

BMAN11230 Health & Safety Induction Course via Blackboard

As part of Welcome Week activities, you will need to complete the short e-course listed above. You will need to obtain a “pass” by the end of the week. We strongly recommend you complete this course on **Monday 19th September** as this will allow you to concentrate on other Welcome Week activities.

The course has two parts: **“University Expectations”** and **“Your Safety”**, which needs to be completed in order. The course contains video and audio so you will require head-phones and it should take no longer than one hour to complete.

If you **do not** complete this course, you may be **prevented** from accessing parts of the campus or student system.
