

A week in the life of our BA Economics student, Shikha

Hi, I'm Shikha, currently a third-year student studying BAEcon

Economics and Finance. Being raised in Dubai, I enjoyed the opportunity to meet people from different countries and learn about various cultures. This continued after joining The University of Manchester, being in a multicultural and vibrant community will help me tackle challenges when working in a globalized economy. I am passionate about contributing to society and try my best to aid students in my role as Student Ambassador, BAEcon Student Representative and Student Coordinator. Being on the finance pathway I am also curious to try out different careers and find my own path, which the flexibility of my degree enables me to do. Outside of my studies, I enjoy traveling and meeting new people.

Formal study hours
Informal study hours
Student society
Part-time work
Social activities
