

# **ACADEMIC WRITING WORKSHOPS**

**FACULTY OF BIOLOGY, MEDICINE AND HEALTH**

## **SUBSTANCE AND STYLE BLOCK**

**Our academic English writing workshops are delivered in blocks of four, with regular start dates.**

**Each interactive workshop lasts 1 hour 30 minutes, and you can take the blocks in either order**

**1**

### **Writing in an academic style**

*What makes writing “academic”? Explore the roles of precision, register and clarity.*

**2**

### **Connecting ideas together in your writing**

*How ordering information logically makes it easier for your reader to follow you.*

**3**

### **Writing better paragraphs**

*Learn how to organise your ideas within paragraphs to develop topics fully.*

**4**

### **Writing in your own words**

*Develop the key skill of incorporating other scholars’ work into your own.*

## **TEXT AND MEANING BLOCK**

**1**

### **What is the deeper meaning of a text?**

*Understanding how you can create well-structured academic texts, by looking at the line of argument of each paragraph or chapter.*

**2**

### **What exactly do you mean?**

*Precision with terminology is crucial in science and engineering – so here we look at defining your terms clearly.*

**3**

### **Why did something happen?**

*How to describe the reasons for – often complex – phenomena.*

**4**

### **What is the difference?**

*Exploring how to describe similarities and contrasts in your writing.*
