

Take a Walk on the Wildside Nature Trail

Explore the museum in a whole new way, with our family trail.

Complete the challenges below together, as you move around the museum. As you complete each challenge, put a tick in the box beside it.

Along the way, how about choosing your favourite object? We'd love to see what you choose.

You can share your photos with us by tagging **@McrMuseum** on Twitter or Instagram, and remember to tell us why you like it.

Are you feeling roar-some? Find an animal that roars then do your own impression.

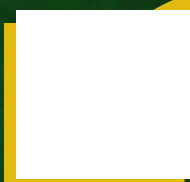

Our oceans are home to thousands of different species. Can you find an animal that once lived in the sea?

Hop to it! Animals move in all sorts of ways. Can you find an animal that hops, then hop on the spot 5 times?

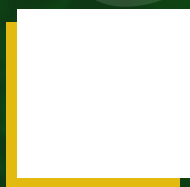

Find an animal that flies or slithers, and do an impression of it using your body.

Find something that's blue. How many shades of blue can you see in that object?

Some animals live in trees. Find an animal that lives in a tree, then make the shape of that animal using your hands.

Camouflage is a great way for animals to hide from other animals. Find an animal that uses camouflage to hide itself from other animals. What animals do you think it is hiding from?

Find the brightest animal feather that you can. Can you count how many feathers are on that animal?

Don't forget you can share your photos with us by tagging **@McrMuseum** on Twitter or Instagram
