

Greater Manchester Universities polling – headline findings

Jonathan Simons, Public First

March 2021

Methodology

Methodology

- 1013 respondents polled, adults of all ages
- At least 100 respondents in each of the ten boroughs
- Fieldwork 10th-22nd February 2021
- Data weighted by interlocking age & gender, and borough of residence, to representative proportions for Greater Manchester
- Additional data (not summarised here) asked about each of the Greater Manchester Universities individually, which has been provided to each client under separate cover
- Further analysis of the economic value respondents place on GM Universities to follow, also asked in this poll
- Public First is a member of the British Polling Council and abides by all its rules. For questions, please contact Head of Opinion Research Seb Wride at seb@publicfirst.co.uk

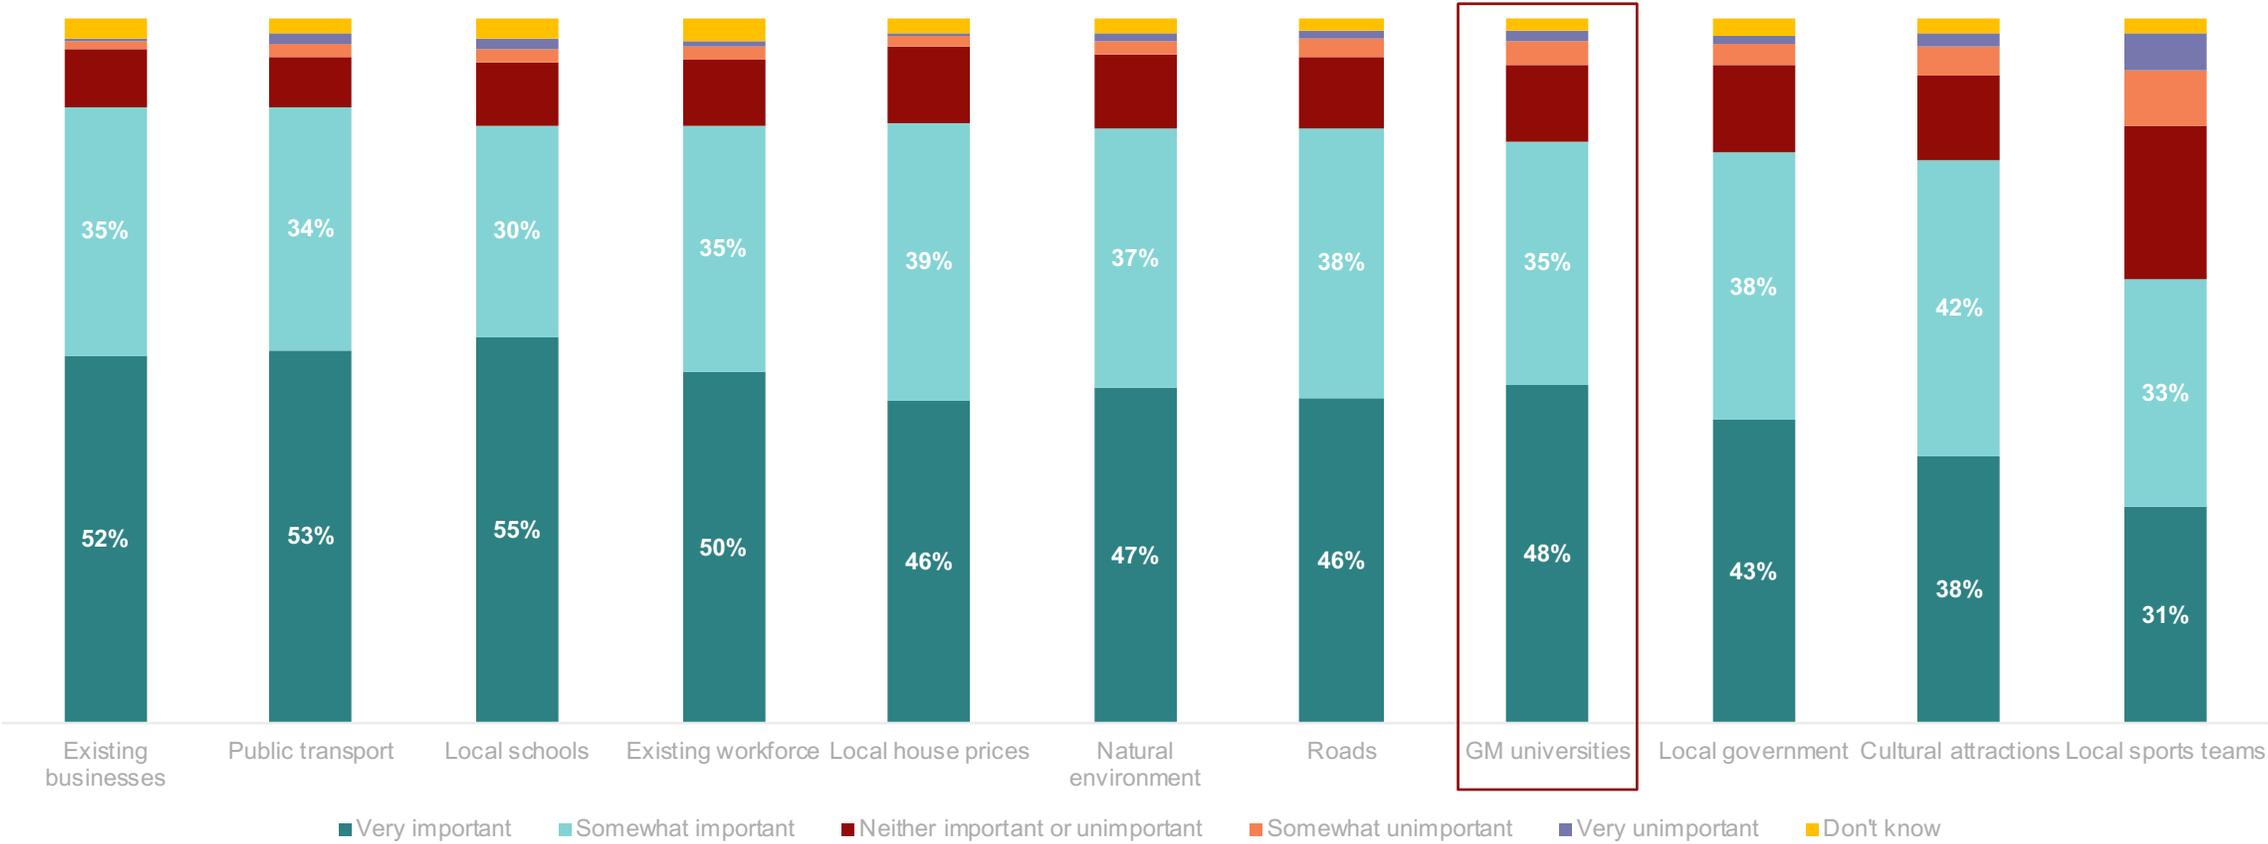

Topline findings

83% of respondents think GM Universities are important economically to the region

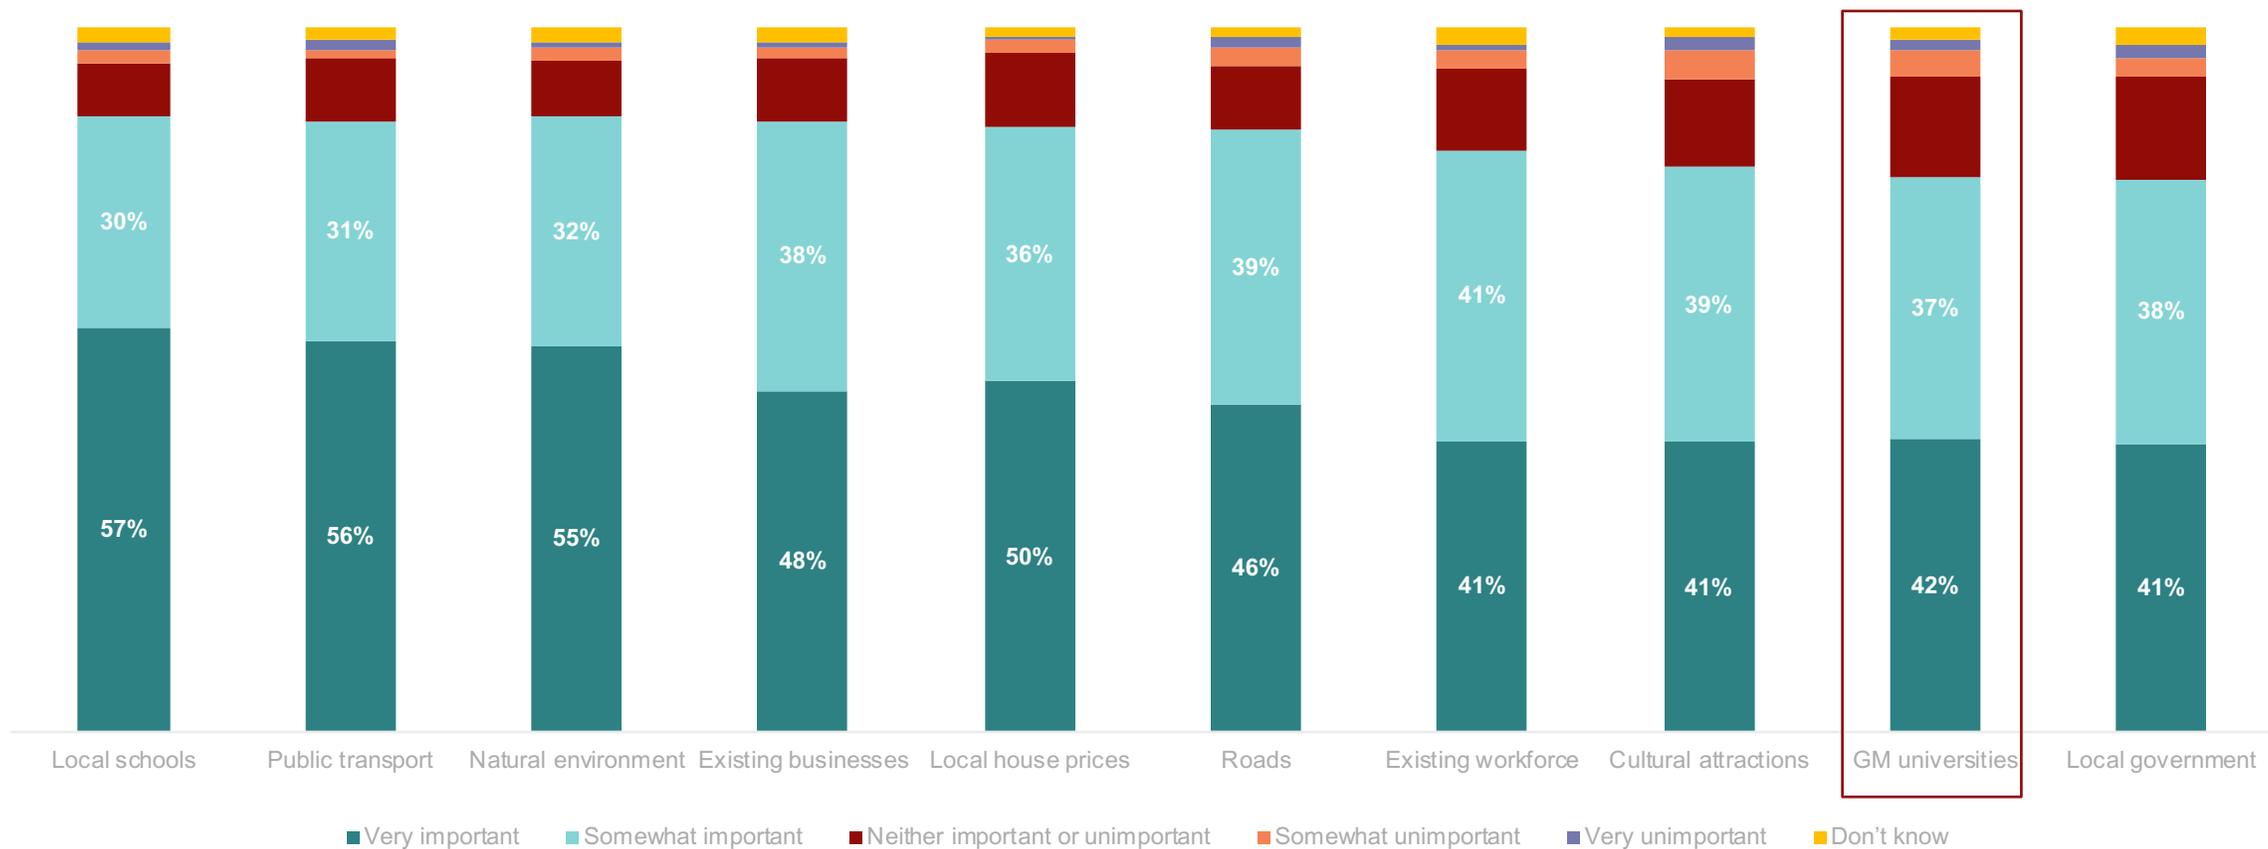

How important or unimportant do you think the following are to enhancing the city and region's economy?

79% of respondents think GM Universities contribute to making the region a good place to live

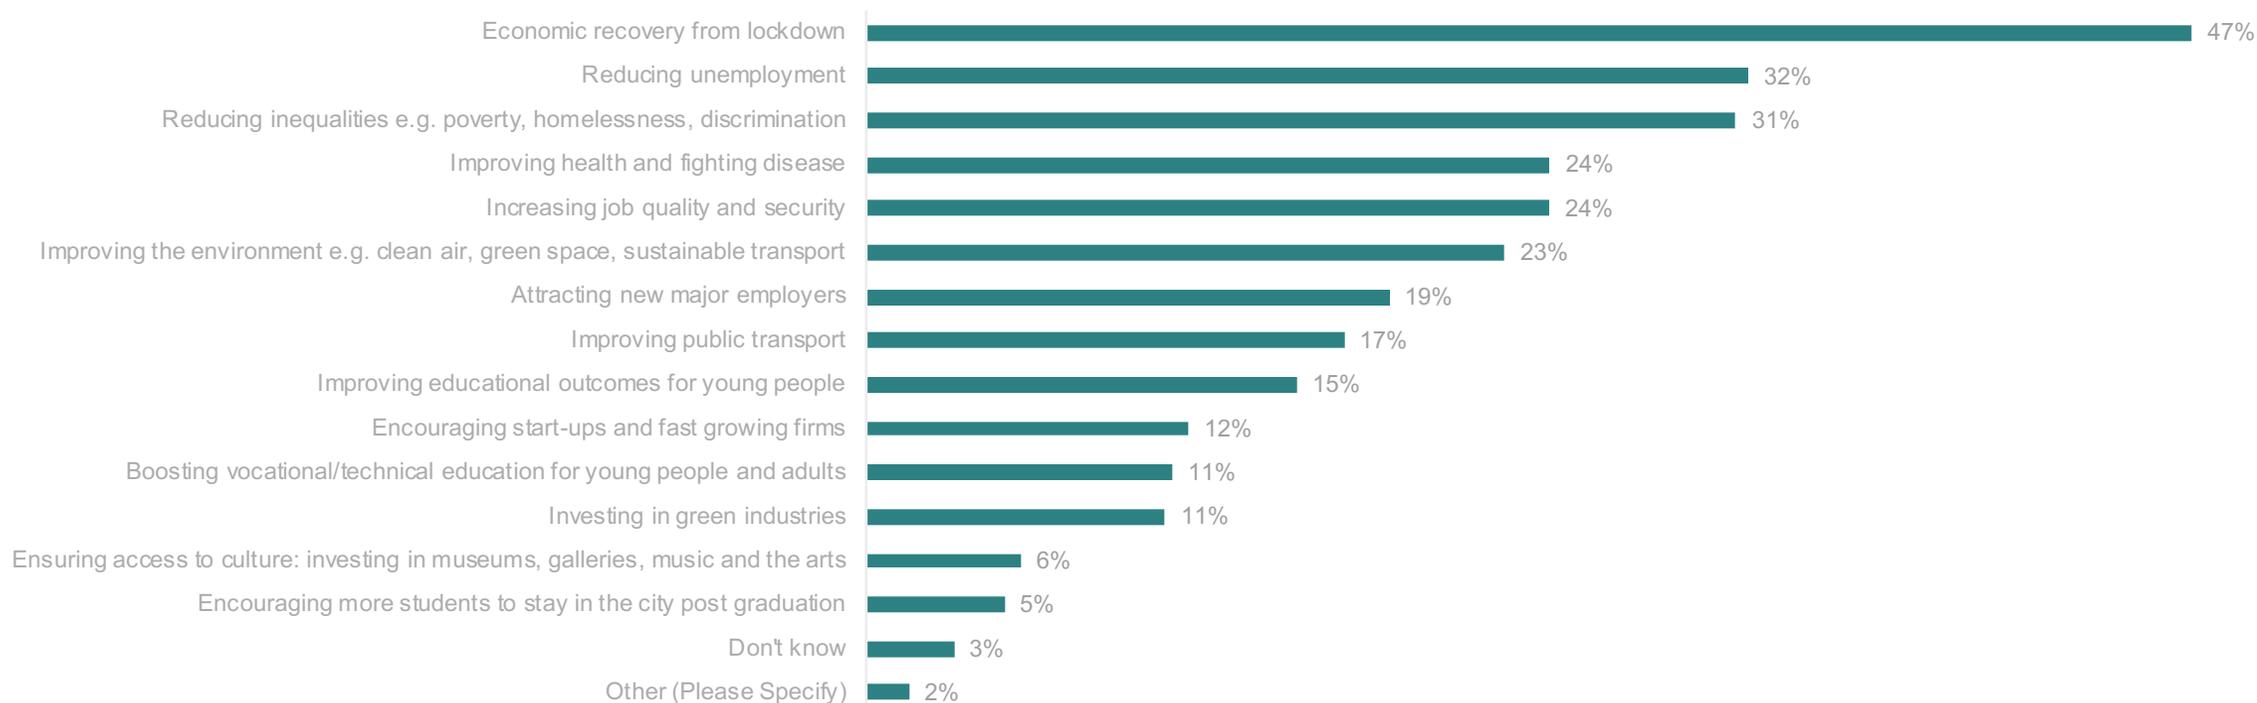

How important or unimportant do you think the following are to making Greater Manchester a good place to live?

Without specific reference to the role of universities, economic recovery is clearly the top priority for GM residents – but reducing inequalities polls higher than we suspect it would in other city regions

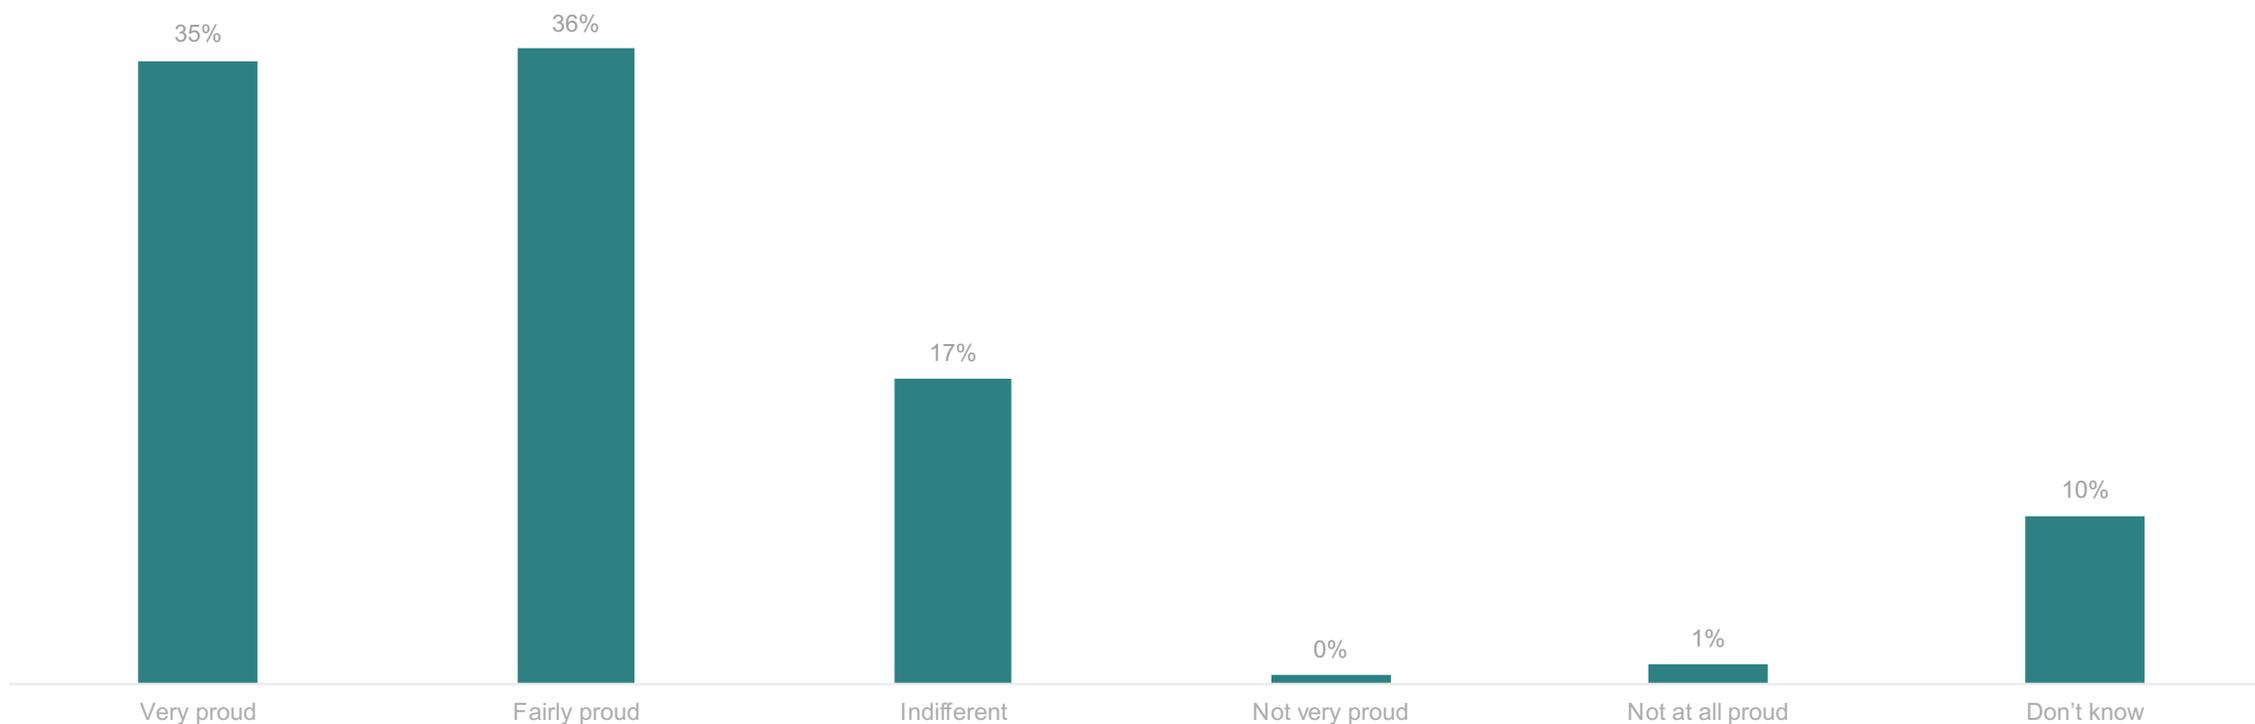

Which do you think are the most important long-term social and economic priorities facing Greater Manchester at this time? Please choose up to three

71% of respondents say in aggregate that they are very proud or fairly proud of the role that the local universities play in the region

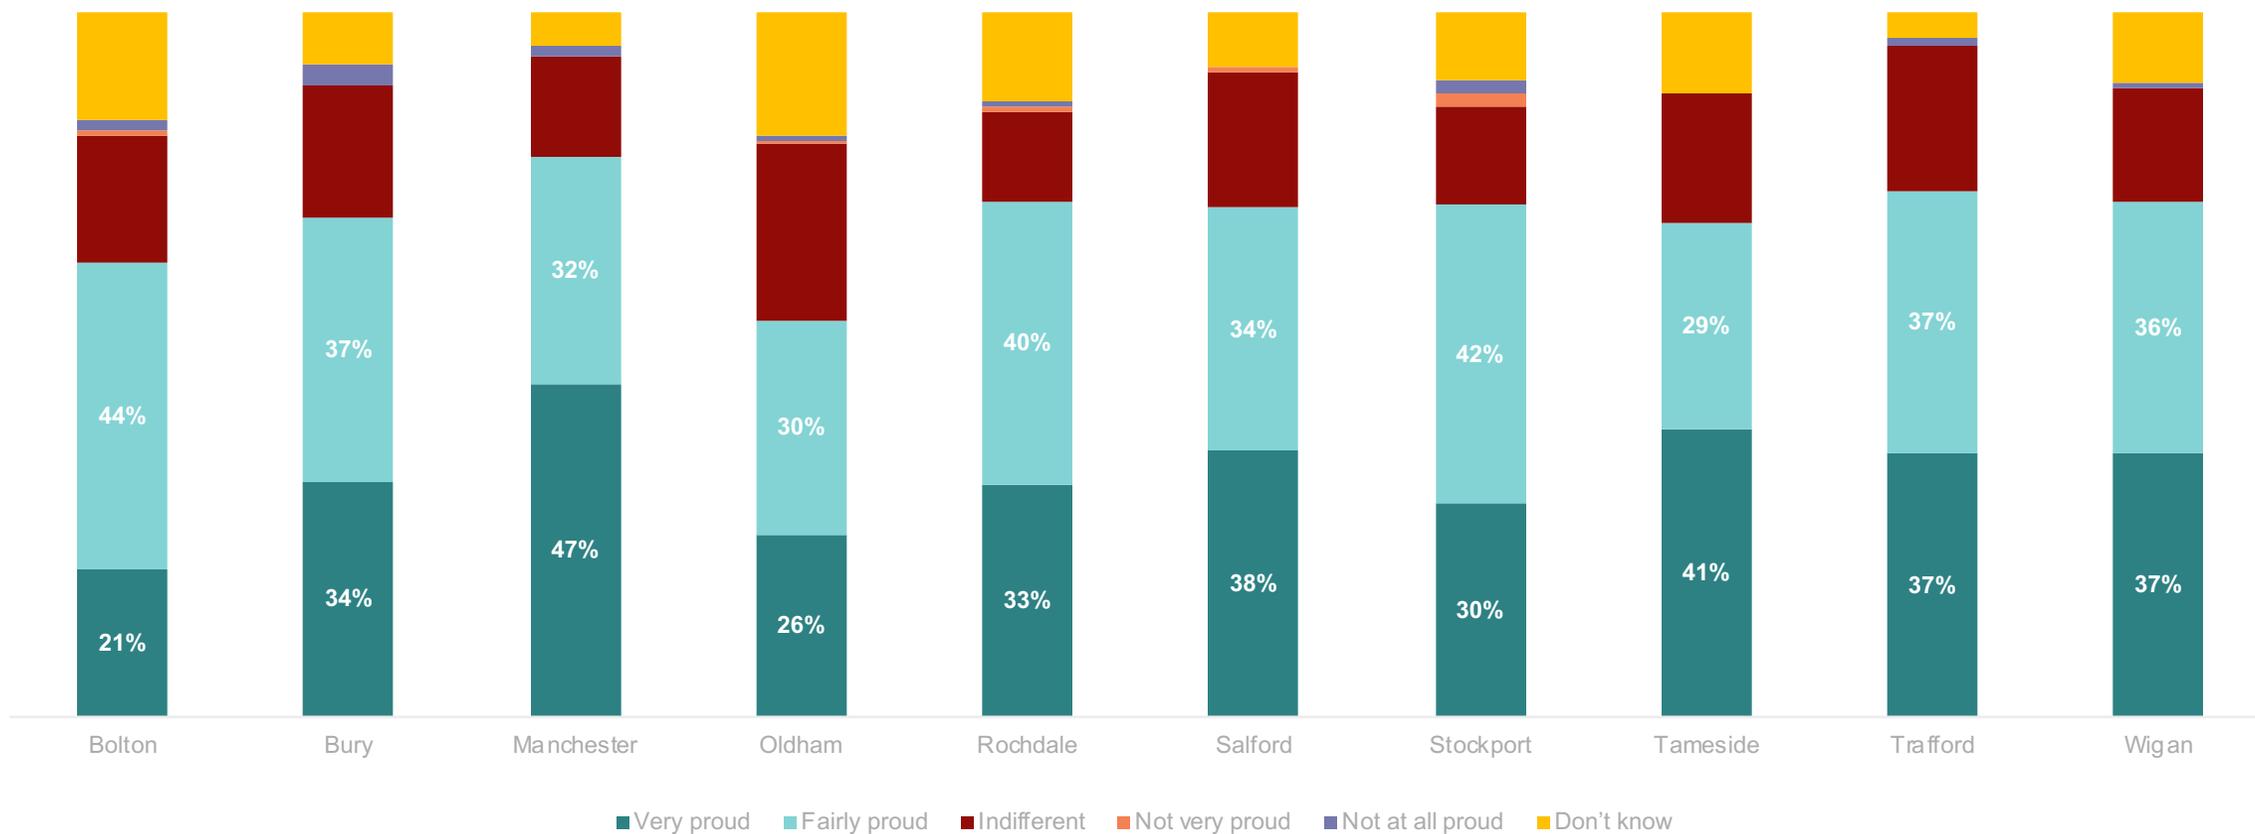

How proud, if at all, would you say you are of the roles that the local universities play in Greater Manchester?

....when broken down by borough, concepts of pride vary – from 79% in Manchester to 56% in Oldham

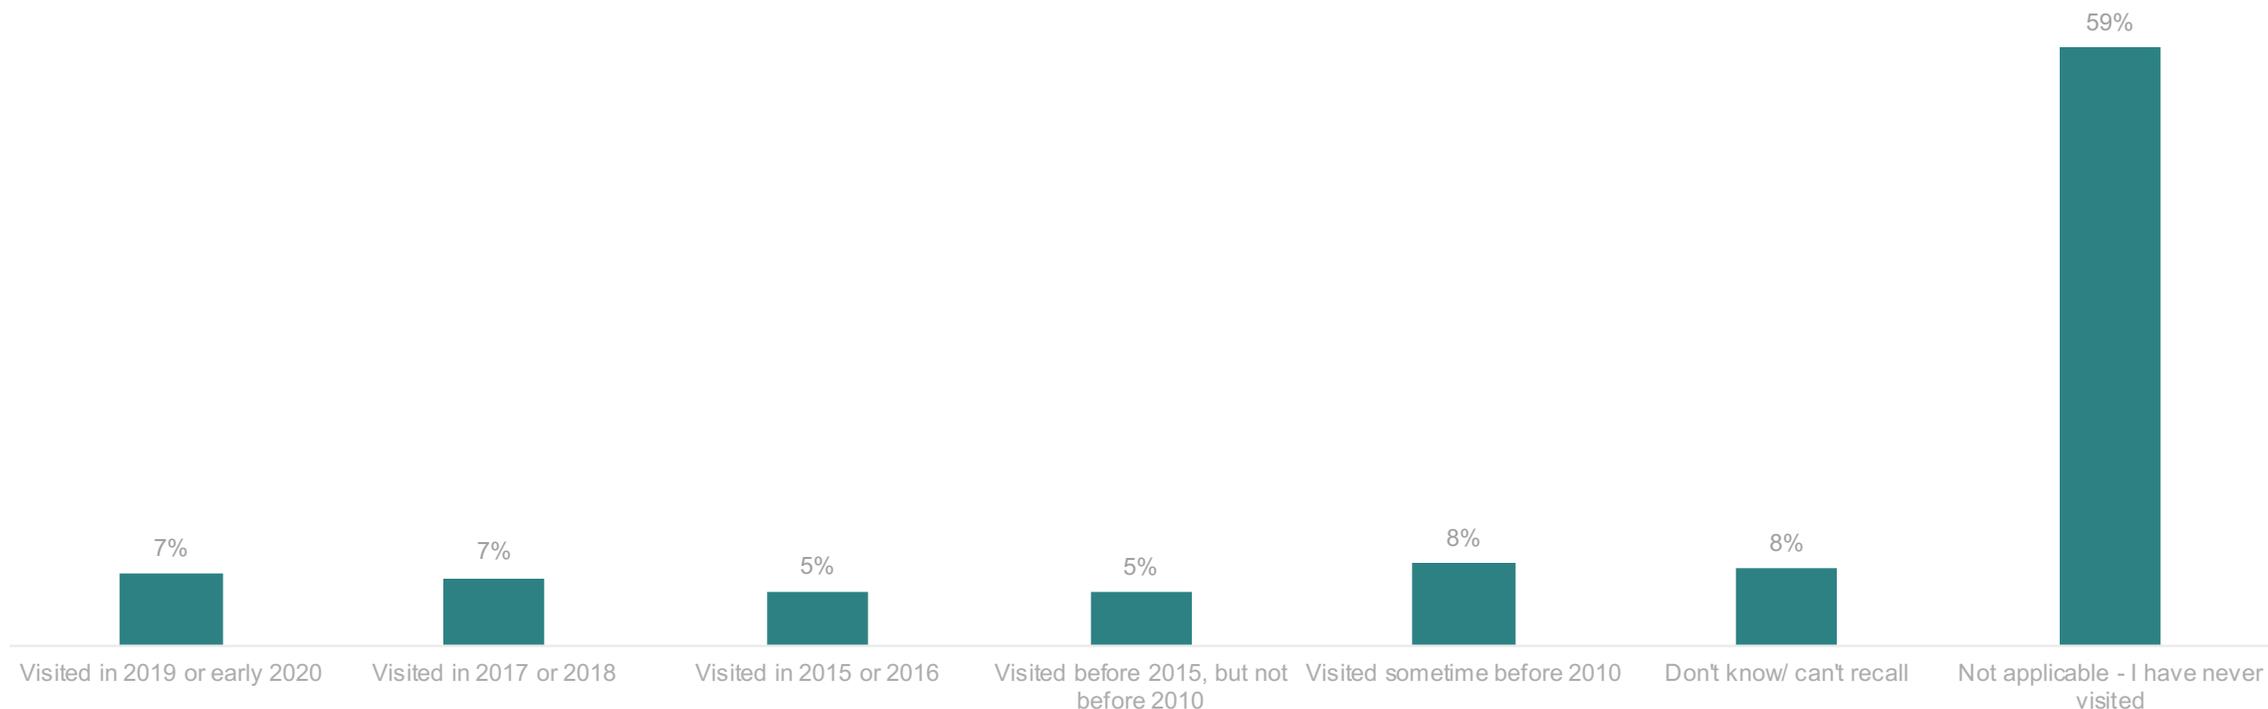

How proud, if at all, would you say you are of the roles that the local universities play in Greater Manchester?

59% of respondents claim to have never visited any of the GM Universities – much higher than when this was asked nationally or to certain other cities for the Civic Universities Commission polling

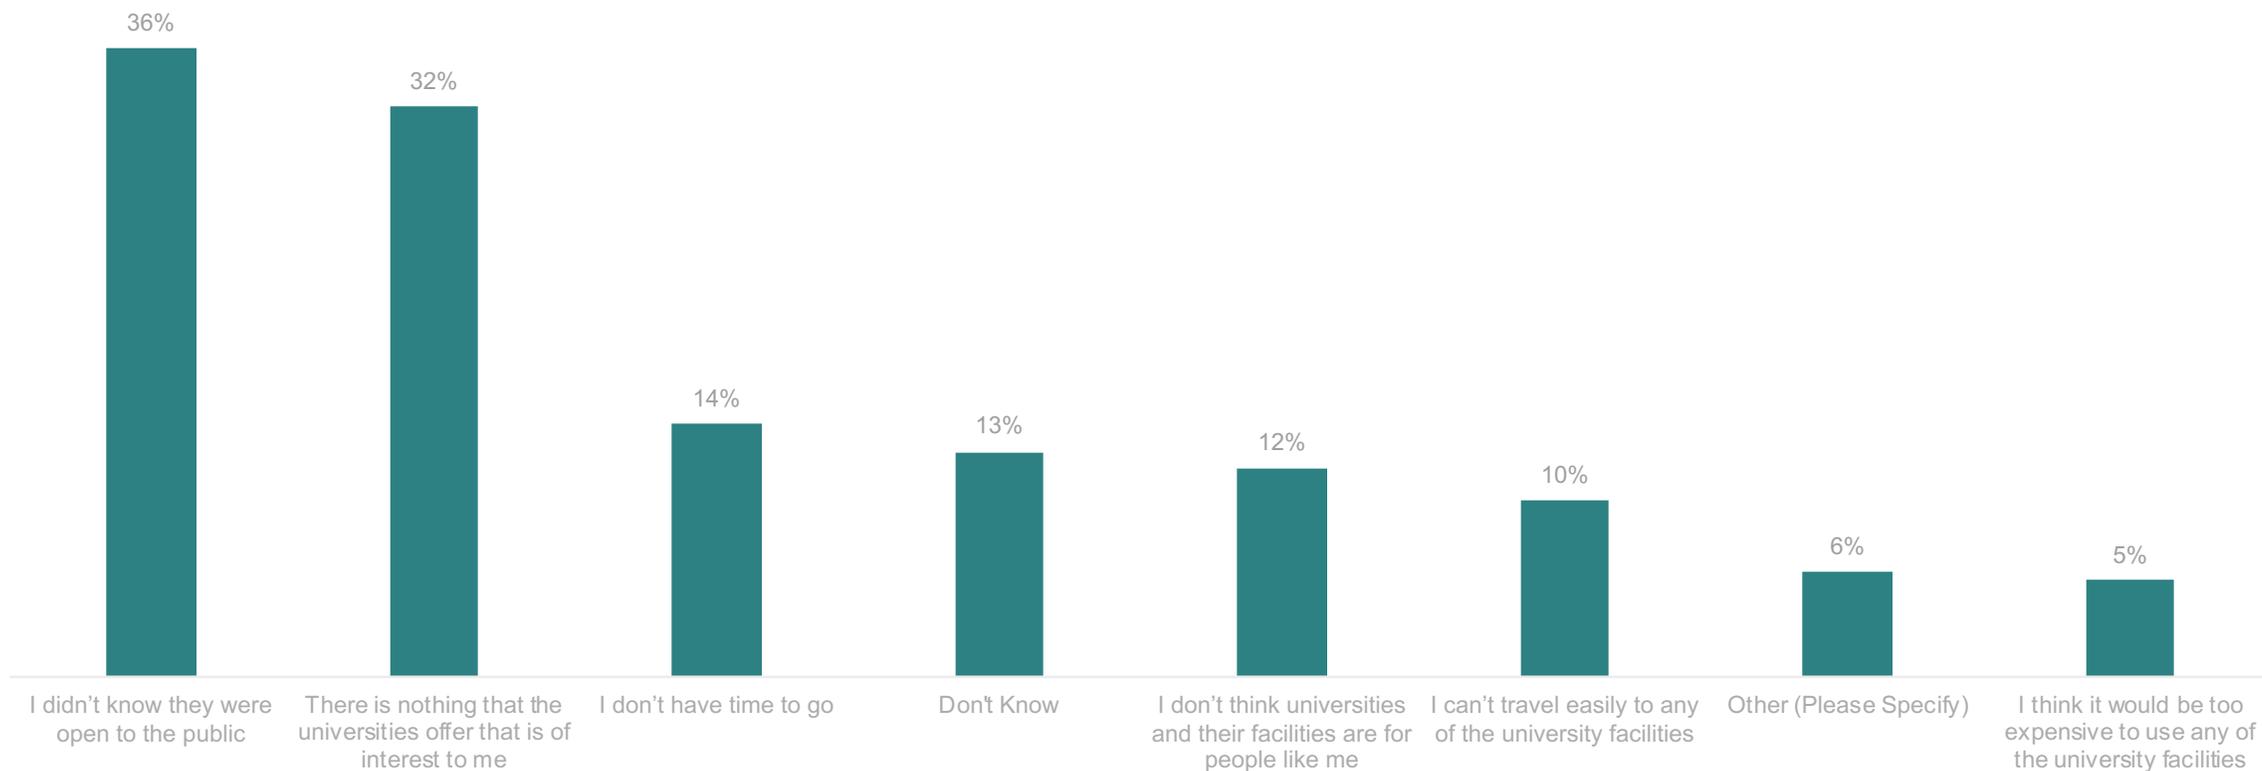

Thinking back to before the first lockdown due to Covid-19 - ie before March 2020 - when did you last visit any of the facilities of the following universities in Greater Manchester? (e.g. their campuses, buildings, sports facilities, or cultural facilities)

Of those who haven't visited since 2017 (or indeed less than that), lack of knowledge and interest are the most commonly cited reasons

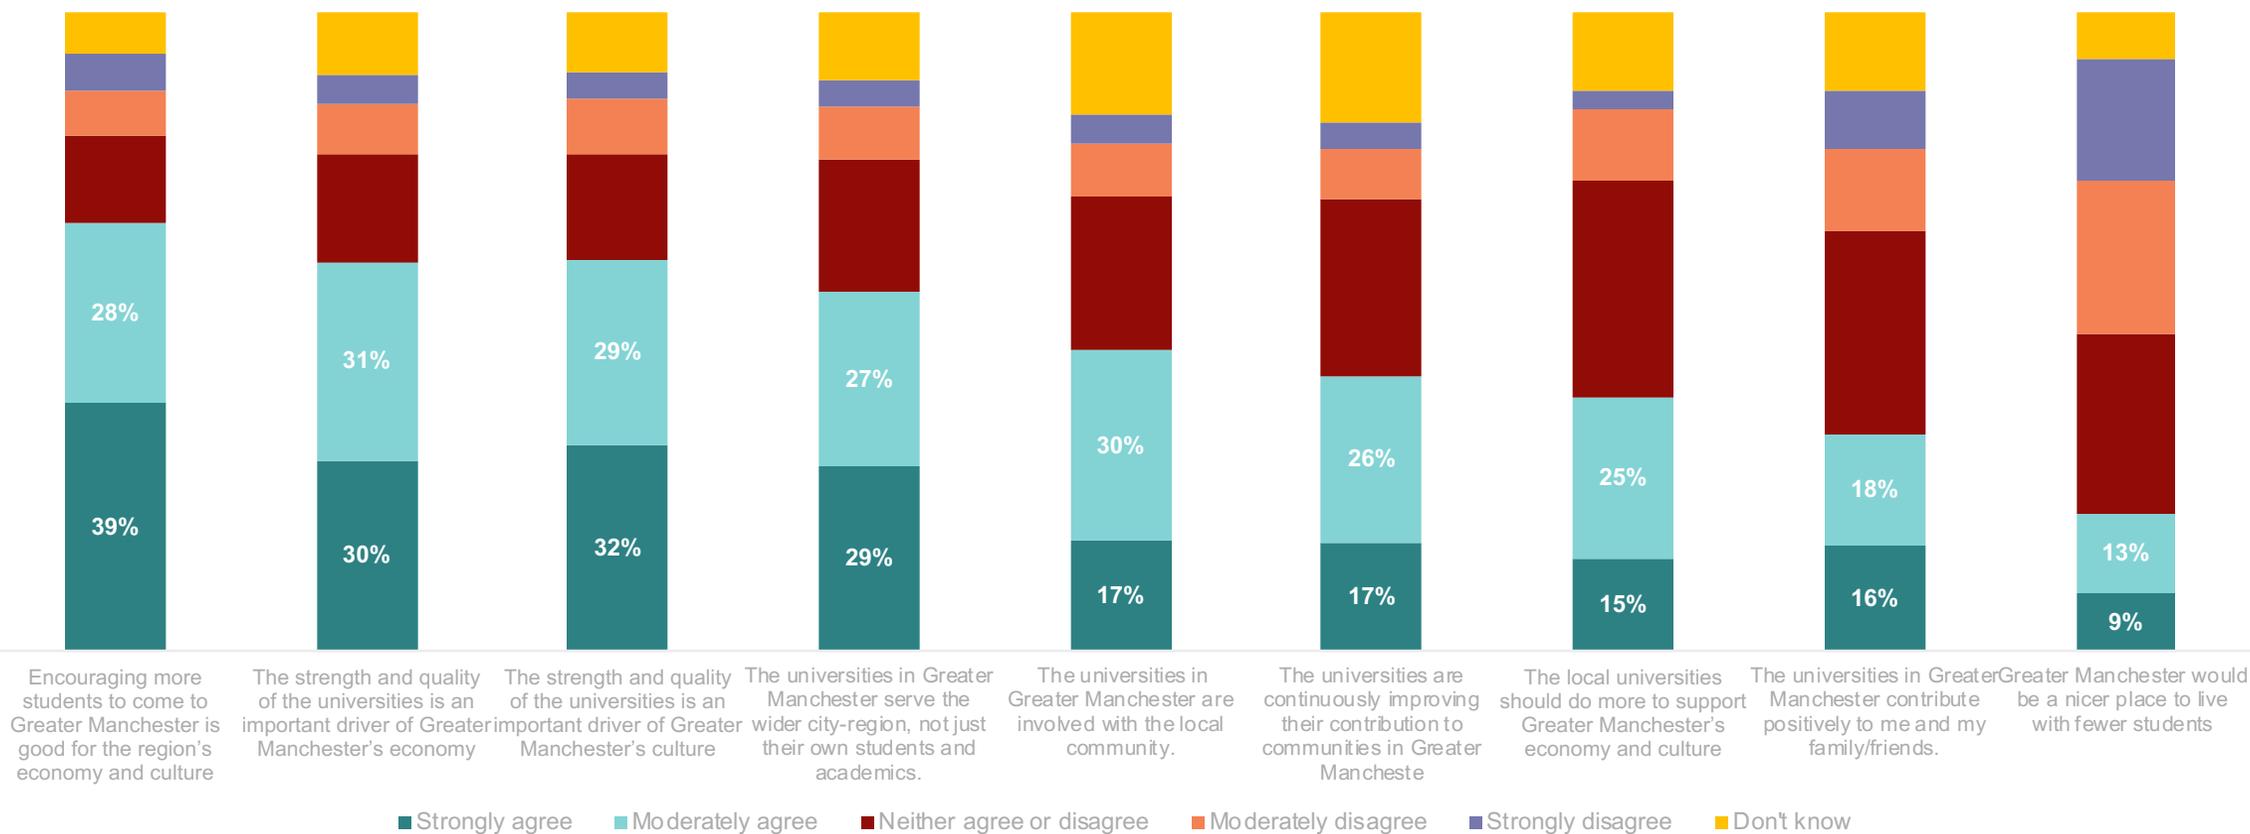

(For all those who haven't visited since 2017) Which of the below are the main reason(s) why you did not visit any of the facilities of the universities in Greater Manchester more recently before the pandemic?

Universities are thought of strongly – including on economy and culture – and residents want more students, not fewer. Opinions on your civic role, and direct benefits to residents, are more mixed

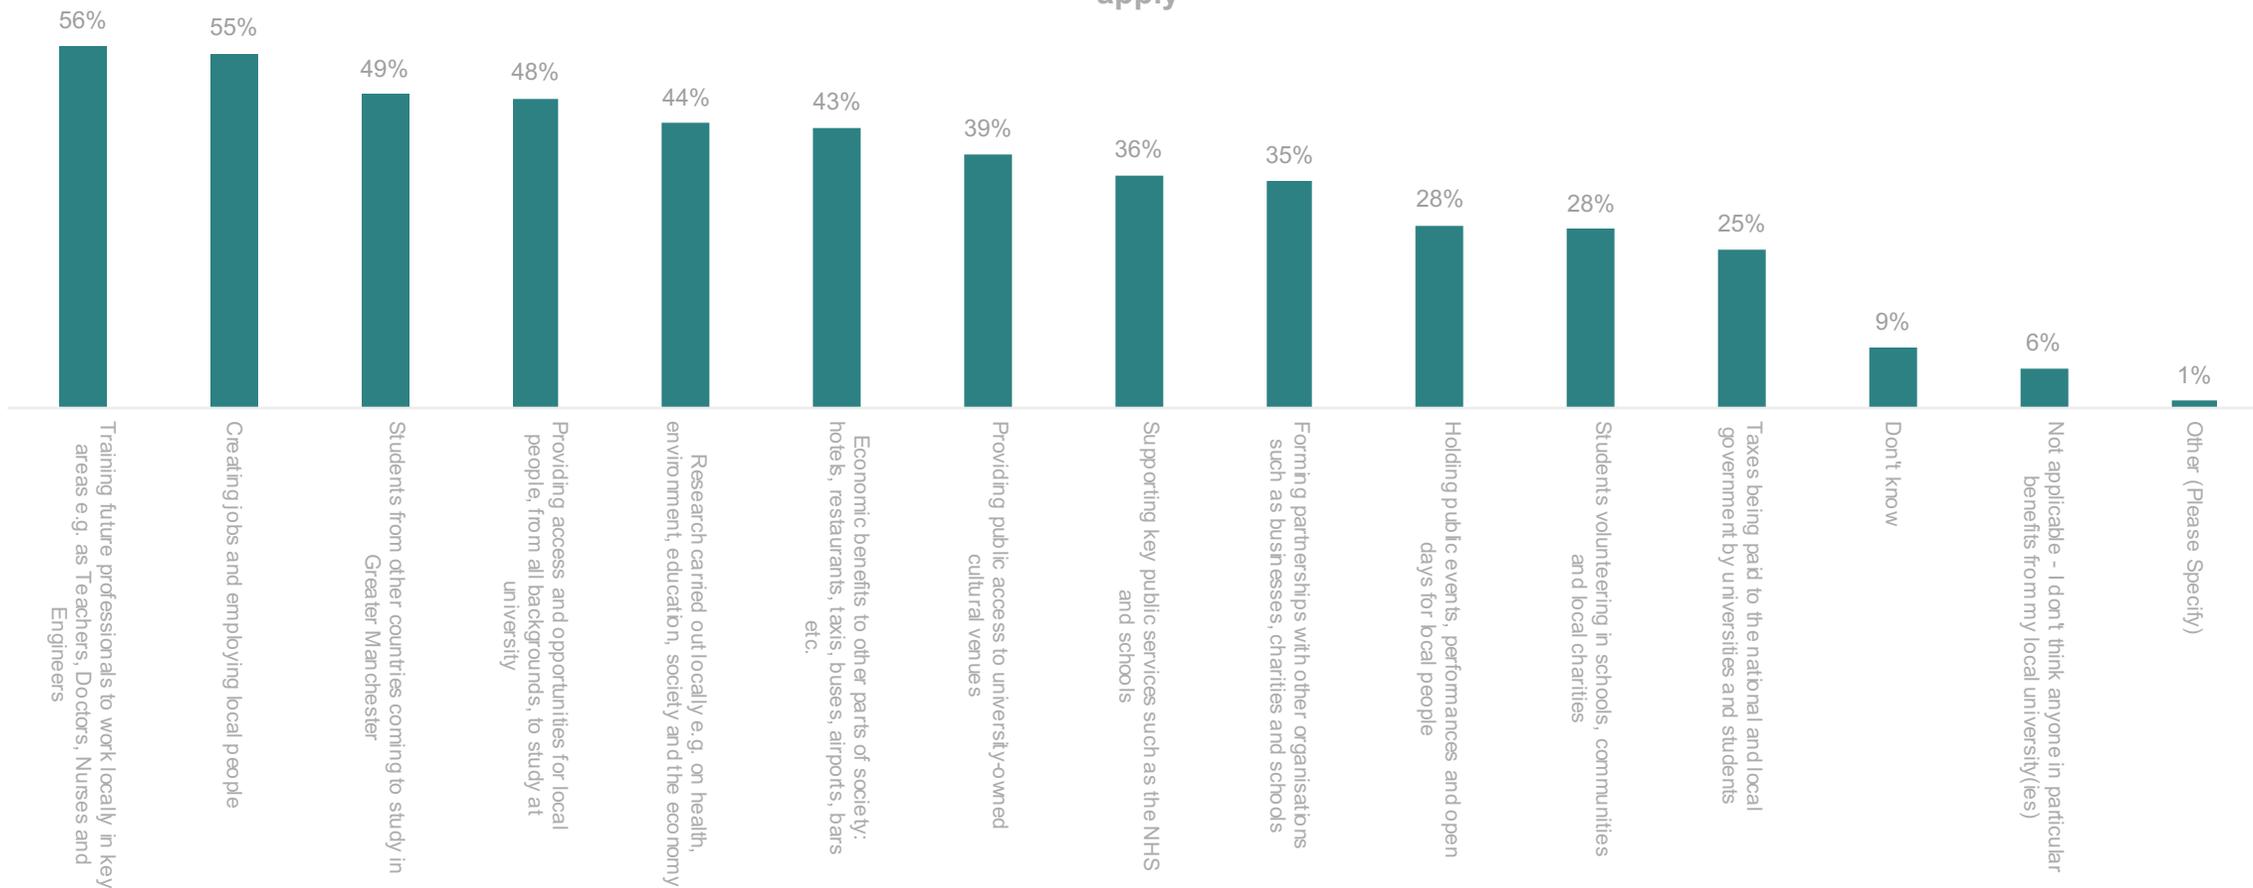

Please agree or disagree with the following statements about the universities in Greater Manchester

When more specific benefits are probed – as priorities for your civic role – the practical takes precedence over the theoretical, with a bent to local (but not national) economic impact

What benefits do you think local universities bring to Greater Manchester, if any? Please select ALL the options that best apply

Trafford is consistently the borough most likely to recognise the prompted practical benefits of GM Universities. Manchester (borough)'s pride – the highest in a previous question – seems more abstract than practical

	Bolton	Bury	Manchester	Oldham	Rochdale	Salford	Stockport	Tameside	Trafford	Wigan	Average
Training future professionals to work locally in key areas e.g. as Teachers, Doctors, Nurses and Engineers	50%	54%	42%	53%	54%	66%	60%	62%	71%	60%	56%
