

CaFi Culturally-adapted Family Intervention

African & Caribbean
people with psychoses

Do you have a **RELATIVE** diagnosed
with schizophrenia and/or psychosis?

Are you a **carer** for someone of Sub-Saharan
African, Caribbean, Black British, or Mixed heritage?

We are looking for **volunteers** to help us test our
new “**talking therapy**” called CaFi (Culturally-
adapted Family Intervention) for a research study!

To find out more about our work, please
contact a research staff member:

CaFi@gmmh.nhs.uk
