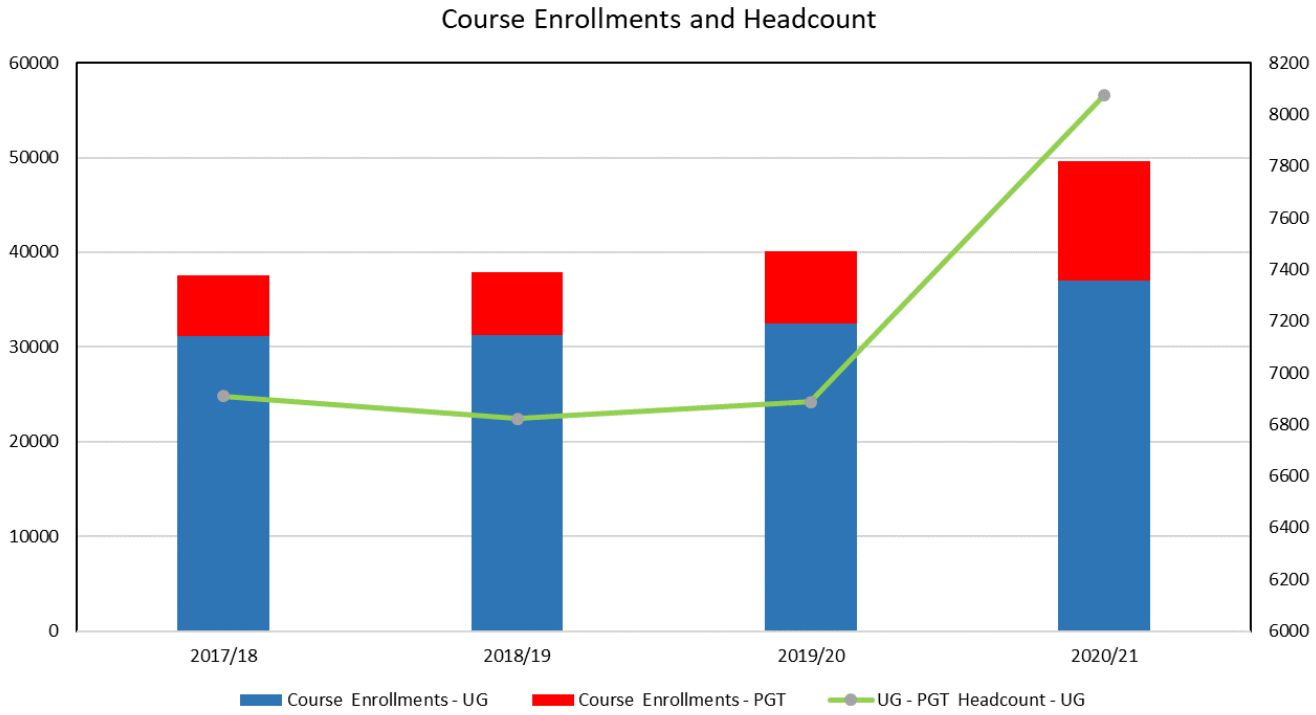
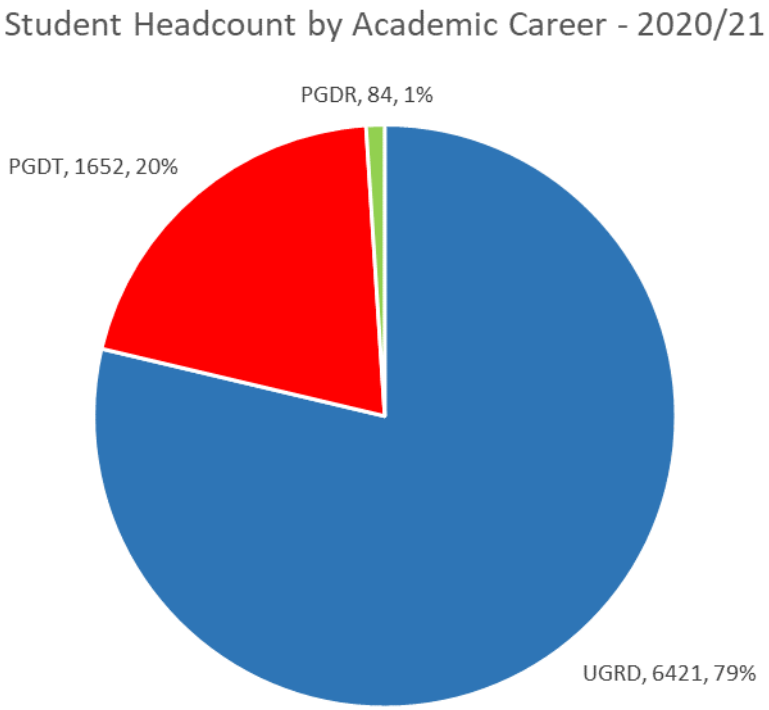
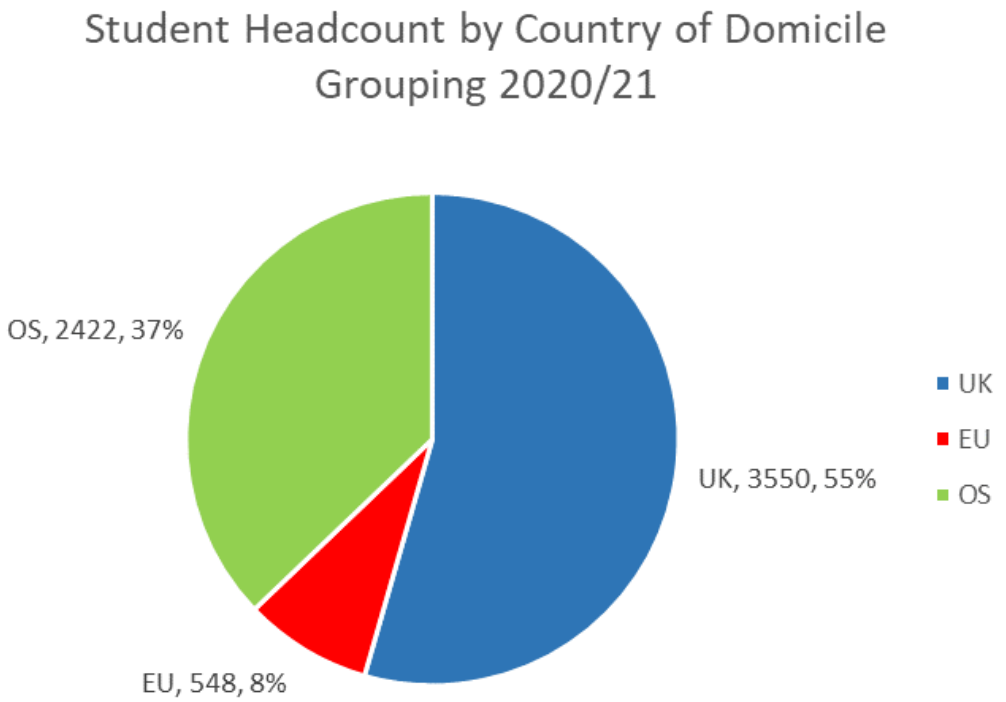
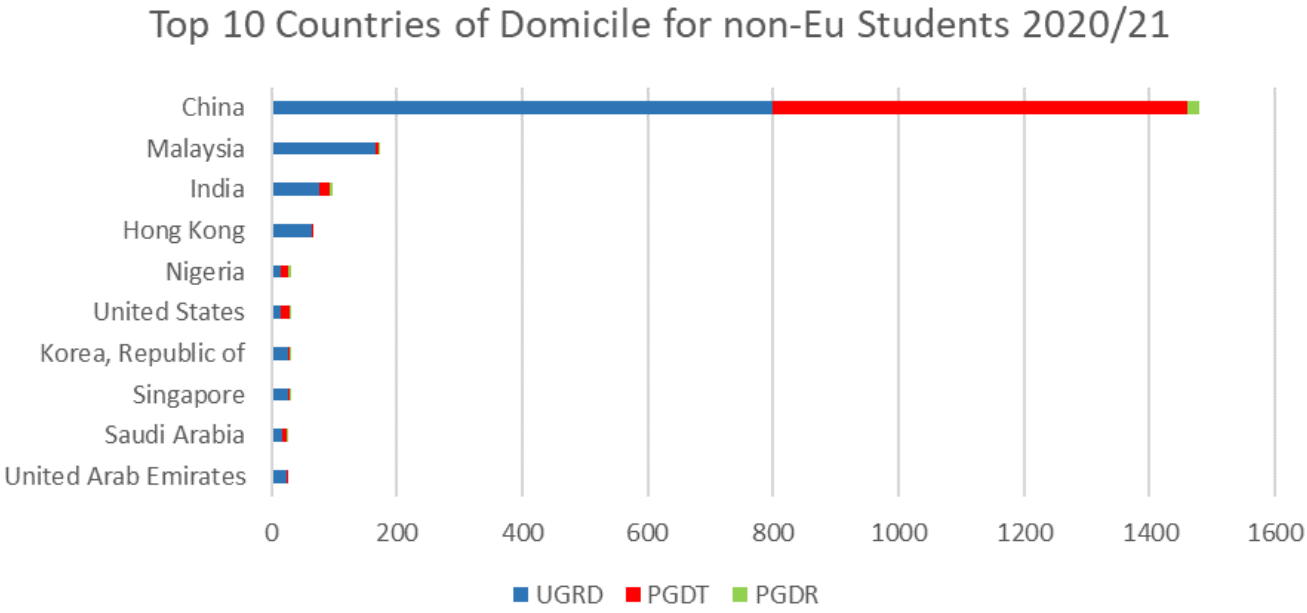
The following two charts show the headcount of all unique students enrolled on SoSS units including those from other schools enrolled on our courses



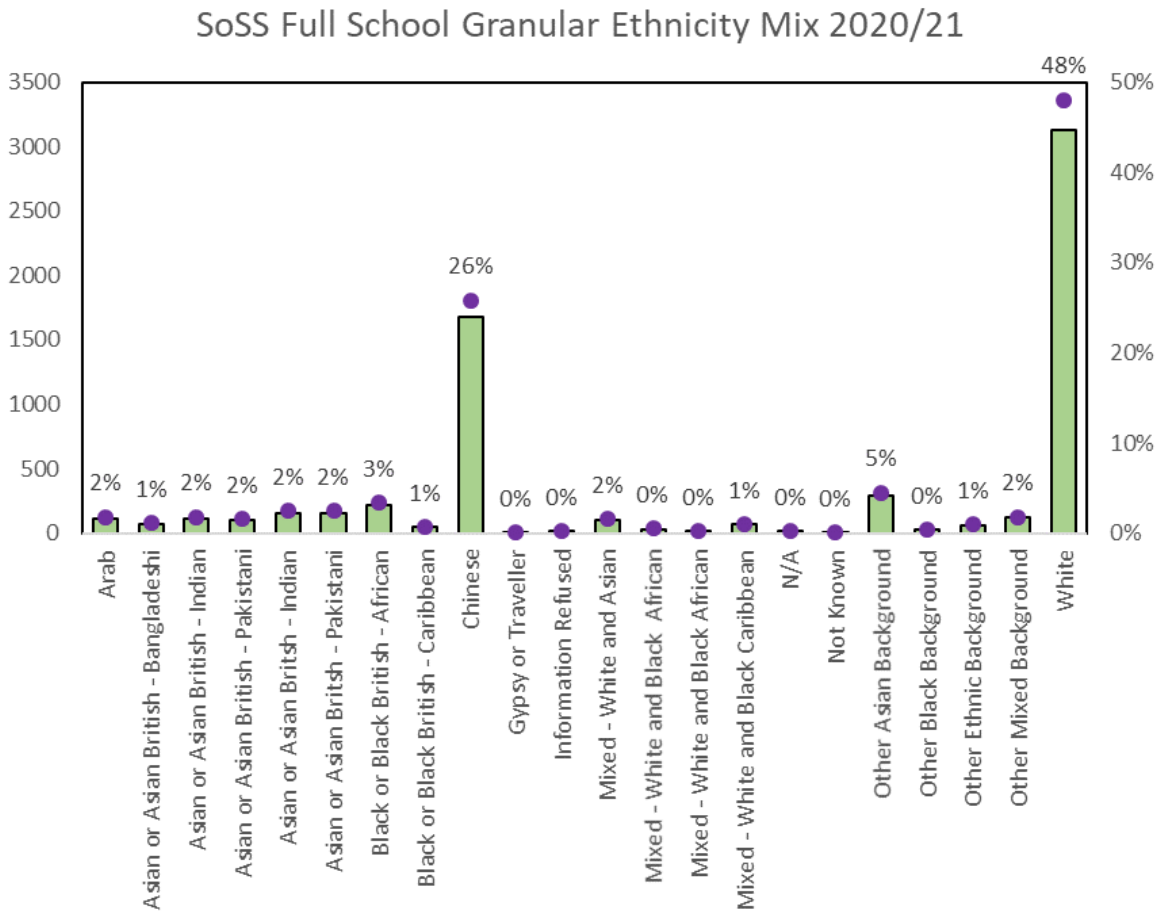


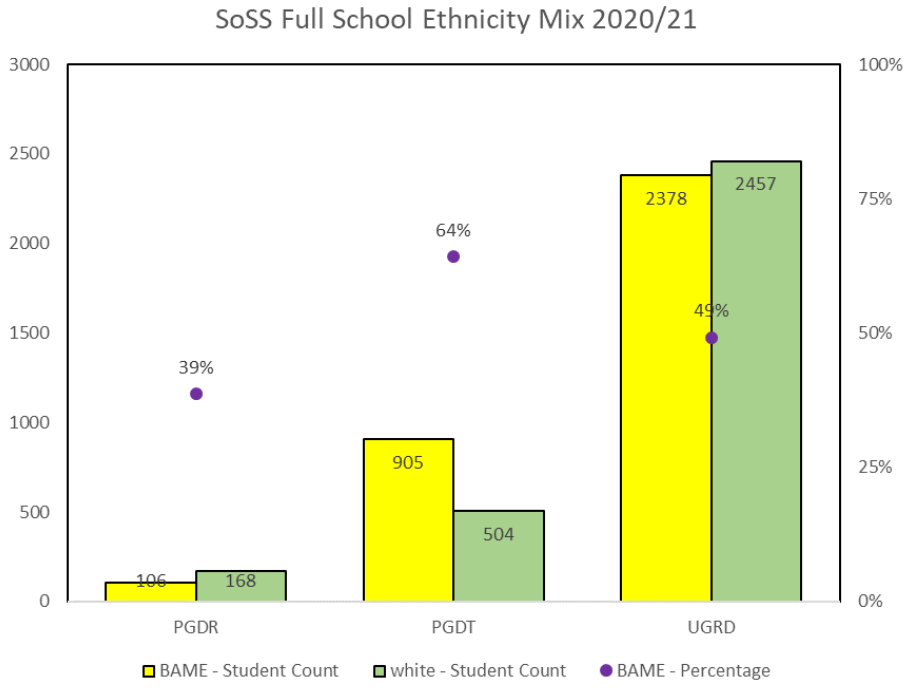
As with previous years, The majority of SoSS students are domestic in origin with China accounting for the largest share of non-EU international students.





The School's ethnicity mix is significantly higher than national averages (87 % white as of the 2011 census). The largest driver of this is students whose ethnic identity is Chinese and who make up 26% of the student body (versus 0.69% of the UK population). The majority of these students are International students.





Overall the School attracts more female than make students with female students accounting for 59% of the student body across all combined academic levels. The highest proportion of female students within a cohort is Criminology PGT where they account for 88 % of the 58 students in that group. Conversely the lowest representation for female students is in Social Statistics PGT where they account f or 29% of the 45 students in that group.
