

The University of Manchester

DEGREE CELEBRATIONS

Faculty of Science and Engineering

Class of 2020

Congratulations

from the President and Vice-Chancellor

I am delighted to welcome graduates, family members and friends to The University of Manchester for this degree congregation. This is a time of celebration and a chance to come together to mark the achievements of our graduates. Graduation in any year is a special occasion, and even more so for all of our students who have been impacted so greatly by COVID-19. I hope you all enjoy this special day.

As you, our graduates, take the stage, the University shares with you a great sense of pride in the award you have worked so hard to achieve, during the most difficult of times. This celebration may be delayed, but it is no less meaningful, and I am delighted to welcome you back on campus to mark the occasion as you deserve.

Now is the time to look ahead; I encourage you to take charge of your future, find your voice and form your own opinions. You have faced and overcome challenges not known in our generations, giving you the skills, knowledge and experience to succeed in the face of adversity.

As you celebrate with us today, know that you are ready to take on your next challenge with confidence and share and apply your learnings to make the world a better place for us all.

You are now part of a worldwide network of more than 500,000 alumni – I hope that the links between you and our institution will grow stronger as you become an active member of one of the world's largest global alumni communities.

We are immensely proud of our Class of 2020. I wish you every success for the future and hope you have a truly memorable day.

Professor Dame Nancy Rothwell

To our Class of 2020, very warm congratulations from myself and the whole Faculty on the conferment of your degree.

A message from the Vice-President and Dean of the Faculty of Science and Engineering

We have missed honouring our graduates at on-campus graduation events and it is a real pleasure to celebrate with you, your family, friends and supporters today. You have overcome significant challenges to reach this point, and this makes your graduation ceremony even more special.

The pandemic has had significant impacts on our Science and Engineering disciplines, where access to practical laboratory and workshop facilities has long been integral to learning. Your resilience, adaptability, and willingness to engage with new ways of remote learning that Faculty members worked hard to provide is a source of great pride – we thank you for your patience and commitment.

While there have been challenges to overcome, our researchers have been at the forefront of the pandemic response, from developing new hospital equipment and PPE, to mapping the spread of the virus and analysing data. Together with the fight against climate change, there has never been a greater need for our Science and Engineering graduates. The skills and knowledge that you have developed at Manchester are highly sought after by employers, who will rely upon you to work to solve the world's greatest challenges.

My colleagues and I encourage you to stay in touch through our alumni networks and visit us here in Manchester. Many congratulations on completing your studies, and I wish you every success for the future.

Professor Martin Schröder

Stay connected

Congratulations, Class of 2020!

Welcome to your global alumni community. We're here to help you preserve a lifelong connection with the University, the city of Manchester and each other. We invite you to continue friendships, share experiences and inspire those who follow in your footsteps.

You're part of an alumni community of more than 500,000 graduates worldwide – the largest of any campus-based university in the UK. We can help you connect with other graduates around the world to network and progress your career at every stage.

Update your personal details so we can stay in touch and continue to support you.

We can't wait to see what you do next.

Shape your future

It may have been a while since you left us, but as a graduate of Manchester you can continue to use our Careers Service for up to two years after you completed your course. Here are five things you can do within this period to prepare for your future. To find out more about eligibility, please see: uom.link/eligibility

1

Graduate careers support

As a Manchester graduate, you can continue to benefit from our support and resources, including careers guidance, interview practice and application advice.

uom.link/graduatecareer

2

Register on CareerConnect

Use CareerConnect to search for graduate opportunities, appointments and events. Once your student account stops working, you can register for an alumni account.

uom.link/careerconnect

3

Get application ready

No matter what stage you're at in your career, use our learning and support pathways to help you with CVs, cover letters and applications for jobs or further study.

uom.link/pathways

4

Join LinkedIn

Join The University of Manchester Graduate Careers Network to find out more about ongoing careers support, opportunities and special events for Manchester graduates.

uom.link/linkedin

5

Consider further study or research

If you're interested in pursuing postgraduate study or research, we can help you consider your options and apply for programmes.

uom.link/pgstudy

**GRADUATE
OUTCOMES**

An agency will contact you on our behalf to invite you to complete the Graduate Outcomes Survey. Your response will help us find out what you're doing after graduation, allow us to celebrate your success, and will inspire future generations of Manchester graduates.

#UoMGraduation

During the course of this event no alarm test or emergency evacuation practice has been planned. Therefore, if the alarm, which is a single stage alarm, is activated it should be treated as a potential incident requiring evacuation.

Attendees are asked to remain calm and seated and follow the instructions given by stewarding staff.

The Assembly point is on the front quadrangle, which is adjacent to the Whitworth Hall in front of the John Owens Building.
