

Self-harm Support and Recovery service

Why did we take action?

Self-harm is a strong predictor of suicide

COVID-19 may exacerbate psychological distress

Engage with people who fall through the gaps

Provide support for people living with self-harm or suicidal thoughts

What did we do?

3 tier non-clinical intervention

- 1  Structured, professional 1:1 support (6 sessions), develop recovery plan
- 2  Self-refer to structured workshops, therapeutic activities, social groups
- 3  Out of hours support; telephone support calls (2 weeks)

Adapted to pandemic

What has the impact been?

Oct 2019-
Sept 2020

80%
engagement
rate

93%
reduction in
self-harm

43%
reduction in
suicidal thoughts

Positive changes
(e.g. self-care;
relationships)
