

Shared Learning Event Evaluation within East Sussex Multisector Foundation to Advanced (MFTA) Programme

Alice Conway and Sarah Purdy

Pharmacy East Sussex Healthcare NHS Trust

Background/Objectives

- East Sussex MFTA pharmacist programme provides structured workplace training incorporating clinical governance education, research and leadership skills.
- Local validated curriculum based on RPS professional frameworks
- It was proposed shared learning events (SLE) could foster peer development and interprofessional learning whilst ensuring programme curriculum coverage for participants working in multiple sectors of practice across primary and secondary care including acute, mental health, intermediary care, care homes and Primary Care Networks (PCN)

Objectives

- Create a SLE programme
- Identify priority clinical areas for delivery complicit with the Network Contract Directed Enhanced Service (DES)
- Share sector resources by extending SLE invitations to partner sectors.
- Evaluate participant satisfaction

Method

- Task and Finish group (TFG) assembled with sector educational leads.
- RPS frameworks, the DES and several postgraduate syllabi were scrutinised identifying key themes for delivery
- SLE participants completed an online satisfaction questionnaires after sessions with a five-point Likert scale (0 being not useful, 5 being very useful). Participants identified what they had learnt, how to apply learning.
- Qualitative comments were thematically analysed

Results

TFG agreed SLE content, format and structure, scheduled for a full day, 4 weekly intervals, Clinical themes subdivided into specific topics with flipped learning and Case Based Discussions (CbD).

Participant numbers ranged from 8 to 16. Virtual delivery increased attendance.

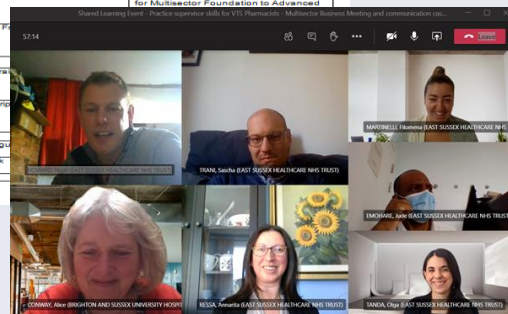

Overwhelming positive session evaluation

4 common themes identified were:

- Session relevance to practice, appreciation of attendance opportunity
- Networking development sharing of practice
- Benefit of focus on solutions to enhance patient transfer of medication from one sector to another and appreciation of working in different sectors
- Benefit of pharmaceutical problem solving through CbD

Virtual Pharmacy Network Event
Virtual Teaching Techniques, Case Based Discussions, RPS Advanced Pharmacy Framework, Data Reporting, Decoding the Renal Prescription in Primary care & Shared Access Oral Anticoagulants (DOAC) Lecture

9:00	Welcome and Introduction to the event	Alice Conway - East Sussex Multisector Pharmacist Foundation to Advanced Training Programme Director
9:10	Virtual Teaching Techniques	Tracy Hedley - Lead Pharmacy Technician, Education & Training ESHT
10:10	Case Based Discussions presented by: Andy Cheung & Heidi Kong Multisector Pharmacists Foundation to Advanced Betsy Bobin Clinical Pharmacist ESHT	Carl McEwan - Medicines Optimisation Pharmacist & Independent Prescriber ESHT Alice Conway and Sarah Purdy East Sussex Multisector Pharmacist Foundation to Advanced Training Programme Director
11:20	Comfort Break	
11:30	Multisector Business Meeting Update on Multisector Pharmacists supervision of trainees	Multisector Foundation to Advanced Pharmacists Annalisa Ressa - Trainee representative for Multisector Foundation to Advanced
12:00	RPS Advanced Pharmacy Framework	
13:00	Lunch Break	
14:00	Daily Incident Reporting Training	
15:00	Decoding the Renal Prescription	
16:00	Comfort Break	
16:15	Direct Acting Oral Anticoagulants	
17:15	Evaluation CbD Feedback	
17:30	Event finishes	

Conclusion

Themes agreed supported alignment with DES requirements. SLE has strengthened networking and collaboration between sectors with virtual delivery continuing.
