

A week in the life of our History student, Kathleen

Hi, my name is Kathleen and I am a Second Year History BA student.

I love Manchester as it is such an exciting, vibrant city. The best part of my course is the freedom to choose modules that suit my own interests, specifically in modern History. In second year I am looking to apply to Summer Internships, and possibly a Placement Year for Third Year to really discover which career path I wish to pursue. I will be spending this year exploring Manchester University and trying to join as many societies as possible to get the full university experience that I missed out on last year due to Covid.
