

A week in the life of our Law with politics student, Cole

Hi, I'm Cole, currently in my final year of an LLB Law with Politics degree. Having experienced my degree before, throughout, and now "after" the pandemic, I'd like to think my time at Manchester has left me very well rounded! My favourite aspect of my degree is not only the chance to work with well-respected academics, who often wrote the textbook for your modules, but the ability to tailor your degree (in second and third year) to your own interests, with a real world/practical focus! Despite it being my final year, I am excited for the year ahead due to the range of optional modules available and the chance to intertwine the two subjects of my joint honours degree more closely.

- Formal study hours
- Informal study hours
- Student society
