respondents who said 'Tend to Disagree' and 'Disagree' to the question Q8-7 Relationships at work are strained (i.e. gave the positive response).

The data is categorised by The University of Manchester and by Academic Staff Group. The coloured cells indicate a difference to the overall organisation score.

There may be variation up to 1% when compared to the Frequency Data report due to rounding.

The University of Manchester: Staff Survey 2019

The table below shows the 'combined positive' i.e. the percentage of respondents answering 'Agree' and 'Tend to Agree' (or 'Yes') to positively worded questions or 'Disagree' and 'Tend to Disagree' (or 'No') to negatively worded questions, unless otherwise stated in the question text.

Responses to negatively phrased questions (highlighted in grey) have been treated in reverse to allow direct comparison with positively worded questions / statements. e.g. Q8-7 Relationships at work are not strained, the percentage stated represents the respondents who said 'Tend to Disagree' and 'Disagree' to the question Q8-7 Relationships at work are strained (i.e. gave the positive response).

The data is categorised by The University of Manchester and by Research Staff. The coloured cells indicate a difference to the overall organisation score.

There may be variation up to 1% when compared to the Frequency Data report due to rounding.

Percentage difference needed to change cells to Red or Green --> 10

Percentage difference needed to change cells to Amber --> 5

	Q2-7 There are effective channels for me to feed my views upwards in the University	51	54	-3			50	58	50	47	46	46	39
	Q2-8 Would you recommend the University to a friend as a place to work?	76	78	-2			77	84	74	81	67	59	70
	Q2-9 Would you recommend the University to a friend as a place to study?	79					79	81	80	80	79	70	73

The University of Manchester: Staff Survey 2019

The table below shows the 'combined positive' i.e. the percentage of respondents answering 'Agree' and 'Tend to Agree' (or 'Yes') to positively worded questions or 'Disagree' and 'Tend to Disagree' (or 'No') to negatively worded questions, unless otherwise stated in the question text.

Responses to negatively phrased questions (highlighted in grey) have been treated in reverse to allow direct comparison with positively worded questions / statements. e.g. Q8-7 Relationships at work are not strained, the percentage stated represents the respondents who said 'Tend to Disagree' and 'Disagree' to the question Q8-7 Relationships at work are strained (i.e. gave the positive response).

The data is categorised by The University of Manchester and by Professional Services Staff. The coloured cells indicate a difference to the overall organisation score.

There may be variation up to 1% when compared to the Frequency Data report due to rounding.
