

# Wi-Fi for guests and visitors

Our staff and students have campus-wide access to the **eduroam** wireless network, and our guests are welcome to connect to the **UoM\_Guest** network, available in many places around the campus.

Connect your device to the **UoM\_Guest** network the same way you would connect to any other wireless network.

Open your web browser, and you should see a screen which looks like this one on the right...

Choose how you'd like to log in and follow the on-screen instructions.

If you log in with your **Google**, **Facebook** or **Twitter** account, you may be asked to verify your identity.

If you choose **Text Message (SMS)**, you will be asked to read the Terms and Conditions then enter your phone number. You'll then be sent a text message with a PIN which you can enter on the registration screen.

Once verified, you will be connected to the **UoM\_Guest** network.
