

Coronavirus: resources for dealing with the effects of lockdown

14/05/20

There are lots of new situations and emotions that children may be experiencing during the lockdown. There may be more conflict at home, increased levels of loneliness and isolation, or even difficulty sleeping.

We've rounded up guidance, videos and practical activities to support children and families with the different effects the lockdown may be having on them.

Family problems

Keeping in mind the children of high conflict separated parents – Anna Freud Centre

An expert blog by Dr Emma Morris on the challenges facing children of separated parents during lockdown and tips for professionals on how to support them.

How can you cope with feeling angry? – BBC Bitesize video

In this short video, a group of children describe what they do when they feel angry and how these strategies help them to calm down.

Teachers should note that this video contains images of bullying and physical aggression, so this may not be suitable for more vulnerable children.
