

A week in the life of our Sociology student, Alexandrena

Hello, I'm Alexandrena and I am currently in my second year studying BSocSc Sociology. I love studying my course as we discuss and analyse topics that effect so many people's lives without them realising such as race and ethnicity, education, and gender and sexuality. This year I will be working on getting a placement as a part of my placement year my course offers which I am excited for as it will open doors for many different career paths, and I get to explore what the work world has to offer. I am also very excited for this year as the modules I have chosen are some of my favourite topics and to learn more about them in detail is very interesting to me.

Formal study hours

Informal study hours

Student society

Part-time work
