

A week in the life of our French and Chinese student, Serena

Hi, I'm Serena from Shropshire in the UK. I am currently in my 4th year of French and Chinese studies. What I love most about studying in Manchester is all the awesome study spaces. I love grabbing a coffee at a nice café in the Northern Quarter and studying on my laptop. This year I am working on a dissertation in French Studies. I am finding it really interesting to research a specific topic in detail and am finding myself becoming more and more specialised in the field. In the future I'd love to do a master's in International Relations in France.

Formal study hours

Informal study hours

Student society

Part-time work

Social activities
