

A week in the life of our English Literature and Creative Writing student, Estefania

Hello! I am Estefania, and I am a second-year undergraduate studying English Literature and Creative Writing. I'm from Buenos Aires, Argentina, and I came to Manchester to discover the art of storytelling. What I really enjoy of my course is the balance between the academic, practical side of studying literature with the self-discovering, freeing side that is Creative writing. I've found intriguing stories that I would have never known about, from novels and poems from different times to my workshop peers' writing. These stories and this city inspire me in my personal writings, and also provide me with the skills for my goal of becoming a publisher. I have a bichon-frise dog named Philip who loves going for walks like me, and my favorite food are Empanadas, a traditional Argentinian breaded pastry.

Formal study hours

Informal study hours

Student society

Part-time work
