

# **BMAN11230 Health & Safety Induction Course via Canvas**

As part of Welcome Week, you are required to complete the short e-course listed above and achieve a “pass” by the end of the week.

We strongly recommend completing it on **Monday, 22nd September**, so you can focus on other activities throughout the week.

The course includes two sections—**“University Expectations”** and **“Your Safety”**—which must be completed in order. It contains video and audio, so please use headphones. The course takes **less than one hour** to complete.

**Failure to complete the course may result in restricted access to parts of the campus or student systems.**
