Work and Equalities: Futures and Challenges

Using research undertaken by the Work and Equalities Institute, the meeting aims to discuss how equality at work has been challenged and undermined by recent political developments. There will be various trade union and academic speakers including Heather Wakefield, Lynn Collins, Jill Rubery, Debra Howcroft, Tony Dundon, and Miguel Martinez Lucio, who will reflect on how the concept of equality is central to the labour movement agenda and how its reinvention and deepening in the age of Uberisation, Brexit and Trump is both necessary and possible.

This event will be held from 17:45 – 19:15 at the TUC Congress, Manchester Central Convention Complex, Room Central 8.
